

HEALTH REQUIREMENTS for INTERNATIONAL STUDENTS

The following items must be provided to the Barry University Student Health Center (SHC) prior to your arrival to campus. Failure to provide these items will jeopardize your registration process:

Proof of immunizations (vaccines):

- 2 MMR (Measles, Mumps & Rubella) vaccines (childhood or adult) or laboratory proof of immunity to measles, mumps and rubella
- 1 Tetanus vaccine, preferably a Tdap, within 10 years
- Meningitis vaccine within last 3-5 years (required for all students residing in university provided housing)
- Required Health Information Record (Available through your *MyBarry* account)
- Medical Consent (Available through your *MyBarry* account)

Proof of Health Insurance:

In addition to the above, all international students attending Barry University on an F-1 or J-1 visa are required to provide proof of adequate health insurance or purchase the University sponsored health plan.

In order to waive out of the student health insurance plan you must:

- Provide a copy of your insurance card
- Provide an outline of coverage in English
- Complete the insurance waiver online through your *MyBarry* account

If the insurance waiver is not completed prior to the start of classes for the enrolling semester, or your waiver is denied, you will be automatically billed for one semester of the university sponsored insurance plan. This billing will be non-refundable. Notice of denial will be sent to you via your Barry email prior to the first 14 days of the semester.

(This waiver is not required for students who enroll in the Barry University Primary Student Health Insurance Plan).

Additional Information:

Barry University Student Health Insurance Plan: It is not required that you take this plan; however, the SHC recommends the University sponsored health insurance for ease of convenience and affordability. As stated above, if your current insurance is deemed unacceptable, you will be billed a non-refundable, one semester fee for this plan. Students who wish to enroll in the Barry sponsored Student Insurance plan, may do so through MyBarry, or at the Student Health Center on campus, prior to 8/28/11. Faxed enrollment forms will not be accepted.

All of the above information is available on our website at www.barry.edu/healthservices. Health records can be emailed to healthservices@mail.barry.edu or faxed to (305) 899-3751 or mailed to Barry University Student Health Center, Landon 104, 11300 NE 2nd Avenue, Miami Shores, Florida, 33161. If mailing or faxing health records, please follow-up with the SHC to verify they have been received prior to your arrival to campus.
