BARRY UNIVERSITY

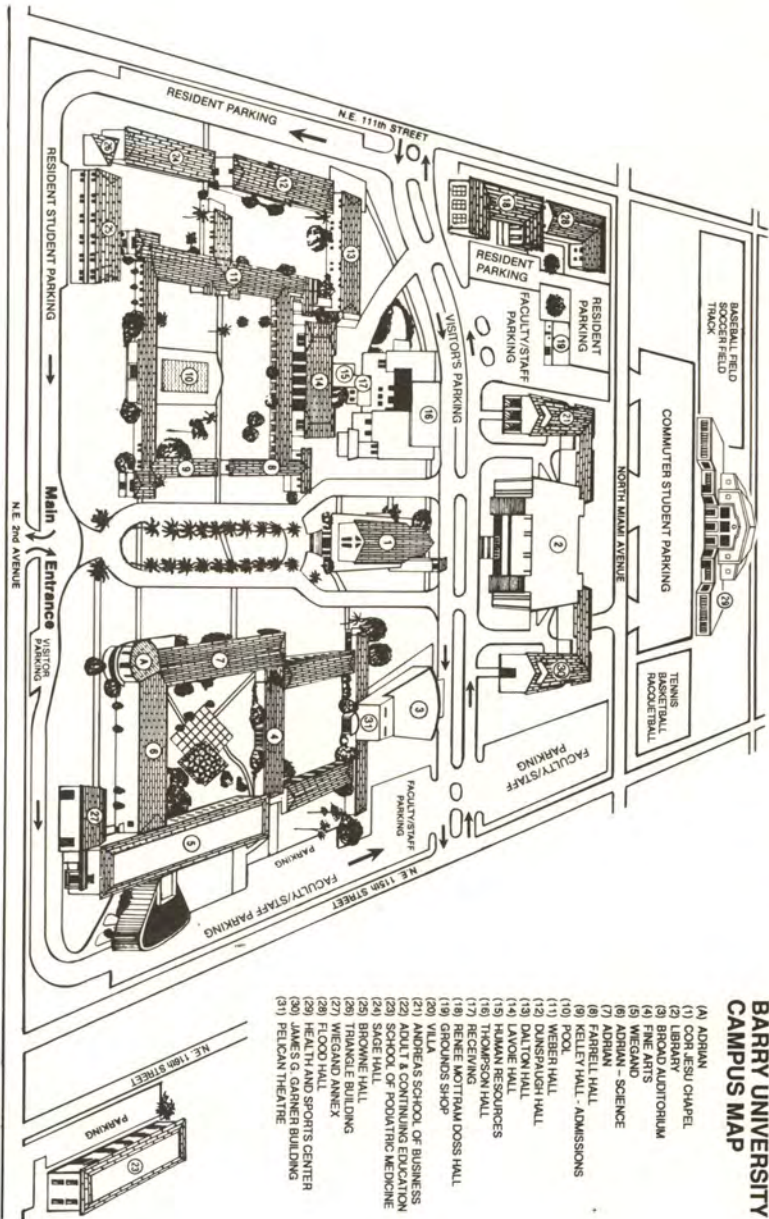

1992-1993
Catalog

Barry University accepts all qualified candidates for admission without regard to race, sex, religion, creed, color, national or ethnic origin, age or physical handicap.

ACCREDITATION

Barry University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools. The School of Nursing is accredited by the National League for Nursing and is approved by the Florida Board of Nursing. The Adrian Dominican School of Education is approved by the Department of Education of the State of Florida as a standard teacher training program, and because of Florida's reciprocal certification agreement, is in a position to graduate students eligible for teacher certification in most states. The Ellen Whiteside McDonnell School of Social Work's M.S.W. program is accredited by the Council on Social Work Education. The School of Podiatric Medicine is accredited by the Council on Podiatric Medical Education.

NOTICES

Barry University does not discriminate on the basis of race, religion, sex, national or ethnic origin, or physical limitation. This includes policies and procedures related to membership on the Board of Trustees, the educational program, employment and personnel practices, admissions, scholarships/grants/loans, and participation in athletic, and other student activities. This institution is authorized to enroll non-immigrant alien students.

While this Catalog is a description of the undergraduate academic programs and regulations as of the date of publication, it is for information only and its provisions do not constitute an offer for a contract which may be accepted by students through enrollment at the University. The University reserves the right to change any provisions, requirements, or fees at any time during the student's period of study. The University further reserves the right to dismiss a student from the University for cause at any time. It also reserves the right to impose probation, suspension or expulsion on any student whose conduct or achievement is unsatisfactory. When a student is dismissed or suspended for cause, there will be no refund of tuition or fees paid. Neither will there be any refunds in the event the operations of the University are temporarily suspended as a result of any act of God, strike, riot, disruption, or any other reason beyond its control.

Students should conduct their academic affairs with honesty and integrity. If students are suspected of cheating, plagiarism, falsification of University records or otherwise misrepresenting themselves and/or their work, they will be subject to procedural due process.

Cheating is defined as the attempt, successful or not, to give or obtain aid and/or information by illicit means in meeting any academic requirements, including examinations. Cheating includes falsifying reports and documents.

Plagiarism is defined as the use, without proper acknowledgement, of the ideas, phrases, sentences, or larger units of discourse from another writer or speaker. Plagiarism includes the unauthorized copying of software and the violation of copyright laws.

More detailed information on the above is contained in the Student Handbook. Barry University students are responsible for the contents of both the University Catalog and the Student Handbook.

The information in this Catalog supersedes all previous regulations, including tuition and fees previously published.

The Adrian Dominican School of Education and the D. Inez Andreas School of Business also offer some programs in varying cycles.

THE MISSION OF BARRY UNIVERSITY

NATURE

Barry University is an independent, coeducational Catholic institution of higher education which fosters academic distinction in the liberal arts and professional studies within the Judeo-Christian and Dominican traditions. Founded in 1940, the University is sponsored by the Dominican Sisters of Adrian, Michigan, and is governed by an independent, self-perpetuating Board of Trustees.

ENVIRONMENT

Barry University is a comprehensive university located in Miami Shores, with programs primarily serving South Florida. We seek to attract a diverse student body, including traditional and non-traditional students, from a variety of geographic, ethnic, religious, and socio-economic backgrounds. We seek to recruit and retain faculty members who are dedicated to teaching and advising; to the search for and dissemination of truth through scholarship, research, and creative activities; and to service both to the University and to the larger community. We seek to maintain a staff that supports institutional needs in order to enhance the quality of university life. We seek to provide a learning environment which challenges students to accept intellectual, personal, ethical, spiritual, and social responsibilities.

PURPOSE

The primary purpose of Barry University, as stated in the Charter, is to offer students a quality education. Furthermore, Barry commits itself to assuring a religious dimension and to providing community service and presence within a more caring environment.

BARRY UNIVERSITY STRIVES

- to help its students to understand that God is experienced and encourage them to seek a fitting response to the presence of God in their lives.
- to afford the opportunity to examine the fundamental questions of human experience and the response to these questions proposed, in the liberal arts tradition, by theology, philosophy, the humanities, the natural sciences, and the social sciences.
- to provide programs in the liberal arts and professional studies, at the undergraduate and graduate levels, giving students a basis for continued personal and professional growth.

- to recognize the importance of experiential learning and on-and off-campus education of adult students.
- to contribute to international understanding, world peace, and community self-awareness by providing an international dimension to its student body and educational curricula.
- to demonstrate concern for the individual in an atmosphere in which students, conscious of their own dignity as persons, become aware of their attendant responsibility toward other persons and toward the environment.
- to encourage its students to assume community leadership in religious, social, economic, and political affairs as a means of effecting needed social change.

GENERAL INFORMATION

HISTORY

Originally conceptualized by the Most Reverend Patrick Barry, Bishop of St. Augustine, and Reverend Mother Mary Gerald Barry, Prioress General of the Dominican Sisters of Adrian, Michigan, plans for Barry College received active support from Reverend William Barry, Pastor of St. Patrick's Church of Miami Beach, and John Thompson, Mayor of Miami Shores, Florida. In June 1940, a forty-acre tract of tropical vegetation located in residential Miami Shores, was transformed into the campus of Barry College. By action of the Board of Trustees, the college became Barry University on November 13, 1981. Today's University community is comprised of approximately 6,000 students, served by well over 500 administrators, faculty members and support staff representing diverse religious, cultural, and ethnic backgrounds. Barry is coeducational and fully accredited.

Since Barry first opened its doors in 1940, the faculty and administration have combined efforts to develop high quality academic programs so that needs of both the students and the local community would be served. Examples of this development include the inauguration and accreditation of such programs as Nursing, Teacher Education, Medical Technology, and Social Work. Needs of the local community led Barry to begin graduate programs for men and women in 1954, a Continuing Education Program in 1974, a School of Business in 1976, a Division of Biological and Biomedical Sciences in 1983, and a School of Podiatric Medicine in the Fall of 1985.

Barry University has had five Adrian Dominican Sisters serve as president since its inception: Mother Gerald Barry, 1940-1961; Mother Genevieve Weber, 1962-1963; Sister M. Dorothy Browne, 1963-1974; Sister M. Trinita Flood, 1974-1981; and Sister Jeanne O'Laughlin, 1981 to the present.

Continued development and expansion of the Barry community are promoted to keep pace with the growth and excellence of the educational programs and to meet the needs of the ever-increasing student population. The physical plant includes 40 buildings, spread over 40 of the University's 90-acre campus and adjacent areas. The tropical beauty of the campus, its excellent educational facilities, and the ideal South Florida climate combine to create an atmosphere conducive to learning and to continued personal development.

UNIVERSITY LIFE

The measure of a special university is more than the size of its student body, its faculty, its campus, or its longevity. Although Barry University is relatively small and young, it is emerging as a truly special institution of higher education.

Barry's mission transcends the statistics by which many universities measure themselves. As a Catholic institution, it goes beyond the traditional emphasis on academic excellence to embody a human quality, with personal attention to a student's social, moral, physical, emotional, and religious growth.

Above all, the purposely intimate scale of the campus and the student body, the careful selection of faculty and staff, and the Judeo-Christian religious dimension combine to create a caring environment.

POLICIES AND PROCEDURES RELATING TO SEXUAL HARASSMENT

Barry University seeks to prevent harassment of its students, employees and those who seek to join the campus community in any capacity. The following describes various measures appropriate in dealing with the subject.

Sexual harassment includes such behavior as sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature directed toward an employee, student, or applicant, particularly when one or more of the following circumstances are present:

- Toleration of the conduct is an explicit or implicit term or condition of employment, admission or academic evaluation.
- Submission to or rejection of such conduct is used as a basis for a personal decision or academic evaluation affecting such individuals.
- The conduct has the purpose or effect of interfering with an individual's work performance, or creating an intimidating, hostile, or offensive working or learning environment.

The above definition is in line with the Equal Employment Opportunity Commission's regulations on sexual harassment.

Barry University, its officers and employees are responsible for maintaining a working and learning environment free from sexual harassment. Existing disciplinary and grievance procedures or informal procedures, as appropriate, shall serve as the framework for resolving allegations of sexual harassment. Responsibilities include making widely known the prohibitions against sexual harassment and ensuring the existence of appropriate procedures for dealing with allegations of sexual harassment.

SUBSTANCE ABUSE

Barry University acknowledges the problem of substance abuse in our society and perceives this problem as a serious threat to employees and students. It is the intent of the University to establish and maintain a drug-free workplace. It is the University's further intent to comply in every respect with the Drug-Free Schools and Communities Act Amendment of 1989 (Public Law 101-226) as presently constituted to be amended in the future.

Barry University condemns the possession, use or distribution of illicit drugs and the abuse of alcohol and drugs/substances, whether prescriptive or non-prescriptive. Any student or employee found to be in the possession of, using, selling, trading, or offering for sale illicit drugs or alcohol on the University's property or as part of the University's activities will be subject to disciplinary action as well as applicable local, state, and federal laws.

As a condition of employment, all employees and students must abide by the terms of this policy. Under federal law, an employee working under, or student receiving funds from a federal grant or contract, must report his/her criminal drug statute conviction for a violation occurring in the University to the Administration not later than five (5) days after such conviction. If said employee/student is receiving federal grant or contract funds, the University is required to give notice of the conviction to the contracting agency within ten (10) days after learning of it. Employees/students convicted must, under the terms of this policy, have sanctions imposed within thirty days of the date the University Administration learns of the conviction. (For complete policy, contact Office of Vice President for Student Services or the Human Resources Office on campus.)

STUDENT RIGHT TO KNOW ACT

Barry University is in compliance with Student Right To Know and Campus Security Act (PL 101-542). Specific information regarding this act may be obtained in the Security Office.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974

Barry University is in compliance with Family Educational Rights and Privacy Act of 1974 (PL 90-247). Complete information regarding this act may be found in the Student Handbook and a summary of the University's compliance appears in the schedule of classes published each term and/or semester.

BUILDINGS & FACILITIES

ACADEMIC COMPUTING RESOURCES — The Academic Computing Center is housed in the Garner Building on the main campus. It provides computer services to the campus via an Ethernet network that connects all academic buildings and offices on campus.

ADRIAN HALL — Constructed in 1940 and originally named Angelicus, Adrian Hall houses the Administrative Data Center, and the Offices of Controller, Student Financial Services, and Registrar, as well as science labs and the Offices of Physical Therapy and Cardiovascular Perfusion.

BROWNE HALL — Built in 1985 as East Hall, Browne is located on the southeast corner of the campus. It houses 90 students in double air-conditioned suites. Browne Hall was named after Sr. M. Dorothy Browne, Barry's third president.

COR JESU CHAPEL — Built in 1940 through a donation from Margaret Brady Farrell, the Cor Jesu Chapel is the center of many activities of the campus ministry. Masses are celebrated here on a daily basis.

DALTON-DUNSPAUGH HOUSE — Originally known respectively as Regina Caeli and Regina Mundi, Dalton-Dunspaugh was built through the Dunspaugh Foundation in 1962. It serves as a female residence hall, housing 144 women in double air-conditioned rooms.

D. INEZ ANDREAS SCHOOL OF BUSINESS BUILDING — Constructed in 1984 and named in honor of Barry's Chairman of the Board of Trustees, the

D. Inez Andreas Building houses the School of Business. It contains ten traditional classrooms, two of which have been specifically designed to be used for accounting classes, two large executive training classrooms, thirty-eight faculty offices and the administrative offices of the School.

FARRELL HOUSE — Dedicated to Margaret Brady Farrell in recognition of her generous contributions to Barry University, Farrell was built in 1940. Originally named Maris Stella, it houses faculty and administrative offices for the School of Arts and Sciences and the Division of Academic and Instructional Services.

FINE ARTS QUADRANGLE — The Fine Arts Quadrangle contains art and music studios, lecture rooms, theater dressing rooms, and the Shepard & Ruth K. Broad Performing Arts Center, a 1,000-seat capacity auditorium. The departmental office of Fine Arts is located here. Adjacent to the Broad Center is the Pelican Theatre, a 74-seat facility which offers an intimate theatre experience.

FLOOD HALL — Built in 1987 as West Hall, Flood Hall is located on the southwest corner of the campus. It houses 96 students in double air-conditioned suites. Flood Hall was named after Sr. Trinita Flood, fourth president of Barry.

FRANK J. ROONEY SCHOOL OF ADULT AND CONTINUING EDUCATION — Acquired in 1983 and named in honor of a long-time friend of Barry University.

GARNER BUILDING — Funded through a grant from the Federal Aviation Administration, the Garner Building was opened in the Fall of 1989. Designed as a "high-tech" facility, this building houses the Academic Computing Center, the School of Education, the Department of Communication, and the Department of Mathematics and Computer Science.

KELLEY HOUSE — Originally named Rosa Mystica, it is dedicated to Mabel Kelley for her generous contributions to Barry University. Kelley houses the Division of Enrollment Services, Office of Admissions and Financial Aid.

LAVOIE HALL — Originally the site of the Department of Family and Consumer Science and Calaroga dining hall, LaVoie was built in 1940. It now serves as executive offices for the University.

LIBRARY — The Monsignor William Barry Memorial Library provides materials and services in support of the educational and cultural objectives of the University. Students have access, in open stacks, to a collection which exceeds 600,000 items. This includes over 2,000 periodical titles. The Barry Library participates in a number of library networks. The Southeast Florida Library Information Network (SEFLIN) provides by courier service and telefax, access to more than 11.4 million items and to 30,000 periodical titles held by the larger academic and public libraries of Dade, Broward and Palm Beach counties. Materials not readily available at this level are obtained through the Florida Library Information Network (FLIN), which provides for the delivery of materials based in the major libraries of the State of Florida, including those of the state university system. The resources of the libraries of the southeast and midwest through the Southeastern Library Network (SOLINET) cap the

library exchange program. Faculty and students have access to audio and video taping facilities. Bibliographic instruction and reference service, including structured assistance in the use of CD-ROM and manual indexes, are an integral part of the library support of classroom teaching. The library building contains classrooms and departmental offices.

PENAFORT POOL — Built in 1941 through a donation from Margaret Brady Farrell, Penafort Pool serves as both a recreational and educational facility for students of Barry University.

PODIATRIC MEDICINE BUILDING — This building, located at 11600 NE 2nd Avenue, houses classrooms and administrative offices for the School of Podiatric Medicine.

RENEE MOTTRAM DOSS HALL — Barry's newest residence hall was built in 1990, and includes twelve undergraduate residences containing 48 bedrooms for a maximum of 96 students.

SAGE HALL — Built in 1984 as South Hall, on the south side of campus, this apartment-style hall provides quad air-conditioned rooms with private baths. Named after Robert F. Sage, one of Barry's benefactors, Sage Hall houses 91 students.

SPORTS COMPLEX — The sports complex includes baseball, softball, soccer, tennis and track facilities, as well as the new Health and Sports Center. The Department of Sport and Recreational Sciences and the Department of Intercollegiate Athletics are housed within this beautiful new facility. The Health and Sports Center also accommodates a 1500-seat-capacity arena for basketball and volleyball, a Human Performance Lab, Strength and Conditioning Room, Athletic Training Room, locker rooms and classrooms.

THOMPSON HALL — Built in 1962, Thompson Hall presently houses Student Services and activity areas, including the Rathskellar, cafeteria, dining rooms, administrative offices, post office, campus store and a dance/fitness studio.

VILLA — In 1953, Barry University acquired a motel to be used as a residence. The Villa houses sisters as well as other campus staff personnel.

WEBER HALL — Named for former Barry University President, Mother Genevieve Weber, Weber Hall houses male students. The largest residence hall on campus, it contains both single and double air- and non-air-conditioned rooms as well as the campus infirmary. Weber was built in 1946 and was originally known as Stella Matutina.

WIEGAND CENTER — Built in 1970 through a donation from Edwin L. Wiegand, Wiegand Center contains classrooms, science labs, and an auditorium. The administrative offices for the School of Natural and Health Sciences, Department of Physical Sciences, and the School of Nursing are located here. In 1987, a four-classroom wing was added to Wiegand Center.

ADMISSIONS

UNDERGRADUATE

FRESHMEN — Applicants who have never attended any college or university as a regular student; and applicants who have attended college, but who have earned less than 12 hours of credit.

TRANSFER STUDENTS — Applicants who have at least twelve hours of college credit at one or more colleges or universities.

NON-DEGREE STUDENTS — Applicants who wish to earn credit but not pursue a degree from Barry.

GUEST STUDENTS — Applicants who wish to secure credits to transfer to a college where they are already enrolled in a degree program.

READMISSION STUDENTS — Applicants who have previously been regularly enrolled at Barry.

INTERNATIONAL STUDENTS — Applicants who are not U.S. citizens or permanent residents. For purposes of admission and academic placement, applicants who have received their education outside the continental United States, Puerto Rico, U.S. Virgin Islands or Guam, will be included in this category.

All applicants are required to submit a complete application form and a nonrefundable application fee. The University has a commitment to admit only qualified students. For details on admission, students should read the information below as it applies to their particular situation. Once credentials are submitted to the Office of Admissions, they become the property of Barry University and will not be surrendered.

FRESHMEN STUDENTS

- official high school academic record, or equivalent, from an accredited high school.
- test results from the SAT (Scholastic Aptitude Test) or ACT (American College Test). International students should refer to the International Students' Admissions section.
- positive recommendation from guidance counselor, principal, or teachers.
- written essay stating reasons for selecting Barry.

The official high school academic record should show: (1) graduation, or satisfactory progress toward graduation if applying prior to completion of twelfth grade; (2) course work, including English, Social Studies, Mathematics, and Natural Science. The minimum number of specific units required in

these areas will vary, depending on the major program pursued at Barry. If a GED (General Education Diploma) is submitted, the official test results with scores must be included.

Students planning to major in nursing must present two units of laboratory science, including chemistry and biology, and satisfactory completion of Algebra II.

Students planning to major in mathematics must present three and one-half units of mathematics (including 2 years of algebra, geometry, and trigonometry.)

Students planning to major in chemistry must present at least three or four units of mathematics, and one unit of high school chemistry with laboratory science.

Students planning to major in education, or to be certified to teach, must present an SAT score of 840 or an enhanced ACT score of 20.

Students planning to major in biology or any Allied Health area must present 3 1/2 units of mathematics (including algebra, geometry, and some background in trigonometry), as well as 2 units of laboratory science (including biology and chemistry). Satisfactory completion of these requirements for admission and successful completion of 30 semester hours, including freshman biology, chemistry and mathematics, will qualify the student to continue in the School of Natural and Health Sciences.

For students planning to major in Biology-Physical Therapy Track, a personal interview will be required before the first professional year.

The Cardiovascular Perfusion Program requires a personal interview before initial acceptance into the program.

Early Action

Students may apply during their junior year in high school to receive an early decision from Barry University. In order to do so, students must take the Scholastic Aptitude Test (SAT) or American College Test (ACT) by May of their junior year in high school and submit all of the admission requirements listed under Freshmen Students.

Early Admission

Exceptionally well-qualified students may be considered for admission prior to graduation from high school. Ordinarily, students are admitted only after they have been graduated from an approved high school. However, students recommended by their counselors for outstanding achievement may be considered for admission upon the completion of their third year in high school.

The bases of selection for early admission are as follows:

1. Specific recommendation for early admission from the high school counselor and three teachers, discussing student's maturity and ability to handle college level materials.
2. Outstanding quality of the applicant's high school record.
3. Satisfactory performance on the Scholastic Aptitude Test or American College Test.
4. Personal qualifications.

The procedure for making application for early admission is basically the same as for regular admission to the freshman class, except that the applicants must submit in writing their reasons for wishing to enter the University before graduation from high school.

The first year of credit completed with satisfactory grades (C or above) will apply toward degree requirements at Barry University. The credits also may be used to complete high school requirements, and when approved by high school authorities, earn a diploma. In order for Barry University to forward a student's transcript of credits to the high school principal, a signed form authorizing the release of credits must be submitted to the Office of the Registrar. When the high school diploma and final transcripts are issued, copies should be filed with the Office of the Registrar at Barry University.

TRANSFER STUDENTS

- two copies of official transcripts from each college previously attended. (Incomplete transcripts must be updated as soon as all coursework is completed. Transcripts in the applicant's possession, eg. issued to student, are not acceptable.
- Transfer Reference Form completed by the Dean of Students or Faculty Advisor at the last college attended.
- copy of high school academic record if applicant is under 21 years of age.
- written essay stating reasons for selecting Barry.

Applicants must present a minimum cumulative grade point average of 2.00 in all previous college work, and be in good standing at the last institution attended in order to be considered for acceptance into the University.

Undergraduate Transfer Credit Policies

Undergraduate transfer credit evaluation of all postsecondary course work taken prior to admission to the University is prepared by Transcript Evaluators in the Office of Enrollment Services.

Evaluation of transfer credit is done shortly after an applicant's acceptance to the University's traditional undergraduate programs and at time of acceptance for students in the School of Adult and Continuing Education.

Transfer credits from regionally accredited colleges or universities are transferable to Barry in semester hour equivalents. A maximum of 64 credits will be accepted by the University in transfer from regionally accredited community/junior colleges. Only six of these credits may transfer with upper-level status.

A maximum of 90 credits will be accepted in transfer to Barry University. For graduation, the last 30 credits of the degree, as well as the majority of the major coursework, must be completed at Barry. Distribution as well as upper level requirements must also be met.

Transfer credit is awarded for grades of C or better. Credit is not allowed for developmental, preparatory or vocational coursework. Grades and grade point averages will not be transferred, nor will they appear on the Barry transcript.

Grades of "P," "CR," or "S" are eligible for transfer if the Office of Transcript Evaluation has a statement from the institution where credit was earned that such grades reflect work of at least "C" quality.

Credit will be awarded for CLEP and AP test scores in compliance with Barry's policy on these tests. A statement of this policy may be obtained from the Office of Enrollment Services. A maximum of 30 credits will be accepted from test sources. The credits must be earned before a student has attained Junior status and are considered as part of the 64 maximum transfer credits accepted from community colleges.

A maximum of six graduate level credits will be accepted in transfer toward an undergraduate degree at Barry.

Students who have successfully completed the higher level International Baccalaureate (IB) examination with grades of 4 or better may be granted credit on a subject-by-subject basis.

Credit can be awarded, under certain conditions, for the Baccalaureat from France, the German Arbitur and successful passes on the G.C.E. A level examinations.

Credit will be accepted from military service schools, USAFI and DANTES in accordance with the recommendations of the American Council on Education.

Credit for experiences such as Internship, Field Placement, Co-op Education Work Experience, and Practicum may be accepted in transfer, with permission of the dean, when the credits have been transcribed with a course number, title, number of credits, and a grade.

Credit for prior college-level learning attained outside a formal institution setting but assessed by the academic institution during the student's matriculation (such as Life Experience, Prior Learning Assessment, Experiential Learning Assessment, and Portfolio Assessment) are not normally acceptable in transfer. Exceptions may be made with permission of the Dean when such credits have been transcribed with a course number, title, number of credits, and a grade.

Acceptance of credits in one school at Barry University does not guarantee acceptance by another school should the student change degree programs.

The Dean of the school of the student's program is ultimately responsible for the decision on course equivalents and the distribution of credits in order to meet graduation requirements.

Once enrolled, students wishing to take additional courses at another college or university for the purpose of transferring the credits back to Barry University *must obtain prior written approval from the appropriate school dean*. These credits are granted by the Office of the Registrar. No more than six (6) credits may be transferred. Once a student has attained junior status (60 credits), no transfer credits are acceptable from a community or junior college.

Any concealment by a transfer applicant of previous college registration or previous academic or disciplinary record in college will immediately cancel and nullify the admissions process at Barry University.

Transfer students entering the University with less than sophomore status (30 semester hours) and planning to major in Allied Health, Biology, Chemistry, Mathematics, or Nursing must meet the high school requirements of freshmen applicants (refer to Freshmen Students section).

Transfer students planning to enter the Education program or to be certified to teach must present an SAT score of 840 or an enhanced ACT score of 20.

To facilitate transfer of photography credits from other accredited colleges or universities, Barry University will accept all transfer photography credits of C or better as Barry University photography electives. During registration, the transfer students' portfolios will be reviewed by the faculty to determine which courses should be taken at Barry University. A minimum of 15 credits in Photography must be taken at Barry.

Placement Testing

Acceptance of transfer credits as fulfilling specific distribution requirements in English and mathematics will be determined by the achievement of satisfactory scores in the placement examinations given prior to first enrollment. Specifically exempt from this policy are second bachelor's degree candidates, students admitted into the Nursing Transition Program (RN/BSN), Nursing Accelerated Option, Physical Therapy, Occupational Therapy, MLT, Cardiovascular Perfusion, and students admitted into the School of Adult and Continuing Education. Some majors will also require placement testing in chemistry.

ARTICULATION AGREEMENT BETWEEN BARRY UNIVERSITY AND MIAMI-DADE COMMUNITY COLLEGE

In the summer of 1986 Barry University and Miami-Dade Community College entered into an agreement which governs the matriculation at Barry University of Associate of Arts graduates from Miami-Dade.

Students should seek assistance from Miami-Dade's Advisement and Graduation Information System (AGIS) in order to be informed of suggested and required courses that they should take as part of their Associate of Arts Degree program at Miami-Dade and to satisfy requirements for transfer to Barry.

NON-DEGREE STUDENTS/GUEST STUDENTS

The University recognizes that some applicants may wish to take courses at Barry for the purpose of personal enrichment, teacher certification, or to secure credits to transfer to a college where they are already enrolled in a degree program (guest student). Undergraduate students must present proof of high school diploma, or equivalent, as an admission credential. Guest students are required to present a letter from the dean of the college in which they are enrolled, stating that they are in good standing in all respects. Undergraduate students admitted to non-degree status are limited to 30 credits in this category. Non-degree seeking students who wish to change their status to degree-seeking must meet all the requirements for degree-seeking applicants.

GRADUATE STUDENTS

Admission Requirements and Procedures

Applicants must apply for and be accepted to graduate status (non-degree-seeking or degree-seeking) through the Office of Graduate Admissions (305-899-3120) before they are permitted to register as graduate students. The usual criterion for acceptance is evidence of having received a bachelor's degree from a regionally accredited or listed international institution. The minimum number of credits in any master's program is thirty (30). The maximum number of years to complete a graduate degree is usually seven (7). Previously earned credits accepted for transfer will be counted as having been taken in year one. The usual minimum cumulative grade point average for graduation from a graduate program is 3.00. Degree programs differ in specific requirements for admission. Applicants should refer to the appropriate section of this Catalog for the program to which they are applying.

Degree-Seeking Applicants

To be considered for admission to a degree program, a graduate applicant must:

1. submit a complete application form with a non-refundable application fee;
2. provide reference letters in support of application for graduate study;
3. provide two complete transcripts from each college or university attended (transcripts in the applicant's possession are not acceptable as evidence of eligibility for admission);
4. supply additional admission test scores or autobiographical statement if required by the individual degree program

The Office of Admissions continually reviews applications in process and notifies applicants of missing credentials, but the responsibility for obtaining all admission credentials rests with the applicant. Completed applications are forwarded to the admitting school for review as soon as all credentials are received. The Office of Graduate Admissions will notify the applicant of the school's decision, in writing, within ten days after a decision has been made.

Any concealment by a graduate applicant of previous college registration or previous academic or disciplinary record in college will immediately cancel and nullify the admission process at Barry University. International applicants must meet the requirements of undergraduate international applicants as well as specific program requirements.

Non-Degree-Seeking Applicants

Graduate students who wish to take courses for purposes of personal enrichment, teacher certification, or to secure credits to transfer to another institution (guest student), may enroll on a non-degree-seeking basis. Graduate students must present evidence of a bachelor's degree and are limited to 6 graduate credits and 30 undergraduate credits. In the School of Podiatric Medicine a maximum of 16 graduate credits may be taken as a non-degree-seeking student. Post-graduate students must present evidence of a Master or Doctoral degree and are permitted to take an unlimited number of graduate or under-

graduate credits. Guest students must present a letter from the dean of the institution in which they are enrolled for a degree, stating that they are in good standing.

Students who wish to change their status to degree-seeking must meet all the requirements for degree-seeking applicants of the School in which they wish to enroll. Enrollment as a non-degree seeking student in no way implies admission to a degree program.

Transfer Students (Graduate)

The number of credits and types of courses acceptable for transfer into a graduate program is limited. The final determination is made within each program. Only graduate courses for which an A or B was earned will be accepted in transfer.

READMISSION AND CHANGE OF STATUS

The process of readmission must be completed by students who were once enrolled at Barry University, but whose schedules have been inactive for at least one calendar year. The Request for Readmission Form must be completed by the student and returned to the Office of Admissions at least 30 days prior to the expected date of matriculation. Authorization for Readmission must be approved by the Dean of the school of last enrollment, the Dean of the school of desired enrollment and the Office of Student Services.

The Request for Change of Status Form must be completed by the student and returned to the Office of Admissions at least 30 days prior to the expected date of matriculation. This procedure is to be completed by students who were enrolled as non-degree-seeking students or guest students and who now wish to enter an undergraduate degree program at Barry. These students must meet the requirements for undergraduate admission by submitting all necessary credentials for the approval of the Office of Undergraduate Admissions.

The Request for Change of Status Form must be completed by graduate students who were enrolled as non-degree-seeking or provisionally accepted students and who wish to be fully accepted into a graduate program.

Students returning to the program after suspension or a leave of absence are bound by the regulations in place at the time of readmission.

The process of readmission and change of status is different for students in the School of Adult and Continuing Education (ACE). Students in this school who have been inactive for two years must meet with an ACE academic advisor to complete a new application. The change of status form is also processed through their ACE academic advisor.

ALL APPLICANTS FOR ADMISSION

It is the responsibility of the applicant to take required tests and have the results forwarded to Barry University, and to make sure all credentials required are supplied to the Office of Admissions. No action will be taken by the Admissions Committee on any application until all application credentials have been received by the Office of Admissions. Applications must be processed and

acceptance verified no later than 10 days prior to the published date of registration for the semester in which the student wishes to matriculate.

Acceptance to the University does not mean acceptance to some of the clinical or professional programs, i.e., Nursing, Medical Technology, etc. Refer to these programs for specific information on admission to clinical/professional status.

The University reserves the right of final decision. All credentials submitted in support of an application become the property of the University and will not be returned.

Applicants to the School of Adult and Continuing Education should refer to that section of the Catalog for their admission requirements.

INTERNATIONAL STUDENTS (Undergraduate and Graduate)

As an international university, Barry University has a long tradition of welcoming qualified international students. Currently there are more than 450 students representing over 65 countries from around the world.

Eligibility for Admission

International students may be admitted to Barry University if they meet the University's admission requirements. For the purpose of admission to Barry University, an international student is: a student who has received secondary school and/or university level education outside of the United States and/or a student who requires a student visa. The basic admission requirement for students from other countries is determined by the University and varies with the experience and background of the applicant. For a list of minimum academic admission requirements to Barry University from other countries, write: Office of International Admissions, Barry University, 11300 Northeast Second Avenue, Miami Shores, Florida 33161, United States of America.

Certification of Eligibility (Form I-20 A) - United States Department of Justice Immigration and Naturalization Service Certificate of Eligibility (Non-Immigrant "F-1" Student Status) will be provided to admitted students upon completion of all admission requirements and receipt of verification deposit. A financial statement (needed prior to issuing an I-20 form) must also be submitted. The University does not award need-based financial assistance to international students. Payment of tuition and fees is required at the beginning of each term. All checks should be made payable to Barry University. The financial statement should include:

1. A notarized letter of support or government sponsorship letter guaranteeing payment of tuition and fees, books, room and board, medical insurance, and personal expenses for one academic year (two semesters).
2. A bank letter stating that the student or his/her sponsor has the funds available to pay the total cost associated with attending Barry University.

International students should be familiar with the regulations of their governments about sending money to the United States and should make arrangements to have the necessary funds available at the designated times of enrollment.

Documentary evidence of means of financial support must be attached to the Certificate of Eligibility when applying for the student visa at the United States Embassy or Consular Office.

International students must fulfill the following conditions:

- Pursue a degree course of study as a full-time, degree-seeking student (at least 12 credit hours each semester for undergraduates; at least 9 credit hours each semester for graduates).
- May not transfer schools or work off-campus without Immigration and Naturalization Service permission. Normally, employment is not permitted by Immigration Service.
- Keep a current passport which is valid for at least six months into the future.

Arrival-Departure/School Transfer — Non-Immigrant alien visa students are required to attend Barry University as indicated on the Arrival-Departure Record (Form I-94) by immigration officials at the U.S. port of entry. They are expected to complete at least one semester at this institution prior to requesting transfer to any other educational institution.

Permanent Resident Status — When a student has permanent resident status, the "Alien Registration Receipt Card" ("green card") must be presented to the International Student Center at the time of registration.

Medical Requirements — It is assumed that a student is in good health and able to take a serious program of study. Before coming to the University, accepted candidates are strongly recommended to submit a physician's report in English for approval by the Campus Health Center. Proof of adequate health insurance is required. If proof is not available, a student will be billed accordingly and issued health insurance by the University.

Students must also demonstrate having had all vaccinations including: diphtheria and tetanus taken within the last ten years, measles (two doses), mumps and rubella.

Note: A student may not register for classes without having met these medical requirements through Barry University's Health Center.

Admission Procedures

1. Application for International Admission must be filled out completely and accurately.
2. Non-refundable application fee must accompany application. All monies must be paid in U.S. dollars.
3. Educational documents must be supplied as follows:
 - a. Undergraduate Students: Copies should be enclosed with the application. Students from countries following the British educational system must submit the originals along with photocopies. The student should either enclose a stamped, self-addressed envelope for their return, or ask the examinations council to mail confidential results to Barry University. Reports of scores in school-leaving examinations (e.g., Baccalaureat) must also be submitted.
 - b. Graduate Students: Most international students applying for admission to graduate programs are required to submit scores of a standardized apti-

tude test such as the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE). The specific test depends on the program. The Office of Graduate Admissions will notify students which examination is required at the time of application to the University. Students should refer to the appropriate school's admission requirements to determine the necessary examination.

- c. Transcripts, Statements of Marks: A transcript must contain the following information: subjects studied; marks (grades) awarded; length of class periods; number of periods per week for each subject; grading scale with minimum passing mark. Year-by-year records of marks should be sent to Barry University directly from U.S. institutions. Certified and notarized records from foreign institutions may be submitted by applicants, but the University sometimes insists that such transcripts be sent directly to Barry University from the issuing institutions. Once credentials are submitted to the Office of International Admissions, they become the property of Barry University and will not be surrendered.
4. Evaluation Policy
 - a. Undergraduate Students: It is the policy of Barry University to evaluate foreign credentials only of deposited incoming transfer students.
 - b. Graduate Students: Graduate students are required to present an evaluation of course work from an official transcript evaluation service.
 - c. Information about professional evaluating services in the United States is available by contacting the Office of International Admissions at Barry University.
 5. English Translations: Documents in a language other than English must be accompanied by certified English translations. Translations supplement but do not replace original documents. Please remember to send both.
 6. Syllabus of University Study: This is a description of each course or subject studied. Grading scale must show the minimum passing mark, length of class periods and number of periods per week for each subject, and be accompanied by certified English translations.

Examinations

All international applicants whose native language is not English, including those applying for transfer from U.S. institutions, are required to submit the results of the Test of English as a Foreign Language (TOEFL). Applicants who submit a TOEFL score of at least 550 will not be required to take courses in English as a Second Language. Academically qualified undergraduate applicants whose TOEFL score is between 500 and 549 may be admitted to the Cross Cultural Program (for further information, see Cross Cultural Program section in this Catalog) and enroll concurrently for academic and English courses. Applicants with scores less than 500 will be required to improve their English proficiency. All graduate students must score at least 550 on the TOEFL examination. For TOEFL application write to: The TOEFL Program, Box 899, Princeton, N.J. 08540, U.S.A.

Intensive English instruction is offered at Barry University through the Language Institute For English (L.I.F.E.). Students who wish to study in the L.I.F.E. program prior to applying for an undergraduate or graduate academic

program should write: Director, L.I.F.E., Barry University, 11300 N.E. 2nd Avenue, Miami Shores, Florida 33161, United States of America.

Also accepted as satisfactory proof of English proficiency is the College-Level Academic Skills Test (CLAST) reflecting a passing score in the English portion.

The Scholastic Aptitude Test (SAT) or the American College Test (ACT) are not required of undergraduate international students, except for those planning to major in Education or to participate in intercollegiate athletics. However, undergraduate international students are advised to take the SAT or ACT, if possible, for it can often establish admissibility for an applicant when foreign records alone do not. It may also qualify the undergraduate applicant for one of the University's international merit scholarships. Barry University does not offer scholarships for graduate students.

Financial Information

Barry University does not offer need-based financial assistance to international students. Merit-based academic scholarships are available to entering undergraduate students regardless of academic year. International students must have adequate funding to meet their expenses (including personal, travel and vacation) during the entire period of study.

STUDENT LIFE

DIVISION OF STUDENT SERVICES

The Student Services Division of Barry University adheres to the philosophy that students succeed when all aspects of their development are at the optimum level.

The developmental purposes of the division are personal growth, the coordination of out-of-the classroom activities, the general well-being of individual students and student groups, and the establishment of a caring environment where learning can take place. This developmental approach to total education stresses such traits as values, maturity, responsibility for self and others, a religious dimension, and a sense of community service.

Members of the Student Services staff believe that the student's education is primarily his or her own responsibility. There will be times when individual students will need direction, counseling and encouragement; the staff stands ready to serve as a support system to help students embrace the mission of the University.

CAMPUS MINISTRY

Campus Ministry promotes the mission of Barry University by supporting quality education, assuring a religious dimension, and providing community service within a more caring environment. The ministry provides the University community—students, faculty, administration and staff—with opportunities to explore, deepen, expand and strengthen the spiritual and ethical dimensions of their being as they develop and apply knowledge and skill to their academic environment. We offer programs emphasizing friendship and support, worship and prayer, study and reflection, and an active commitment to a more just and peaceful community.

While constantly striving to enhance our own Catholic identity, Campus Ministry maintains a loving concern for people of all faiths, respecting their freedom to express diverse religious convictions. While Campus Ministry is staffed by lay, religious and ordained professionals, campus involvement is critical to successful community building at Barry University.

HOUSING

The purpose of the Residential Life program is to work with students, staff, and faculty in the creation of a caring and learning environment in which students can find opportunities to excel academically and interpersonally. To this end, the Department supports the process by providing ways in which students can better understand themselves and others in their community, and develop an appreciation for the interdependence of the multicultural community.

On-campus accommodations within the residence halls are available to full-time, degree-seeking, undergraduate students. Air- and non-air-conditioned single, double, triple, and quad rooms are available within the residence halls.

All students desiring to live on campus must request housing applications from the Office of Admissions or the Office of Residential Life. Acceptance by the University does not assure a student of on-campus housing. The student must complete an application for housing in order to receive consideration. Housing assignments are made on a first-come, first-served basis, in priority order of the date received.

Before applying for housing, each applicant must pay a \$200.00 room security deposit. This payment reserves the room for the length of the housing agreement. It may also be used as restitution for damages assessed, should any occur during the student's stay in the residence halls. This deposit will remain in a separate account and carry over from year to year while the student is residing on campus. If no damage has been assessed after a room has been properly checked out, the \$200.00 deposit will be released. Students must contact the Office of Student Financial Services to receive a refund of any monies.

A resident moving out of the residence halls during his/her agreement period must cancel the agreement in the Office of Residential Life in writing, and will forfeit his/her deposit. There are three agreement periods: Fall/Spring, Summer I, and Summer II.

Housing applications must also be accompanied with proof of health insurance or students will automatically be billed for university insurance. Required Health Information Form must be completed and submitted to the Campus Health Center.

The residence halls and dining facilities are closed during the Christmas holidays and during the period between the end of the summer session and the opening of the fall semester. Resident students should plan ahead to make travel arrangements and living accommodations around these dates.

Graduate Students

Housing for graduate students is not offered on campus. Off-campus housing listings are available through the Office of Residential Life for students interested in pursuing living accommodations in the community.

CAREER AND COUNSELING CENTER

The purpose of the Career and Counseling Center is to offer quality education through programs related to career education and personal development. In conjunction with the University's mission imperative of a caring environment, the Center provides both career and personal counseling to students, faculty and staff in an atmosphere of respect and confidentiality. Community service is accomplished through daily functions of the Center as well as programs, projects and activities that take place both on and off campus.

Personal Counseling Services

The Career and Counseling Center provides confidential, personal counseling services and developmental programming. When requested, or when appropri-

ate, referrals are made to the University consulting psychiatrist, physicians, and/or community agencies.

Career Counseling

The Career and Counseling Center seeks to prepare students to identify personal skills and interests, and to become independent in the exploration of career choices. To meet this end, the Center provides individual career counseling, interest testing, career guidance assistance, on-campus recruiting, job skills workshops, part-time/full-time job listings, a credential file service, a career library, and an annual Career Day.

Students are encouraged to begin their career search during the freshman year to synchronize their career choice with their academic pursuits.

TESTING SERVICES

Testing is offered to assist students with academic, vocational, or personal problems. The student may be self-referred simply by request, or may be referred by faculty advisors and/or counselors.

Reliable, valid, and current interest, personality, and aptitude tests are provided. The service is available to all Barry students free of charge, with the exception of a minimal fee for the computerized scoring of the Strong Campbell Interest Inventory and the Myers-Briggs Test.

The results of all tests are interpreted to the student, and the final report becomes the property of the student.

Institutional examinations such as the Miller Analogies Test are also administered as a service to those wishing to pursue graduate study. There is a charge for this service.

ORIENTATION

An orientation period is conducted by Barry University prior to registration to aid the incoming student to adjust to University life.

Students meet faculty advisors, members of the staff, counselors, fellow students, and administrative officers so that all phases of the University are made familiar to them. Campus tours are conducted to acquaint new students with the facilities of the University.

Placement testing, group discussions and individual conferences on traditions, purposes, rules and regulations, study habits, academic standards and counseling are undertaken during this period.

Parents and guardians are invited to attend an opening session.

CAMPUS STORE

The Campus Store is open for the services and needs of the students of Barry University. Books, supplies, and other sundries are available for purchase. The bookstore is located in Thompson Hall, first floor. Purchases may be made using cash, personal checks and/or credit cards.

FOOD SERVICE

Food service is available in Thompson Hall, second floor, on a cash basis. Students on a meal plan will present appropriate ID cards. Meals are served cafeteria-style seven days per week and include, Monday — Friday, breakfast from 7:00 a.m. to 9:30 a.m., lunch from 11:30 a.m. - 1:15 p.m., and dinner from 4:45 - 6:45 p.m. On Saturday, breakfast is served from 8:30 a.m. - 10:00 a.m., and the Sunday brunch is served from 10:30 a.m. - 1:15 p.m.

There is a canteen located on the first floor of Thompson Hall which is also available to all students.

CAMPUS HEALTH CENTER

The purpose of the Student Health Center is to establish a caring environment while striving to enhance the educational process by modifying or removing health-related barriers to learning and by promoting an optimal level of wellness. The Health Center continues to explore options for the delivery of health care services to the university community while remaining sensitive to and supportive of individual circumstances, family, community, culture and religion. The Health Center provides a format to assess the needs of students by providing a bio-psycho-social- spiritual approach to health care. It also provides community service through community health presentations and programs.

Health Services

Students have access to a health program offered through the campus clinic, where a registered nurse is on duty. Clinic hours are Monday -Friday, 9 a.m. - 4:30 p.m. Student Health Advisors are on call evening and weekend hours. They are available by beeper through Security and the Residential Advisors. Services provided include: 1) First aid and emergency assistance 2) Evaluation of episodic illness 3) Health resource information and anticipatory guidance in health education 4) Referral to community health professionals. Payment is the responsibility of the student when referred to a community health professional.

All resident and international students must be covered by adequate health insurance. The University offers a group insurance program to which these students must subscribe if they do not have similar coverage. All resident and international students are required to supply the Campus Health Center with proof of health insurance, two measles, mumps and rubella vaccines and a tetanus diphtheria vaccine in the last ten years.

INTERNATIONAL STUDENT SERVICES

The International Student Center provides Barry students, faculty and staff with pertinent services regarding visa status and U.S. Immigration and Naturalization Service (INS) regulations as they affect the educational community.

The primary function of International Student Services is to assist the several hundred international students at Barry to maintain appropriate legal status while engaged in their academic programs. Every effort is made to promote awareness of benefits available and limitations affecting international students under Federal (INS) regulations, including visa matters and employment eligibility.

The International Student Center provides comprehensive counseling and appropriate referral with regard to any academic, financial, and personal as well as immigration matters. Prior to registration for fall and spring semesters, a specialized orientation program for international students is provided as a part of the overall orientation offered to all students. In addition, to further develop and enhance the educational experience of the international student population, the International Student Center plans and promotes events and activities both on campus and in the greater Miami community. The Director serves as advisor to the International Student Association.

The problems and issues of cultural and academic adjustment as they affect international students are of particular interest and concern to the office. The University wishes to provide sensitive and understanding support for those who are in need of assistance.

SPORTS ACTIVITIES

Barry offers a comprehensive sports program at both the intercollegiate and intramural levels.

Intercollegiate Athletics

At the intercollegiate level, Barry University competes as an active member school in the National Collegiate Athletic Association (NCAA) Division II and the Sunshine State Conference. Planned intercollegiate sports for the academic year 1992-93 include: men's baseball, basketball, crew, cross country, golf, soccer and tennis; women's basketball, crew, cross country, soccer, softball, tennis, and volleyball.

The 1992-93 academic year will be the ninth year for competitive intercollegiate athletics. As an NCAA member school, Barry University extends a traditional role of academic excellence and identity into an intercollegiate athletic program which offers national recognition for the student-athlete. All full-time undergraduate students are welcome to "try out" for any intercollegiate sport by contacting the appropriate head coach. Everyone is encouraged to **BACK THE BUCCANEERS!**

Coaching Staff

Men's:	Baseball	Bruce Barclay
	Basketball	William Mims
	Crew	Luis Gutierrez
	Cross Country	Joseph Whitehead
	Golf	TBA
	Soccer	Ian Martin
	Tennis	George M. Samuel
	Women's:	Basketball
Crew		Luis Gutierrez
Cross Country		Joseph Whitehead
Soccer		Michael Covone
Softball		Lisa Navas
Tennis		George M. Samuel
Volleyball		Leonid Yelin

Intramural Sports

The Intramural Sports Program is a specific application of the general purpose of Barry University as expressed in the Mission Statement.

The general purpose of the Intramural Sports Program at Barry is to provide students, faculty, and staff with opportunities to participate and compete in various sports and recreational activities and to explore new sport-related interests. A variety of co-educational sports are offered on a seasonal basis to both graduate and undergraduate students for social enjoyment and personal development.

Available team and individual sports and recreation activities will be primarily determined by student interest. On-campus facilities accommodate all intramural sports activities. Planned activities include: men's flag football, men's basketball, women's basketball, co-ed softball, tennis, billiards, ping pong and racquetball tournaments.

STUDENT ACTIVITIES

Student Activities is a specific application of the general purpose of Barry University as stated in the Mission Statement. Its purpose is to offer the University community opportunities for personal growth, leadership skills development, and social development as well as the opportunity to explore new areas and ideas in connection with clubs and university-sponsored events.

STUDENT GOVERNMENT ASSOCIATION

The Student Government Association serves as a liaison between the undergraduate student body and the administration and faculty. All full-time undergraduate students are members of the Association which is governed by an Executive Board .

CAMPUS ORGANIZATIONS

A number of clubs and departmental organizations offer membership to the student body in general:

Accounting Association, Ambassadors, American Marketing Association, Bahamian Club, Barry Soviet Exchange, Barry Education Association, Black Student Organization, Chroma Club, Circle-K, Collegiate Entrepreneurs, Computer Machinery, Delta Phi Epsilon, Delta Sigma Pi, Economics Club, Honor Student Association, International Students Organization, Jamaican Association, Nursing Students Association, Phi Alpha Delta, Phi Kappa Tau, PRSSA, PRAXIS, Resident Hall Association, Respect Life, Science Club, Student Government Association, Spanish Club, Trinidadian Club, Tau Kappa Beta, Theatre Club, Golden Z.

FRATERNITY/SORORITY

Omega Chi Phi fraternity and Delta Phi Epsilon sorority are socially oriented service organizations open to students after they have completed the first semester of their freshman year. These organizations provide Barry students with an outgoing spirit of friendship and unity through various service projects and social functions held throughout the year.

HONOR SOCIETIES

Lambda Sigma is a Barry University campus honor society open to all undergraduate students, second semester freshmen and above, and requires of its members a 3.00 (B) grade point average and active leadership in service on the Barry campus. Kappa Gamma Pi (National Catholic Women's Honor Society) is open to graduating seniors who have a 3.50 grade point average and an outstanding record of leadership and service. Delta Epsilon Sigma National Scholastic Honor Society for Men and Women is open to juniors and seniors who hold a 3.50 grade point average and demonstrate leadership in their respective fields. Alpha Chi is a national, coeducational honor society open to graduating seniors with a 3.70 grade point average and exemplary character. Sigma Theta Tau International, the honor society of nursing, is open to juniors, seniors, and RN-BSN's in the top third of their class. Seniors who have a grade point average of at least 3.00 (B) and a good leadership record may also be chosen to be listed in WHO'S WHO AMONG STUDENTS IN AMERICAN COLLEGES AND UNIVERSITIES.

Barry also holds memberships in the following national honor societies: Sigma Tau Delta (English), Alpha Mu Gamma (foreign languages); Beta Beta Beta (biology); Kappa Delta Pi (education); Phi Alpha Theta (history); Psi Chi (Psychology); Theta Alpha Kappa (religious studies), and Delta Mu Delta Epsilon (business administration).

THEATRE

The University Theatre Department produces a diversified program of dramatic presentations. Throughout the year, theatre majors produce plays in traditional mime, experimental and puppet theatre. Students have the advantage of two performance areas, including the main auditorium and the Pelican Theatre. Barry's theatre companies are frequently called upon to perform for outside local organizations.

BARRY UNIVERSITY CHORALE

The University Chorale is an organization dedicated to singing all styles and periods of music. It is open to students and interested community participants. No audition is required.

RECITALS AND EXHIBITS

Students specializing in instrumental and vocal music, as well as members of the Music and Theatre faculty, present studio recitals and public concerts. The Art faculty schedules exhibitions by contemporary artists throughout the year, in addition to student exhibitions and faculty exhibitions. Barry University points with pride to art objects executed by senior art majors and displayed throughout campus buildings.

PUBLICATIONS

University publications include the BARRY BUCCANEER, the university student newspaper; THE TORCH AND SHIELD, the university yearbook; and THE FLAME, published four times a year; the BARRY BULLETIN; and the

CALENDAR OF WEEKLY EVENTS, all published by the Office of University Relations.

ALUMNI ASSOCIATION

The Board of Directors of the Alumni Association is a national Board representing seven geographic regions which meets annually on the Barry campus to plan the yearly business of the Association. The Association and its regional chapters help with student recruitment, reunions, receptions for new students, and special alumni events.

The Alumni Office and Director of Alumni are located in LaVoie Hall. With the support of the Association, the Office conducts an annual Fund Drive, including a phonathon, and coordinates a variety of alumni programs such as dinner/theatre parties, reunions, picnics, and lectures.

TUITION, FEES AND FINANCIAL AID

At Barry University, the purpose of the Office of Student Financial Services and the Office of Financial Aid is to act in partnership with students and their families to provide the necessary guidance in financial planning related to attendance. Students are encouraged to contact the Financial Aid Office, phone (305) 899- 3660, or the Office of Student Financial Services, phone (305) 899-3591, for information and assistance.

The estimated costs per student for the current year are listed below. All students are assessed tuition and fees on a semester basis. All rates given are subject to change without notice.

1992-1993 TUITION AND FEE SCHEDULE

Effective July 1, 1992

Double, non air-conditioned	1,970.00
Double, air-conditioned	2,600.00
Private, non air-conditioned	2,095.00
Private, air-conditioned	2,810.00
Drop/Add fee	10.00

TOTAL EXPENSES FOR EACH SEMESTER MUST BE PAID PRIOR TO COMPLETION OF REGISTRATION. STUDENTS SHOULD COME TO REGISTRATION PREPARED TO PAY THE DIFFERENCE BETWEEN ESTIMATED FINANCIAL AID, IF ANY, AND THE TOTAL CHARGES FOR THE SEMESTER.

DISCOUNT POLICIES DO NOT APPLY TO ALREADY DISCOUNTED COURSES.

STUDENTS WHO APPLY FOR GRADUATION AFTER THE GRADUATION REGISTRATION DATE WILL PAY A LATE FEE OF \$10.00.

REFUND POLICY

Total Withdrawal from the University

Students who register but do not attend classes, or who withdraw for any reason after attending classes, will not receive credit unless they withdraw officially by submitting a written notice of withdrawal to the Office of the Dean of their respective School. The effective date of withdrawal will be the date on which the notice is received by the respective Dean and the percentage of credit will be determined by this date.

Tuition, Room and Board Fees will be Credited on this basis: If the student leaves within the first two weeks of the semester, 80% of the full semester charge is credited; within the first three weeks, 60% is credited; within the first four weeks, 40% is credited; within the first five weeks, 20% is credited. After the fifth week there is no credit. Refundable credit must be claimed within one calendar year. For purposes of determining the percentage of credit, the first

week of classes will be considered the start of the semester, upon which credits will be based. The above percentages apply to students who have paid their tuition and fees in full prior to the day of withdrawal.

Summer School Refunds

If the student leaves within the first week of the summer session, 60% of tuition, room and board is credited; within the second week, 20% is credited. After the second week, there is no credit. Refundable credit must be claimed within one calendar year. For purposes of determining the percentage of credit, the first week of classes will be considered the start of the Summer Session.

All fees, outside of tuition and room and board, are non-refundable.

TUITION PAYMENT PLAN

Barry University offers the services of several private companies to provide an alternative method of paying for tuition and fees. Each company will assist students in budgeting monthly payments for tuition and fees. The companies offer a wide range of financing alternatives. Since many of these plans require enrollment during the summer preceding the student's first semester at Barry University, interested students and their families are urged to contact either the Financial Aid Office or the Office of Student Financial Services for additional information.

WITHDRAWAL POLICY FOR INDIVIDUAL COURSES

Students who drop individual courses after the Period of Schedule Adjustment and who are still enrolled in the University are NOT ENTITLED to any refund or credit.

CHANGES MADE DURING THE PERIOD OF SCHEDULE ADJUSTMENT

Students dropping courses during the Period of Schedule Adjustment will receive total credit for the course and special course fee, if applicable, as long as the student remains enrolled in the University.

STUDENT DISMISSAL

A student dismissed for academic or disciplinary reasons at any time shall not be entitled to any claim or refund.

HEALTH INSURANCE

Health Insurance is required for all resident students and international students. It is strongly recommended that all students be covered by some type of health insurance. Students may enroll in the insurance policy offered through the University if they are taking 6 or more credit hours. The insurance fee will be charged to all resident and international students if proof of other insurance coverage is not provided to the Campus Health Center within 30 days of the first day of each semester.

FINANCIAL AID

The purpose of the Office of Financial Aid at Barry University is to provide service to students who need financial assistance in order to enroll, or to continue at the University, in the form of financial aid and financial planning for their education. The commitment of Barry University to providing financial assistance to its students is generous, personal and on-going. The Office of Financial Aid fulfills this commitment by following established procedures and practices which ensure the equitable and consistent treatment of all financial aid applicants.

The programs are administered in accordance with nationally established philosophies of financial aid for post-secondary education. The basis of these philosophies is the belief that the family is the primary resource for meeting educational expenses and financial aid is available for bridging the gap between those resources and college costs. The total cost of attending college will include not only tuition and fees, room and board, books and supplies, but personal and travel expenses, as well.

The Financial Aid Form (FAF), issued by College Scholarship Service (CSS), is the document used by Barry University to collect confidential information from parents and students for the purpose of determining a student's need for financial aid. This information is processed by CSS and the results are sent to Barry at the request of the student.

DETERMINING ELIGIBILITY FOR FINANCIAL AID

A student is eligible for financial aid when he or she meets all of the following criteria:

- Enrollment, or acceptance for enrollment, as at least a half-time student, in a degree-seeking program of study.
- U.S. citizenship, or qualification as an eligible non-citizen.
- Satisfactory academic progress.
- Completion of the necessary financial aid applications by the appropriate deadlines.

For federal financial aid purposes, "satisfactory academic progress" is defined as successfully completing 24 credit hours each academic year, and achieving a cumulative grade point average of 2.00 or above, if the student is registered as full time.

In order to qualify as an eligible non-citizen, students must be permanent residents with an Alien Registration Card, Form I-551 or Form I-551C, with a currently valid expiration date. Passports stamped "Processed for I-551" with a valid expiration date are also acceptable. Students may also present a "Temporary Resident Card," Form I-688, with a valid expiration date to qualify as eligible non-citizens. Note that the I-688A and I-688B do not qualify the student as an eligible non-citizen. No federal or state financial aid is available to International Students.

APPLYING FOR FINANCIAL AID

After applying for admission, students submit the completed packet of financial aid forms, available through Barry's Financial Aid Office. This packet includes: the Financial Aid Form (FAF), the Barry University Financial Aid Supplement Form, the Florida Tuition Voucher Application (Full-time undergraduate Florida residents only), and Financial Aid Transcript Requests (if the student attended prior institutions). Individuals whose applications are selected for verification may have to submit additional documentation. Students will be notified if parent's or student's tax returns or verification forms are required to complete the verification process.

The Financial Aid Form (FAF) should be forwarded to the College Scholarship Service, Princeton, New Jersey, with the request that the results be forwarded to Barry University Office of Financial Aid. The remainder of the supporting applications and documentation should be sent directly to the Office of Financial Aid at Barry. The priority deadline for receipt of these forms for undergraduate students is March 1. Preference is given to the students who apply by March 1, but financial aid applications are accepted year round.

Incoming freshmen who apply for financial aid, and whose files are complete by March 1, can expect to receive notification of their financial aid awards in late April and May. Returning students whose files are complete by March 1 will be notified of their financial aid awards in late May and June. Students who apply for financial aid after the priority deadline will receive their notifications of aid in July and August.

FINANCIAL AID FOR UNDERGRADUATE STUDENTS

Barry University participates in all federal and state financial aid programs. In addition, Barry provides institutional funding to supplement federal and state funding. There are three types of financial aid. They are gift-aid, work-aid, and loan-aid. Gift-aid comprises scholarships and grants from a variety of sources. Work-aid, in the form of jobs on campus, is both federally and university funded. Loan-aid can come from federal, private and university sources.

Gift-Aid does not have to be repaid. There are two types of gift-aid: scholarships and grants. Scholarships are awarded to students based on academic promise, and grants are awarded on the basis of financial need.

Work-Aid awards allow students to work on campus to help defray the cost of education, while at the same time gaining valuable work experience.

Loan-Aid, unlike scholarships and grants, is money that must be repaid. Repayment of these student loans usually begins after the student leaves school.

FEDERAL PROGRAMS

PELL GRANT. The Pell Grant serves as the foundation to which other sources of aid are added. Students enrolled for at least 6 credits per semester may be eligible for Pell. The awards range, depending on the need of the student, from \$200 to \$2400. Once a student receives their Bachelor's Degree, they are no longer eligible for the Pell Grant.

STAFFORD STUDENT LOAN (FORMERLY GUARANTEED STUDENT LOAN). Funds for this program are provided directly by banks, credit unions, and other lending institutions. Stafford Loans are need based. The maximum amount available per academic year for freshmen and sophomores is \$2625*. Juniors and Seniors may borrow up to \$4000* per academic year. The interest rate on these loans is currently 8% for new borrowers through the first four years of repayment, and 10% thereafter. Repayment begins six months after leaving school, and students have up to 10 years to repay.

SUPPLEMENTAL LOAN FOR STUDENTS (SLS). These loans, also provided directly by banks, credit unions, and other lending institutions are available to independent students. SLS loans are non-need based, and students may borrow up to \$4000* per academic year. The interest rate is variable, not to exceed 12%. Repayment begins within 60 days after loan disbursement, however, the lender may defer the student's payments while the student is enrolled full time. Students have up to 10 years to repay.

PARENT LOAN FOR UNDERGRADUATE STUDENTS (PLUS). Parents of dependent students may borrow the PLUS loan which is made available by various lending institutions. The maximum amount parents may borrow is \$4000* per academic year, per student. The interest rate is variable, and will not exceed 12%. Repayment begins within 60 days after loan disbursement. Some deferments are available to parents. Parents have up to 10 years to repay.

COLLEGE WORK-STUDY PROGRAM (CWS). This federally funded, need based program enables students to work part-time on campus to help defray educational expenses. Through the assistance of the CWS Coordinator, students are assigned to available jobs based on their skills and abilities, and are paid on a monthly basis. College Work-Study gives the student a unique opportunity to earn money for college while at the same time gain invaluable work experience for the future.

PERKINS LOAN PROGRAM (FORMERLY NATIONAL DIRECT STUDENT LOAN). This low-interest (5%) loan, made by Barry University, but federally subsidized, is awarded to students based on financial need. A student must complete and sign a promissory note with the school. Repayment begins 9 months after leaving school.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG). Students with exceptional financial need may qualify on a first-come, first-served basis for this federally subsidized grant. Awards range from \$200 to \$2000 per academic year. Once a student receives their Bachelor's Degree, they are no longer eligible for this grant.

* Maximum amount available at time of catalog printing.

STATE OF FLORIDA PROGRAMS

FLORIDA TUITION VOUCHER FUND (FTV). This program provides tuition assistance to full time undergraduate students from Florida attending private, independent colleges and universities located in the state. Students who have been residents of Florida for at least twelve consecutive months are eligible for the voucher. This program provides up to \$850 per academic year, subject to state budget appropriations. Applications are available from the

Financial Aid Office and must be submitted each academic year. Students may continue to receive funds from the program only if they participate in the College-Level Academic Skills Test (CLAST). The CLAST must be taken **prior to the end of the semester** in which 60 credit hours are earned.

FLORIDA STUDENT ASSISTANCE GRANT (FSAG). This need-based grant provides up to \$1100 per academic year, subject to state budget appropriations. Students must use the Florida FAF to apply, and the application must be received at the College Scholarship Service (CSS) by April 15th. The State of Florida does not make any exceptions to this deadline, even for students who would have been eligible. A new application must be submitted each year.

Students from Barry University also participate in the Florida Undergraduate Scholar's Fund, Paul Douglas Teacher Scholarship Loan Program, Jose Marti Scholarship Challenge Grant Fund, "Chappie" James Most Promising Teacher Scholarship Loan Program, and the Critical Teacher Shortage Student Loan Forgiveness Program, as well as other state programs. Information on any of these programs may be obtained from high school guidance counselors or by contacting the Office of Student Financial Assistance, Florida Department of Education, Tallahassee, Florida, 32399-0400.

STATE GRANT PROGRAMS OUTSIDE FLORIDA

Incoming students from Alaska, South Carolina, Delaware, the District of Columbia, Vermont, Rhode Island and Pennsylvania should know that their state grants are "portable." Students from these states who qualify, based on financial need, can use these grants to attend a college or university outside their state. These grants can, therefore, be applied towards a student's cost of education at Barry University. Contact the State Grant Agency for further details, since there may be a deadline for application.

UNIVERSITY PROGRAMS

Academic Scholarships Provided by the University

PRESIDENTIAL AND ACADEMIC MERIT SCHOLARSHIPS. Presidential and Academic Merit Scholarships are awarded annually on a competitive basis to students with high scholastic achievement, demonstrated extracurricular activities, and good character. These scholarships are available to incoming freshmen and transfer students applying for full-time status, and they are awarded without consideration of family income. Scholarships are renewable providing the recipient maintains a grade point average of 3.25 or above for the Presidential, and 3.0 or above for Academic Merit Scholarships. Students must also be in good disciplinary standing. Qualified students should request a scholarship application from the Office of Admissions.

FOCUS ON EXCELLENCE SCHOLARSHIPS. Barry University's Focus on Excellence Scholarships recognize outstanding students from all Florida high schools. Only one student will be selected for receipt of this scholarship from each respective high school. In order to be considered, students must be superior high school seniors who have a minimum combined score of 1100 on the Scholastic Aptitude Test (SAT) or a minimum combined score of 27 on the

American College Test (ACT) and a 3.5 or higher grade point average on a 4.0 scale, and rank in the upper ten percent of their graduating class. These are full tuition scholarships and are renewable providing the student maintains a 3.3 grade point average. Students must contact the Office of Admissions to apply.

CLINTON D. HAMILTON SCHOLARSHIP. This scholarship, named in honor of the Executive Vice-President of Broward Community College, is awarded to one Honors Program Graduate of BCC with a cumulative grade point average of 3.6 or above. This scholarship is valued at the full tuition cost for one academic year, renewable annually if a 3.3 cumulative grade point average is maintained. The student should contact the Honors Program Coordinator.

ROBERT McCABE SCHOLARSHIP. This scholarship, named in honor of the President of Miami-Dade Community College, is awarded to one Honors Program graduate of MDCC who has achieved a cumulative grade point average of 3.5 or above. This scholarship is valued at full tuition cost for one academic year, renewable annually if a 3.3 cumulative GPA is maintained. The student should contact the Honors Program Coordinator.

THE SOUTH FLORIDA COMMUNITY COLLEGE GRANT/SCHOLARSHIP PROGRAM. The South Florida Community College Grant/Scholarship Program is specifically designed for academically talented South Florida community college students. It rewards excellence in those quality students who have shown diligence by assisting them in meeting the cost of a private education. To be eligible, an applicant must have a 3.0 or above grade point average and a minimum of 24 credit hours. The last school attended must be a South Florida Community College in Palm Beach, Broward, Dade or Monroe Counties. Students qualify for awards without consideration of family income. Contact the Office of Admissions.

ARCHDIOCESAN SCHOLARSHIPS. Each parish in the Palm Beach, Broward, Dade tri-county area may recommend a \$2000 scholarship for a high school student from their parish who has at least a minimum combined score of 1000 on the SAT or a composite score of 24 on the ACT. The recipient must also have 3.0 (4.0 scale) or higher grade point average in high school, and demonstrate exemplary volunteer service in the parish to which they belong. Contact the Office of Admissions for additional information.

GOLDEN DRUM/RONALD A. HAMMOND SCHOLARSHIP. Golden Drum is the name chosen by the Achievers of Greater Miami to identify this program designed to reward outstanding high school seniors in Dade and Broward counties. It was recently renamed in honor of Ronald A. Hammond, a long-time Director of Financial Aid and Director of Minority Student Recruitment at the University of Miami. In addition to recognizing the talents, academic achievement, and community service contributions of students participating in the Golden Drum competition, the program includes full tuition scholarship awards to students attending participating universities and colleges like Barry University. Applications are distributed to public and private high schools in Dade and Broward counties annually during the month of September. Students interested in applying for the Golden Drum competition should contact the

guidance counselor or the CAP (College Assistance Program) counselor in their respective schools. Eligible applicants must be high school seniors of African descent, a citizen or permanent resident of the United States and meet admission requirements of the university to which they apply.

PRE-MARC/MARC SCHOLARSHIPS. Barry University provides Minority Access to Research Careers (MARC) through a long term renewable grant awarded to the University's School of Natural and Health Sciences by the United States Department of Health and Human Services. This scholarship is provided to increase the number of well-prepared minority students who can compete successfully for entry into graduate programs leading to a doctorate in a biomedical science. Students must be Biology, Chemistry, Mathematics or Psychology majors. For more information contact Sr. John Karen Frei, O.P., Ph.D., School of Natural and Health Sciences, Barry University.

Professional Scholarships Provided by the University

SOCIAL WORKERS. Scholarships are available for Master's degree students enrolled in the part-time foundation year programs if they are employed as full-time social workers or human resource practitioners. For more information on this discount reference the description under heading, "Social Work Grants and Scholarships."

NURSES. Scholarships are available for students employed as full-time registered nurses, unless tuition is paid through some type of grant or subsidy. Scholarships are valued at 30% of tuition.

TEACHERS. Scholarships are available for students employed full-time as teachers in Florida, unless tuition is paid through some type of grant or subsidy. Scholarships are valued at 30% of tuition.

RELIGIOUS ORDERS. Scholarships are available for students who are members of a religious community. Scholarships are valued at 30% of tuition.

UNIVERSITY STUDIES. Scholarships are available for students enrolled in the University Studies Program. Scholarships are valued at 30% of tuition.

Grants Provided by the University

ATHLETIC GRANTS. Barry University offers athletic grants to students who show outstanding ability in most of the intercollegiate sports programs offered by the University. Interested students should contact the appropriate Head Coach or the Athletic Department.

BARRY GRANTS. Funds are provided by the University to assist students who demonstrate academic promise and exceptional financial need. Awards range from \$500 to \$2000 per year. These awards are made on a first-come, first-served basis.

PARISH GRANTS. Incoming freshmen may be eligible for a grant through their church, worth up to \$1000 per academic year. Students must contact their church for sponsorship. If the church is willing to support the student, Barry will match that contribution up to \$500 per year.

FAMILY TUITION REDUCTION PLAN. Families having more than one full-time undergraduate student enrolled at Barry University during the same time period pay full tuition for the first student, then receive a \$500 per year reduction for the second student, a \$1000 per year reduction for the third student, and a \$1500 per year reduction for the fourth student. Students eligible for this grant must file a written request for this grant with the Office of Financial Aid.

SUMMER SCHOOL TUITION REDUCTION. Reduced tuition rates are in effect during the summer sessions, thus affording the full-time undergraduate student an opportunity for earlier graduation by taking summer classes at a reduced rate.

Work Programs Provided by the University

BARRY EMPLOYMENT PROGRAM (BEP). The purpose of this program is to promote part-time, on-campus employment of students who need employment earnings to help meet their cost of attendance. Students must be enrolled full time to be eligible. Payment for work performed is made monthly in the form of a credit to the student's tuition account. Students may be considered for this program regardless of their financial need. Awards range from \$250 to \$1000 per semester. **International students may participate in the Barry Employment Program.**

Scholarships Subsidized by Friends of the University

Funding for the following scholarships may change from year to year. Please contact the Office of Financial Aid for information on availability and for applications, unless otherwise noted.

MONSIGNOR WILLIAM BARRY SCHOLARSHIP. This scholarship, funded in loving memory of Monsignor William Barry by Mrs. Ucola Katzentine, is awarded to a student who demonstrates superior academic achievement, involvement in extra-curricular activities and is financially needy.

FORREST J. FLAMMANG SCHOLARSHIP. Under the will of Forrest J. Flammang, a trust fund was established to distribute funds to private higher educational institutions located in Dade County. The funds are used to provide scholarships for needy students.

ADELAIDE FREY MEMORIAL. This scholarship, funded by the Frey family in loving memory of Adelaide Frey, is used to assist mature undergraduate women who demonstrate financial need. Several awards are available each year.

MIAMI HEAT SCHOLARSHIP. Students who graduated from high schools in the Overtown area are eligible for this scholarship. Academic achievement and potential for community involvement are among the criteria for receipt of this award. Recipients are chosen by the Executive Vice President of the Miami Heat Organization.

PATRICIA, PAUL & MARY MINNAUGH THEATRE SCHOLARSHIP. This scholarship is available to students who are Theatre majors. Students must contact the Theatre Department for further information.

PILOT INTERNATIONAL MIAMI SHORES CHAPTER SCHOLARSHIP. This scholarship is available to sophomore, junior and senior women majoring in business, education or nursing. Applicants must demonstrate financial need, strong leadership qualities, strong potential and academic accomplishments. In addition, the applicant must be a Florida resident and be enrolled as a full-time student. Applications, recommendations and financial statements should be submitted prior to November 1, to the Miami Shores Chapter Scholarship Committee.

SISTER ELAINE SCANLON SCHOLARSHIP. This scholarship was established by the Barry Auxiliary in honor of Sister Elaine Scanlon, O.P., who served as Auxiliary President from 1986 to 1989. The scholarship was established to assist undergraduate students who need financial assistance in order to continue their studies. Recipients are chosen at the discretion of the Auxiliary.

SISTER M. DOROTHY BROWNE, O.P., ALUMNI SCHOLARSHIP. This scholarship was established by the Alumni Association in honor of Sister M. Dorothy Browne, O.P., President of Barry College from 1963 to 1974. Awards are made to children of the alumni. This award is \$1000 and may be renewed annually if a 3.0 cumulative grade point average is maintained.

GRACE R. SOUTHMAYD SCHOLARSHIP. The recipient of this \$800 scholarship will serve an internship in the Alumni Office, providing needed service to Barry University while developing interest and commitment to the Alumni Association.

EVELYN AND PHIL SPITALNY SCHOLARSHIP. The purpose of this scholarship is to provide encouragement for Music students at Barry University. Three Music scholarships will be awarded annually as a result of this endowment. The recipients will be chosen by the head of the Fine Arts Department in consultation with the Dean of Arts and Sciences.

AVERILL STEWART SCHOLARSHIP. James Stewart, a member of the Barry University Board of Trustees, established this scholarship in memory of his wife, Averill Stewart. It is valued at full tuition plus room and board. To apply, a student must have a 3.5 high school average, and have been actively involved in extracurricular activities. The scholarship can be renewed annually if the recipient maintains a 3.25 cumulative grade point average, therefore, it may only be available once every four years.

EDWARD A. TOMESKI SCHOLARSHIP. A \$1000 scholarship is available each year in loving memory of Dr. Edward Tomeski, a former Professor of Management in the School of Business at Barry University. This scholarship was established through the generosity of the Tomeski family. The student recipient must be a Business major, in their sophomore, junior, or senior year of study, and must have financial need. The recipient will be chosen by the Dean of the School of Business.

Loan Programs Subsidized by Friends of the University

Funding for the following loan programs may change from year to year. Please contact the Office of Financial Aid for information and applications, unless otherwise noted.

GEORGE AND AMELIA COURY LOAN. Through the generosity of George and Amelia Coury, low-interest loans are available to students from Dade County.

MABEL SCOLLIN KELLEY LOAN. A loan fund of \$5000 was willed to Barry University by Mrs. Mabel Kelley, who expressed the desire that a revolving fund be established in her memory, and be made available to worthy students needing to borrow money to meet college expenses.

LYNNE WAX MEMORIAL LOAN. Established in 1977, this program enables full-time students to receive short-term loans with no interest. The period of repayment cannot exceed 12 months from the date the promissory note is signed.

WYOLENE NEAL LOAN. This loan fund, with awards up to \$800, was founded in 1961 by the parents of Wyolene Neal, and is available to a commuting student from the Miami area.

JORDAN DAVIDSON FOUNDATION LOAN. Through the generosity of Mr. Jordan Davidson, loans of varying amounts are offered to students who demonstrate financial need.

BAL HARBOUR ROTARY LOAN. Loans are awarded by the Bal Harbour Rotary Club to students who are Nursing majors. To be eligible, students must demonstrate financial need, academic potential, be residents of Dade County and be registered in their junior or senior year.

SISTER ALICE JOSEPH MOORE, O.P., LOAN. This fund provides loans for tuition on a ninety-day repayment basis. The fund is restricted to graduate, senior or junior students in teacher education programs. The student must have a grade point average of 3.0 or above and must have financial need. The Dean of the School of Education must approve recipients of this loan.

SCHOOL OF NURSING PROGRAMS

Students enrolled in the School of Nursing are eligible for many scholarships, loans and grants for both undergraduate and graduate study. Interested students may obtain further information on the following programs from the School of Nursing. Only Nursing majors are eligible for these programs.

Scholarships

BLACK NURSES ASSOCIATION, INC., MIAMI CHAPTER. Black students who are U.S. citizens, Florida residents, have a 2.5 GPA or higher and who have financial need are eligible to apply for this \$1000 scholarship.

NATIONAL STUDENTS NURSES' ASSOCIATION, INC. This professional organization serves as a clearinghouse for numerous organizations offering scholarships to Nursing students. Qualifications include scholastic achievement and financial need. Award amounts vary. Students complete one application for all scholarships for which they are eligible.

FLORIDA NURSES ASSOCIATION, DISTRICT 32. Nursing students who have been residents of Broward county for at least one year, have at least a 2.0

GPA, and have financial need, may be eligible for this \$400 scholarship. Students may be part-time, but must carry at least 3 credit hours in Nursing.

BREVARD HEART FOUNDATION, INC. Brevard County residents are eligible for this scholarship. Awards range from \$500 to \$1000 and students in all the nursing program options are eligible to apply. Priority is given to students in their senior year.

BUSINESS/PROFESSIONAL WOMEN'S FOUNDATION. The Foundation serves as a clearinghouse for 3 scholarships. Undergraduate Nursing students who are U.S. citizens, women, 25 years of age or older, and who are in their junior or senior year may apply for these need-based scholarships of \$100 to \$1000. Students do not need to be full-time.

FLORIDA NURSES ASSOCIATION, DISTRICT 21. Nursing students who live in Broward County, have financial need, and at least a 2.5 GPA are eligible to apply for this \$300 scholarship.

ASSOCIATION OF OPERATING ROOM NURSES, SOUTH FLORIDA. Senior Nursing students in their final semester who have a 3.0 GPA and who plan to work in the operating room setting after graduation may apply for this scholarship.

AMERICAN ASSOCIATION OF CRITICAL CARE NURSES. The Association provides scholarships to registered nurses pursuing the BSN degree and carrying at least a 50% academic load in their junior or senior year. The student must maintain a 2.0 GPA, be a member of AACN, be currently employed, and have worked one year of the last three in a critical care area.

LETTIE PATE WHITEHEAD FOUNDATION. Scholarship funds are available for Christian female nursing majors who have financial need and are residents of one of the following states: Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee or Virginia. Information may be obtained from the School of Nursing.

NURSE EDUCATIONAL FUNDS. This scholarship is for U.S. citizens who are registered nurses pursuing the BSN degree. The nurse must belong to the American Nurses Association, be a full-time student, and have financial need. The award ranges from \$2000 to \$5000.

ONCOLOGY NURSING FOUNDATION. To be eligible, the student must be a registered nurse pursuing the BSN or MSN degree and have an interest in oncology nursing. The award for undergraduate study is \$1000, and \$2500 for graduate study.

NURSING TUITION REDUCTION. This tuition reduction plan, supported by the Florida Department of Education, allows some students in the Accelerated Nursing Option to enroll at the tuition rate of the State University System. To apply, the student must be a Florida resident and demonstrate financial need. Preference will be given to students in high academic standing.

Loan Programs

HANSEL FUND. This fund provides loans to students with financial need enrolled in the School of Nursing. Loans from this fund are repayable at 3% interest at the time of graduation or when the student ceases enrollment.

DADE COUNTY MEDICAL ASSOCIATION AUXILIARY. Nursing majors are eligible for this \$1500 to \$2000 loan. Receipt of the loan is based upon financial need and academic achievement. The student recipient agrees to practice in Dade County for one year after graduation. The loan is interest free if repaid within two years of graduation.

LOAN REPAYMENT PROGRAM. Graduates who have unpaid educational loans and who work 3 years in a qualified health facility may be eligible to have 85% of their loans forgiven. These facilities include federal, state, regional and county hospitals, and community health centers.

Service Payback

ARMY/AIR FORCE R.O.T.C. To qualify for an R.O.T.C. Scholarship, Nursing students must be U.S. citizens, under 25 years of age, have a 2.5 GPA or higher. They must also have at least 2 years of college left, and must be able to meet additional Army requirements. R.O.T.C. Scholarships cover tuition, books, fees and a subsistence allowance for 2 to 4 years in return for 4 years of active duty or 8 years of reserve duty as a nurse in the Army or National Guard.

NAVY. Junior nursing students with a 3.0 GPA are eligible for 2 years of pay allowance as a seaman. In return, the graduate will serve 4 years with the Navy.

VETERANS ADMINISTRATION SCHOLARSHIP PROGRAM. U.S. citizens, enrolled in Nursing full time in their junior or senior year, are eligible for this scholarship which pays tuition, books, fees, and a stipend. One year of employment in a VA hospital after graduation is required for each year of funding.

PARALYZED VETERANS ASSOCIATION OF FLORIDA, INC. This organization awards scholarship funds to Barry nursing students interested in working with individuals who have suffered a spinal cord injury. Recipients of these scholarships agree to work for a specified period of time at a V.A. Medical Center in a spinal cord injury unit.

In addition to the sources listed above, many hospitals offer programs which provide money for tuition in return for employment at that hospital, usually 1 year for every year of tuition support. Hospitals frequently provide support for their employees pursuing the BSN or MSN degree. Contact your hospital of employment for further information.

VETERANS AND ELIGIBLE DEPENDENTS EDUCATIONAL ASSISTANCE

The Federal Government has programs which provide financial assistance for veterans and eligible dependents of certain veterans. Information may be obtained from the local or regional Veterans Administration Offices or by calling the Office of Financial Aid. A student must be fully accepted into a

degree-seeking program approved by the State Approving Agency for Veterans Training. Determination of eligibility for benefits will be made by the Veterans Administration.

STANDARDS OF PROGRESS POLICY FOR VETERANS. Satisfactory progress for a student receiving veterans educational benefits is indicated by a Satisfactory Progress Average (SPA), a variation of the Quality Point Average (QPA). An SPA of 3.0 or greater for graduate students is satisfactory, less than 3.0 is not satisfactory. An SPA of 2.0 or greater for an undergraduate student is satisfactory, less than 2.0 is not satisfactory. Any time a student's SPA is not satisfactory, s/he will be certified, in a probationary status, for only one additional semester. If, at the end of this additional semester, the student's SPA is still below the satisfactory level, the Veterans Administration (VA) will be notified of the unsatisfactory progress and the student's veterans educational benefits will be terminated. A student whose educational benefits have been terminated by the VA for unsatisfactory progress may petition the Registrar of the University for readmission. A University official will discuss the problems relating to the unsatisfactory progress with the student. If the cause of the unsatisfactory progress has been removed, and the student is readmitted, s/he will be recertified for veterans educational benefits.

CREDIT FOR PREVIOUS TRAINING. Students eligible to receive educational benefits from the U.S. Department of Veterans Affairs with previous post-secondary training/experience must request official transcript(s) be sent to Barry University. If the transcript(s) is not received by the end of the first semester, the student's educational benefits will be terminated until the transcript(s) is received. Should credits be accepted, the student's training time and total tuition costs* will be reduced proportionately. The VA and the student will receive a written notice of credits allowed.

*This reduction refers to total costs involved in obtaining the degree. Costs are reduced since credits at another institution are applied toward this degree. This does not imply a credit reduction allowance for veterans or eligible dependents.

OUTSIDE SOURCES OF SCHOLARSHIPS AND ASSISTANCE

Many organizations not affiliated with the University, such as local civic groups and fraternal organizations, offer grants and scholarships for which many students are eligible. Students are encouraged to inquire about these potential sources of assistance by visiting the Office of Financial Aid. Updated reference materials are always maintained.

FINANCIAL AID FOR GRADUATE STUDENTS

Professional Scholarships Provided by the University

The following scholarships are valued at 30% of tuition:

Nurses—Scholarships are available for students employed as full-time registered nurses, unless tuition is paid through some type of grant or subsidy. An employer's letter verifying full-time employment in the field of nursing must be presented at the time of registration.

Religious Orders—Scholarships are available for students who are members of a religious community.

Social Workers—Scholarships are available for Master's degree students enrolled in the part-time foundation year programs if they are employed as full-time social workers or human resource practitioners. For more information on this discount reference the description under heading, "Social Work Grants and Scholarships."

Teachers—Scholarships are available to any full-time Florida teacher. Proof of eligibility should be submitted to the Registrar's Office.

University Studies—Scholarships are available for students enrolled in the University Studies Program.

Please note: Professional scholarships will not be granted during summer session.

Loans

To receive the Stafford Loan or the Supplemental Loan for Students, students must submit a Financial Aid Form to College Scholarship Services. The Financial Aid Form contains pertinent information regarding the student's income and assets. This information will be used to determine financial eligibility for the Stafford Loan. Please note that students must have U.S. citizenship or qualification as an eligible non-citizen in order to apply for these loans. International students are not eligible for federal financial aid.

The Stafford Loan is a low interest loan made by a lender such as a bank, credit union, or savings and loan association. The Federal Government subsidizes interest payments on these loans while the student is attending school, enabling lenders to provide students with loans at below-market rates. For new borrowers, the interest rate on a Stafford Loan is 8 percent per year for the first 4 years of repayment. After that, the interest is assessed at 10 percent per year. For students who currently have a 7 or 9 percent Stafford Loan, the interest rate on any additional Stafford Loans will continue to be 7 or 9 percent. Interest payments and repayment of the principal commence 6 months after graduation or 6 months after the student ceases to attend the University at least half-time.

Graduate and professional students can borrow up to \$7,500* per academic year under the Stafford Loan Program. Students must complete a full academic year and must advance a grade level before applying for another loan. (Please note: Students enrolled in the School of Podiatric Medicine should refer to specific parameters for their loans outlined below under the "School of Podiatric Medicine" section.) The maximum outstanding debt that can be accumulated under the Stafford Loan Program is \$54,750*. This amount includes any monies previously borrowed for undergraduate studies or for other graduate or professional programs.

The Supplemental Loan for Students (SLS) provides additional funds for educational expenses. This is a non-need based loan. Students must meet the same citizenship criteria required of Stafford Loan applicants. Under this program, students may borrow up to \$4,000* per academic year to a maximum

outstanding debt of \$20,000* in addition to the Stafford Loan limit. Interest rate on this loan is variable. Repayment of the loan begins 60 days after disbursement, although the borrower may defer repayment on the principal. Interest payments for this loan are not subsidized by the Federal Government; the student must begin making interest payments 60 days after disbursement, even if payments on the principal have been deferred. A lender may agree to capitalize the interest, but those agreements, as deferment agreements, must be made directly with the lender.

There are many alternative loan programs for students who do not qualify for the federally subsidized loans and who find the SLS loan insufficient to meet their educational expenses. These loans are offered by private agencies and vary in interest rates and terms. While they are not need based, students must be credit-worthy to borrow. Many of these loans are specifically tailored to graduate and professional students. The Financial Aid Office maintains applications for these loan programs.

*Maximum amount available at time of catalog printing.

School of Nursing

Scholarship Funds:

ONCOLOGY NURSING FOUNDATION

To be eligible, the student must be a Registered Nurse pursuing the MSN degree and have an interest in oncology nursing. The award ranges from \$1000 to \$2500 for graduate studies.

AMERICAN LEGION EDUCATION AND SCHOLARSHIP PROGRAM

Registered Nurses pursuing the MSN degree in Administration or Education are eligible for this \$2000 award. In return, the recipient agrees to employment full-time in the lung and respiratory health care area after graduation.

Nursing Loans:

DADE COUNTY MEDICAL ASSOCIATION AUXILIARY

Students enrolled in the School of Nursing are eligible for this \$1500 to \$2000 loan based on need and academic achievement. The student agrees to practice in Dade County for one year after graduation. The loan is interest free if paid back within two years of graduation.

HANDSEL FUND

Provides monies for students in financial need who are enrolled in the School of Nursing. Loans from both the Handsel and Treadway funds are repayable at 3% interest at the time of graduation or when the student ceases enrollment.

LOAN REPAYMENT PROGRAM

Graduates who have unpaid educational loans and who work 3 years in a Qualified Health Facility may qualify to have 85% of their loans forgiven. Qualified Health Facilities include federal, state, regional or county hospitals and community health centers.

In addition to the above, there are smaller scholarships and loans available from various sources. Many hospitals, for example, offer programs which provide money for tuition in return for agreement to work at the hospital.

Usually, one year of employment is requested for each year of tuition support. Hospitals often provide tuition support for employees pursuing the MSN degree.

School of Podiatric Medicine

Scholarship Funds:

DR. MARVIN STEINBERG MEMORIAL SCHOLARSHIP FUND

This fund, established by the family of Dr. Marvin Steinberg, noted podiatric educator, will provide an annual scholarship to an academically qualified Podiatry student. For further information, call the School of Podiatric Medicine.

DR. HERBERT FEINBERG MEMORIAL SCHOLARSHIP FUND

This fund was established by the family of Dr. Herbert Feinberg, one of the original members of the Executive Advisory Council to the School of Podiatric Medicine. The award is made annually to academically qualified Podiatry students. For information, call the School of Podiatric Medicine.

EXCEPTIONAL FINANCIAL NEED SCHOLARSHIP

This scholarship is available for students enrolled or accepted for enrollment as full-time students in the School of Podiatric Medicine. Due to limited funds, only students identified as having no financial resources may be considered for this scholarship program. To apply, students must submit information regarding their personal income, spouses and/or parents' income, as well as any financial support expected from other family members.

PODIATRIC MERIT SCHOLARSHIP

The Barry University School of Podiatric Medicine offers academic scholarships ranging from \$2500 to half-tuition for highly qualified students. Selection of scholarship recipients is at the discretion of the scholarship committee. No formal application is necessary for this award. For further information, contact the Office of Admissions.

Podiatry Loans:

H.E.A.L. PROGRAM

The Health Education Assistance Loan Program is a federally insured loan program for eligible graduate students in the School of Podiatric Medicine. To be eligible, a student must demonstrate financial need, be a U.S. citizen or permanent resident, accepted as a full-time student, or already in full-time attendance and in good academic standing at an eligible school.

Students may borrow up to \$20,000 per academic year, if eligible. The interest rate on H.E.A.L. loans is variable and is determined by computing the average of the bond equivalent rates for the ninety-one day U.S. Treasury Bills, plus 3.0 percent. Repayment begins ten months after the student ceases full-time enrollment or ceases to be a participant in an accredited internship or residency program.

POLICY REGARDING DISBURSEMENT OF LOANS FOR STUDENTS ENROLLED IN THE SCHOOL OF PODIATRIC MEDICINE: It is the policy of the Office of Financial Aid to assist all students with financial planning as well as financial aid for their time enrolled at Barry. Loans for the podiatry program are multiply disbursed in accordance with Federal regulations and Barry University's school terms. A multiply disbursed loan affords the student a more prudent use of funds and lends itself to sensible borrowing practices.

First year podiatry students must successfully complete two semesters (fall and spring) in order to progress a grade level and to begin the next borrowing cycle. Upper division podiatry students must successfully complete three semesters (summer/fall/spring) in order to progress a grade level and to begin the next borrowing cycle.

School of Social Work

SOCIAL WORK GRANTS AND SCHOLARSHIPS

The School of Social Work has a separate application process for certain grants and scholarships. After an official admission decision is made on an application to the School, the scholarship application is forwarded upon the student's request.

The student should also complete the Singlefile Form. This application will assess the student's financial need for Federal loan programs and for some of the available scholarship programs.

It is important to note that these funds are extremely limited and there are always more applications than the School can accommodate with awards. Awards are made on the basis of need, minority status, academic ability and potential for professional practice.

Scholarships Subsidized by Friends of the University

NINA FOX SCHOLARSHIP FUND

This memorial fund, established by the friends and relatives of Mrs. Nina Fox, M.S.W., provides an annual scholarship to graduate social work students. Applicants must have financial need and priority will be given to students who have an interest in social work practice with homeless and/or migrant clients.

ISABEL AND SAM MAY TRAINEESHIPS IN GERONTOLOGICAL SOCIAL WORK

These traineeships, awarded by the Department of Social Work at Mount Sinai Hospital, are for graduate social work students who are preparing for a career in services to the elderly.

DR. BEULAH ROTHMAN SCHOLARSHIP

This scholarship fund was established by Mr. Lester Rothman to honor the memory and work of Dr. Beulah Rothman, distinguished professor and nationally recognized leader in the professional education of social workers. Scholarship awards range from \$1000 to \$2500 and are made to matriculated doctoral students in the School of Social Work. Criteria include the area of academic interest, level of academic performance and financial need.

PROFESSIONAL SCHOLARSHIP FOR SOCIAL WORKERS

Master's degree students enrolled in the part-time foundation year programs are entitled to a 30% discount on tuition if they are employed as full-time social workers or human resource practitioners having direct contact with clients individually or in groups. The nature of their employment must reflect basic social work tasks, objectives and goals. This discount applies only to the first 21 credits of classroom study; it does not include field instruction nor concentration year requirements, and is not available to students having tuition paid through a grant or a subsidy. Students who wish to take advantage of the Social Work discount are required to submit a letter verifying full-time employment. This letter should be sent to Ms. Helen Hancock at the School of Social Work, Barry University. Once the letter is received, the University's Business Office will be notified. All letters requesting the 30% discount must be submitted **prior** to the beginning of each fall semester.

SOCIAL WORK TUITION REDUCTION

A tuition reduction plan, supported by the Florida Department of Education, allows a limited number of Florida residents to enroll at the tuition rate of the State University System. Additional information is available from the School of Social Work.

SCHOLARSHIPS FOR CONCENTRATION YEAR SCHOOL OF SOCIAL WORK STUDENTS

Scholarships are offered annually by the Florida Association of School Social Workers. Three gift scholarships totaling \$600.00 each plus one hundred dollars for travel will be awarded at the annual convention. The application deadline is August 31, 1992. Interested students are urged to apply. The Association is especially interested in encouraging minority students and part-time students who qualify. Application forms and criteria for eligibility can be obtained from Barry University's School of Social Work Office (Library, Room 150) or by calling (305) 899-3900.

Please note that no discount policy will apply to courses with already discounted tuition below the regular rates.

Veterans and Eligible Dependents

The Federal Government has programs which provide financial assistance for veterans and eligible dependents. Information may be obtained from the local or regional Veterans Administration Offices or by calling the Office of Financial Aid at Barry. A student must be fully accepted into a degree-seeking program approved by the State Approving Agency for Veterans Training. Determination of eligibility for benefits will be made by the Veterans Administration.

STANDARDS OF PROGRESS POLICY FOR VETERANS. Satisfactory progress for students receiving Veterans Educational Benefits will be indicated by a Satisfactory Progress Average (SPA) which is a variation of Quality Point Average (QPA). An SPA of 3.0 or greater for graduate students is satisfactory; less than 3.0 is not satisfactory. Any time a student's SPA is not satisfactory, he

or she will be certified, in a probationary status, for only one additional semester. If, at the end of this additional semester, the student's SPA is still below the satisfactory level, the Veterans Administration (VA) will be notified of the unsatisfactory progress and the student's Veterans Educational Benefits will be terminated. A student whose educational benefits have been terminated with the Veterans Administration (VA) for unsatisfactory progress may petition the Registrar of the University for readmission. A University official will discuss with the student the problems relating to the unsatisfactory progress of the student. If the cause of the unsatisfactory progress has been removed, and the student is readmitted, s/he will be recertified for Veterans Educational Benefits.

CREDIT FOR PREVIOUS TRAINING. Students eligible to receive educational benefits from the U.S. Department of Veterans Affairs with previous post-secondary training/experience must request official transcript(s) be sent to Barry University. If the transcript(s) is not received by the end of the first semester, the educational benefits will be terminated until the transcript(s) is received. Should credit(s) be accepted, the VA student's training time and total tuition costs* will be reduced proportionately. The VA and the student will receive a written notice of credits allowed.

*This reduction refers to total costs involved in obtaining the degree. Costs are reduced since credits earned at another institution are applied toward this degree. This does not imply a credit reduction allowance for veterans or eligible dependents.

ACADEMIC INFORMATION

GENERAL

Knowledge of Regulations

Students are responsible for compliance with the regulations of the University and should familiarize themselves with the provisions of this catalog distributed by the Office of Admissions; the Student Handbook, distributed by the Office of Student Services; posted official notes; and official instructions given to students. While Barry University provides academic advising, the responsibility for planning individual programs rests with the students. Students are expected to become familiar with the requirements of the University, of the schools in which they are enrolled, and of their major disciplines.

Policy on Release of Information

Barry makes every endeavor to keep the student's educational records confidential and out of the hands of those who would use them for other than legitimate purposes. All members of the faculty, administration and clerical staff respect confidential information about students which they acquire in the course of their work. At the same time, Barry tries to be flexible enough in its policies not to hinder the student, the institution, or the community in their legitimate pursuits.

Documents submitted by or for students in support of an application for admission or for transfer credit cannot be returned to the student, nor sent elsewhere at his request. In exceptional cases, however, where another transcript is unobtainable, or can be secured only with the greatest difficulty (as is sometimes true with international records), copies may be prepared and released to prevent hardship to the student. The student should present a signed request. Usually a certified copy of what is in the student's file is released. In rare instances the original may be released and the copy retained, with a notation to this effect being placed in the file.

Advisors

Prior to registration, students are assigned faculty advisors. Students and advisors meet periodically to plan programs and evaluate progress. Each semester the registration form with the choice of courses must be approved and signed by the faculty advisor. School deans and department chairs supervise the academic advising program and are available for consultation with students.

Attendance

Students are expected to attend classes and laboratory sessions. At the beginning of the semester, all instructors will define specific requirements for attendance in their classes as they relate to the course grade.

Summer Sessions

Summer sessions are held every year, one during May and June, the other in June and July. A student may earn six (6) credits each session. Requirements for admission to the summer sessions are the same as for the regular academic year. Students matriculated at another college must have written permission from their dean to take specific courses at Barry. No other academic credentials are needed for guest students.

The length of the summer sessions may vary within individual schools. For example, the Andreas School of Business offers only one summer session for their graduate programs, and the School of Education offers summer courses of varying lengths.

Withdrawals

Students withdrawing from the University must do so officially by submitting a written notice of withdrawal to the office of the dean of their respective school. The effective date of withdrawal will be the date on which the notice is received by the dean. Students withdrawing from courses must do so officially by obtaining the course withdrawal form from either their advisor or the Office of the Registrar. The withdrawal form must be signed by the advisor and the dean, and then sent to the Office of the Registrar for final processing. An unauthorized withdrawal results in failure in course(s).

Class Adjustments

Changes to original schedules must be done during the period of schedule adjustment on a "Registration Adjustment" form. Adjustments must be authorized by the student's advisor.

Grade Reports

Grade reports are issued at the end of each term. Any error in designation or omission of course should be reported to the Registrar within two weeks of receipt. Students may not receive a transcript of credits or grade report until their financial accounts have been settled.

Academic Grievance and Appeals

Students who have academic grievances are to follow the normal chain of command in seeking resolution of disagreements. For example, students having problems with faculty members must meet personally with the faculty member concerned. If an agreement cannot be reached, the student may see the department chair and then the appropriate dean. Failing resolution with the dean, an undergraduate student may file a Grade Appeal Form with the Chair of the Committee on Grades. Graduate students may file a final written appeal with the Vice President for Academic Affairs. It should be noted that letter grades (A,B,C,D,F) are the sole province of the course instructor and cannot be

changed to another letter grade by any administrator. A charge of bias or capriciousness in grading must be in writing and must be substantiated by reasonable evidence.

UNDERGRADUATE DISTRIBUTION REQUIREMENTS

Expected Educational Results

Distribution requirements are intended to achieve a wide range of learning outcomes in general studies. Specifically, they are designed to fulfill the following instructional objectives:

- To explore diverse modes of religious experience and expression with emphasis on Judeo-Christian tradition.
- To inquire into classic philosophic concepts in order to gain perspective into human issues, judgment and understanding.
- To demonstrate correct and effective writing.
- To demonstrate competence in organizational patterns, outlining, and research.
- To develop clear and persuasive oral expression.
- To develop an understanding of scientific concepts with emphasis upon scientific observation, scientific methods, and analytical thinking.
- To develop understanding of mathematical concepts and competence in quantitative skills.
- To develop the ability to analyze historical, political, or economic data with emphasis upon interrelatedness of events and processes.
- To examine and understand theoretical and applied aspects underlying individual and group behavior.
- To develop an appreciation and understanding of a genre or period of literature, or to develop skill in a foreign language.
- To develop an appreciation of the fine arts (art, music, theatre) from either a historical or creative viewpoint.

Undergraduate Graduation Requirements

- (1) Satisfactory completion of at least 45 credits of distributed coursework, including 9 credits in each of the following curricular divisions with a minimum of 3 credits in each of the ten subdivisions:
- | | |
|-----------------------------------|-------------|
| 1. Theology and Philosophy | — 9 credits |
| 2. Written and Oral Communication | — 9 credits |
| 3. Science and Mathematics | — 9 credits |
| 4. Social and Behavioral Sciences | — 9 credits |
| 5. Humanities and the Arts | — 9 credits |

Total Distribution Requirements 45 credits

The above distributed coursework must be selected from an approved list of courses from the areas below:

Philosophy: Any Philosophy course
Theology: Any Theology course

Written Communication:	ENG 111,112,207,312,329,361
Oral Communication:	Any Speech course except 105
Fine Arts:	Art, Music, Theatre
Humanities:	English, French, Humanities, Spanish
Mathematics:	MAT 101 or above
Sciences:	Biology, Chemistry, Physics
Behavioral Sciences:	Anthropology, Criminal Justice, Psychology, Sociology
Social Sciences:	Economics, Geography, History, Political Science

- (2) Satisfactory completion of a minimum of 120 credits with a cumulative average of 2.00 (C). Of the total, a minimum of 48 credits must be in courses numbered above 299. The last 30 credits and the majority of the major coursework must be completed at Barry University.
- (3) Individual schools may require satisfactory completion of an integrative experience in the major field(s) during the semester immediately preceding graduation. Students planning to attend graduate school may submit GRE scores to fulfill this requirement. Other examples of integrative experiences are written or oral comprehensive exams, internships, and field work.
- (4) Completion of a major. Specific requirements are given in the introduction to each of the 50 majors, and at least four major plans are available:
 - (a) A single major (40-60 credits)
 - (b) One major (30-40 credits) and one or two minors (20-30 credits in each)
 - (c) Two majors (30-40 credits in each) with or without a minor (20-30 credits)
 - (d) One major and Core Curriculum (60 credits) in the School of Business

Credits in the area of the major or minor beyond the maximum number of credits specified above will not fulfill the 120 credits required for graduation.

All requirements for the degree must be completed before students take part in a graduation ceremony.

Undergraduate Degrees and Majors

In its undergraduate programs, the University offers the degrees of Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Bachelor of Fine Arts (B.F.A.), Bachelor of Science in Nursing (B.S.N.), Bachelor of Professional Studies (B.P.S.), Bachelor of Liberal Studies (B.L.S.), and Bachelor of Science in Technology (B.S.T.).

The University offers over 50 undergraduate majors:

Accounting (B.S.)
 Art (B.F.A.)
 Art Management (B.A.)

Biology (B.S.)
 Major: Professional Track
 (pre-medical, pre-dental, pre-podiatry, pre-veterinary)
 Major: Non-Medical Track
 Marine Biology Track
 Major for the Medical Laboratory Technician
 Physical Therapy Track
 Broadcast Communication (B.A.)
 Cardiovascular Perfusion (Certificate)
 Chemistry (B.S.)
 Pre-Pharmacy
 Communication Arts (B.A.)
 Computer Science (B.S.)
 Criminal Justice (B.S.)
 Cross-Cultural Program
 Cytotechnology (B.S.)
 Diagnostic Medical Ultrasound Technology (B.S.)
 Economics/Finance (B.S.)
 Elementary and Early Childhood (Primary) Education (B.S.)
 Engineering, Dual Degree (B.S.)
 English (B.A.)
 Journalism
 Literature
 Professional Writing
 Secondary Education
 French (B.A.)
 History (B.A.)
 International Studies (B.A.)
 Liberal Studies (B.A.)
 Management (B.S.)
 Management Information Systems (B.S.)
 Marketing (B.S.)
 Mathematical Sciences (B.S.)
 Medical Technology (B.S.)
 Nuclear Medicine Technology (B.S.)
 Nursing (B.S.N.)
 Basic Option
 R.N. to B.S.N./M.S.N. Option
 Accelerated Option
 Two-Year Transfer Option
 L.P.N. to B.S.N. Option
 Occupational Therapy (B.S.)
 Philosophy (B.A.)
 Photography (B.A.)
 Creative
 Biomedical/Forensic
 Physical Education (B.S.)
 Political Science (B.S.)
 Pre-Engineering Program

Pre-Law (B.A.)
Pre-Major (Undeclared)
Professional Studies (B.P.S.)
Psychology (B.S.)
Public Relations (B.A.)
Recreational Diving Management (B.S.)
Sociology (B.S.)
Spanish (B.A.)
Sport Management (B.S.)
Sports Medicine (B.S.)
 Athletic Training
 Exercise Science
Technology (B.S.T.)
Telecommunication (B.S.)
Theatre (B.A.)
Theatre Management (B.A.)
Theology (B.A.)

Change of Major and/or School

Students wishing to change their academic major or to add another major to their academic program, or to change schools, must submit a Request for Change of Major and/or School form with the office of the dean of the school in which the student is enrolled.

Since admission requirements vary from school to school, graduate students are asked to initiate a change of major in the Office of Graduate Admissions.

Undergraduate Minors

Minor concentrations are available in specific subject areas, as well as the following interdisciplinary areas: Peace Studies and Women's Studies.

Additional courses are offered in the following areas of study:

- | | |
|-----------------|------------------------------------|
| 1. Anthropology | 5. Physics |
| 2. Geography | 6. Secondary Teacher Certification |
| 3. Humanities | 7. Speech |
| 4. Nutrition | |

A number of courses and programs at Barry University provide for an interdisciplinary approach to education. Examples include Biomedical Ethics, Humanities, Liberal Studies, Pre-Law, and International Studies.

Undergraduate Student Classification and Status

An undergraduate student's classification is determined by the number of credits earned as follows:

Freshman	1 to 29 credits earned
Sophomore	30 to 59 credits earned
Junior	60 to 89 credits earned
Senior	90 credits or above earned

An undergraduate student's status is determined by the number of credit hours attempted in a given semester/term as follows:

Full-time	12 credits or above
Part-time	11 credits or below

DECLARATION OF MAJOR

All students, including transfers, must declare a major at the completion of 60 credit hours.

CLASS LOAD

The recommended undergraduate academic load is 15-17 credits during a regular semester and 6 credits during a summer session. To attempt more than 18 or 6 credits, respectively, requires the recommendation of the faculty advisor, written approval of the appropriate dean, and a 3.00 (B) average.

DEPARTMENTAL PROFICIENCY EXAMINATIONS

Students who believe that they are qualified in any course offered by the University and are interested in placement and/or credit may petition to take a departmental examination covering the course, with the approval of the Dean, providing such an examination is offered. These examinations do not satisfy residency requirements. A fee of \$20.00 per credit must be paid to cover administrative costs.

INDEPENDENT STUDY

Independent study may be an option for degree-seeking students in certain academic areas. Students must have plans for the research project approved by the academic advisor, the faculty member who will supervise the project, and the Dean. Students may register for no more than one such project each semester. Regular tuition charges are applied to independent studies.

TUTORIAL

In unusual circumstances, an academic dean may approve the offering of a course listed in the catalog on a one-to-one (tutorial) basis. Regular tuition charges apply to coursework taken as a tutorial.

SPECIAL TOPICS

Contents of Special Topics classes will be determined by the individual departments as requested by faculty and/or students to fill specified needs or interests. Special Topics are designated by the course number 300.

THE GORDON RULE

Students who plan to transfer to a college or university in the Florida State system should fulfill the Gordon Rule relative to writing and math requirements 1) Four courses (12 credits) that each include a minimum of 6,000 written words 2) Two math courses (6 credits) at or above the level of college algebra.

GRADING SYSTEM

Barry's undergraduate grade and examination, follows:

Superior achievement A	4.00 honor points per credit
Above average B	3.00 honor points per credit
Average C	2.00 honor points per credit
Below Average D	1.00 honor points per credit
Failure F	No honor points credit
CR Credit	awarded for achievement at or above the D level; no honor points; not computed in GPA; equivalent to passing grade, A-D.
Progress PR	No credit awarded; it indicates progress but does not mean satisfactory completion; not computed in GPA.
No Credit NC	No credit awarded; achievement below D level; not computed in GPA; equivalent to F grade.
Incomplete I	An incomplete grade must be made up within the semester following its receipt. It is the student's responsibility to arrange with the instructor for satisfactory completion of course requirements. Incomplete grades assigned in the semester of graduation will result in postponement of graduation. Upon completion of the course, the student must re-apply for the next graduation.
Withdrawn W	Granted to students who officially withdraw before the last five (5) weeks of a regular semester or the last two (2) weeks of the summer session. If a student officially withdraws within the last five weeks prior to final examinations of a regular semester and within the last two weeks of the summer session, a grade penalty is earned. Grade penalty means an F grade and the credits are computed in the grade point average.

CHANGES IN WITHDRAWAL POLICY FOR FULL SEMESTER CLASS

Weeks 2nd week to the 5th	=	W
6th week to the 10th	=	WP or WF
11th week to the 15th	=	F

CREDIT/NO CREDIT

Students may select one course per semester, in addition to Instructional Activities in Sports and Recreation courses, subject to the usual maximum load limitations, for which the official record of performance shall indicate only whether or not course requirements are completed satisfactorily. A student on academic probation may not elect the CR/NC option.

This option may not apply to courses in the student's major/minor or to courses required for professional preparation. The student must elect the option at the time of registration; any changes must be made within the regularly-scheduled period for class adjustments. A student may not repeat a course under the CR/NC option for which the previously earned grade was other than W.

A maximum of twenty-four (24) credits, in addition to physical education courses, may be taken under the CR/NC option (CLEP and Proficiency Examinations excluded). Credits earned under this option are applicable to the number of credits needed to fulfill degree requirements. Students must enroll for the Credit/No Credit option in all physical education courses; no letter grades are issued.

GOOD STANDING — PROBATION — SUSPENSION

A student is in Good Academic Standing if the cumulative grade point average (GPA) is 2.00 or above.

Students who have not achieved a cumulative GPA of 2.00 at the completion of the Spring semester will be placed on probation. A student may not remain on probation for longer than one calendar year. A student remaining on probation for longer than one calendar year is subject to suspension.

Students who have not achieved a cumulative GPA of 1.00 at the completion of the Spring semester will be suspended.

A student who has been suspended for academic reasons generally may not petition the Registrar for readmission until one year has elapsed. The Registrar's Office must have the approval of the dean of the appropriate school to readmit a student following suspension.

A student suspended for any reason will be subject to those criteria and guidelines specified in the university catalog in effect at the time of readmission.

OFF-CAMPUS ENROLLMENT/ TRANSFER OF CREDITS

Barry University students who wish to take courses at another college or university for the purpose of transferring the credits back to Barry must obtain prior written approval from the appropriate School Dean. Students who have attained junior status (60 credits) may not transfer credits from a community college or a junior college. Once a student is enrolled as a degree-seeking student at Barry, no more than six (6) credits may be transferred toward a Barry degree. Courses taken through consortia are resident credits and are not counted as transfer credits. Only credits are transferred, not grades or grade point averages.

GRADUATE CREDIT FOR QUALIFIED UNDERGRADUATE SENIORS

Undergraduate students at the senior level with a high academic average in their field may be authorized to enroll in six graduate credits while completing undergraduate requirements. Such course work will require the written approval of the Dean. This approval does not presume automatic admission into a graduate program. Undergraduate students who wish to enroll in graduate courses must follow the steps below:

- (1) Have a faculty advisor certify to the Dean that all undergraduate graduation requirements will be met.
- (2) Have the Dean file a letter with the Registrar prior to registration stating that the student will meet all requirements for a bachelor's degree and that the graduate credits (3 or 6) are over and above all undergraduate requirements.

REPEAT COURSES

With prior written authorization from the appropriate Advisor and Dean, a student may repeat a course to improve the cumulative grade point average.

If a student has an F and repeats the course and receives an A, only the A counts. Quality points and credits attempted and earned for the second attempt are counted in lieu of those earned for the initial attempt. Though both attempts remain part of the student's permanent record, the cumulative grade point average will reflect only the grade earned on the second attempt. The Credit/No Credit Option cannot be exercised during the second attempt to remove a previous letter grade.

DEAN'S LIST

To be eligible for the Dean's List, students must have achieved a grade point average of 3.50 taking at least twelve credits on a graded basis with no incomplete grades or grade lower than a C.

PRESIDENT'S LIST

To be eligible for the President's List, students must have achieved a grade point average of 4.00 taking at least twelve credits on a graded basis with no incomplete grades.

GRADUATING WITH HONORS

In order to qualify for graduation with distinction, a student must have taken a minimum of 56 credit hours at Barry carrying letter grades of A,B,C, or D, and must have maintained a cumulative grade point average of 3.50 or above. Only courses taken at Barry are computed in determining honors. The GPA will be rounded using the third decimal place.

For distinction, CUM LAUDE, a cumulative grade point average of 3.50 is required; for MAGNA CUM LAUDE, 3.70; and for SUMMA CUM LAUDE, 3.90.

ROTC

Barry University students may enroll in Army or Air Force ROTC courses through cross-registration with the University of Miami. Eligibility for registration is determined by the ROTC Department at the University of Miami, in accordance with appropriate Armed Service Regulations. Academic credit is awarded by Barry, although an administrative fee may be charged by the ROTC Department at the University of Miami. Uniforms, textbooks, and equipment essential to the ROTC Program are furnished by the U.S. government.

ROTC scholarships are available from both the Army and the Air Force and cover anywhere from one to three years of college. Scholarships pay for the cadets' tuition, fees, and books, and provide \$100.00 per month spending money.

Further information about the ROTC Program is available through the Office of Admissions.

HONORS PROGRAM

Purpose of the Program

The Barry University undergraduate Honors Program is designed to add both breadth and depth to the educational experience of students in the Honors program. The Honors curriculum offers the intellectually curious student an opportunity to analyze problems, synthesize theories and actions, evaluate issues facing our complex society and develop leadership skills. The program gives superior students the opportunity to interact with faculty members whose knowledge and expertise, as well as their own willingness to explore non-traditional academic avenues, will enable these students to challenge the frontiers of their ability.

Qualification

Freshmen or transfer students who have a minimum combined SAT score of 1000, a minimum GPA of 3.50 (in high school or university, respectively), and/or obtain the approval of their academic advisors in consultation with the Honors Program Director are invited to participate in the Barry University Honors Program.

Students who are Presidential Scholars or Focus on Excellence scholarship recipients are strongly encouraged to participate in the program, provided they meet the standards set.

Structure

Students are expected to enroll in the Honors Program during each of their four years at Barry University, with the exceptions noted under "Requirements."

Qualified freshman students enroll in a freshman seminar during both fall and spring semesters. These seminars are team-taught, interdisciplinary explorations of critical issues. The intellectual environment permits students to focus on the responsibilities and challenges of the program, and helps to determine a student's willingness to commit him/herself to the entire program.

Sophomore students take special topic honors courses open only to honors students. These courses address a subject or area of concern within a traditional academic discipline.

Junior and Senior students enroll for "In-Course Honors" in regular university classes in which they undertake projects relating to those courses under the guidance of the faculty member. A thesis, research study or project is expected to emanate from one of these courses.

By giving honors students a campus presence and by encouraging the cohesiveness of the group that enters as freshmen, the University hopes to foster a group identification and intellectual camaraderie that will endure long beyond their educational experience at Barry University.

Requirements

To receive the designation of Honors Program participation on the final transcript, honors students must fulfill the following requirements:

- (1) A minimum of 24 credit hours in honors courses which, except for transfer students, must include the Honors Seminar sequence and two special topic honors courses;
- (2) A minimum of 12 credit hours in honors courses from outside the area of the major;
- (3) While the demands of particular academic programs may require individual adjustments, the suggested sequence for Honors courses shall be:
 - (a) Freshman Year—HON 101 and HON 102 (6 credit hours) An interdisciplinary Honors Seminar to be team-taught by two faculty members. The course sequence will fulfill an Honors Program requirement (see 1) and will also count towards general graduation requirements as elective credits;
 - (b) Sophomore Year—Two special-topic honors courses (6 credit hours) Each year faculty members will be invited to submit course proposals for special topic Honors courses from which the Honors Program Council will select a certain number to be offered. The special-topic honors courses will be given under the respective department's course code so that the courses may fulfill not only the Honors Program requirements but also, in some cases, part of a student's distribution requirements or major/minor requirements.
 - (c) Junior Year—Two in-course honors courses (6 credit hours) Students will work with a faculty member on a special Honors Project/Assignment within the structure of a regular course offering. Honors students registering for in-course Honors must clearly mark with an "H" the special code column when registering for the course. In-course Honors will be given under the respective department's code so that the courses may fulfill not only the Honors Program requirements but also in some cases, part of a student's distribution requirements or major/minor requirements.

- (d) Senior Year—Two in-course honors courses (6 credit hours) Will contain a supervised, original research component culminating with the Senior Honors Thesis Research Project which is a requirement for graduation from the Honors Program and which must be approved by the Honors Program Council. A committee will oversee the thesis/project: the faculty director, a second faculty member from the same discipline, and a faculty member of the Honors Program council from the appropriate school or division.
- (4) A maximum of 12 transfer credit hours in honors courses will be accepted towards graduation from the Barry University Honors Program from students transferring from Honors Programs in other colleges or universities.
- (5) Honor students can continue in the program if they maintain a minimum GPA of 3.25 and/or are recommended by their advisor and chairperson.

Students interested in the Honors Program can contact the Director, George J. Cvejanovich, Ph.D.

BEC PROGRAM

The BEC Program (Barry Early Credit), a cooperative program between Barry University and selected high schools, permits high school seniors and juniors to take college courses in their own high school at low cost. Courses are taught by carefully selected, qualified high school teachers who are trained, supervised, and evaluated by Barry faculty.

The BEC Program presently offers courses in biology, chemistry, computer science, English, French, history, humanities, mathematics, political science, and Spanish.

CROSS CULTURAL PROGRAM

Under the Division of Academic and Instructional Services, Barry University offers a unique Cross Cultural Program that incorporates language and general education requirements. This program presumes a minimum preparation of two years of English as well as the usual conditions for University admission. Students in the program have freshman status and earn college credit.

ENTRY PROGRAM

The Entry Program provides individualized instruction in basic English and Math skills, making it possible for the students to achieve their educational goals. Learning experiences are developed with consideration for individual learning styles, aptitude, prior knowledge and performance levels in subject matter and skills. *All course work in the Entry Program is college level and most is included within the usual 120 credit hours required for graduation.* Students in the Entry Program are granted regular admission into the University's Division of Academic and Instructional Services and are prepared after successful completion of the program to continue in their selected major.

The Entry Program offers the opportunity to develop college-level skills in communications and math, necessary to ensure success in meeting the educational demands of the University. This goal is achieved not only through the course design but also through the coordination of the various components of the program.

The Entry Program is offered in a fifteen-week session that offers selected electives as well as Composition, Math, Critical Thinking and Orientation. English and Math placement depends on SAT scores and diagnostic testing.

THE PRE-MAJOR (UNDECLARED)

Information about the undeclared major is listed under Academic and Instructional Services.

CAMPUS INTERCHANGE PROGRAM

Barry University is part of a campus interchange program involving three fully-accredited colleges located in different geographic areas across the United States. A student may elect to spend a semester at any of the participating colleges any time from the second semester of the sophomore year until the last semester prior to receiving a degree from Barry. Tuition is paid to the home college; other expenses (including room and board, special fees, etc.) are paid on the campus where they are incurred. Students participating in this program will need to coordinate financial aid as well as academic programs. Information on campus interchange is available at the office of the School Dean.

Barry University has entered into this agreement with St. Thomas Aquinas College, Sparkhill, New York; Dominican College, San Rafael, California; and Aquinas College, Grand Rapids, Michigan.

SECOND BACHELOR'S DEGREES

Students who have earned a bachelor's degree from Barry University or from another accredited institution may qualify for a second bachelor's degree under the following conditions:

- (1) formal notification must be filed with the Office of the Registrar;
- (2) the student must fulfill all admissions, prerequisite and course requirements in the second degree program;
- (3) at least thirty (30) semester hours in residence of upper-level credit over and above the requirements for the first bachelor's degree must be completed;
- (4) the student must achieve a cumulative grade point average of 2.00 or higher with 2.00 or higher in the second major;
- (5) the same degree from Barry University may not be awarded twice.

GRADUATE DEGREE PROGRAMS

The School of Arts and Sciences offers the Master of Arts (M.A.) degree in Communication, English, Health Care Ministry, Pastoral Ministry for Hispanics, Theology, and University Studies; the Master of Science (M.S.) degree is offered in Clinical Psychology and Telecommunication Management. The Andreas School of Business offers the Master of Business Administration (M.B.A.), the Executive Master of Business Administration (E.M.B.A.), the Master of Professional Accountancy (M.P.A.) and the Master of Science in Management Information Systems (M.S. in M.I.S.) degrees.

The School of Education offers the Master of Science (M.S.) degree in Computer Education, Educational Leadership, Elementary Education, Exceptional Student Education, Guidance and Counseling, Human Resources Development and Administration, Mental Health Counseling, Montessori Elementary Education, Primary Education, Reading, and Rehabilitation Counseling. The Specialist in Education Degree (Ed.S.) is granted in Reading and in Counseling; and the Ph.D. is offered in Administration and Leadership with specializations in Counseling and Educational Leadership.

The School of Natural and Health Sciences offers the Master of Science (M.S.) degree in Biology, in Biomedical Sciences and in Physical Therapy.

The Doctor of Podiatric Medicine (D.P.M.) degree is offered through the School of Podiatric Medicine.

The School of Nursing offers the Master of Science in Nursing (M.S.N.) degree in Nursing Administration, Nursing Education, Primary Care Nurse Practitioner, M.S.N. Completion Program for ARNP's, and a dual degree option, M.S.N.-M.B.A.

The School of Social Work offers the Master of Social Work (M.S.W.) degree and the Doctor of Philosophy in Social Work (Ph.D.).

Graduate class load full-time is 9 credit hours. Part-time class load may be 1-8 credit hours.

GRADUATE REQUIREMENTS FOR GRADUATION

Students expecting to graduate at the end of any semester must:

- (1) Complete all degree requirements specified for the appropriate degree program.
- (2) File an "Application for Degree" form with the Office of the Registrar no later than the date specified in the Academic Calendar for the semester in which they expect to graduate.

GRADUATE GRADING SYSTEM

Graduate students are expected to maintain a B average.

Superior achievement	A	4.0 honor points per credit
Average	B	3.0 honor points per credit
Below Average	C	2.0 honor points per credit
*Pass	D	1.0 honor points per credit

Failure	F	No credit
Credit	CR	Credit but no honor points
IP	In Progress	
No Credit	NC	No credit
**Incomplete	I	A grade not reported as completed within the time required by the school becomes an F.
Withdrew	W	Granted to students who officially withdraw before the last five (5) weeks of a regular semester or the last two (2) weeks of the summer sessions. If a student officially withdraws within the last five weeks prior to final examinations of regular semesters and within the last two weeks of the summer sessions, an F is earned, which is computed in the grade point average. To be in good academic standing a cumulative GPA of at least 3.0 is required.

* The grade of "D" is not used in the School of Social Work or the School of Podiatric Medicine.

** In English, Theology and Business Administration, a grade not reported as completed within one semester becomes an "F."

School of Podiatric Medicine

The official grading policy of the School of Podiatric Medicine differs from the above, and may be found in its entirety under that heading.

ACADEMIC AND INSTRUCTIONAL SERVICES

M. Eileen McDonough, Ed.D., Dean

The Division of Academic and Instructional Services advises students in the **Pre-Major (Undeclared)** major as well as the **Cross Cultural Program**, and the **Entry Program**. This office is also responsible for the Barry Early Credit (BEC) Program, the Study Abroad Program, the Summer Scholars Program, the CLAST Test, and the academic eligibility of student athletes.

CROSS CULTURAL PROGRAM

The courses are bi-cultural in content and include credits in English, social sciences, and philosophy. After successful completion of the Program, students are prepared to continue in their selected majors.

The English courses for international students are not English-as-a-second language courses. They are college-level classes in reading and writing designed to give non-native students language skills equivalent to those of North American freshmen. Students receive individual attention as well as tutoring sessions when needed.

While learning the language, students will fulfill graduation requirements. Courses will be taught in English, but they will introduce the student to the culture and values of the United States.

After their first year, students will have earned credits in fulfillment of graduation requirements and will have attained the language proficiency to continue in their chosen major. Students admitted to the University under the Cross Cultural Program will be referred to an appropriate departmental advisor following successful completion of ENG 111, ENG 112, college-level math, and the achievement of a minimum GPA of 2.00.

This flexible Program can be adapted to needs of individual students.

The courses are shown below:

ENG 103	Basic English: Composition
ENG 111	Freshman Composition and Literature
ENG 112	Techniques of Research
MATH	Mathematics (by placement score)
PHI 122/123	Thought of Spain and the Americas (I/II)
ORI 100	Freshman Seminar
ENG 105	American Phonetics

All courses will be taught in English.

ENTRY PROGRAM

The Entry Program offers the opportunity to develop the necessary college-level skills in communications and math, to ensure success in meeting the educational demands of the University. This goal is achieved not only through the course design but also through the coordination of the various components of the program.

The Entry Program offers selected electives as well as composition, math, orientation and speech. English and math placement depends on SAT scores and diagnostic testing. The courses of study in either case are shown below:

ENG 103	Basic English: Composition
ENG 111	Freshman Composition and Literature
ENG 112	Techniques of Research
MATH	Mathematics (by placement score)
ORI 100	Freshman Seminar
PHI 120	Critical Thinking
SPEECH	Speech and/or Elective

Dr. M. Eileen McDonough coordinates the Entry Program and serves as academic advisor to students in the Program. Students admitted to the University under the Entry Program will be referred to an appropriate departmental advisor following successful completion of ENG 111, ENG 112, college-level math, and the achievement of a minimum GPA of 2.00.

ORIENTATION

Students frequently need assistance with transitional adjustments both at the beginning of their college experiences and as they prepare to assume responsibilities beyond undergraduate school.

Academic and Instructional Services offers two courses to encourage self direction and self improvement during periods that require careful management.

Course Descriptions — Orientation Prefix: ORI

100 Freshman Seminar (1)

A special one-semester course open to all freshman and new students. Goals of the course are to help students adjust to the University, develop positive attitudes about themselves and the learning process while learning skills essential for academic and personal success. (Elective)

300 Senior Transition (1)

A special one-semester course open to all second-semester junior or senior students. The goals of the course are to begin the adjustment process from the undergraduate academic life to graduate school or the world of work. (Elective)

STUDY ABROAD PROGRAMS

Barry University offers a Summer Program at Manchester College of Oxford University. Oxford is one of the world's oldest universities, famous for its tutor-student method of individualized instruction. Courses are taught by Barry and Oxford faculty on site at Manchester College, and some classes are supplemented by Oxford faculty lectures and cultural outings. Three courses are offered each summer. Students can choose a maximum of two. The aca-

demographic program seeks to provide a balance between supervised study, cultural experiences, and recreation.

A second Study Abroad Program is offered in Europe. Courses offered include international business and economics. These courses are based on classroom lectures as well as a rich schedule of professional visits, including on-site guest lectures. The program in Summer, 1992 included travel to Rome, Munich, Budapest, Vienna and Milan.

The Director of Study Abroad is Dr. M. Eileen McDonough, Dean, Academic and Instructional Services.

PRE-MAJOR (UNDECLARED)

Many students entering the University have chosen a major. However, most students have not. Research indicates that over 60% of all college freshmen change their minds about their majors and their career aspirations at least once during their undergraduate years.

A liberal education is designed to provide the student with a broad general knowledge that can be channelled in many directions. Its primary purpose is to assist in building and broadening certain fundamental skills. These skills should include above all, the ability to write intelligently, to analyze and solve problems, to digest and understand a diverse range of data, and to communicate effectively. Acquisition of these skills is critical to academic programs. These skills will also arm the student with the ability to understand and assume an active role in our complex society. Finally, the skills of a liberally educated individual will provide the most valuable commodity in our ever-changing job market flexibility. In the short time the student is pursuing his/her college education, some jobs will cease to exist and others will be created by technological and economic changes. The student will be able to express himself or herself clearly and concisely through both written and verbal mediums and be able to identify problems and to determine solutions logically and creatively. As a liberal arts graduate, the student will be able to convert these skills into many viable jobs.

First these skills must be acquired, and therein lies the importance of good program planning. An academic schedule is as strong or weak, as challenging or repetitive as the student makes it. Freshman year is begun by concentrating on basic skills – English composition, math or computer science or logic, and foreign language. Verbal and analytical literacy are threaded through the entire four year program by taking core requirements: Philosophy, history, physical and biological sciences. The student should not be afraid to experiment with new areas of knowledge simply because of lack of exposure. The student should talk to the faculty, talk to academic advisors, and draw from the richness of his or her educational and personal experiences. Descriptions and course offerings of each department appear in the Catalog. An informed decision should be made about each course, each semester. A career and academic major will come into focus.

BARRY EARLY CREDIT PROGRAM

Barry Early Credit (BEC) Program allows motivate high school students, with proven exceptional academic abilities, to earn college level credits in designated courses taught in the students' secondary schools. While still enrolled in high school, BEC students are admitted to Barry University as part-time, non-degree-seeking students.

To be eligible to apply for the Program, a student must have a cumulative "B" average (3.00) and must complete an application form. A transcript and a recommendation form from the high school must be sent to Barry University.

BEC students are intellectually challenged during the final stage of high school by college-level material. By completing some college requirements, these students move into high level courses after they matriculate in college.

The Program presently offers courses in English, humanities, political science, mathematics, chemistry, biology, French, Spanish, music, history, theology, philosophy and computer science.

SUMMER SCHOLARS PROGRAM

The Summer Scholars Program brings high school scholars to the campus during the second summer term. Students participate in course-work designed to challenge and enrich their intellectual skills. Group activities are designed to have a direct impact on the learning enrichment of the participants.

LANGUAGE INSTITUTE FOR ENGLISH

Barry University offers an intensive and comprehensive English language program with the Language Institute for English, a division of Berlitz International. The Program is offered in four week sessions with nine basic levels of instruction. Monroe Ridless is the Director of the LIFE Program.

ACADEMIC COMPUTING CENTER

John M. Beaubrun, M.B.A., Director

The Academic Computing Center is housed in the Garner Building and provides computer hardware and software services to the University community.

The Center has a VAX 6310 minicomputer running VMS and a number of DEC systems running ULTRIX. These computers are connected to Academic Computing's campus-wide network "BARRYNET". "BARRYNET" also provides access to other computers on campus, such as the Library and the administrative system. It is the mission and purpose of the Center to: provide the user community with the highest level of service and support; provide the University with a strong competitive edge in Academic Information Systems Technology; direct, develop, manage and support the computer and information systems needs of the academic units of the University.

SERVICES

OPEN LAB — GARNER ROOM 247

The main lab is available to all students and faculty of the University and provides access to more than 50 applications packages and 5 operating systems. The lab is equipped with eighty microcomputers and twenty terminals, all networked to the minicomputer. The microcomputers consist of a mix of Macintosh, IBM and Zenith 286, 386 and 8088 machines. The Lab maintains a laser printer and a number of dot matrix printers. Lab hours are as follows:

Monday – Friday	8:00 am – 12:00 am
Saturday	9:00 am – 6:00 pm
Sunday	2:00 pm – 12:00 am

Computer Lab Voice Number – (305) 899-3601

DIAL-UP SERVICES

The Center provides six dial-up lines 24 hours a day for students and faculty who wish to access minicomputer applications from home. This allows users access to applications for programming, statistics and electronic mail, just to name a few.

Computer Lab Modem Number – (305) 899-3636

BITNET / INTERNET / ELECTRONIC MAIL

Barry is a member of BITNET, giving the University an electronic address "@BARRYU" which is now registered in over 3,000 computers across more than forty-seven countries worldwide. Faculty members, students, and staff are provided with the ability to send and receive electronic mail, magazines, and files to and from these sites.

Barry University is also on the Internet. Users have access to a number of regional and national automated libraries and computers at other universities. The internet address is "@Buvax.Barry.EDU".

In keeping with the long term plan to provide full computing resources to all academic buildings, extensive expansion work is being done on the network.

CLASSROOM LABS

For teaching, there are six networked classrooms with twenty-five computers and a networked printer in each room. These rooms are used exclusively by classes requiring hands-on computer access. The teacher's workstation is equipped with a printer and an overhead projection system connected to the computer.

FACULTY LAB

Academic Computing provides a state of the art computer lab strictly for the use of faculty. The faculty lab, Room 245, is located adjacent to the main computer lab on the second floor of the Garner Building. The lab is equipped with the following hardware: IBM and Zenith computers, various Macintosh computers, IBM and Apple laser printers, a CD ROM, an HP flat-bed scanner and a Vax terminal.

EDUCATIONAL DISCOUNTS FOR HARDWARE AND SOFTWARE

Academic Computing provides support in the purchase of computer hardware and software for faculty and students at deeply reduced educational prices. For purchasing information, contact one of the Computer Lab Supervisors.

COMPUTER APPLICATIONS TRAINING

Thomas Ayers, M.S., Instructor

Academic Computing provides software applications training to students, faculty and staff. These courses are electives and prerequisites to various courses throughout the University. CAT 110 is a requirement for any student who wishes to gain access to the computer lab. Acquired knowledge in a particular application can be demonstrated through examination. The current software application courses offered are as follows:

Course Descriptions — Computing Prefix: CAT

110 Wordprocessing (1)

This course is designed to provide the student with a basic proficiency in the use of a wordprocessing software. The course will provide the necessary introductory level training for students who have never used microcomputers and/or wordprocessing software, it is a hands on lab course. No prerequisites.

115 Advanced WordPerfect IBM/Mac (1)

This course is designed to provide the student with advanced features of WordPerfect wordprocessing. The course will provide the necessary level of training to prepare high quality documents; it is a hands on lab course. Prerequisite: CAT 110.

120 Electronic Spreadsheets (1)

This course is designed to provide the student with a basic proficiency in the use of electronic spreadsheet software. The course will provide the necessary introductory level training for students who have never used microcomputers and/or spreadsheet software; it is a hands on lab course. No prerequisites.

130 Database Applications (1)

This course is designed to provide the student with a basic proficiency in database applications software. The course will provide the necessary introductory level training for students who have never used microcomputers and/or database applications software; it is a hands on lab course. No prerequisites.

140 PageMaker On The Mac (1)

This course is designed to provide the student with a basic understanding of desktop publishing using PageMaker. The course will provide the necessary level of training to prepare high quality desktop publishing documents; it is a hands on lab course. No prerequisites.

150 Hypercard On The Mac (1)

This course is designed to provide the student with a basic understanding of hypermedia applications using HyperCard. The course will provide the necessary level of training to prepare HyperMedia stacks; it is a hands on lab course. No prerequisites.

160

This course is designed to provide the student with a basic understanding of Computer Graphics. The course will provide the necessary level of training to prepare graphic presentations; it is a hands-on lab course. Prerequisite: CAT 110.

180 Application Software Tools (3)

This course is designed to provide the student with a basic proficiency in the use of microcomputer based WordPerfect, Lotus 1-2-3 and dBase III Plus. The course will provide the necessary introductory level training for students who have never used microcomputers and/or applications software; it is a hands on lab course. No prerequisites.

199 Special Topics IBM/Mac (1-3)

Course content to be determined each semester by Academic Computing as requested by faculty, staff and/or students to fill specific training needs or interest.

FRANK J. ROONEY SCHOOL OF ADULT AND CONTINUING EDUCATION

Sister Loretta Mulry, IHM, Ed.D., Dean
Patricia D. LaBahn, Ph.D., Associate Dean
Norman Fenton, Ph.D., Associate Dean

The purpose of the Frank J. Rooney School of Adult and Continuing Education is to provide adult students with undergraduate credit and non-credit programs which recognize educational needs of the adult learner and promote lifelong learning. These degree and certificate programs are designed for adult men and women who, because of family and work responsibilities, are unable to attend class in a traditional manner or at traditional times. The School seeks to attract diverse student body and to show a caring attitude toward each student regardless of individual backgrounds. The same quality educational programs upon which Barry University's reputation is founded are made available for these students on the main and off campus locations in South and Central Florida. Recognizing the breadth of experiences of adults, course offerings afford opportunities for further exploration of truth within the Judeo-Christian and Dominican traditions.

Students must meet the same graduation requirements as other Barry University students. However, they may choose from a number of learning options which allow for greater flexibility in program planning and scheduling. Courses are taught by faculty who possess both academic and professional expertise which is complemented by their understanding of adult learners.

Adult students often have attained knowledge outside of the classroom that is appropriate for academic credit. The School of Adult and Continuing Education grants such credit toward an undergraduate degree if students can demonstrate college-level learning. Each student works with an academic advisor who assists the student in preparing for the assessment of experiential learning.

In accordance with the Mission Statement of the University, students are encouraged to continue to participate in community service and to assume leadership roles and to effect social change.

DEGREE PROGRAMS

The following programs are offered to adult students through the School of Adult and Continuing Education:

- Bachelor of Professional Studies (B.P.S.)
- Bachelor of Liberal Studies (B.L.S.)
- Bachelor of Science in Technology (B.S.T.)
- Bachelor of Science (B.S.) with majors in:
 - Accounting
 - Management
 - Management Information Systems

ADMISSION INFORMATION

Application for admission to Barry University's School of Adult and Continuing Education is a process separate from the registration process and must be completed prior to course registration.

Students intending to pursue the Bachelor of Professional Studies degree or Bachelor of Liberal Studies degree must submit a portfolio as part of the degree requirements. Students must have a minimum of five years of full-time professional work experience upon submission of the portfolio.

ADMISSION REQUIREMENTS

Requirements and Procedures for Full Acceptance:

1. Interview with an academic advisor;
2. Submit a completed application form with appropriate application fee;
3. Provide two official transcripts of credits taken at all colleges attended and, if applicable, CLEP, DANTES transcripts, or, if less than 12 hours of college credit has been earned, provide two official transcripts indicating graduation from high school or G.E.D. and
4. Achieve a 2.00 cumulative grade point average or better in all previous academic work.

Two official transcripts must be mailed directly from each issuing institution to Barry University's School of Adult and Continuing Education.

Criteria for Provisional Acceptance

Provisional acceptance is extended to those whose transcripts reflect less than a 2.00 cumulative grade point average at the time of application. A student enrolling under this option is limited to twelve credits in which a minimum cumulative grade point average of 2.00 must be achieved at Barry University. Upon successful completion of 12 credits with a cumulative grade point average of at least 2.0 at Barry, full acceptance will be granted.

Those who are unable to complete the admission requirements (See Requirements and Procedures for Full Acceptance) at the time of application are limited to twelve credit hours at Barry University. To enroll in additional coursework, the student must submit all required credentials before subsequent enrollment.

BACHELOR OF PROFESSIONAL STUDIES (B.P.S)

The Bachelor of Professional Studies (B.P.S.) degree program is designed for students who choose to pursue a business-oriented program of study and to earn credit for college-level learning acquired through professional work experiences.

The degree is flexible in its design and thereby responds to diverse student interests and needs. The student may choose to aim for breadth of knowledge through the business curriculum or to focus on an area of concentration. Students may select an area of concentration in one of the following: Business, Management Information Systems, Human Resource Management, and Telecommunication.

Students pursuing the Bachelor of Professional Studies degree must meet Barry University's distribution requirement and must select elective coursework in their chosen business field.

Students pursuing the Bachelor of Professional Studies degree must submit a portfolio as part of the degree requirement. The portfolio provides the mechanism for translating the documented learning experiences into Barry University credit.

The portfolio is comprised of four major components: a chronological resume, a learning assessment worksheet, an autobiographical work history and documentation.

A portfolio seminar must be attended in the first or second term of enrollment.

The portfolio may be presented

1. upon successful completion of 15 credit hours at Barry University, and
2. when the student can document a minimum of five years of full-time professional work experience.

The portfolio must be submitted at least 20 weeks prior to the student's anticipated date of degree completion. The portfolio administrative fee is due upon submission of the portfolio.

Students must show college-level competence in one or more of the following categories in order to receive credit for professional work experience or community service: supervision, management, research, communication, interpersonal relations, creativity, and critical thinking.

Normally the portfolio will be assessed by the Portfolio Evaluation Committee eight to ten weeks after it is submitted. Upon evaluation, the student will be notified of the credits awarded.

Distribution Requirements	45 credits
Experiential Learning	up to 45 credits
Electives	Variable
(Students may select courses in any business related area.)	
Area of Concentration (optional)	21 credits

Students who choose to earn an area of concentration will select designated elective courses in the following areas:

Business
Legal Studies
Management Information Systems
Human Resource Management
Telecommunication

University policies regarding an area of concentration are as follows:

1. An area of concentration consists of no less than 21 credit hours of appropriate and approved course work.
2. 15 of the 21 credit hours must be taken through Barry University and bear Barry University course prefixes and numbers.
3. 15 of the 21 credit hours must be in upper division courses, namely, 300 and 400 level courses.
4. Only one Special Topic may be included in the 21 credit hours. The Special Topic must be directly related by name and course content to the area of concentration.
5. The course title, prefix, and number will be the determinant for course work in an area of concentration, e.g., MKT 306 "Marketing Concepts and Applications."
6. Pre-requisites must be honored.
7. Only elective courses may be applied toward an area of concentration.

BACHELOR OF LIBERAL STUDIES (B.L.S.)

The Bachelor of Liberal Studies degree program is designed for students who choose to pursue a liberal arts program of study and to earn college-level credit for learning acquired through professional work experience.

Students pursuing the Bachelor of Liberal Studies degree must submit a portfolio as part of the degree requirement. The portfolio provides the mechanism for translating learning experiences acquired through documented professional experiences into Barry University credit.

The portfolio is comprised of four major components: a chronological resume, a learning assessment worksheet, an autobiographical work history, and documentation.

A portfolio seminar must be attended in the first or second term of enrollment.

The portfolio may be presented

1. upon successful completion of 15 credit hours at Barry university, and
2. when the student can document a minimum of five years of full-time professional work experience.

The portfolio must be submitted at least 20 weeks prior to the student's anticipated date of degree completion. The portfolio administrative fee is due upon submission of the portfolio.

Students must show college-level competence in one or more of the following categories in order to receive credit for professional work experience or community service: supervision, management, research, communication, inter-personal relations, creativity, and critical thinking.

Normally the portfolio will be assessed by the Portfolio Evaluation Committee eight to ten weeks after it is submitted. Upon evaluation, the student will be notified of the credits awarded.

Distribution Requirements 45 credits

Experiential Learning up to 45 credits

Electives Variable
(Students may select courses in any liberal arts area.)

Area of Concentration (optional) 21-24 elective credits

Students who choose to earn an area of concentration will select elective courses in the following areas:

Humanities: combination of art, English literature, philosophy, theology, humanities, speech, theater, Foreign language, and music

Social Sciences: combination of geography, history, political science, economics

Behavioral Sciences: combination of anthropology, psychology, criminal justice, and sociology

Social Welfare: combination of social welfare, biology, psychology, and sociology

Legal Studies: see pages 86 and 87.

BACHELOR OF SCIENCE (B.S.)

A Bachelor of Science degree with a major in Accounting, Management, or Management Information Systems, is available through the School of Adult and Continuing Education. Specific requirements for these degree programs will be found in the School of Business section of this Catalog.

BACHELOR OF SCIENCE IN TECHNOLOGY (B.S.T)

Underlying this program is recognition of the growing impact of technology upon the quality of life, and that the proper application of technology is critical to meeting current and emerging needs of society and its citizens. The specific purpose of this degree program is to provide students graduating with the Associate of Science degree in a technical area an opportunity to complete a four-year baccalaureate degree. The Bachelor of Science in Technology degree is an inverted degree program (2 + 2), in which the special technical courses are taken at a junior or community college during the student's first two years of study. Students admitted into this program enroll at Barry University in additional upper-level liberal arts courses and a cluster of business and computer science courses. The student graduates from Barry with a degree that is directed toward the practical use of management, technology, and computer principles that meet the objectives of industry, business, and the public.

Admission Requirements

Applicants for this degree program must have an Associate degree from a regionally accredited institution with at least 24 credit hours of coursework in a technical area acceptable to Barry University.

Curriculum

The student admitted into this program with an Associate of Science degree usually has completed at least fifteen liberal arts credits. Additional credits to be taken at Barry include philosophy, social science, humanities, communications, and theology. The remaining courses include a core of business and computer science courses and guided electives.

Distribution Requirements 45 credits

Business Core 30 credits

- ACC 201 Principles of Accounting I
- ACC 202 Principles of Accounting II
- CS 180 Introduction to Computers
- MIS 215 Administrative Applications of Computers
- ECO 201 Introductory Macroeconomics
- ECO 202 Introductory Microeconomics
- MGT 305 Organizational Behavior and Management
- MGT 352 Human Resource Management
- MGT 409 Organizational Communication and Behavior
- MKT 306 Marketing Concepts and Applications

Upper Division Electives Variable

- BUS 339 Business Law I
- BUS 371 Social and Ethical Issues in Business
- BUS 353 Leadership and Performance Development
- MGT 303 Management History and Theory
- MGT 400 Management Information Systems

Technical Core 24 credits

(At least 24 credit hours of coursework in a technical area must be acceptable to Barry in transfer from a regionally accredited institution.)

SERVICEMEMBER'S OPPORTUNITY COLLEGE (SOC)

The Barry University School of Adult and Continuing Education has been identified by the American Association of Community and Junior Colleges as a Servicemember's Opportunity College (SOC) providing educational assistance to active duty servicemen. A SOC institution offers the following benefits for servicemembers:

1. Use of admissions procedures which insure access to higher education for academically qualified military personnel;
2. Evaluation of learning gained through military experiences and academic credit awarded where applicable to the servicemember's program of study;
3. Evaluation of non-traditional learning and awarding of academic credit for such learning where applicable to the service member's program of study;
4. Evaluation of requests for inter-institutional transfer of credits and acceptance of such credits whenever they are appropriate to the service member's program and are consistent with the college's curriculum;
5. Flexibility to service members in satisfying residence requirements by making adjustments for military students who transfer when there are other assurances of program balances;
6. Designation of personnel with appropriate academic qualifications and experience to administer and supervise SOC-related activities and to develop policies and procedures appropriate to the scope of their voluntary-education programs;
7. Educational services for veterans.

THE LEGAL ASSISTANT INSTITUTE

Background

The Legal Assistant Institute was organized in 1978 to provide training in South Florida for the paralegal or legal assistant working under the supervision of a lawyer. Legal Assistants assume paralegal responsibilities as skilled members of a legal team in law firms, banks, savings and loan associations, and insurance and governmental agencies. Their responsibilities cover a diverse range from legal research to office administration. The Institute offers three programs: an Undergraduate Certificate Program, a Post-Baccalaureate Certificate Program and an Advanced Program. Course descriptions are on pp. 88-89.

Undergraduate Certificate Program

The Undergraduate Certificate Program is a 60 credit hour program consisting of 10 substantive legal courses totaling 24 credit hours (described below) plus 30 credit hours of general distribution credits and six (6) credit hours of electives (with computer and wordprocessing skills being emphasized). A Certificate of Participation is awarded after completing the 10 substantive legal courses. A Certificate of Completion is awarded upon successful completion of the 60 credit hour curriculum. A grade of "C" or higher in each course is required to receive either a Certificate of Participation or a Certificate of Completion.

Post-Baccalaureate Certificate Program

The Legal Assistant Institute also offers a Post-Baccalaureate Certificate Program where admission is limited to those students who possess an earned bachelor's degree (or higher) in any field prior to commencing studies at the Legal Assistant Institute. The Post-Baccalaureate Certificate Program is a one year (12 month) credit program that consists of 10 substantive legal courses totaling 24 credit hours (described below). A grade of "C" or higher in each course is required to receive a Post-Baccalaureate Certificate of Completion from the Legal Assistant Institute.

Recipients of either the Undergraduate or Post-Baccalaureate Certificates of Completion are eligible to sit for the Certified Legal Assistant ("CLA") examination that is administered by the National Association of Legal Assistants, Inc. ("NALA").

The Undergraduate and Post-Baccalaureate Certificate Programs begin at the University's Main Campus in Miami Shores and at class sites in Coral Gables and Naples, Florida in July. A second sequence of classes for both programs begins in January at the Main Campus in Miami Shores and at a class site in Broward County, Florida. The 10 substantive legal courses can be completed over four 10-week terms with classes being held either two or three nights per week (no weekend classes) depending on the term. While this is an intensive schedule, it allows students to complete the 10 substantive legal courses over a 12 month period without disrupting the students' full-time, day employment responsibilities.

The curriculum is designed to give the student a broad background in fundamental concepts of legal studies.

Students not matriculating through the Legal Assistant Institute are encouraged to take "PLA" courses for elective credit; however, it is recommended that PLA 301 - Law and the Legal System be taken concurrently or prior to any other "PLA" course unless the student has prior work experience in the legal field.

Advanced Program

In an effort to provide continuing education and training to practicing attorneys and legal assistants, the Institute offers the Advanced Program. Currently, courses are offered on an ad hoc basis in Computerized Legal Research, Immigration, Advanced Estate Planning, Law Office Management and Domestic Relations Practice. The curriculum is subject to change based upon the growing needs of legal assistants and attorneys to specialize in different areas of the law. The Advanced Program generally meets on Saturdays. While courses are offered on a non-credit basis, many professional organizations grant continuing education credit for participation in the Advanced Program. The courses are open to all legal assistants and attorneys practicing in the South Florida area.

Course Descriptions

In addition to the courses listed below, the School of Adult and Continuing Education offers courses from the School of Arts and Sciences and the School of Business.

Anthropology Prefix: ANT

308 Perspectives in Anthropology (formerly ANT 306)

Analysis of the different fields of cultural anthropology which are integrated to create a holistic perspective of human behavior. Special emphasis is devoted to economics, religion, culture and personality.

Art Prefix: ART

317 Photography, The Camera

A photography course for those with little or no experience answering questions about adjustable camera operation. Usage of films, shutter speed, aperture, lenses and filters will be explored through lecture, discussion, homework and field classes. (NO DARKROOM WORK). Student must have an adjustable 35mm camera.

400 Ancient Greek Art

Detailed analysis and examination of Greek Art from 2000 B.C. to the end of the Hellenistic Period. Sculpture, vase painting and architecture will be compared and contrasted with Art through the ages by connecting them with Greek Philosophy, mythology and history and their aesthetic concepts.

Biology Prefix: BIO

302 Human Biology

A course designed for the non-science major with an interest in the structure and function of the human body. Course will explore the relationship between the form of the body and how this form relates to function. A "who you are and how you work" course with flexibility to allow the students' interests to shape the emphasis.

306 Introduction to Oceanography

Brief coverage of the physical, chemical, biological, and geological aspects of ocean science.

315 Principles of Tropical Plant Management

Landscaping and appraisal of plants; structure; function and environment of plant form; focus on Florida indoor and outdoor plants; insecticides, and landscaping design.

Business Prefix: BUS

348 Personal Financial Planning

A guide to personal finance for achieving financial objectives and making effective financial decisions. Topics include budgets, major purchases, use of credit and bank loans, insurance, real estate and investment in securities, taxes, and estate planning.

350 Personal Income Tax

A course in Federal Income Tax for individuals covering basic tax returns plus the most commonly used schedules.

353 Leadership and Performance Development

Analysis and interpretation of managerial and employee skills and abilities. Self-analysis will be used to develop a relationship between current work environments and managerial theory.

462 Public Relations

Study of various public relations media. Emphasis on cases and readings from professional journals. The historical and psychological aspects of public relations in context with and in relationship to various public media.

English Prefix: ENG

318 Modern American Playwrights

Focus on important American Playwrights from the 1940's to the present day. Emphasis will be on major styles and themes, and how their plays reflect the changes in American Society. Selections will be taken from the works of Tennessee Williams, Arthur Miller, William Inge, Lorraine Hansberry, Edward Albee, David Mamet and David Rabe.

329 English Composition and Syntax

Opportunity to develop facility with English syntax and to write more effectively by studying and practicing expository discourse. (Mandatory)

Environmental Science Prefix: EVS

301 Consumer Applied Science

An explanation of the basic concepts of inorganic/organic chemistry as they can be applied to understanding the various claims of many commercial products in the market place. Guidelines will be developed to assist the student in knowing how to make better consumer choices.

306 Environment

A conceptual approach to understanding the interrelatedness of natural processes at work in the environment. Application to local issues as well as broader problems and prospects will be made.

400 Geology

Minerals, rock classification, history of life, the concept of geologic times, the surface of the earth, the earth's interior, geophysical aspects of the earth and the theory of plate tectonics and sea-floor spreading.

409 Ocean World

Impact of the timeless sea on civilization and the impact of civilization on the sea will be investigated in this course. The oceans have influenced art and literature, scientific knowledge, industry and politics from ancient times to the present.

Geography Prefix: GEO

402 Mysteries of the Earth

Critical analysis of the great mysteries that have captured the popular imagination by a thorough examination of facts and hypotheses that surround such mysteries as the Legend of Atlantis, the Ruins of Stonehenge, UFO's, Easter Island statues, the Bermuda Triangle, and the Egyptian Pyramids.

History Prefix: HIS

301 Heroes and Happenings in History

Students will observe the impacts of great personalities on mankind while determining the causes and results of great events, selected from the earliest civilizations to contemporary times.

314 Russian Cultural History

An exploration of the Russian-Soviet historical and cultural traditions which subtly, but no less powerfully, influence post-Soviet culture. The course purpose will be to make domestic and international behavior in the successor states more logical and internally consistent with their own context, not necessarily to justify those behaviors but to explain them.

418 Social History of the Middle Ages

An investigation of medieval society from the perspectives of nobility, peasantry, city-dwellers, and clergy in an effort to reconstruct the lifestyles and mentalities of the Middle Ages.

443 History of the United States in the 20th Century I

Topical-chronological treatment of the constitutional, economic and social history of the United States in the twentieth century; first semester terminates with the New Deal.

444 History of the United States in the 20th Century II

Topical-chronological treatment of the constitutional, economic and social history of the United States in the twentieth century, second semester treats the events from 1940 to the present.

Legal Studies Prefix: PLA**301 Law and the Legal System (3)**

Survey of the American legal system and common law tradition, structure of the federal and state court system (emphasis on the Florida court system), the role of the legal assistant in the practice of law, and the code of ethics for legal assistants and attorneys.

310 Legal Research (3)

Instruction on finding, reading and updating law. Research strategies and proper citation form.

315 Legal Writing (3)

Study of legal writing and memorandum preparation. Legal research and writing exercises. Prerequisite: PLA 310.

320 Civil Litigation (3)

Civil litigation process emphasizing personal injury law (torts), rules of procedure, filing complaints, pretrial discovery, trial preparation, trial procedures, client and witness interviews.

343 Business Organizations (2)

Formation of corporations, Florida corporate law, preparation of corporate documents. Legal aspects of sole proprietorships, partnerships and limited partnerships. Shareholder relations and overview of securities regulations.

350 Real Estate Law (2)

Basic real estate transactions, mortgages, deeds, leases, recording statutes, title insurance and title searches. Preparation of closing documents and foreclosure procedures.

430 Criminal Law Practice (2)

Definition of a crime, liability, defenses, justification, conspiracy, larceny, robbery, burglary, assault, homicide, sex offenses, arson, drugs, search, confession, "Miranda warnings," sentencing. Criminal procedure is also emphasized.

440 Contracts (2)

Study of contract law. Contract formation, enforceability and remedies. Survey of significant Uniform Commercial Code and Florida statutes affecting contract formation and enforcement. Exposure to various types of commonly used contracts and drafting principles.

460 Probate Proceedings (2)

Mechanics of probate law, probate court proceedings, estate administration, federal estate and gift taxation and trusts. Emphasis on forms and procedures relating to these areas.

480 Bankruptcy (2)

Overview of debtor-creditor law. Topic areas include consensual and statutory liens, security interest, U.C.C. Article 9, the Bankruptcy Code, attachment, garnishment, replevin, and post-judgment collection. Practical instruction on judgment, asset and U.C.C. searches.

Management Prefix: MGT**301 Collective Bargaining**

Detailed examination of the collective bargaining system with attention given to negotiation and the administration of agreements. special consideration will be given to the impact mergers, joint ventures, government regulatory agencies, the legal environment surrounding the negotiated process and other topics.

303 Administrative History, Theory and Practice

An examination of the general field of administration with emphasis given to management and organization theories. Topics include the emergence of industrialism, schools of management thought, and the conceptual foundations of modern management.

Music Prefix: MUS

301 Music Appreciation

Introductory course designed to develop perceptual listening skills and to acquaint the student with the evolution of masterworks.

321 History of Jazz

Explanation of different periods of jazz and discussion of famous jazz musicians of each period — ragtime to contemporary.

Philosophy Prefix: PHI

301 Contemporary Moral Issues

Examination of current ethical issues such as discrimination, sexual conduct, pornography and censorship, abortion and euthanasia, women's rights, and capital punishment.

305 Problems in Philosophy

Introduction to some of the basic issues in philosophy including free-will vs. determinism, the mind-body debate, the problem of God, and the nature of moral action.

307 Philosophy of Human Relations

Concepts of sexuality and love from a philosophical standpoint. A historical overview of sex with contemporary theories by Freud, Marcuse.

311 Philosophy of Ethics and Values

Nature of the human good, personal and social, moral habits (virtues & vices); ethical roots of cultural conflicts, the ultimate end of human nature; survey and critical analysis of moral systems, discussion of selected contemporary ethical issues.

Political Science Prefix: POS

301 American National Government

National government, its structure and function. A focus on public administration and legislative processes.

Psychology Prefix: PSY

301 Psychology of Drug & Alcohol Abuse

General orientation to psychopharmacology; the relationship between behavior and the actions and effects of drugs; terminology of drugs and drug use: prevention and treatment programs: psycho-legal aspects.

329 Understanding & Coping with Stress (Formerly MGT 308)

Exploration of the roles of stress and illness; immunology and endocrinology with help in evaluating one's own level of stress. Effective techniques for alleviating stress and features the development of the holistic health movement are described. Meditation, autogenic training, bio-feedback, nutrition and exercise to prevent disease are highlighted.

330 Leadership Training and Human Resources

An analysis of the human factors in organizations. Structured and non-structured activities will be used to develop personal effectiveness. Course objectives include: leadership style, communication, problem solving, decision making, membership, establishment of goals, and group norms.

331 Counseling Techniques for Managers (Formerly PSY 303)

The course will provide an overview of techniques drawn from management theory, psychology, and sociology that will be helpful in counseling employees.

410 Group Dynamics and Decision-Making

An exploration of group intimacy, solidarity of groups, group problem-solving, the individual within the group, leadership development (who is involved and how leaders are chosen), and splinter group formations.

416 Dynamics of Adult Living (Formerly PSY 414)

This course will explore the conditions necessary for growth and development. It will cover the "Passages" of life; sexuality; intimacy; life styles; and aging.

Sociology Prefix: SOC

301 American Family

Study of the history, present agonies, and future of the American Family as an institution.

305 Issues in Culture

Topical course to determine the role that culture has played in developing and influencing man's behavior. Our perceptions of economics, religion, family life, employment, aging, law and numerous other aspects of culture will be studied and discussed.

309 Roots of Civilization

A study and examination of numerous civilizations and societies to obtain a greater appreciation of the diversity in humankind's response to solving the problems in our unique world. Students will endeavor to recognize the processes by which groups of people civilize themselves, and to identify the particular bases of power operant in each society, i.e., artistic skill, scientific knowledge, technology, military prowess, language skill, tradition/ancestry, etc.

310 Focus on Nutrition/Wellness

Exploration of the basic concepts of nutrition science, guidelines for making food choices, and some techniques for meeting the challenge of the information explosion.

415 Women in Contemporary Society

Historical development of women as a basis for their distinctive position in society today. Emphasis is placed on their lateral/horizontal progress in the realms of the economy, society and cultural development. Gender definition and dynamics of the patriarchal system are examined.

417 Sociology of Death and Dying

A course that focuses on death as an event in salvific history, based upon cross-cultural analysis of the nexus between the meaning of life and death's place within it.

Social Welfare Prefix: SW

336 Social Welfare as a Social Institution

Beginning course in the social welfare sequence, introducing the student to the field of social welfare from historical, political, program, policy and service points of view; initial identification with the field of social welfare, and knowledge of contribution of social welfare professions. Prerequisite to all other social welfare courses.

401 Social Welfare Policies and Services I

Policies and services relevant to social welfare and the development of analytic skills in examining such policies and services; aims at strengthening the student's commitment to the profession's responsibility to promote programs that prevent and ameliorate social problems.

451 Socio-Cultural Theories

Companion course to Personality Theories and Human Behavior; concentrates on larger social systems such as small groups, formal organizations and cultures, and their effect on human behavior.

452 Personality Theories and Human Behavior

Physical, social, and emotional development of individuals; major areas of study in each phase of maturation behaviors and coping strategies, optimal conditions for growth of the healthy personality, and the dynamics and influence of interpersonal transactions.

Speech Prefix: SPE

303 Voice & Articulation

A course designed to help each student speak more expressively with greater vocal and variety and clarity. Each student will receive a complete voice and diction analysis and will work both individually and in groups to achieve effective voice production and correct individual speech problems.

305 Theories of Communication

Overview of theory of communication. Emphasis on organizational communication, small groups and public communication in organizations.

402 Oral Communication

Practical study designed to develop effective listening, speaking and confrontation skills, use and interpretation of body language.

403 Oral Interpretation

Oral interpretation focuses on one of the loveliest of musical instruments, the human voice, and on the body of literature to which the voice can give meaning. Course activities will include study and analysis of various types of literature and the demands that each makes of a reader/aping and tuning exercises for the vocal instrument; practice in oral reading; and development of criteria for evaluation.

Theatre Prefix: TH

304 Creative Dramatics

A course to develop confidence, creativity, spontaneity, and other communication skills. It will include practice in improvisation, role playing, and character development for personal growth and enjoyment, as well as some study of drama for cultural enrichment.

Descriptions for other courses offered through the School of Adult and Continuing Education will be found under the designated School.

SCHOOL OF ARTS & SCIENCES

Laura S. Armesto, Ph.D., Dean
Linda M. Peterson, Ph.D., Associate Dean
Ina H. Steinberg, Ph.D., Associate Dean

The School of Arts and Sciences is distinctive through its concern for values-oriented programs, its promotion of the traditional liberal arts, and its response to varied careers, interests, and needs. Through its academic programs and co-curricular activities, the School provides enriching aesthetic, cultural, and intellectual dimensions to the University with a wide variety of majors and programs. It includes traditional as well as career-oriented courses, creative activities, and an honors program.

The School includes eight departments:

- Communication
- English and Foreign Languages
- Fine Arts
- Mathematics and Computer Science
- Physical Sciences
- Psychology
- Social Sciences
- Theology and Philosophy

The School offers 26 undergraduate majors as well as additional courses in ten support areas. Besides this diversity of disciplines, the School also encourages a variety of approaches and methodologies: modules, team-teaching, interdisciplinary courses, independent study and research, lab and studio work, internship, recitals, exhibitions, film and text courses.

The School of Arts and Sciences also offers the following graduate degrees:

Communication, M.A.	Communication
Telecommunication Mgt, M.S.	Communication
English/Literature, M.A.	English and Foreign Languages
English/Prof. Writing, M.A.	English and Foreign Languages
English/T.E.S.O.L., M.A.	English and Foreign Languages
Clinical Psychology, M.S.	Psychology
Theology, M.A.	Theology and Philosophy
Health Care Ministry, M.A.	Theology and Philosophy
Pastoral Ministry	
for Hispanics, M.A.	Theology and Philosophy
University Studies, M.A.	Interdisciplinary

The general policies which follow apply to all graduate programs in the School of Arts and Sciences.

GRADUATE ADMISSION REQUIREMENTS AND POLICIES

- Bachelor's degree from a regionally accredited college with at least a 3.0 grade point average (B) as indicated by transcripts.
- Sufficient undergraduate preparation or life experience. Some departments may choose to administer an examination.
- Two letters of recommendation.
- A short essay describing personal career goals and showing how a graduate degree from Barry will help to fulfill these goals.
- For test requirements see individual degree programs.
- Admission is selective.
- Provisional acceptance may be granted by the department.

Non-degree-seeking acceptance is determined by the Office of Admissions with proof of bachelor's degree and departmental approval. Enrollment as a non-degree-seeking student in no way implies admission to a degree program.

Non-degree and provisional acceptance may be changed to regular matriculation upon completion of documentation, completion of six hours of graduate work with a "B" or better, and/or the completion of departmental requirements. Requires departmental approval.

Specific admissions prerequisites and program requirements are listed under each degree.

Transfer Credits

A maximum of six graduate credit hours may be transferred from another college or university toward a graduate degree at Barry University. Such coursework must be relevant to the discipline, at B level or better, and must be earned within the seven-year time limitation of the degree.

Time Limitation

A student will be allowed no more than a seven-year maximum to complete the program.

Advisement

Advisement of all students pursuing graduate courses originates at the office of the Department Chairperson.

Thesis Copies

Each student is required to provide three bound copies of the Master's thesis, one to remain in the department and two to remain in the Library.

Leave of Absence

Any student planning to take a leave of absence from the program for a semester must seek the written approval of the Chair/Director and of the Dean.

Re-Admittance

A student who has taken a leave of absence for one year must seek re-admittance into the particular program.

Probation and/or Dismissal

Any student who has received two "C" grades while in the program is liable to departmental or school action, including dismissal. No student will graduate with a grade point average below 3.0.

Assistantships

A limited number of assistantships is available. Inquire through the Chair for information.

DEPARTMENT OF COMMUNICATION

Kathy J. Wahlers, Ph.D., Chair

Faculty: Davis, Glenn, Jones, Panos, Samra, Simpson

The Department of Communication offers a wide array of majors, programs and opportunities for students interested in pursuing professional objectives in a variety of communication and related settings. A choice of four Baccalaureate Degree programs is offered. They are the Bachelor of Arts in Broadcast Communication, Communication Arts, and Public Relations, the Bachelor of Science in Telecommunication, the Master of Arts in Communication and the Master of Science in Telecommunication Management.

UNDERGRADUATE DEGREE REQUIREMENTS:

Distribution:

All undergraduate degree candidates are required to fulfill the distribution requirements of Barry University. Each major in the Department of Communication may have specific requirements in addition to those shown below.

Theology and Philosophy	9
Written and Oral Communication	9
ENG 111 Freshman Comp. & Literature	
ENG 112 Techniques of Research	
SPE 101 Fundamentals of Speech	
Science and Mathematics	9
Social and Behavioral Sciences	9
Humanities and Art	9
Total	45

MAJOR (CORE COURSES):

All majors in the Department of Communication are required to complete a 6 hour core program of departmental courses as follows:

COM 407 Theories of Human Communication	3
COM 470 Seminar in Communication **	3

** Integrative Experience

A grade of "C" or better must be earned in all major and minor courses.

BROADCAST COMMUNICATION (B.A.)

The Bachelor of Arts in Broadcast Communication will be of interest to those students considering a career in some aspect of radio, television, cable and related media fields such as corporate media. Major requirements are designed to provide the student with a strong core of knowledge in all facets of the profession. Electives will enable the individual to pursue one or more areas of specific interest.

DEGREE REQUIREMENTS

Distribution: 45

Department Requirements: 6

COM 407 Theories of Human Communication 3

COM 470 Seminar in Communication ** 3

** Integrative Experience

Broadcast Communication Major (Core Courses): 33

COM 200 Intro to Mass Media 3

COM 204 Writing for the Media 3

COM 214 Television Production 3

COM 301 Studio Practicum I 2

COM 393 Verbal Message Encoding 3

COM 401 Studio Practicum II 1

COM 491 Television Directing 3

COM 493 Message into Medium 3

COM 495 Communication Law 3

COM 496 Electronic Media Advertising 3

COM 497 Media Management 3

COM 498 Broadcast Journalism 3

Communication Electives: 9

Courses in COM, TEL, SPE (or other as approved by the Academic Advisor and Department Chair).

General Electives 27

A minor outside of the department is recommended.

DEGREE TOTAL: 120

MINOR IN BROADCAST COMMUNICATION: 21

COM 200 Intro to Mass Media 3

COM 214 Television Production 3

COM 407 Theories of Human Communication 3

COM 491 Television Directing 3

COM 495 Communication Law 3

COM 496 Electronic Media Advertising 3

COM 497 Media Management 3

COMMUNICATION ARTS (B.A.)

The Bachelor of Arts in Communication Arts is a broadly based program designed for those students who wish a generalist's orientation to the Communication profession. The student is encouraged to investigate all aspects of the program, developing a core of knowledge in communication arts.

DEGREE REQUIREMENTS

Distribution: 45

Department Requirements: 6

COM 407 Theories of Human Communication 3
COM 470 Seminar in Communication ** 3

** Integrative Experience

Core Courses: 21

COM 104 Interpersonal Communication 3
COM 302 Nonverbal Communication 3
COM 304 Intercultural Communication 3
COM 326 Small Group Communication 3
SPE 401 Bus. & Professional Communication 3
OR
SPE 424 Advanced Public Speaking
COM 412 Persuasion 3
ENG 443 Speech Research, Writing, Editing 3
Courses Designated COM, SPE, or TEL 6

Minor: 21

Required from outside of the department. Recommended minors include: Business, Journalism, Professional Writing, English, Foreign Language, Photography, Criminal Justice. Others may be approved by the Academic Advisor and Department Chair.

General Electives: 21

Degree Total: 120

MINOR IN COMMUNICATION ARTS: 21

COM 104 Interpersonal Communication 3
COM 407 Theories of Human Communication 3
COM 304 Intercultural Communication 3

OR
SPE 424 Advanced Public Speaking

COM/SPE/TEL ELECTIVES 9

PUBLIC RELATIONS (B.A.)

The Bachelor of Arts in Public Relations is designed to provide the student with the knowledge essential for entry in the public relations profession. Emphasis is placed on communication studies, public relations principles, and strong writing skills. In addition, the student is directed towards broad exploration of the liberal arts to enhance knowledge in a wide variety of professional contexts.

Distribution: 45

* Students in the Public Relations program are required to take ART 203 and MAT 152 as part of the distribution.

Department Requirements: 6

COM 407 Theories of Human Communication 3

COM 470 Seminar in Communication ** 3

OR

COM 499 Internship **

** Integrative Experience

Core Courses: 24

COM 200 Intro to Mass Media 3

COM 390 Principles of Public Relations 3

COM 391 Case Studies in Public Relations 3

COM 484 Public Relations Research 3

COM 495 Communication Law 3

SPE 401 Bus & Professional Communication 3

OR

SPE 424 Advanced Public Speaking 3

JOU 342 Feature Writing 3

JOU 445 Publicity and Public Relations 3

An internship is required for those students who meet the criteria for the course.

Minor: 21

A minor in an appropriate area is required. Although a minor in Business is recommended, others may be approved by the Academic Advisor and Department Chair.

General Electives: 24

* Students in the Public Relations program are required to take CS 325 Desktop Publishing.

Degree Total: 120

Minor in Public Relations: 21

COM 495	Communication Law	3
JOU 445	Publicity and Public Relations	3

Course Descriptions — Communication Prefix: COM

104 Interpersonal Communication (3)

Study of self-concept, perception, language, listening, emotions, and conflict as they relate to person-to-person communication.

200 Introduction to Mass Media (3)

Processes, systems, and effects of the printed and electronic media; the role of newspapers, magazines, movies, radio, and television.

201 Survey of Communication (3)

Study of all means by which we communicate, and the ethics and impact of various forms of communication on the individual and society. Overview of communication theory and research.

204 Writing for the Media (3)

Writing basic media copy. Emphasis on script preparation and techniques used professionally in the electronic media.

214 Television Production (3)

Studio production theory and practice; hands-on experience in basic production, direction, and technical operations of a studio.

300 Special Topics in Communication (1-3)

Exploration of selected areas of study in the field of communication. (Limited to a maximum of 6 credit hours.)

301 Studio Practicum I (1)

Development of skills in media settings. Prerequisites: COM 214 and permission of Department Chair. May be repeated for a maximum of 3 credit hours.

302 Nonverbal Communication (3)

Survey of research in nonverbal communication. Includes the study of posture and body movements, eye contact, facial expression, vocal cues, physical appearance, and space as well as the effects of cultural, situational, and personality variables.

304 Intercultural Communication (3)

An introduction to the factors which influence communication among individuals of different subcultures. Both theoretical and practical problems of intercultural communication are analyzed.

326 Small Group Communication (3)

Theory and practice in leading and participating in small groups. Special focus on problem solving and the management of conflict.

359 Independent Study (3)

Opportunity for research and study in the communication profession. Requires approval of Department Chair and Dean.

390 Principles of Public Relations (3)

Basic concepts of public relations; the tools and media used in communication with the public.

391 Case Studies in Public Relations (3)

The detailed analysis of the utilization of principles and techniques of public relations in a variety of contemporary situations and the practical application of these principles and techniques. Prerequisite: COM 390

393 Verbal Message Encoding (3)

Theories of human information processing and verbal message encoding, concentrating on the use of fear appeals. Toulmin's model and Monroe's Motivated Sequence within the context of Social Judgment Theory. Cognitive Dissonance Theory, and Balance Theory. Study of combining reality and imagination into a successful message. Practice in overcoming receiver perceptual problems in successful communication using stereotypical images and other techniques.

401 Practicum II (1)

Advanced development of skills in media settings. Prerequisites: COM 301 and permission of Department Chair. May be repeated for a maximum of 3 credit hours.

407 Theories of Human Communication (3)

The study of theoretical orientations in the field of human communication. Focus on twentieth-century theorists and schools of thought including models of communication.

412 Persuasion (3)

Beginning with Aristotle, this course provides an historical perspective on how persuasion has evolved to modern times. Emphasis on factors such as attention, perception, needs, values, and credibility. Practice in the preparation and presentation of persuasive oral and written communication. Emphasis given to persuasive campaigns.

470 Seminar in Communication (3)

A senior seminar in the identification and examination of selected topic(s) in communication. Limited to Department of Communication majors with 90+ credit hours and approved minors. Serves as Department of Communication integrative experience and includes comprehensive examination and senior thesis.

484 Public Relations Research (3)

Introduction to public relations research methodology. Includes planning, measurement, evaluation, and reporting of results. Prerequisites: COM 390 and MAT 152.

491 Television Directing (3)

Integration of television studio facilities, scripting, and production techniques into directing of basic television formats. Directing exercises and individual projects including planning, producing, directing, and crew work. Prerequisite: COM 214.

493 Message Into Medium (3)

Theories of human information processing and message encoding concentrating on visual message elements. Development of the use of light, space, time, movement, vectors and volume in the composition of modern media messages. Practice in overcoming receiver perceptual problems using visual message elements. Prerequisite: COM 393.

495 Communication Law (3)

Studies in the current laws governing the mass media. Role of the FCC, libel, privacy, and First Amendment issues. Also JOU 495.

496 Electronic Media Advertising (3)

Examines revenue producing process for electronic media. Emphasis on use of media rating service databases, preparation of station advertising and other station promotion. Place of electronic media in advertising.

497 Media Management (3)

Problems and concerns in the management of the media. Practical experience in resolving business problems, promotions, sales, advertising, financing, and regulation. Recommended prerequisites: COM 495 and COM 496.

498 Broadcast Journalism (3)

Principles of journalism applied to the electronic media. Extensive experience in field reporting and writing news copy. Prerequisite: COM 204. (Same as JOU 498.)

499 Internship (3-6)

Practical experience in communication in a professional setting. Prerequisites: Senior standing (90+ credit hours); 2.5 overall G.P.A. with minimum 3.0 G.P.A. in major; approval of Advisor, Department Chair and Dean.

TELECOMMUNICATION (B.S.)

As the information age advances into the 21st Century, the telecommunications industry expansion and deregulation are resulting in significant professional opportunities. In an effort to meet this demand, the telecommunications B.S. degree emphasizes the role and function of information transfer technologies within the operations of information networks management. The program targets effective communications techniques and a knowledge of the technologies employed in the profession. The degree works in concert with a minor in Computer Science.

DEGREE REQUIREMENTS

Distribution: 45

Math and Science Requirements:

MAT 109 Precal Math I
MAT 110 Precal Math II

Social and Behavioral Sciences

ECO 201 Introductory Macroeconomics

General Electives 15

Degree Total 120

Telecommunication Minor 21

TEL 310 Telecommunication Concepts 3
TEL 340 Introduction to Telephony 3
TEL 420 Telecommunication Systems 3
TEL 440 International Telecommunication 3
COM 495 Communication Law 3
TEL Electives 6

Course Descriptions — Telecommunication Prefix: TEL

310 Telecommunication Concepts (3)

A broad overview of telecommunications is presented — from the early days of electrical communication to modern times. Basic principles will be introduced and will be further considered, in detail, in other courses. Included subjects will be historical events, regulations, analog and digital systems, transmission systems, impairments, networks, switching, traffic engineering, and management issues.

340 Introduction to Telephony (3)

Design and operation principles for basic voice networks are presented. Essential elements of speech, video, data and images are examined as electrical signals. Included subjects will be traffic analysis techniques, analog to digital conversion (digital voice), digital to analog conversion (MODEMS), FAX transmission, service offerings (T CARRIERS, OFF PREMISE EXTENSION, FOREIGN EXCHANGE, WIDE AREA TELECOMMUNICATIONS SERVICE, etc.), CENTREX vs. PBX, and system design considerations. Both design and analysis projects will be used. One objective is to provide a better understanding of the many service and product offerings.

420 Telecommunication Systems (3)

An overview of current national and local networks is presented with a comparison of their relative merits for various types of traffic loads and business requirements. The focus will be network design considerations. Project examples will provide a greater understanding of the system components selection process. Included subjects will be types of networks currently in use, networks topologies (electrical and physical), network components, switching and concentration, signaling, signaling system standards, impairments, analysis techniques, network control, and network design.

440 International Telecommunication (3)

Examination of trans-border flow of information, both political and technical, is presented. Included subjects will be the obstacles and opportunities of the dynamic international environment, international standards, global network considerations, international standards organizations, post telephone & telegraph administrations, satellites vs. fiber communications, interface issues, continuing privatization, global network management considerations, services available, the changing face of Europe (EC 92), and developing trends world-wide.

490 Telecommunication Project (3)

The student and instructor will choose an appropriate final project. The culmination is both comprehensive and analytical in relation to a specific area of telecommunications. Prerequisite: Senior standing and permission of Department Chair.

SPEECH (NON-DEGREE)

Course Descriptions — Speech Prefix: SPE

101 Fundamentals Of Speech (3)

Study and practice of the basic skills in interpersonal and public communication.

105 American English Phonetics (3)

Reduction of foreign and regional accents. Focus on the International Phonetic Alphabet (IPA), with emphasis on linguistic variables that influence accent reduction: articulation, stress, intonation, word order, phrasing, and vocabulary. Individualized instruction incorporating speaking, reading and writing. Does not fulfill distribution or degree requirements. (Also ENG 105)

312 General Speech (3)

Experience in varied communication skills, public speaking, group discussion, voice production, and classroom teaching. Limited to Education majors.

401 Business And Professional Communication (3)

Application of principles of speech communication in the presentation of informational reports, conference management, and interviewing.

411 Speech Correction For Children (3)

Non-technical course in speech correction for the teacher who deals with speech-handicapped children in the classroom. Also EDU 411.

424 Advanced Public Speaking (3)

Application of public speaking skills in individual and group presentations. Emphasis on preparation, construction, presentational media, and delivery of the presentation in a variety of public situations. Prerequisite: SPE 101

476 Teaching Speech and Theater in the Secondary School (3)

Methods and materials available for teaching speech and for directing extracurricular speech and drama activities; required for teacher certification. Prerequisite: Candidacy in the School of Education.

MASTER OF ARTS IN COMMUNICATION

The purpose of the Master of Arts in Communication Media is to prepare individuals for careers in the various communication professions, including broadcasting, public relations, cable television, and corporate communication. Individuals may elect a generalist program with a minimum of requirements or concentrations in:

- Media Production and Programming
- Media Management
- Public Relations
- Corporate Communication.

The focus of the program is effective communication through the media including analysis of the intended audience, selection of appropriate channels of communication, design of messages, research on the impact of the message, and so on.

GRADUATION REQUIREMENTS

The Master of Arts in Communication Media requires the successful completion of the required common core (9 hours) which includes a thesis plus 24 hours for a minimum of 33 credit hours. Four 12-hour concentrations are available with specific requirements. The student may elect up to two concentrations, or select the generalist program which has no specific course requirements beyond the common core courses.

A cumulative average of "B" (3.0) or better is required for graduation, with no grade below a "C" accepted. The student is also required to successfully complete a comprehensive examination during the final semester of the program. A maximum of 6 graduate semester hours with a grade of "B" or better may be transferred into the program with the approval of the Department Chairman.

ADMISSION REQUIREMENTS

See School of Arts and Sciences requirements. In addition, the student must achieve a minimum score of 40 on the Miller Analogies Test or a minimum combined score of 1000 on the verbal and quantitative sections of the GRE.

Provisional admission to the program may be granted should the student not meet the requirements but show exceptional promise or have extensive professional experience. Students who do not have a background in the profession

may be required to take specific coursework beyond that specified for the degree in order to meet criteria required for graduation.

DEGREE REQUIREMENTS

Required Core:	9
COM 637 Research Methods	3
COM 593 Message into Medium	3
COM 699 Graduate Project	3

Generalist Degree:

Students electing not to take a concentration may elect a generalist degree. In addition to the Required Core (9 hours), the student must take a minimum of 24 hours of graduate level courses labeled COM or TEL. A maximum of 6 hours outside the department may be selected with the approval of the graduate advisor.

Concentrations:	12
Students may elect more than one concentration.	

Media Production and Programming:

COM 591 Television Production and Directing	3
COM 598 Broadcast Journalism	3
COM 605 Advanced Television Directing	3
COM 626 Media Programming	3

Media Management:

COM 595 Communication Law	3
COM 597 Media Management	3
COM 628 Management Issues in Communication	3
COM 626 Media Programming	3

Public Relations:

COM 596 Electronic Media Advertising	3
COM 598 Broadcast Journalism	3
COM 690 Public Relations Tools and Techniques	3
COM 691 Public Relations Campaigns	3

Note: Students who did not have undergraduate Public Relation classes will be required to complete COM 590 — Public Relations Principles and Case Studies prior to COM 690 or COM 691.

Corporate Communication:

COM 595 Communication Law	3
COM 605 Advanced Television Production	3
COM 622 Corporate Video	
COM 690 Public Relations Tools and Techniques	3

Guided Electives:

Depending on the number of concentrations selected, the student will have several credit hours remaining to fulfill the degree requirements. These guided electives are selected from COM graduate level courses with a maximum of 6 hours from areas outside of the department.

Course Descriptions — Communication Prefix: COM

All courses numbered 500 to 599 are open to properly qualified undergraduates with the permission of the Department Chair.

590 Public Relations Principles and Case Studies (3)

Analysis of Public Relations principles and techniques through a variety of case studies and application of those principles and techniques to a public relations campaign.

591 Television Production and Directing (3)

Integration of television studio facilities, scripting, and production techniques into directing of basic television formats. Directing exercises and individual projects including planning, producing, directing and crew work.

593 Message into Medium (3)

Seminar in communication theories relating to message development. Study of contemporary theories of persuasion and information processing. Study of techniques used by media professionals to guarantee successful communication. Development of model of successful message encoding and communication competence.

595 Communication Law (3)

Studies in the current laws governing the mass media. Role of the FCC, libel, privacy, and First Amendment issues.

596 Electronic Media Advertising (3)

Examines revenue producing process for electronic media. Practice in developing and presenting media plans, use of databases, solution of real world advertising problems. Role of electronic media in advertising.

597 Media Management (3)

Problems and concerns in management of the media, including radio/tv stations. Practical experience in resolving business problems, promotion, sales, advertising, financing and regulation. Major project required.

598 Broadcast Journalism (3)

Principles of journalism applied to the electronic media. Extensive experience in field reporting and writing news copy.

All courses numbered 600 and above are open only to students with a baccalaureate degree or its equivalent.

605 Advanced Television Production (3)

Operation and integration of facilities and resources: studio, control room editing, script writing, and direction of television programs. Emphasis is placed on program planning, writing, directing, producing and creative expression. Prerequisite: COM 591 or equivalent.

615 Communication Management (3)

Advanced study of the development and present structure of the communication industry; management theories; financial aspects of the communication media.

617 Communication and Organizational Change (3)

Seminar in using communication techniques to negotiate change in organizations. Study of diffusion on innovation process and innovativeness of human personality types. Development of a model of managing change and conflicts within an organization. Completion of a major plan for innovation of new technology or organizational change required. (Also TEL 617.)

621 Future Technologies (3)

Introduction to contemporary communication technologies and projection of technologies of the future. Study of the impact of technology and change on the individual and society. (Also TEL 621.)

622 Corporate Video (3)

An overview of non-broadcast video applications especially suitable for use in both industry and schools. Emphasizes development of training materials, interactive video, and video teleconferencing. (Also TEL 622.)

626 Media Programming (3)

Overview of programming categories, network and local formats, research and programming strategies used in the media.

628 Management Issues in Communication (3)

Examination of key concepts in the management of various communication systems and their application. The role of management in the planning, operation and evaluation of systems.

634 Writing Fiction for the Media (3)

Study of the elements of drama in particular relation to the visual image. Development of characterization and plot structure consistent with the media.

637 Communication Research (3)

Study of the methods, standards, practices, and expectations for the conduct of graduate study and research. Communication theory and analysis of research in communication. (Also TEL 637.)

644 Satellite Communication (3)

Study of the scope and potential of the communication satellite including technical dimensions of uplinking video, audio and data signals.

690 Public Relations Campaigns (3)

Application of theories and practices of public relations by presenting major public relations campaigns (local, state, and national) concerning the pressing issues facing organizations.

691 Public Relations Tools and Techniques (3)

Implementation of the state-of-the-art tools and techniques needed to address contemporary public relations issues and problems.

694 Graduate Internship (3-6)

On-site practical experience in media communication setting. Prerequisite: 24 Graduate credit hours and permission of Department Chair.

698 Graduate Seminar in Communication (3)

Identification and examination of selected topics in communication. May be repeated under different topic titles.

699 Graduate Project (3-6)

The graduate project is a culminating experience synthesizing the student's program of study. The project takes the form of a thesis.

701 Directed Graduate Study (1-6)

Individual or small group tutorials. Content is developed for specific interests and needs of student(s). May be repeated. Permission of Department Chair.

704 Thesis Research (1)

This is a research-in-residence or continuous registration for all departments/schools offering graduate programs.

729 Continuous Registration

This is a continuous registration for departments/schools offering graduate programs.

MASTER OF SCIENCE IN TELECOMMUNICATION MANAGEMENT

The Master of Science in Telecommunication Management prepares leaders to manage the demanding changes occurring in the telecommunication and information technology industry. Throughout the program students deal with conceptual issues, identifying new problem areas which arise, seeking solutions which are technically sound as well as managerially and economically viable. The program seeks to develop an understanding of the telecommunication technology, its application and impact, as well as how it relates to corporate management and the user.

The Master of Science in Telecommunication Management is interdisciplinary in its approach. The program emphasizes the managerial, communication, humanistic, and application aspects of telecommunication. Although this is not a technical degree, the student should be prepared to deal with courses requiring knowledge of math, computer hardware and software, and economics and finance.

GRADUATION REQUIREMENTS

The Master of Science in Telecommunication Management requires the successful completion of the required common core (27 hours) plus 9 semester hours for a minimum of 36 credit hours. A cumulative average of "B" (3.0) or better is required for graduation, with no grade below a "C" accepted. Students are also required to successfully complete a comprehensive examination during their final semester. A maximum of 6 graduate semester hours with a grade of "B" or better may be transferred into the program with the approval of the graduate advisor and the Department Chair.

ADMISSION REQUIREMENTS AND POLICIES

See School of Arts and Sciences requirements. In addition, the student must achieve a minimum score of 40 on the Miller Analogies Test or a minimum combined score of 1000 on the verbal and quantitative section of the GRE.

Provisional admission to the program may be granted should the student not meet the requirements but show exceptional promise or have extensive professional experience. Students who do not have a background in the profession may be required to take specific coursework beyond that specified for the degree in order to meet criteria required for graduation.

DEGREE REQUIREMENTS

Required Core Curriculum	27 credits
TEL 615 Telecommunication Information System Management	3
TEL 625 Telecommunication Systems	3
TEL 628 Management issues in Telecommunication	3
TEL 636 Transmission Systems	3
TEL 637 Communication Research	3
TEL 644 Satellite, Radio, & Fiber Optic Systems	3

TEL	655	International Telecommunication	3
MBA	600	Management	3
MIS	540	Data Communications	3

The candidate together with the graduate advisor will select 9 graduate credit hours from courses designated TEL, COM, MBA, and MIS to round out the program based on the student's interests and intended area(s) of specialization. Courses from other designations may be elected with the permission of the Department Chair.

Course Descriptions — Telecommunication Prefix: TEL

Courses numbered 500 - 599 may be taken by properly qualified undergraduates with the permission of the Department Chair.

597 Case Studies in Telecommunication (3)

Case studies in resolving business problems, technical issues, and regulation in the management of the telecommunication industry.

All courses numbered 600 and above are open only to students with a baccalaureate degree or its equivalent.

615 Telecommunication Information System Management (3)

Study of the project management approach to telecommunication and information systems management including work breakdown structure, time estimating, resource allocation, control tools, project life cycles, and the role of the project manager.

617 Communication and Organizational Change (3)

Seminar in using communication techniques to negotiate change in organizations. Study of diffusion on innovation process and innovativeness of human personality types. Development of a model of managing change and conflicts within an organization. Completion of a major plan for innovation of new technology or organizational change required. (Also COM 617.)

621 Future Technologies (3)

Introduction to contemporary communication technologies, and projection of technologies of the future. Study of the impact of technology and change on the individual and society. (Also COM 621.)

622 Corporate Video (3)

An overview of non-broadcast video applications especially suitable for use in both industry and schools. Emphasizes development of training materials, interactive video, and video teleconferencing. (Also COM 622.)

625 Telecommunication Systems (3)

Examination of design, implementation, and system architecture of analog and digital systems network. Advantages and limitations of transmission media and switching equipment, and compliance with international, national, and industrial standards.

628 Management Issues in Telecommunication (3)

Examination of key financial concepts in the management of various telecommunication systems and their application. The role of economic analysis in the planning, operation, and evaluation of communication systems.

636 Telecommunication Transmission Systems (3)

System approach to the transmission and subdisciplines associated with a unified telecommunication system. Focus on speech telephony, data, facsimile, video, fiber optic, and digital radio. Concepts and techniques common to point-to-point transmission disciplines. (Prerequisite: TEL 625 or approval of instructor.)

637 Communication Research (3)

Study of the methods, standards, practices, and expectations for the conduct of graduate study and research. Communication theory and analysis of research in communication. (Also COM 637.)

642 Computers in Telecommunication (3)

Development of computers as a telecommunication tool; theory of man-machine communication; difficulties in use of computers by humans; future uses of computers in media technology; computer control of telecommunication equipment; graphic generation. (Lab Fee)

644 Satellite, Radio Systems, and Fiber Optics (3)

Study of system techniques for radio links and Fiber Optics in point-to-point service; design of line of sight analog and digital microwave/millimeter links, toposcatter/diffraction, and satellite systems. (Prerequisite: TEL 625 or approval of instructor.)

655 International Telecommunication (3)

Domestic and international issues and innovations in telecommunication and in institutions, including global economic and political forces.

694 Graduate Internship (3-6)

On-site practical experience in media communication setting. Prerequisite: 24 graduate credit hours and permission of Department Chair.

698 Graduate Seminar in Telecommunication (3)

Identification and examination of selected topics in communication. May be repeated under different topic titles.

699 Graduate Project (3-6)

The graduate project is a culminating experience synthesizing the student's program of study. The project may take the form of a thesis or other format with the approval of the graduate advisor.

701 Directed Graduate Study (1-3)

Individual or small group tutorials. Content is developed for specific interests and needs of the student(s). May be repeated. Permission of Department Chair.

704 Thesis Research (1)

This is a research in residence or continuous registration for all departments/schools offering graduate programs.

729 Continuous Registration

This is a continuous registration for departments/schools offering graduate programs.

DEPARTMENT OF ENGLISH AND FOREIGN LANGUAGES

Ina H. Steinberg, Ph.D., Chair

Faculty: Alzaga, Alvarez, Armesto, Benz, Bowers, Byrne, Ganter, Gellens, Hodgson, Leeder, Nodarse, Schanfield.

ENGLISH (B.A.)

A student who wishes to major in English may choose one of four concentrations within the English major: English/Literature; English/Journalism; English/Professional Writing; and English/Education.

A minor in English consists of a minimum of 21 credits beyond English 111 and 112 in courses within one of the four concentrations.

The minimum grade of C is required in all major and minor courses.

At the end of their programs, all English majors must complete satisfactorily a comprehensive examination.

ENGLISH/LITERATURE

The concentration in **Literature** consists of a minimum of 42 credit hours distributed among the following:

Survey Courses minimum of 12 credits:

316	World Literary Masterpieces
324	Major American Writers
331/332	English Literature I & II
439/440	Theatre History I & II

Theory/Criticism Courses minimum of 6 credits:

387	Introduction to Literary Theory
389	Advanced Critical Readings

Period Courses minimum of 12 credits:

420	Medieval English Literature
421	Sixteenth-Century English Literature
422	Seventeenth-Century English Literature
423	Restoration and Eighteenth-Century English Literature
424	American Literature: 1800-1865
425	American Literature: 1865-1914
426	American Literature: 1914-present

432	Nineteenth-Century English Literature: the Romantics
433	Nineteenth-Century English Literature: the Victorians
460	Twentieth-Century Literature: 1900-1945
461	Twentieth-Century Literature: 1945-present

Authors Courses minimum of 6 credits:

407	Shakespeare
429	English Studies

Genre Courses minimum of 6 credits:

315	The Novel
320	Children's Literature
339	Literature for the Adolescent
429	English Studies
441	Contemporary Theatre

Course Descriptions — English Prefix: EN

010 CLAST Reading Skills (1)

Does not fulfill distribution or degree requirements. Assesses student competency in the skills areas evaluated within CLAST reading testing: literal comprehension and critical comprehension. Provides instruction and remediation. Gives pre- and post-testings. Grading is CR/NC only.

011 CLAST Essay Skills (1)

Does not fulfill distribution or degree requirements. Provides pre- and post-testing to assess student competency in the skills evaluated within CLAST standards. Provides instruction and remediation. Grading is CR/NC only.

012 CLAST English Language Skills (1)

Does not fulfill distribution or degree requirements. Provides pre- and post-testing to assess student competency in skills evaluated within CLAST standards. Provides instruction and remediation in punctuation, structure, sentence effectiveness, usage, and word choice. Grading is CR/NC only.

Course Descriptions — English Prefix: ENG

103A Basic English: Composition (3)

Mandatory placement for specific students. Emphasis on writing skills. Course does not fulfill distribution or degree requirements. A grade of CR is required to exit. Three graded attempts maximum. Must be completed by the end of 29 credit hours. Grading is CR/NC only.

103C Critical Strategies for Writing (3)

Mandatory placement for specific students. Introduces students to critical heuristics appropriate for writing activities. Provides practice in process-based writing and critical reading strategies. Grading is CR/NC only. Three graded attempts maximum. Must be completed by the end of 29 credit hours. A grade of CR is required to exit. The course does not fulfill distribution or degree requirements.

105 American English Phonetics (3)

Reduction of foreign and regional accents. Focus on the International Phonetic Alphabet (IPA), with emphasis on linguistic variables that influence accent reduction: articulation, stress intonation, word order, phrasing, and vocabulary. Individualized instruction incorporating speaking, reading, and writing. Does not fulfill distribution or degree requirements. (Also SPE 105).

111 Freshman Composition and Literature (3)

Writing of short papers and readings in the humanities. A minimum grade of C is required to earn credit and to satisfy graduation requirements. Fulfills the Gordon Rule. Can only be taken for a letter grade.

112 Techniques of Research (3)

Writing the research paper and readings in the humanities. A minimum grade of C is required to earn credit and to satisfy graduation requirements. Fulfills the Gordon Rule. Prerequisite: ENG 111 with C or better. Can only be taken for a letter grade.

207 Composition II (3)

Thorough review of the writing process. Students will study and write various forms of academic and non-academic prose: essays of rhetorical analysis, argumentative and persuasive essays, editorial and feature forms. Fulfills the Gordon Rule. Prerequisite: ENG 112 or permission of Department Chair.

300 Special Topics (3-12)

Content to be determined by the Department as requested by faculty and/or students to fill specified needs or interests.

315 The Novel (3)

Structural analysis of the novel. Selections vary.

316 World Literary Masterpieces (3)

World masterpieces from the ancient East and West to the twentieth century.

320 Children's Literature (3)

Survey of literature suited to the needs of children. Same as EDU 320.

324 Major American Writers (3)

Study of major American authors from the colonial period to the present.

331/332 English Literature I, II (3) (3)

Historical survey of the literature of England to the twentieth century.

339 Literature for the Adolescent (3)

Examines Anglo-American and world literature representing genres and themes appropriate for the adolescent. Explores issues and research about what constitutes literature for this group.

359, 459 Independent Study (3) (3)

Opportunity for extensive research in areas of special interest to the student. Prerequisite: Department Chair and Dean approval.

361 Rhetoric and Research (3)

Required course for students who wish to transfer 3 or more credits in English Composition to Barry University. Only students who have satisfactorily completed the CLAST will be exempt. In addition to skills building, students will complete a research project dealing with an aspect of their major. Students must receive a grade of C or better to exit this course. Can only be taken for a letter grade.

387 Introduction to Literary Theory and Criticism (3)

Introduction to the nature of literature and to the methods of approaching it. Implications for criticism across the arts.

389 Advanced Critical Readings (3)

In-depth analysis of selected works.

403 History of the English Language (3)

Formation and growth of the language, with special attention to sources, structure, and idiom. Includes a study of American modifications of the language.

407 Shakespeare (3)

Shakespearean plays. Emphasis on the author's artistic development. Same as TH 407.

420 Medieval English Literature (3)

Major literary works of the Middle Ages to 1485.

421 Sixteenth-Century English Literature (3)

Major literary works from Wyatt through Spenser.

422 Seventeenth-Century English Literature (3)

Major literary works from Donne through Milton.

- 423 Restoration and Eighteenth-Century English Literature (3)**
Major literary works from Dryden through Johnson.
- 424 American Literature: 1800-1865 (3)**
Selected works from major writers of the period.
- 425 American Literature: 1865-1914 (3)**
Selected works from major writers of the period.
- 426 American Literature: 1914-present (3)**
Selected works from major writers of the period.
- 429 English Studies (3-12)**
Selected literary topics, works, figures, and genres.
- 432 Nineteenth-Century English Literature: the Romantics (3)**
Major literary works of the period.
- 433 Nineteenth-Century English Literature: the Victorians (3)**
Major literary works of the period.
- 439/440 Theatre History I, II (3) (3)**
Theatrical event and its attendant literature from ritual beginnings to the closing of the playhouses in England and from the Restoration to the 1950's and the advent of absurdist theatre. Same as TH 439,440.
- 441 Contemporary Theatre (3)**
Study of the plays and theatrical practices of the time. Same as TH 441.
- 460 Twentieth-Century Literature: 1900-1945 (3)**
Selected works of the period.
- 461 Twentieth-Century Literature: 1945-present (3)**
Selected works of the period.
- 476 Teaching English in the Middle and Secondary School:6-12 (3)**
Problems confronting teachers of English in the middle and secondary school, current research, organization of courses, sources of materials and textbooks, and methods of teaching. Prerequisite: Candidacy in the School of Education.

ENGLISH/JOURNALISM

The **Journalism** concentration within the English major is designed to include three essential elements: (1) communication competency courses aimed at basic skills training; (2) conceptual knowledge courses that exhibit journalism within an interdisciplinary context; and (3) professional modules aimed at acquainting the student with specific applications within the field.

The English/Journalism major requires 39 credit hours of JOU or ENG courses, including JOU 207, 241, 243, 441, 442, 470, and 490.

The English/Journalism minor requires 21 credit hours, including JOU 207 and either JOU 241 or JOU 243.

Course Descriptions — Journalism Prefix: JOU

207 Introduction to Journalism (3)
Covers the fundamentals of modern journalism, both writing and production. Students learn about writing styles for specific types of articles, about copy editing and proofreading, typography, page make-up, advertising, and journalism ethics. Students are expected to become staff members of the *Barry Buccaneer* as part of course requirements. This course is the prerequisite to all other Journalism courses.

241 The Press in Contemporary Society (3)

Tracing developments from the colonial press, study of the structure and performance of the press in historical perspective as it interacts with other contemporary social institutions. Emphasis on the functional role of the press.

243 News Reporting, Writing, and Editing (3)

Thorough study and practice of news reporting, writing, and editing techniques.

300 Special Topics (3-9)

Diverse courses on specialized forms of reporting will be offered periodically depending upon interest and need. E.g., Editorial and Persuasive Writing; Public Information and Public Affairs Reporting; Reporting in Urban and Metropolitan Affairs; Local Government, Public Policies, and Reporting; Environmental Ideology and Reporting; Public Affairs, Investigative, and In-depth Reporting; Writing for Religious Publications; Sports Writing.

315 Photojournalism (3)

Emphasis upon visual communication and effective photographic documenting of events. Prerequisite: ART 203 or permission of Department Chair. (Also ART 315).

342 Feature Writing (3)

Study of feature stories for newspapers, magazines, and public relations. Emphasis on the preparation of publishable material.

359, 459 Independent Study (3) (3)

Opportunity for extensive research in areas of special interest to the student. Prerequisite: Department Chair and Dean approval.

401 Advertising (3)

Survey of the field of advertising in its social, economic, and management contexts. Consideration given to the research, design, and implementation of an advertising campaign.

441 Research in Journalism (3)

Individual study of current problems in journalism. The course will provide students with a working knowledge of how other disciplines (e.g., history, statistics, the social sciences) use journalism. Topics covered will be propaganda, international journalism, the documentary, etc.

442 Colloquium on Current Affairs (3)

An interdisciplinary course emphasizing in-depth analyses of major contemporary problems as reported by the media.

444 Critical Writing and Reviewing (3)

Principles and practice in the writing of criticism of artistic works and performances.

445 Publicity and Public Relations (3)

Study of the historical development of public relations with emphasis on the principles and practice of writing publicity for various types of organizations.

470 Seminar in Journalism: The Craft of Nonfiction (3)

Independent investigation of a problem leading to a freelance article.

490 Internship (3)

Semester-long study in an area of the student's choice: newspaper reporting, magazine writing, film, etc. Prerequisite: CS 325 or permission of Department Chair.

495 Communication Law (3)

Relationship of mass media to society; responsibility, regulations, and philosophy. (Same as COM 495).

498 Broadcast Journalism (3)

Principles of journalism applied to the electronic media. Experience in field reporting and writing news copy. (Same as COM 498).

ENGLISH/PROFESSIONAL WRITING

The concentration in **Professional Writing** is an academic program to prepare Barry graduates for challenging positions as practitioners in the broad spectrum of professional writing, including but not limited to these areas: investigative, editorial, satiric, and literary journalism; corporate and speech writing; advertising for print and electronic media; scientific, technical, and engineering documentation; and writing for educational, governmental, and other not-for-profit agencies.

The premise of this program is two-fold:

1. That mastery of the rhetorical principles of composition underlies all writing contexts; and
2. That expertise in invention, composition, revision, and editing methods provides a graduate with flexibility to adapt easily to the varying conventions and audiences of professional writing.

Students enrolled in this program will master the conventions for content, organization, and style; will learn to write for different disciplines; and will become skilled in the persuasive strategies utilized by writing professionals.

After undergoing this course of study, students will be able to perform all the tasks needed to produce publications—from data gathering, through writing and editing, to graphics and layout. The program will provide students with an overview of the kinds of jobs available to writing specialists in a variety of fields. At the same time, the program will provide solid grounding through skills and networking that will enable students to choose a field in which to specialize after graduation, if they so desire.

A graduate of this program will be qualified to seek an entry-level position as a writer in the corporate, industrial, and governmental sectors; scientific and technical communities; advertising and public relations fields; journalistic world; and virtually every profit and not-for-profit enterprise that requires written messages designed to promote information gain, induce attitude change, and affect behavior.

The core curriculum consists of 33 credit hours as follows:

ENG 208	Writing as a Profession	03
ENG 312	Advanced Composition	03
ENG 404	Persuasive Writing	03
ENG 406	Rhetorical Analysis	03
ENG 410	Advanced English Grammar	03
ENG 417	Advertising Copywriting	03
ENG 418	Publication Production and Layout	03
ENG 443	Speech Research, Writing, and Editing	03
ENG 444	Business Research, Writing, and Editing	03
ENG 447	Technical & Scientific Research, Writing, and Ed.	03
CS 325	Desktop Publishing	03

In addition, students will choose a focused minor in an appropriate area such as Journalism, Photography, Business, Creative Writing, Biology, or Computer Science determined in consultation with Appropriate Department/ School faculty and approved by the academic advisor.

Students will complete an integrative experience which consists of a 3- or 6-credit internship. During the internship, students will be able to use their research, writing, and editing skills in conjunction with hardware and software within the graphics and printing industry to produce a portfolio.

Course Descriptions — English Prefix: ENG

208 Writing as a Profession (3)

An overview of the opportunities available for writing careers in such different disciplines as business, the sciences, and the technologies; freelancing; getting a job; negotiating fees. Ethical issues relevant to professional writers will be emphasized. Prerequisite: English 112 or its equivalent or permission of the Department Chair.

312 Advanced Composition (3)

Study of and practice in writing expository prose. Fulfills the Gordon Rule.

333 Introduction to Fiction Writing (3-6)

Along with study of models, students will engage in exercises that explore the creative process and various modes of fiction. Students will write and revise fiction to compile a portfolio of the semester's work.

334 Introduction to Poetry Writing (3-6)

Along with intensive study of models of classic and contemporary poetry, students will engage in exercises that explore the creative process and various poetic forms. Students will write and revise poems to compile a portfolio of the semester's work.

404 Persuasive Writing (3)

Study of the science and art of using written language to promote information gain, induce attitude change, and affect behavior. Starting with Aristotelian sources of proof, this course will provide a historical perspective on how persuasion has evolved to modern times. Drawing on sociological and psychological principles, it will help students master the language to reach both target and general audiences. Ethical issues will be emphasized.

406 Rhetorical Analysis (3)

In-depth analysis of advertisements, speeches, film, and literature from a rhetorical perspective.

410 Advanced English Grammar (3)

Analysis of English grammatical structures. Emphasis on modern descriptive analysis.

411 Classical Rhetorical Theories (3)

History of rhetoric from the Greco-Roman period to the mid-twentieth century. Attention will be given to the major texts, figures, and movements.

412 Contemporary Rhetorical Theories (3)

Study of the development of contemporary rhetoric based on current research and theory.

413 Fiction-Writing Workshop (3-6)

Intensive study of and practice in the craft of writing fiction. Students will write and present their stories, respond to others' work, and study classical and contemporary theories of fiction as well as models of the craft. Prerequisite: English 333 or permission of Department Chair.

414 Poetry-Writing Workshop (3-6)

Intensive study of and practice in the craft of poetry writing. Students will write and present their poems and revisions, respond to others' work, and study classical and contemporary theories of poetry as well as models of the craft. Prerequisite: English 334 or permission of Department Chair.

417 Advertising Copywriting (3)

Students will learn the theory and techniques necessary to produce successful advertising copy. Students will also learn to integrate the written word with the appropriate visual symbols in order to produce effective messages. Ethical issues within the industry will be emphasized.

418 Publication Production and Layout (3)

Students will learn how to enhance the written material through the inclusion of appropriate graphic techniques and design: colors, typesetting, layout, etc. Students will also learn the concepts and terminology necessary to deal with publishers and other professionals in the graphics industry.

443 Speech Research, Writing, and Editing (3)

Students will learn to research, organize, and write speeches to be delivered to internal and external audiences. Students will learn to assess the needs and stylistic characteristics of speakers, gather data, assess intended audience response, and use effective rhetorical techniques. Students will practice oral presentation skills for the marketplace. Ethical issues relevant to the responsibilities of the speech writer will be included.

444 Business Research, Writing, and Editing (3)

Study and practice of the kinds of internal and external writing used in different organizations—utilities, for-profit corporations, non-profit organizations, and others. Practice in the researching, writing, and editing of letters, memos, reports, market analyses, promotions, product descriptions, grants, proposals, etc. Relevant ethical issues will be included.

447 Technical & Scientific Research, Writing, and Editing (3)

Students will research, write, and edit general technical materials such as manuals, descriptions, and specifications. Applications to particular technologies—computers, engineering, aerospace, and others—will also be included. Relevant ethical issues will be addressed.

ENGLISH/EDUCATION

This concentration prepares Barry graduates for teaching English in grades six through twelve, according to State of Florida requirements.

The major requires a minimum of 42 credits in English beyond the freshman level, including 33 credits from Section One and 9 credits from Section Two, as described below.

SECTION ONE: (33 credits)

Composition Courses (minimum of 6 credits):

Expository Writing (3 credits)

- ENG 207 Composition II
- ENG 312 Advanced Composition
- ENG 406 Rhetorical Analysis

Creative Writing (3 credits)

- ENG 333 Introduction to Fiction Writing
- ENG 334 Introduction to Poetry Writing
- ENG 413 Fiction-Writing Workshop
- ENG 414 Poetry-Writing Workshop

Grammar or Syntax Courses (minimum of 3 credits)

- ENG 410 Advanced English Grammar

Literature Courses (minimum of 15 credits)

Survey Courses in American or British literature (6 credits in one of these two areas)

- 331/332 English Literature I, II
- 424/425 American Literature: 1800-1865 and
American Literature: 1865-1914

**Period, Survey, or Authors in American, British, or
World literature courses (minimum of 6 credits)**

- ENG 316 World Literary Masterpieces
- ENG 324 Major American Writers
- ENG 337 Shakespeare and His Contemporaries
- ENG 407 Shakespeare
- ENG 420 Medieval English Literature
- ENG 421 Sixteenth-Century English Literature
- ENG 422 Seventeenth-Century English Literature
- ENG 423 Restoration and Eighteenth-Century English Literature
- ENG 426 American Literature: 1914-present
- ENG 432 Nineteenth-Century English Literature: the Romantics
- ENG 433 Nineteenth-Century English Literature: the Victorians
- ENG 460 Twentieth-Century Literature: 1900-1945
- ENG 461 Twentieth-Century Literature: 1945-present

Adolescent Literature (3 credits)

- ENG 339 Literature for the Adolescent

Teaching English as a Second Language - TSL (a minimum of 3 credits)

- TSL 406 ESOL Curriculum and Materials Development
- TSL 409 Cross Cultural Communication and Understanding
- TSL 411 Applied Linguistics
- TSL 417 Testing and Evaluation of ESOL
- TSL 476 Methods of Teaching Limited English
Proficient (LEP) Students:K-12

Teaching English in the Middle and Secondary School: 6-12 (3 credits)

- ENG 476 Teaching English in the Middle and
Secondary School: 6-12

SECTION TWO: (9 credits)

Required theory courses 6 credits

- ENG 387 Introduction to Literary Theory and Criticism
- ENG 389 Advanced Critical Readings

**Any literature course in addition to the literature courses
required in Section One 3 credits**

Course Descriptions — Prefix: ENG

207 Composition II (3)

Thorough review of the writing process. Students will study and write various forms of academic and non-academic prose: essays of rhetorical analysis, argumentative and persuasive essays, editorial and feature forms. Fulfills the Gordon Rule. Prerequisite: ENG 112 or permission of Department Chair.

312 Advanced Composition (3)

Study of and practice in writing expository prose. Fulfills the Gordon Rule.

316 World Literary Masterpieces (3)

World masterpieces from the ancient East and West to the twentieth century.

320 Children's Literature (3)

Survey of literature suited to the needs of children. Same as EDU 320.

- 324 Major American Writers (3)**
Study of major American authors from the colonial period to the present.
- 331/332 English Literature I, II (3) (3)**
Historical survey of the literature of England to the twentieth century.
- 333 Introduction to Fiction Writing (3-6)**
Along with study of models, students will engage in exercises that explore the creative process and various modes of fiction. Students will write and revise fiction, to compile a portfolio of the semester's work.
- 334 Introduction to Poetry Writing (3-6)**
Along with intensive study of models of classic and contemporary poetry, students will engage in exercises that explore the creative process and various poetic forms. Students will write and revise poems to compile a portfolio of the semester's work.
- 337 Shakespeare and His Contemporaries (3)**
The study of select plays by Shakespeare and his Elizabethan contemporaries coordinated with live theatre performance. A study-abroad offering.
- 339 Literature for the Adolescent (3)**
Examines Anglo-American and world literature representing genres and themes appropriate for the adolescent. Explores issues and research about what constitutes literature for this group.
- 406 Rhetorical Analysis (3)**
In-depth analysis of advertisements, speeches, film, and literature from a rhetorical perspective.
- 407 Shakespeare (3)**
Shakespearean plays. Emphasis on the author's artistic development. Same as TH 407.
- 410 Advanced English Grammar (3)**
Analysis of English grammatical structures. Emphasis on modern descriptive analysis.
- 413 Fiction-Writing Workshop (3-6)**
Intensive study of and practice in the craft of writing fiction. Students will write and present their stories, respond to others' work, and study classical and contemporary theories of fiction as well as models of the craft. Prerequisite: English 333 or permission of Department Chair.
- 414 Poetry-Writing Workshop (3-6)**
Intensive study of and practice in the craft of poetry writing. Students will write and present their poems and revisions, respond to others' work, and study classical and contemporary theories of poetry as well as models of the craft. Prerequisite: English 334 or permission of Department Chair.
- 420 Medieval English Literature (3)**
Major literary works of the Middle Ages to 1485.
- 421 Sixteenth-Century English Literature (3)**
Major literary works from Wyatt through Spenser.
- 422 Seventeenth-Century English Literature (3)**
Major literary works from Donne through Milton.
- 423 Restoration and Eighteenth-Century English Literature (3)**
Major literary works from Dryden through Johnson.
- 424 American Literature: 1800-1865 (3)**
Selected works from major writers of the period.
- 425 American Literature: 1865-1914 (3)**
Selected works from major writers of the period.
- 426 American Literature: 1914-present (3)**
Selected works from major writers of the period.

432 Nineteenth-Century English Literature: the Romantics (3)

Major literary works of the period.

433 Nineteenth-Century English Literature: the Victorians (3)

Major literary works of the period.

460 Twentieth-Century Literature: 1900-1945 (3)

Selected works of the period.

461 Twentieth-Century Literature: 1945-present (3)

Selected works of the period.

476 Teaching English in the Middle and Secondary School: 6-12 (3)

Problems confronting teachers of English in the middle and secondary school, current research, organization of courses, sources of materials and textbooks, and methods of teaching. Prerequisite: Candidacy in the School of Education.

Courses in Teaching English to Speakers of Other Languages

Course Descriptions — TESOL Prefix: TSL

406 ESOL Curriculum and Materials Development (3)

Focuses on applications of the theories, principles and current research related to second language acquisition, as well as instructional techniques and materials relevant to development of ESOL curriculum. Improves and enhances the participant's knowledge of the ESOL curriculum in comparison with the regular English language arts curriculum and improves and enhances knowledge of materials appropriate for use with limited English proficient students who are speakers of other languages (LEPSOL).

409 Cross Cultural Communication and Understanding (3)

Develops awareness and understanding of the major cultures represented by the different language minorities within the state. Provides insights that will enable participants to plan and implement curriculum, instruction and assessment activities that will meet the special needs of limited English proficient students who are speakers of other languages (LEPSOL).

411 Applied Linguistics (3)

Enables participants to examine modern American English in light of current linguistic theories and to identify practical applications of these theories to the teaching of English to students of diverse ethnic and linguistic backgrounds. Objectives are to acquire a greater understanding of the structure of English from a modern day linguistic perspective and to analyze the structure of English in contrast with the language(s) of the target population in a given class.

417 Testing and Evaluation of ESOL (3)

Improves and enhances the knowledge needed to select and develop instruments of evaluation suitable for use with students who demonstrate limited English proficiency and are speakers of other languages (LEPSOL) through discussion, review and critique of available instruments and basic principles in evaluation and test development. Reviews basic principles in evaluation in order to select, adapt, and/or develop assessment instruments that are valid and reliable in: a) identifying speakers of other languages who are limited in English proficiency (LEPSOL); b) placing them at appropriate levels for instruction; c) determining their readiness to exit from special program for LEPSOL; d) determining attainment of instructional objectives; and e) grading and promoting them.

476 Methods of Teaching Limited English Proficient (LEP) Students: K-12 (3)

Emphasizes second language philosophy, methodology and the need for differentiating between teaching English to native speakers and teaching English to Speakers of Other Languages (ESOL). Enables participants to identify and apply major ESOL methodologies and approaches in accordance with the limited English proficient (LEP) students' culture and home language background, age, level, and learning style.

MASTER OF ARTS IN ENGLISH

The graduate English program, inaugurated in 1954, is designed for teachers of English in high school or community college, for professionals in various fields whose jobs require writing, for students planning to continue toward the Ph.D. elsewhere, and for qualified adults interested in broadening their cultural background.

Students may choose from one of three tracks: Literature; Professional Writing; or Teaching English as a Second Language.

ADMISSION REQUIREMENTS AND POLICIES

Graduate Requirements

- A minimum score of 500 on the verbal portion of the general GRE. For the M.A. in English with a concentration in Teaching English as a Second Language, an acceptable MAT score may be substituted for the general GRE minimum score. Teachers will be requested to have a teaching certificate already on file.
- A minimum score of 540 on the Literature in English test of the Advanced GRE (for Literature track students only)
- An appropriate writing sample.
- A minimum of 18 credits in upper-level English. Students with insufficient backgrounds might be required to complete qualifying courses at the undergraduate level.
- Students submitting incomplete or late credentials might be accepted provisionally to a maximum of six credit hours (three credit hours per term).

PROGRAMS AND REQUIREMENTS

Students may choose one of the three tracks of study: Track One offers the traditional concentration in literature; Track Two offers a concentration in Professional Writing; Track Three offers a concentration in Teaching English as a Second Language.

In all tracks, students must earn 36 credit hours, maintain a B average, and complete satisfactorily a comprehensive examination. Taken in the last semester of coursework, this examination covers the candidate's knowledge in one of these three areas: English language and literature, rhetoric and professional writing, or teaching English as a second language. Literature majors should be prepared to discuss major works, literary and critical movements, historical and philosophical backgrounds, and bibliographic tools. The examinations are prepared in relation to the student's coursework, but they are not confined to courses taken. A student may not apply to retake a comprehensive examination within the same semester.

Students are responsible for registering for comprehensive exams by notifying the Department Chair within the first two weeks of the semester in which they expect to graduate.

Students are responsible for signing up for graduation when they register for the semester in which they expect to graduate.

TRACK ONE: LITERATURE

Students must earn 30 credit hours from these four areas:

Theory and Method Courses: A minimum of 9 credits, which must include ENG 601, Bibliography and Research; ENG 602, Literary Theory and Criticism; and ENG 604, Critical Approaches to Literature.

Period Courses: A minimum of 12 credits selected from the following:

- ENG 520 Medieval English Literature
- ENG 521 Sixteenth-Century English Literature
- ENG 522 Seventeenth-Century English Literature
- ENG 523 Restoration and Eighteenth-Century English Literature
- ENG 524 American Literature: 1800-1865
- ENG 525 American Literature: 1865-1914
- ENG 526 American Literature: 1914-present
- ENG 532 Nineteenth-Century English Literature: the Romantics
- ENG 533 Nineteenth-Century English Literature: the Victorians
- ENG 560 Twentieth-Century Literature: 1900-1945
- ENG 561 Twentieth-Century Literature: 1945-present

Authors Courses: A minimum of 6 credits, selected from the following:

- ENG 603 Seminar in English Studies
- ENG 617 Shakespeare: Comedies and Histories
- ENG 618 Shakespeare: Tragedies and Romances
- ENG 634 Major Writers

Genre Courses: A minimum of 3 credits selected from the following:

- ENG 603 Seminar in English Studies
- ENG 625 Poetry
- ENG 626 Prose
- ENG 627 Drama
- ENG 691 Comparative Literature

The remaining 6 credits are fulfilled by the master's thesis, which may be a paper in research or analysis. After approving the topic, the Department Chair will assign an advisor and a reader. Final, approved copies of the thesis must be submitted on the date specified in the academic calendar included in each semester's schedule.

TRACK TWO: PROFESSIONAL WRITING

The curriculum for the Professional Writing option has a tripart structure consisting of studies in rhetoric, writing, and technical applications. This structure will allow the student to first develop an understanding of rhetorical theory and tradition. The student will thus be equipped to fashion a personal approach to the writing process and execute this approach through the various writing courses. These writing courses are in turn designed to prepare the student for specific types of professional writing.

The third part of the structure, technical applications, will familiarize the student with the extracompositional elements of the writing profession.

Students must earn 33 credits from the three areas:

Rhetoric: A minimum of 15 credits from among the following:

- ENG 502 Principles of Rhetorical Invention
- ENG 506 Rhetorical Analysis
- ENG 510 Advanced English Grammar
- ENG 511 Classical Rhetorical Theories
- ENG 512 Modern Rhetorical Theories
- ENG 606 Advanced Argumentation

Writing: A minimum of 15 credits from among the following:

- ENG 504 Persuasive Writing
- ENG 517 Advertising Copywriting
- ENG 543 Speech Research, Writing, and Editing
- ENG 544 Business Research, Writing, and Editing
- ENG 547 Technical/Scientific Research, Writing, and Editing
- ENG 635 Journalistic and Feature Writing
- ENG 636 Nonfiction Writing

Technical applications: A minimum of 3 credits from among the following:

- ENG 518 Publication Production and Layout
- ENG 698 Practicum

The remaining 3 hours are fulfilled by

- ENG 694 the Professional Internship.

TRACK THREE: TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES

This 36-hour program fulfills certification requirements in regard to the state mandated ESOL courses and at the same time allows students to receive in-depth graduate training in the English content areas and in the appropriate techniques of bibliographic research utilized within the field of teaching English as a second language.

Program includes the five state-mandated courses in Teaching English as a Second Language, eighteen credits in the study of literature and writing, and three credits in the study of research techniques.

TESOL: Students must complete these five state-mandated courses:

- TSL 506 ESOL Curriculum and Materials Development
- TSL 509 Cross Cultural Communication and Understanding
- TSL 511 Applied Linguistics
- TSL 517 Testing and Evaluation of ESOL
- TSL 576 Methods of Teaching Limited English Proficient (LEP) Students: K-12

Research: Must complete the following course:

TSL 601 Action Research and Bibliography in ESOL

Literature: A minimum of 18 credits from 500- and 600-level literature (ENG) courses.

Course Descriptions — English Prefix: ENG

All courses numbered 500 are open to qualified undergraduates.

502 Principles of Rhetorical Invention (3)

Examination of the art, methods, and theory of rhetorical invention; its development from classical Aristotelian topics to modern advertising's media campaigns and image creation. Particular attention will be devoted to the ways in which the special demands placed on the professional writer both constrain and stimulate the invention process. Students will experiment with and evaluate the techniques of invention introduced in the course.

504 Persuasive Writing (3)

Study of the science and art of using language to promote information gain, induce attitude change, and affect behavior. Starting with Aristotelian sources of proof, this course will provide a historical perspective on how persuasion has evolved to modern times. Drawing on sociological and psychological principles, it will help students master the language to reach both the target and general audiences.

506 Rhetorical Analysis (3)

In-depth analysis of advertisements, speeches, film, and literature from a rhetorical perspective.

510 Advanced English Grammar (3)

Analysis of English grammatical structures; emphasis on modern descriptive analysis.

511 Classical Rhetorical Theories (3)

History of rhetoric from the Greco-Roman period to the mid-twentieth century. Attention will be given to the major figures, texts, and movements.

512 Contemporary Rhetorical Theories (3)

Study of the work of contemporary thinkers who have significantly shaped and developed contemporary rhetoric. Attention will be given to the possibilities and limitations of applying the theories of these thinkers in the situations and contexts commonly faced by the professional writer.

517 Advertising Copywriting (3)

Students will learn the theory and techniques necessary to produce successful advertising copy. Students will also learn to integrate the written word with the appropriate visual symbols in order to produce effective messages. Ethical issues within the industry will be emphasized.

518 Publication Production and Layout (3)

Students will learn how to enhance written material through the inclusion of appropriate graphic techniques and designs: colors, typesetting, layout, etc. Students will also learn the concepts and terminology necessary to deal with publishers and other professionals in the graphics industry. Includes desktop publishing.

520 Medieval English Literature (3)

Major literary works of the Middle Ages to 1485.

521 Sixteenth-Century English Literature (3)

Major literary works of the sixteenth century, from Wyatt through Spenser.

522 Seventeenth-Century English Literature (3)

Major literary works of the sixteenth century, from Donne through Milton.

523 Restoration and Eighteenth-Century English Literature (3)

Major literary works of the Restoration and eighteenth century.

- 524 American Literature: 1800-1865 (3)**
Selected readings from major writers of the period.
- 525 American Literature: 1865-1914 (3)**
Selected readings from major writers of the period.
- 526 American Literature: 1914-present (3)**
Selected readings from major writers of the period.
- 532 Nineteenth-Century English Literature: the Romantics (3)**
Major literary works of the Romantic period.
- 533 Nineteenth-Century English Literature: the Victorians (3)**
Major literary works of the Victorian period.
- 543 Speech Research, Writing, and Editing (3)**
Students will learn to research, organize, and write speeches to be delivered to internal and external audiences. Students will also learn to assess the needs and stylistic characteristics of speakers, gather data, assess intended audience response, and use effective rhetorical techniques. Ethical issues relevant to the responsibilities of the speech writer will be included.
- 544 Business Research, Writing, and Editing (3)**
Study and practice of the kinds of internal and external writing used in different organizations. Practice in the researching, writing, and editing of letters, memos, reports, market analyses, promotions, product descriptions, grants, proposals, etc.
- 547 Technical/Scientific Research, Writing, and Editing (3)**
Students will research, write, and edit general technical materials such as manuals, descriptions, and specifications. Applications to particular technologies—computers, engineering, aerospace, and others—will also be included. Relevant ethical issues will also be addressed.
- 550 Public Relations Writing (3)**
Study and practice of the approaches to and types of writing within the field.
- 560 Twentieth-Century Literature: 1900-1945 (3)**
Selected works of the period.
- 561 Twentieth-Century Literature: 1945-present (3)**
Selected works of the period.
- 576 Teaching English in the Middle and Secondary School: 6-12 (3)**
Problems confronting teachers of English in the secondary school, current research, organization of courses, sources of materials and textbooks, and methods of teaching. Prerequisite: Candidacy in the School of Education.

All courses numbered 600 and above are open only to students with baccalaureate degrees or their equivalent.

- 601 Bibliography and Research (3)**
Study of and practice with sources, searches, and methods for conducting research in English studies.
- 602 Literary Theory and Criticism (3)**
Based on the fact that the nature of a thing determines the method and approach by which it is studied, the course surveys the history of answers to the question: What is it that the student of literature studies?
- 603 Seminar in English Studies (3-6)**
Seminars in selected authors, trends, and genres.
- 604 Critical Approaches to Literature (3)**
Practical application of selected approaches rooted in representative theories, from ancient to modern.

- 606 Advanced Argumentation (3)**
Writing that aims to convince and persuade; study of invention, audience, logic, case construction, ethical appeal. Analysis and writing of argumentative and persuasive discourse.
- 617 Shakespeare: Comedies and Histories (3)**
Study of the earlier works of Shakespeare, principally the comedies and the histories.
- 618 Shakespeare: Tragedies and Romances (3)**
Study of the later works of Shakespeare, principally the great tragedies and the romances.
- 625 Poetry (3)**
Studies in poetry through various works, authors, and periods.
- 626 Prose (3)**
Studies in prose through various works, authors, and periods.
- 627 Drama (3)**
Studies in the drama through various works, authors, and periods.
- 634 Major Writers (3-6)**
Seminars in selected authors.
- 635 Journalistic and Feature Writing (3)**
The theory and practice of various journalistic writing styles as well as the process of assembling, editing, designing, and publishing a magazine. The complex relationships among financial resources, audience, and content will be examined and the unique possibilities and limitations of magazines as visual and verbal texts will be explored.
- 636 Nonfiction Writing (3)**
Emphasis on the writing market. Students will learn the methods of communicating with publishers and of preparing manuscripts. Emphasis on the development of marketable nonfiction material.
- 691 Comparative Literature (3)**
Introduction to the comparative study of literary forms, movements, authors, and genres.
- 694 Internship (3)**
Work in a writing capacity for a private or public company.
- 698 Practicum (3)**
Creation of a portfolio or major document demonstrating grasp of the writing process, from theory through research, to writing and extracompositional enhancement.
- 699 Master's Thesis (3) (3)**
Research investigation or analytical study of literary topics.
- 701 Directed Research (3)**
Opportunity to pursue independent research under the guidance of a Department advisor.
- 704 Thesis Research (3)**
This is a research-in-residence or continuous registration for Departments/Schools offering graduate programs.
- 729 Continuous Registration (1)**
This is a continuous registration for Departments/Schools offering graduate programs.

Teaching English to Speakers of Other Languages

Course Descriptions — TESOL Prefix: TSL

506 ESOL Curriculum and Materials Development (3)

Focuses on applications of the theories, principles and current research related to second language acquisition, as well as instructional techniques and materials relevant to development of ESOL curriculum. Improves and enhances the participant's knowledge of the ESOL curriculum in comparison with the regular English language arts curriculum and improves and enhances knowledge of materials appropriate for use with limited English proficient students who are speakers of other languages (LEPSOL).

509 Cross Cultural Communication and Understanding (3)

Develops awareness and understanding of the major cultures represented by the different language minorities within the state. Provides an emphasis on research that will enable participants to plan and implement curriculum, instruction and assessment activities to meet the special needs of limited English proficient students who are speakers of other languages (LEPSOL).

511 Applied Linguistics (3)

Enables participants to examine and research modern American English in light of current linguistic theories and to identify practical applications of these theories to the teaching of English to students of diverse ethnic and linguistic backgrounds. Objectives are to acquire a greater understanding of the structure of English from a modern day linguistic perspective and to analyze the structure of English in contrast with the language(s) of the target population in a given class.

517 Testing and Evaluation of ESOL (3)

Improves and enhances the knowledge and research needed to select and develop instruments of evaluation suitable for use with students who demonstrate limited English proficiency and are speakers of other languages (LEPSOL) through discussion, review and critique of available instruments and basic principles in evaluation and test development. Reviews basic principles in evaluation in order to select, adapt, and/or develop assessment instruments that are valid and reliable in: a) identifying speakers of other languages who are limited in English proficiency (LEPSOL); b) placing them at appropriate levels for instruction; c) determining their readiness to exit from special program for LEPSOL; d) determining attainment of instructional objectives; and e) grading and promoting them.

576 Methods of Teaching Limited English Proficient (LEP) Students: K-12 (3)

Emphasizes research into second language philosophy, methodology and the need for differentiating between teaching English to native speakers and teaching English to Speakers of Other Languages (ESOL). Enables participants to identify and apply major ESOL methodologies and approaches in accordance with the limited English proficient (LEP) students' culture and home language background, age, level, and learning style.

601 Action Research and Bibliography in ESOL (3)

Provides experience in identifying a research problem in ESOL, developing hypotheses, and designing appropriate research methods to test their hypotheses. Guides in the development and presentation of a research proposal. Reviews literature related to the problem. Students will be required to carry out their research.

FRENCH (B.A.)

The French program provides students with proficiency in the four basic skills — listening, speaking, reading, and writing — and gives them a deeper understanding of French culture. These objectives aim to prepare the student for teaching and for work related to translating and interpreting, diplomatic service, overseas business and industry, social welfare, law, nursing, allied health communications and services, etc.

The French major consists of a minimum of 30 credits.

MAJOR (CORE COURSES)

FRE 302	Introduction to French Literary Texts
FRE 305, 306	Survey of French Literature I, II
FRE 379	Culture and Civilization

Students will choose 18 additional credit hours beyond FRE 101-102.

Students who are planning to teach should add FRE 476, Teaching Foreign Languages: K-12.

MINOR IN FRENCH

A minor in French requires a minimum of 21 credit hours.

Students are placed in French classes according to their level of proficiency.

Up to six credits in French will be granted for CLEP upon completion of at least six credits in French taken at Barry University.

GRADUATION REQUIREMENTS

The minimum grade of C is required in all major and minor courses. At the end of the program, French majors must complete satisfactorily a comprehensive examination that includes an oral component.

Course Descriptions — French Prefix: FRE

101-102 Elementary French I, II (3) (3)

Introduction to French as a spoken and written language; conversation with emphasis on practical vocabulary and accurate pronunciation; practice in class and in the laboratory in understanding and using the spoken language; reading and writing with progressive grammatical explanations. FRE 102: Prerequisite: FRE 101 or equivalent.

203-204 Intermediate French I, II (3) (3)

Intensive oral and written review of the pronunciation and the structures of the French language; recognition and active handling of aural comprehension and oral production; reading and writing. FRE 203: Prerequisite: FRE 102 or equiv.; FRE 204: Prerequisite: FRE 203 or equivalent.

250 Conversation and Composition (3)

Diction and fluency in the language; prepared and extemporaneous dialogues and reports on current topics; practice in writing with accuracy; systematic review of the grammatical principles of the language; study and practice of pronunciation with exercises in diction. Prerequisite: FRE 204 or equivalent.

300 Special Topics (3-12)

Content to be determined to fill specific needs or interests.

- 301 Advanced Conversation, Composition and Grammar (3)**
Intensive study of written and spoken French. Development of skills to facilitate spontaneity of expression. Practice in contemporary usage through selected readings. Prerequisite: FRE 250 or equivalent.
- 302 Introduction to French Literary Texts (3)**
Introduction to French literature through close reading and discussion of selected works chosen from representative genre. Includes compositions, conversation, and introduction to literary criticism through literary dissertations and class discussions. Conducted in French. Prerequisite: FRE 250 or equivalent.
- 303 Advanced Conversation (3)**
Development of advanced speaking skills, prepared dialogues, extemporaneous dialogues, reports, skits based on real-life situations, and other projects. For non-native speakers. Prerequisite: FRE 204 or equivalent.
- 305-306 Survey of French Literature I, II (3) (3)**
Historical survey of French literature from its origins to the twentieth century; representative works from each period. Conducted in French.
- 317 Commercial French (3)**
Introduction to the use of the French language as a means of communication in the world of business. Emphasis on basic commercial terminology, documentation and correspondence. Areas such as advertising, trade, banking and finance will be investigated in this course. Conducted in French.
- 325 Introduction to Translation (3)**
Emphasis on basic principles of translation and interpretation. Techniques and resources for professional translation.
- 326 Introduction to Interpretation (3)**
Emphasis on basic principles of interpretation. Techniques and resources for professional interpretation.
- 379 Culture and Civilization (3)**
Historical survey of the life and culture of the French people. Conducted in French. Prerequisite: FRE 250 or equivalent.
- 380 Contemporary Culture and Civilization (3)**
Survey of the life and culture of the French people of the twentieth century. Panorama of contemporary French intellectual and artistic achievements. Conducted in French. Prerequisite: FRE 250 or equivalent.
- 400 Twentieth-Century Cinema (3)**
Study of the development of the French cinema from 1895 to the present. Film will be studied as an art form and as an expression of the society that produces it. Developments from the silent era, through sound, to contemporary technical achievements will also be analyzed.
- 402 Introduction to Practical Stylistics (3)**
Advanced grammar and syntax exercises. Systematic study of the problems of translations and their solutions. Weekly conversation topics to improve oral expression.
- 440 Classicism (3)**
Classical and baroque in French seventeenth century literature; themes and structures in works of the principal figures of the day, such as Descartes, Corneille, Pascal, Molière, Racine, Mme. de Sevigné, La Fontaine, and La Bruyère.
- 444 Eighteenth-Century Literature (3)**
Focus on eighteenth century French literature; themes and structures in the works of the principal literary figures of the century.
- 445 Nineteenth-Century Literature (3)**
Study of themes and structures in the works of the principal literary figures of the nineteenth century, from Chateaubriand to Mallarmé.

460 Contemporary Literature (3-6)

Main currents of thought and choices in literary style among contemporary authors.

461 Twentieth-Century Theatre (3-6)

Plays and dramatic theories of representative dramatists of the twentieth century.

476 Methods of Teaching Foreign Languages: K-12 (3)

Traditional and modern methods of teaching comprehension and language skills; organization of units of work and lesson plans. Analysis of modern texts, tests and materials; use of the language laboratory. Prerequisite: Candidacy in the School of Education.

487 Seminar (3-12)

Selected literary topics, including thematic, genre and historical approaches.

SPANISH (B.A.)

The Spanish program provides students with proficiency in the four basic skills — listening, speaking, reading and writing — and gives them a deeper understanding of the Hispanic culture. It aims to prepare Spanish majors not only to teach, but also to broaden their career opportunities by gaining proficiency in Spanish. Translating and interpreting, diplomatic service, international business and industry, social welfare, law, nursing, allied health communications and services, among others, are areas enhanced by the command of Spanish.

The Spanish major consists of a minimum of 30 credits.

In the Spanish three-track program, students are placed according to their level of proficiency and may choose among the following courses:

Track I (for non-natives learning the language)

- SPA 101, 102 Elementary Spanish I, II
- SPA 150, 153 Spanish for Business I, II
- SPA 203, 204 Intermediate Spanish I, II
- SPA 250 Conversation and Composition
- SPA 304 Advanced Spanish
- SPA 307 Advanced Conversation
- SPA 315, 316 Reading and Writing I, II
- SPA 317 Commercial Spanish

Track II (for students from a Hispanic background with no formal training in the language)

- SPA 315, 316 Reading and Writing I, II
- SPA 317 Commercial Spanish
- SPA 320 Structural Analysis of English and Spanish

And, when sufficiently advanced, any Special Topic (300), or other literature.

Track III (for native speakers or non-natives with near-native fluency)

- SPA 300 Special Topics
- SPA 315, 316 Reading and Writing I, II
- SPA 317 Commercial Spanish
- SPA 320 Structural Analysis of English and Spanish
- SPA 325 Introduction to Translation
- SPA 326 Introduction to Interpretation
- SPA 355, 356 Survey of Spanish Literature I, II
- SPA 359/459 Independent Study

- SPA 360, 361 Survey of Hispanic-American Literature I, II
- SPA 366 The Hispanic-American Novel
- SPA 440 Spanish Literature of the Golden Age
- SPA 443 Twentieth-Century Spanish Literature
- SPA 447 Contemporary Spanish-American Fiction
- SPA 476 Methods of Teaching Foreign Languages, K-12
- SPA 487 Seminar

Under the direction of their advisors, Spanish majors will choose courses distributed among the following areas:

Survey Courses (minimum of 12 credits):

- SPA 355 Survey of Spanish Literature I
- SPA 356 Survey of Spanish Literature II
- SPA 360 Survey of Hispanic-American Literature I
- SPA 361 Survey of Hispanic-American Literature II

Period Courses (minimum of 6 credits):

- SPA 440 Spanish Literature of the Golden Age
- SPA 443 Twentieth-Century Spanish Literature
- SPA 447 Contemporary Spanish-American Fiction
- SPA 300 Special Topics (appropriate courses)
- SPA 487 Seminar

Authors/Genres Courses (minimum of 6 credits):

- SPA 366 The Hispanic-American Novel
- SPA 300 Special Topics (appropriate courses)
- SPA 487 Seminar

Language/Writing/Teaching Courses (minimum of 6 credits):

- SPA 315 Reading and Writing I
- SPA 316 Reading and Writing II

Students who are planning to teach should add SPA 476, Teaching Foreign Languages: K-12.

Up to six credits in Spanish will be granted for CLEP upon completion of at least six credits in Spanish taken at Barry University.

The minimum grade of C is required in all major and minor courses. At the end of the program, Spanish majors must complete satisfactorily a comprehensive examination.

MINOR IN SPANISH

The Spanish minor is available under two options: a) a general minor consisting of 21 credit hours in Spanish and b) the Certificate Program in Translation and Interpretation consisting of 21 to 27 credit hours.

CERTIFICATE PROGRAM IN TRANSLATION AND INTERPRETATION

Required courses:

- | | | |
|---------|--|---|
| SPA 315 | Reading and Writing I | 3 |
| SPA 316 | Reading and Writing II | 3 |
| SPA 320 | Structural Analysis of English and Spanish | 3 |

SPA 325	Introduction to Translation	3
SPA 326	Introduction to Interpretation	3
SPA 425	Advanced Techniques of Translation	3
SPA 426	Advanced Techniques of Interpretation	3
		21

Recommended courses:

SPA 499	Internship	3-6
---------	------------	-----

Total: 24-27

Course Descriptions — Spanish Prefix: SPA

101, 102 Elementary Spanish I, II (3) (3)

Introduction to Spanish as a spoken and written language; conversation, with emphasis on a practical vocabulary and accurate pronunciation; reading and writing with progressive grammatical explanations.

150, 153 Spanish for Business I, II (3) (3)

An introductory course in Spanish with an emphasis on business terminology, accurate pronunciation, and practical applications. For students with little or no preparation in Spanish. Not open to native speakers or students with two or more years of the language.

203, 204 Intermediate Spanish I, II (3) (3)

Intensive oral and written review of Spanish pronunciation and grammatical patterns, as well as reading and writing. Prerequisite: SPA 102 or equivalent.

250 Conversation and Composition (3)

Diction and fluency in the language; prepared and extemporaneous dialogues and reports on current topics; practice in writing with accuracy; systematic review of the grammatical principles of the language; study and practice of pronunciation with exercises in diction. Prerequisite: SPA 204 or equivalent.

300 Special Topics (3-12)

Content to be determined each semester by the Department as requested by faculty and/or students to fill specified needs or interests.

304 Advanced Spanish (3)

Focus on the intensive study of the written and spoken language. Practice of advanced skills will be provided to facilitate spontaneity of expression.

307 Advanced Conversation (3)

Development of speaking skills. Prepared and extemporaneous dialogues, reports, skits on real-life situations, and other projects. For non-native speakers. Prerequisite: SPA 204 or equivalent.

315, 316 Reading and Writing I, II (3) (3)

Readings in Spanish as well as study of grammar and spelling. Techniques of composition. For native and non-native speakers with command of the language.

317 Commercial Spanish (3)

Introduction to the use of the Spanish language as a tool for international trade. Emphasis placed on commercial terminology, documentation and correspondence. Areas such as advertising, foreign trade, transportation, banking and finance will also be investigated in this course.

320 Structural Analysis of English and Spanish (3)

Course for student of translation and interpretation and for those who plan a career in language teaching. The course will use contrastive analysis, wherein any two languages are compared in order to ascertain which structures of one language are the most similar to or the most diverging from those of the other.

- 325 Introduction to Translation (3)**
Emphasis on basic principles of translation. Techniques and resources for professional translation.
- 326 Introduction to Interpretation (3)**
Emphasis on basic principles of interpretation. Techniques and resources for professional interpretation.
- 355, 356 Survey of Spanish Literature I, II (3) (3)**
Historical survey of Spanish literature from its origins to the twentieth century. Representative works of each period.
- 359/459 Independent Study (3)**
Opportunity for extensive research in areas of special interest to the student. Prerequisite: Approval of Department Chair and Dean.
- 360, 361 Survey of Hispanic-American Literature I, II (3) (3)**
Historical survey of Hispanic-American literature from its origins to the twentieth century. Representative works of each period.
- 366 The Hispanic-American Novel (3-6)**
Selected readings, discussion, and analysis of major Hispanic-American novels.
- 425 Advanced Techniques of Translation (3)**
Advanced methods and tools for professional translating. Prerequisite: SPA 325 or equivalent.
- 426 Advanced Techniques of Interpretation (3)**
Advanced methods and tools for professional interpreting. Prerequisite: SPA 326 or equivalent.
- 440 Spanish Literature of the Golden Age (3-6)**
Selected readings, discussions, and analysis of the works of the principal writers of the sixteenth and seventeenth centuries.
- 443 Twentieth-Century Spanish Literature (3-6)**
Selections from the poetry, prose and drama of the twentieth century.
- 447 Contemporary Hispanic-American Fiction (3-6)**
Selected readings, discussions and analysis of the principal trends and authors of Hispanic-American contemporary fiction.
- 476 Methods of Teaching Foreign Languages: K-12 (3)**
Traditional and modern methods of teaching comprehension and language skills; organization of units of work and lesson plans. Analysis of modern texts, tests and materials; use of the language laboratory. Prerequisite: Candidacy in the School of Education.
- 487 Seminar (3-12)**
Selected literary topics including thematic, genre, and historical approaches.
- 499 Internship (3) (3)**
Opportunity for students in the certificate program in Translation and Interpretation to acquire experience by working with professionals in the field. Prerequisite: SPA 425 or 426, and approval of Department Chair and Dean.

DEPARTMENT OF FINE ARTS

Derna M. Ford, M.M.Ed., Chair

Faculty: Althouse, Curreri, Lizama, Maddern, Neal, Solla, Trimble.

ART (B.F.A.)

The Art program prepares majors for their future lives as professional artists or art educators and for advanced study at the graduate level. The classes are designed to foster individual growth in an integrated academic and studio environment. Courses are also recommended for non-majors who wish to enrich their lives and develop new skills.

MAJOR (CORE COURSES)

ART 101A	Basic Drawing
ART 101B	2-D Design
ART 102A	Intermediate Drawing
ART 102B	3-D Design
ART 209, 210	History of Western Art
ART 399	Art Management

Six credits count toward the required liberal arts distribution.

GRADUATION REQUIREMENTS

The minimum grade of "C" is required in all major and minor courses. In their final year, art majors participate in a senior exhibition in fulfillment of the requirement for an integrative experience. Seniors are required to provide a complete set of slides of their exhibition. Juniors are required to pass a faculty review before they begin preparing for their senior exhibition.

The University reserves the privilege of retaining one student work for the purpose of exhibition or as part of the Department's permanent collection. The University also reserves the right to reproduce and publish student works.

Program of Study

	B.F.A.	B.F.A. (Education)
Art History	12	9
Art Studio	54	45
Liberal Arts Distribution	39 (45)	39 (45)
Electives (Non-Art)	15	-
Certification Requirements	-	28
	<hr/> 120 cr	<hr/> 121 cr

ART MANAGEMENT (B.A.)

The B.A. in Art Management provides course work and experience directed towards managing an art facility. The program includes a business minor and credits in mathematics and communication.

DEGREE REQUIREMENTS

MAJOR (CORE COURSES)

ART 101A	Basic Drawing	3
ART 101B	2-D Basic Drawing	3
ART 209, 210	History of Western Art	3,3
ART 399	Art Management	3
ART 499	Internship	3
Studio Electives		12
Art History Electives		6
Total Art Credits:		36

Corequisites (15 credits)

CS 180	Introduction to Computers	3
MAT 108	Precal Math for Business	3
MAT 152	Elementary Probability and Statistic	3
COM 200	Introduction to Mass Media	3
COM 390	Principles of Public Relations	3
		15

REQUIRED MINOR IN BUSINESS

BUS 181	Concepts of Business Behavior	3
ACC 201	Principles of Accounting I	3
ECO 201	Introductory Macroeconomics	3
MGT 305	Management Concepts and Applications	3
MKT 306	Marketing Concepts and Applications	3
	Choice of two business electives approved by dean	6

Total for minor in Business 21

GRADUATION REQUIREMENTS

The integrative experience is an internship (ART 499). The minimum grade of "C" is required in all major and minor courses.

Minor in Art

21 credits in Art Studio and/or Art History.

Course Description — Art Prefix: ART

101A Basic Drawing (3)

Beginning theory and application of basic drawing materials, techniques, and concepts focusing on still life as subject matter. (Special fee)

101B 2-D Design (3)

Introduction to basic two-dimensional design concepts, theory and techniques through the study of the principles and elements of art. Color theory and linear perspective will be included. (Special fee)

102A Figure Drawing (3)

The study of the structure, anatomy, and expressive design of the human form using a variety of drawing media and techniques. Prerequisite: ART 101A. (Special fee)

102B 3-D Design (3)

Introduction to the theory, concepts, and creation of three-dimensional art through a variety of building processes, materials, and techniques. (Special fee)

141 Basic Handbuilding (3)

Introduction to clay as an art medium; handbuilding techniques of clay forming, including basic glazing and firing instruction. (Special fee)

173 Basic Camera (3)

A photography course for those with little or no experience desiring a thorough introduction to adjustable camera operation. Usage of films, shutter speed, aperture, depth of field, lenses and filters will be explored through lecture, homework and field trips (no darkroom work).

203 Basic Photography (3)

Introduction to the camera and black and white darkroom procedure; emphasis on technique rather than aesthetics. 35 mm adjustable camera required. Limited number of rental cameras available. (Special fee)

205 Basic Graphic Design (3)

Introduction to graphic design using type and visual symbols. (Special fee)

209, 210 History of Western Art (3) (3)

Art from ancient civilization to the Renaissance, the Baroque period through the nineteenth century and contemporary trends as influenced by the present era.

241 Basic Potter's Wheel (3)

Introduction in the use of the potter's wheel as an important forming technique of the potter/artist. (Special fee)

242 Intermediate Potter's Wheel (3)

Refinement of wheel throwing techniques; greater participation in kiln firing cycles. Prerequisite: ART 241. (Special fee)

260 Basic Painting I (3)

Introduction to the painting medium with a foundation of basic color theory, application and techniques. (Special fee)

265 Basic Painting II (3)

A continuation of the study of basic painting materials and techniques with emphasis on the seeing and painting of value, color and composition. Prerequisite: ART 260. (Special fee)

300 Special Topics (3)

Subject content to be determined by the Department to fill specified needs or interests. (Special fee for Studio courses)

303 Intermediate Photography (3)

Projects involving abstraction and character-portraits allow the student to creatively refine techniques of basic photography; new areas such as hand coloring, toning, high contrast ortho film and solarization are explored. Prerequisite: ART 203. (Special fee)

304 Color Photography (3)

Introduction to printing color enlargements from color negatives using automated RA-4 processing. Emphasis on creative usage of color and quality color printing techniques. Prerequisite: ART 303. (Special fee)

307 Audio Visual Production (3)

Operation of programmable two-projector dissolve unit with sound synchronized narration, music/sound effects to produce a complete slide/sound presentation. Prerequisite: ART 203. (Special fee)

309 Pinhole Photography (3)

Students construct cardboard cameras which produce high quality photographs through usage of black and white paper negatives and positives. Sepia toning, hand coloring, and matting will also be included. (Special fee)

310 Manipulative Photography (3)

A course designed for students wishing to explore alternative methods of making and displaying photographic images. Prerequisite: ART 303. (Special fee)

311 History of Art/Photography (3)

An overview of the evolution of photography from its invention in the 1800's up to contemporary experimental work.

314 Art Appreciation (3)

A broad introduction to the nature, vocabulary, media, and history of art with a concentration in contemporary art.

315 Photojournalism (3)

Emphasis upon direct visual communication and effective photographic documenting of events. Prerequisite: ART 203. (Special fee.) (Also JOU 315.)

341 Glaze and Clay Calculation (3)

Investigation of the properties of various claybodies and their relationship to form, plus study of different glazes and their temperature ranges. Prerequisite: ART 242 or 342. (Special fee)

342 Intermediate Handbuilding (3)

A continuation of study of handbuilding techniques in clay. Emphasis on sculptural refinement of the medium. Prerequisite: ART 141 (Special fee)

359, 459 Independent Study (1-6)

Opportunity for research in areas of special interest to the student. Prerequisite: Dean and Department Chair approval. For majors only. (Special fee)

360, 365 Intermediate Painting I,II (3) (3)

Intermediate study of the painting medium with emphasis on concepts, styles and techniques. Prerequisite: ART 265. (Special fee)

363 Intermediate Drawing I (3)

A continuation of the study of still life drawing concepts with emphasis on color drawing materials and techniques. Prerequisite: ART 102A. (Special fee)

364 Intermediate Drawing II (3)

A continuation of the study of the human form in student's preferred media and techniques. Prerequisite: ART 102A. (Special fee)

376 Art in the Elementary School (3)

Aims and procedures in the development of a creative expression in elementary school children; includes practice and experimentation in various suitable media. (Special fee)

399 Art Management (3)

In-depth study of professional practices of both art managers and artists in promoting and marketing artwork. Topics include funding, gallery contracts, writing resumes and biographical data, slide documentation, formal preparation of artwork for exhibition, etc. Prerequisite: Only for majors and minors, junior or senior status.

403 Advanced Photography I (3)

First half of semester is devoted to color posterization; during the latter half, an individual project is offered; student may then explore personal aesthetic or technical interests through his or her photographic series. Prerequisite: ART 303. (Special fee)

404 Advanced Photography II (3)

Advanced student works on a creative independent project; emphasis on the development of one's personal form of expression within the photographic arts, whether through conventional black and white, color, non-silver processes, or even an inter-disciplinary merging of the other media offered in Fine Arts Department. Prerequisite: ART 403. (Special fee)

407 View Camera Photography (3)

Projects provide exploration of the view camera plus introduce studio/strobe lighting techniques. Student's photographic experiences are broadened through take-home access to the university's view cameras. (Special fee)

409 History of Art: The Renaissance (3)

Art and architecture of the Renaissance in relation to the political and social structures of the 15th and 16th centuries in Italy.

410 History of Art: 19th Century European Art (3)

Neoclassicism, Romanticism, Realism, Impressionism, and Post-Impressionism in European art and architecture studies in relation to political and intellectual developments.

414 Color Photography - Ciba (3)

Printing color enlargements from color transparencies (slides) using automated cibachrome processing. Emphasis on creative usage of color and quality color printing techniques. Prerequisite: ART 303. (Special fee)

441 Advanced Ceramics (3)

Advanced projects and techniques with instruction on an individual basis to suit the student's needs. Prerequisite: ART 341 or 342. (Special fee)

460, 465 Advanced Painting I, II (3) (3)

Advanced painting problems with special emphasis on the development of individual expression, concept, materials, and philosophies; instruction is on an individual basis to suit the students needs. Prerequisite: ART 365. (Special fee)

463, 464 Advanced Drawing I, II (3) (3)

Advanced drawing problems with special emphasis on the development of individual expression, concept, materials, and philosophies; instruction is on an individual basis to suit the students needs. Prerequisite: ART 363 for 463 and ART 364 for 464 (Special fee)

476 Methods in Art Education (4)

Philosophy, curriculum, and methods pertinent to the development of creative expression for students in grades 1-12; practice in formulating aims, preparing materials, demonstrating processes, evaluating and displaying work done in the classroom situation. Required for certification in grade K-12. Prerequisite: Candidacy in the School of Education. (Special fee)

487 Seminar (3)

492 Workshop (1-3)

499 Internship (3-12)

For Art majors, on-site experience in a commercial gallery, museum, or approved organization. For Photography majors in the Biomedical/Forensic track, six-month preceptorship at Dade County Medical Examiner's Department Forensic Imaging Bureau. Prerequisites: Senior status, Department and Dean's approval. Requires a minimum of 120 hours.

PHOTOGRAPHY (B.A.)

The photography major offers two tracks of study, Creative Photography and Biomedical and Forensic Photography, leading to a Bachelor of Arts (B.A.) degree. A photography certificate is also available for non-degree-seeking students.

The minimum grade of C is required in all major and minor courses. A minor in Photography requires completion of 21 credits within the discipline.

The University reserves the privilege of retaining student photographs for the purpose of exhibition or as part of the Department's permanent collection. The University also reserves the right to reproduce and publish student works.

PHOTOGRAPHY/CREATIVE

The Creative Photography major explores the creative photographic image and uses this as a vehicle for self-expression and visual communication.

Students in the Creative Photography track must complete a minimum of 30 credit hours in photography which will include 21 credits of the photography core. To demonstrate high professional standards, graduating photography majors must participate in a senior exhibition. This also fulfills the University's requirement for an integrative experience. Juniors are required to pass a faculty review before they begin preparing for their senior exhibition. A minimum grade of "C" is required in all major and minor courses.

Photography Core 21 credits

ART 101B	2-D Design	3 cr.
ART 203	Basic Photography	3 cr.
ART 303	Intermediate Photography	3 cr.
ART 304	Color Photography	3 cr.
ART 403	Advanced Photography I	3 cr.
ART 404	Advanced Photography II	3 cr.
ART 414	Color Photography - Ciba	3 cr.

Photography Electives 9 credits minimum

ART 173	Basic Camera	3 cr.
ART 300	Special Topics in Photography	3 cr.
ART 307	A.V. Production	3 cr.
ART 309	Pinhole Photography	3 cr.
ART 310	Manipulative Photography	3 cr.
ART 311	History of Art/Photography	3 cr.
ART 315	Photojournalism	3 cr.
ART 359	Independent Study	3 cr.
ART 399	Art Management	3 cr.
ART 407	View Camera Photography	3 cr.
ART 459	Independent Study	3 cr.

While still maintaining its creative identity, the photography major may be combined with a minor in a related discipline to provide the student with a versatile and practical program of study. Some recommended minors are Public Relations, Art, Journalism, Business, and Communication.

See ART for course descriptions.

PHOTOGRAPHY/BIOMEDICAL AND FORENSIC

The Photography major offers a track in biomedical and forensic photography for students with a combined interest in photography and biology or criminal justice. Biomedical photography is used in the medical, forensic, and law enforcement fields. An integral part of this program is the six-month internship at the Dade County Medical Examiner's Department Forensic Imaging Bureau conducted during spring and summer of the student's senior year. Acceptance into this internship will be determined after the sophomore year interview and portfolio review with the Director of the Biomedical and Forensic Photography program. This internship also fulfills the University's requirement for an integrative experience.

Photography core 21 credits

ART 101B	2-D Design	3 cr.
ART 203	Basic Photography	3 cr.
ART 303	Intermediate Photography	3 cr.
ART 304	Color Photography	3 cr.
ART 403	Advanced Photography I	3 cr.
ART 404	Advanced Photography II	3 cr.
ART 414	Color Photography - Ciba	3 cr.

Minor in Biology 19-20 credits

BIO 120	Biology Overview	3 cr.
BIO 220	Intro. to Human Anatomy	4 cr.
BIO 240	Intro. to Human Physiology	5 cr.
BIO 450	Histology	4 cr.
BIO 300	Special Topics or BIO elective	3-4 cr.

Internship in Biomedical and Forensic Photography 12 credits

See ART and BIO for course descriptions.

PHOTOGRAPHY CERTIFICATE

Individuals wishing to study photography only for personal enrichment or preparation for a change of career, etc., and not interested in earning an academic degree may enroll in photography courses as non-degree-seeking students. Non-degree-seeking students have the option of earning a Certificate in Photography by successfully completing 21 credits of the photography core plus 9 credits of photography electives, with a minimum grade of "C".

Please refer to admissions policies for non-degree students.

MUSIC MINOR

The Department offers a minor in Music. Completion of a minimum of 22 credits with a grade of "C" or above is required including MUS 109, 110, and choice of two of the four Music History courses; two semesters of University Chorale; six credits in Applied Music plus two elective credits. The Department offers courses for distribution and courses required of Education majors for certification.

All prospective minors must demonstrate skill and/or potential on their placement test scheduled at the time of application.

PROGRAM OF STUDY F

MUS 109	Theory	3
110	Theory II	3
123	Applied Music	6
327	History (Baroque & Classical)	3
328	History (Romantic)	3
329	History (20th Century)	3
180/380	University Chorale	1
326	Electronic Music	3

Course Descriptions — Music Prefix: MUS

108A Rudiments of Music (3)

Review of fundamental concepts including notation, rhythm, pitch and intervals; basic preparation for students wishing to develop music reading skill, may not be applied toward major.

108B Listening to Music (3)

Emphasis on the development of techniques for listening analytically and critically; representative examples drawn from various musical periods.

109 Theory I (3)

Correlated study of the rhythmic and harmonic elements of music; includes ear training and keyboard work.

110 Theory II (3)

Continued study of the elements of music; presentation of harmonic practice on a historical basis; continued work in ear-training and keyboard.

123 Applied Music (1 or 2)

Private lessons for non-majors; one-half hour private lesson, 1 credit; one hour private lesson, 2 credits; may be repeated for additional credit.

130 Keyboard Harmony, Jazz, Pop, Commercial (1)

Lessons given in a class situation; development of basic keyboard skills.

135, 136 Applied Music (1 or 2)

First and second enrollments on a particular instrument; for music minors only.

180/380 University Chorale (1)

First four semesters of enrollment, 180; fifth and subsequent enrollment, 380.

186/386 Ensemble (1)

Selected ensembles; student may enroll concurrently in two different ensembles.

202 History of Music I: Classical to Middle Romanticism (3)

An examination of musical styles from the classical era to middle Romanticism. Emphasis on representative composers of the periods; extra-musical influences (painting and literature); and social influences (wars, political and religious beliefs, philosophical trends, and technological conditions).

203 History of Music II: Late Romanticism to Avant-Garde (3)

An examination of musical styles from the late Romanticism to the avant-garde. Emphasis on representative composers of the periods; extra-musical influences (painting and literature), and social influences (wars, political and religious beliefs, philosophical trends, and technological conditions).

287/288 Applied Music (1 or 2)

Third and fourth enrollments on a particular instrument; for music minors only.

300 Special Topics (1-3)

Course content designed to fill specific needs or interests.

326 Electronic Music (3)

Discussion of the beginnings and evolution of electronic and computer music and its implications in 20th century music.

327 History: Baroque and Classical (3)

Development of styles, including extra-musical influences.

328 History: Romantic (3)

Development of styles, including extra-musical influences.

329 History: Twentieth Century (3)

Development of styles, including extra-musical influences.

335, 338 Applied Music (1 or 2)

Fifth and sixth semesters of study on a particular instrument; for music minors only.

359 Independent Study (3)

376 Teaching Music in the Elementary Schools (3)

Open only to junior and senior Elementary Education majors. This course approaches the actual music classroom situation from the standpoint of the non-music specialist and is meant to prepare general elementary teachers for classroom music teaching.

THEATRE (B.A.)

Students selecting to major in Theatre will find a program both diverse and practical in nature. There are four tracks: Acting, Technical, Liberal Arts and Theatre Management. The program provides two mainstage productions a year with additional student projects in the Pelican Theatre. Participation in the Pelican Repertory Company, the Barry Theatre Club, and Lunchtime Theatre provides additional activities and opportunities. In addition, acting, technical and theatre management internships are available for juniors and seniors through auditions and departmental approval.

The Theatre major prepares students for teaching, performance, and entry into graduate school. For non-majors, the Theatre program includes experience and courses in fundamental methods and content.

A major requires 42 credits, including 105 or 206, 155, 156, 185 or 186, 290, 291, 307, 323, 391, 392 or 393, 439, and 440 or 441.

A minor requires 21 credits, including TH 155 or 156, 185 or 186, 290 or 291, 307, 323, 391, 392 or 393, 439, and 440 or 441.

Students seeking certification must add Education 151, 218, 441 or 462, 442 or 463, 466, 467 or 468, and 499; and Speech 411 and 476.

In order to fulfill requirements for graduation, students must participate in mainstage productions and must complete a Theatre comprehensive examination during their final semester.

The minimum grade of "C" is required in all major and minor courses.

THEATRE MANAGEMENT (B.A.)

The Bachelor of Arts in Theatre Management provides course work and experience directed towards managing a theatre facility. The program includes a business minor and credits in Mathematics and Communication. The program of study is as follows:

MAJOR 36 credits

TH 155, TH 185, TH 186, TH 391, TH 392, TH 393, TH 399, TH 439,
TH 440, TH 499, Theatre electives (11 credits).

Corequisites 15 credits

CAT 110, 120, 130 WordPerfect, Lotus and dBase
MAT 108 Precal Math for Business
MAT 152 Elementary Probability and Statistics
COM 200 Introduction to Mass Media
COM 390 Principles of Public Relations

Minor in Business 21 credits

BUS 181 Concepts of Business Behavior
ACC 201 Financial Accounting
ECO 202 Introductory Microeconomics
MGT 305 Management Concepts and Applications
MKT 306 Marketing Concepts and Applications
FIN 319 Financial Management
MGT 409 Organizational Communication

Course Descriptions — Theatre Prefix: TH

105 Theatrical Movement (1)

Introduction to basic dance forms for beginners; includes exposure to beginning ballet, jazz, and modern and tap, emphasis differs each semester.

106 Theatrical Movement (1)

Beginning, intermediate dance techniques, with specific focus on ballet, jazz, and modern and tap dance forms; emphasis varies each semester; Theatrical Movement 105 or permission of Department Chair. May be repeated for additional credit.

113 Theatre Appreciation (3)

Explores the nature and existence of Theatre as an art form and its function in society.

155, 156 Fundamentals of Acting (3) (3)

Creative approach to acting with emphasis on the development of the imagination, flexibility of body movement, and greater ease of communication. Mime; improvisation and basic scene study, stage combat and play analysis; additional lab time required.

185, 186 Stagecraft (3) (3)

Introduction to Stagecraft with emphasis on basic construction of sets and properties in the first semester and operation of basic lights and sound second semester.

205 Theatrical Movement (1)

Intermediate dance techniques and composition with specific focus on modern: jazz, and dramatic dance forms for the stage. Prerequisite: permission of Department Chair. May be repeated for additional credit.

206 Theatrical Movement (1)

Advanced dance techniques, improvisation and composition for the stage; focuses on modern, ballet, jazz, and dramatic dance performance techniques. Prerequisite: permission of Department Chair. May be repeated for additional credit.

213 Oral Interpretation (3)

Basic introduction to the theory and technique necessary for the presentation of prose, poetry, and dramatic literature for an audience.

255 Intermediate Acting (3)

Role/play analysis focusing on techniques for in-depth analysis of plays/characters using scenes from contemporary American Theatre. Prerequisite: TH155, 156 and permission of Department Chair.

256 Intermediate Acting (3)

Advanced scene study in laboratory conditions. Prerequisite: TH 155, 156, 255 and permission of Department Chair.

285, 286 Theatre Production (3) (3)

Backstage operations and crew assignments with emphasis on practical application in actual productions.

288 History and Philosophy of Dance (2)

Progression and influence of dance upon civilization, the arts, and social communication; from ancient to modern.

290 History and Design of Stage Costumes (2)

Introduction to the development and history of costume through the ages and basic techniques of costume design and pattern drafting. Additional lab time required.

291 Stage Make-Up (2)

Basic preparation for make-up design and philosophy, character analysis and actual application of make-up for the stage. Additional lab time required.

300 Special Topics (3)

Content to be determined to fill specific needs or interests.

307 Performing Lab (3)

Provides the student with the opportunity to perform with the Pelican Repertory Company.

323 Play Directing (3)

Investigation of the basic theories and traditional techniques of play direction. Prerequisites: TH 155, 156, 255 or permission of the Department Chair. Additional lab time required.

324 Advanced Play Directing (3)

Continued study of directing techniques with specific focus on the student directed production. Prerequisite: permission of Department Chair. Additional lab time required.

355 Advanced Acting: Styles (3)

Advanced study of acting focusing on performance, reflecting historical periods or social cultures. Prerequisites: TH 155, 156, 255 or permission of Department Chair. Additional lab time required.

356 Advanced Acting: Shakespeare (3)

Intensive focus on the physical, vocal and emotional preparation necessary for the performance of scenes from Shakespearean plays. Prerequisite: TH 155, 156, 255, 256 and permission of Department Chair.

390 Stage Costume Design and Construction (3)

Techniques of sewing and costume design and rendering: pattern drafting and construction. Additional lab time. Prerequisite: Permission of Department Chair.

- 391 Stage Lighting (3)**
Basic theory and practical application of lighting for the stage. Additional lab time required.
- 392 Scene Design (3)**
Basic theory and practical design techniques and types of material used in theatre set design and construction. Additional lab time required.
- 393 Sound Design (2)**
Theory, use and operation of sound equipment for theatre productions and studio recording applications. Additional lab time required.
- 399 Facilities Management (3)**
In-depth study of the theoretical and ethical issues confronting managers. Topics include funding, budgets, contracts, management application and marketing. Prerequisites: Junior status and approval of Department Chair.
- 407 Shakespeare (3)**
Shakespearean plays showing the author's artistic development. Same as ENG 407.
- 439, 440 Theatre History I, II (3) (3)**
Theatrical event and its attendant literature from ritual beginnings to the closing of the theatres in England; from the Restoration to the end of the 19th century. Same as ENG 439, 440.
- 441 Contemporary Theatre (3)**
Study of the plays and theatrical practices of the time. Prerequisite: TH 440. Same as ENG 441.
- 455 Advanced Acting: Acting For The Camera (3)**
On-camera workshop focusing on specific acting techniques relevant to Film, TV and commercials. Prerequisite: Permission of Department Chair.
- 487 Seminar (3)**
Extensive exploration of a particular topic relevant to theatre.
- 459 Independent Study (3)**
Opportunity in research in areas of interest to student. Dean and Department Chair approval required.
- 492 Workshop (1-3)**
Special interest area developed from student and community requests.
- 499 Internship (3)**
On-site experience in a professional theatre or with an approved organization. Prerequisites: Senior status and Department Chair and Dean approval. Requires a minimum of 120 hours.

DEPARTMENT OF MATHEMATICS AND COMPUTER SCIENCE

Reverend Pedro A. Suarez, S.J., Ph.D., Chair

Faculty: Borum, Carpenter, Carvajal, Haralambides, Jagadish, Ligas, Luna, Moazzami, Segami, Stein, Villemure.

COMPUTER SCIENCE (B.S.)

The Department of Mathematics and Computer Science offers a program of study leading to the degree of Bachelor of Science in Computer Science. The program is designed to provide Computer Science majors with a solid technical foundation in the field and to allow them to select among diverse areas of specialization. Academic excellence is achieved through a close working relationship between faculty and students in an atmosphere of intense work in the form of lectures, discussion sessions, and laboratory practice. The program provides a balance between theory and applications, between problem solving techniques and systems implementations. Thus, graduates not only compete successfully in the job market, but they are also ready to continue with advanced studies in Computer Science, if they so desire. Students who major in Computer Science will study such subjects as software engineering, computer networks, databases, systems programming, operating systems, UNIX, expert systems, artificial intelligence, computer graphics, and numerical computing.

Computer facilities include a VAX 6310 computer running VMS, DEC workstations running ULTRIX, and a large network of IBM and MacIntosh microcomputers. Computer Science majors are provided permanent access to this equipment throughout their stay at Barry.

Program of Study

The program leading to the Bachelor of Science degree in Computer Science consists of 37 credit hours in the Computer Science core, 20 hours of a required Mathematics minor, 8 hours of Physics, 9 hours of Computer Science electives, and 10 hours of general electives. These requirements are as follows:

Computer Science Core

CS	231	Computer Science I	4
CS	232	Computer Science II	4
CS	331	Data Structures and Algorithms	3
CS	311	Assembly Language	3
CS	312	Computer Software Organization	3
CS	332	Computer Hardware Organization	3
CS	372	Software Engineering	3
CS	413	Operating Systems	3
CS	414	Computer Architecture	3

CS	426	Databases	3
CS	431	Concepts of Programming Languages	3
CS	487	Seminar (Integrative Experience, two semesters)	1-1

Mathematics Minor

MAT	211	Calculus I	4
MAT	212	Calculus II	4
MAT	253	Discrete Mathematics I	3
MAT	254	Discrete Mathematics II	3
MAT	356	Statistics for Science	3

One course from the following list: MAT 213 (Calculus III), MAT 314 (Differential Equations), MAT 332 (Linear Algebra), Numerical Methods, Theory of Computation and Statistical Computing.

Note: Three of the Mathematics credits will count towards the Science-Mathematics distribution requirement.

Science Requirements

PHY	201	General College Physics I	4
PHY	202	General College Physics II	4

Note: Six of these credits will count towards the Science-Mathematics distribution requirement.

Computer Science Electives

Nine hours of 300- or 400-level Computer Science courses, or selected Mathematics courses.

General Electives

Ten hours of other courses at Barry.

The minimum grade of C is required in all major and minor courses.

COMPUTER SCIENCE MINOR

The minor in Computer Science consists of completion of at least 20 credits with a minimum grade of "C" which must include CS 231, CS 232, and CS 331. The rest may be any CS course at the 300 or 400 level.

Course Descriptions — Computer Science Prefix: CS

121 Foundations of Computer Science (3)

Historical, logical and mathematical foundations of Computer Science at an introductory level. Number systems, representation of information, elements of symbolic logic, problem-solving techniques, and models of computing machines. Prerequisites: none.

180 Introduction to Computers (3)

This is a course about computers, what they are, how they came about in history, what they can do, what they cannot do, and ethical-social impact of the computer. An introduction to the main concepts in the field of Computer Science from a liberal arts approach: how everyday ideas can be meaningfully represented by electrical currents which are manipulated inside a computer, computer design and construction, and an introduction to languages that access the machine's capabilities. Students will be exposed to the use of a variety of computer hardware and software. This is an introductory course with no prerequisites. Not acceptable for the Computer Science major.

231 Computer Science I (4)

Three hours of lecture and two hours of problem discussion per week. Evolution of hardware and software. Problem analysis and algorithm development. Data types, control structures, subprograms, scope and recursion. Programming language to be used: PASCAL. Prerequisite: MAT 110 or Department Chair approval.

232 Computer Science II (4)

Three hours of lecture and two hours of problem discussion per week. Programming methodology. Array, record and access types. Data abstraction. Search techniques. Algorithm complexity. Programming language to be used: ADA. Prerequisite: CS 231 and MAT 253, or Department Chair approval.

300 Special Topics (3)

Contents to be determined by the Department each semester, to meet needs of the program and/or the students. Prerequisite: Department Chair approval.

301 Introduction to Programming (1 each)

Courses in this series provide the student with an introduction to the syntax of a programming language. Languages available are Pascal, Ada, C, COBOL, RPG, FORTRAN and LISP. Prerequisite: CS 180 or Department Chair approval.

311 Assembly Language (3)

Basic machine organization. Number systems. Data representation. Addressing schemes. Arithmetic and logic instructions. Loops. Subroutines. Pseudo operations. Macros. Input/output. Prerequisite: CS 232 or Department Chair approval.

312 Computer Software Organization (3)

Introduction to C programming. The design of assemblers, loaders, linkers and macro processors. A large project is implemented in C consisting of an assembler and a loader or macro processor. Prerequisite: CS 311 or Department Chair approval.

323 Introduction to File Processing (3)

Introduction to structuring data on bulk storage devices (e.g. floppy or hard disks). Introduction to concepts of data base. Prerequisite: CS 331 or Department Chair approval.

325 Desktop Publishing (3)

Design and production of high quality publications from desktop computers. Text editing and text manipulation. Creation of simple graphics. Importing, pasting and cropping graphics. Use of design elements. Printing. Different types of hardware and software will be discussed. Prerequisite: CS 180 or Department Chair approval.

331 Data Structures and Algorithms (3)

Algorithm analysis. Abstract data types. Techniques for the implementation of abstract data types, such as arrays, stacks, queues, trees, heaps and graphs. Sorting. Programming language to be used: ADA. Prerequisite: CS 232 and MAT 254 or Department Chair approval.

332 Computer Hardware Organization (3)

Boolean algebras and switching functions. Gates. Memory devices. Combinational systems, simplification and decomposition. Sequential systems. Analysis and synthesis. Design of digital systems. Prerequisite: PHY 202 or Department Chair approval.

372 Software Engineering (3)

Basic tools and techniques for specifying, designing, implementing, verifying and validating large software projects. Prerequisite: CS 331 or Department Chair approval.

413 Operating Systems (3)

Organization and functions of operating systems. Design principles. Resource management. Process management. File systems. Some case studies. A large project is implemented in C, consisting of the essential parts of an operating system. Prerequisite: CS 312 or Department Chair approval.

414 Computer Architecture (3)

Machine instructions. Central processors. Microprogramming. Memory. Virtual memory. Microprocessors. A large project is implemented. Prerequisite: CS 311 and CS 332 or Department Chair approval.

426 Databases (3)

Physical data organization. The network, hierarchical and relational models. Query languages. Design of relational databases. Query optimization. Integrity and security. Distributed databases. Prerequisite: CS 331 or Department Chair approval.

431 Concepts of Programming Languages (3)

Survey of programming languages and language features. The syntax of programming languages and an introduction to compilers. Functional, object-oriented and logic programming. Languages to be discussed include pascal, ADA, C, FORTRAN, LISP, PROLOG, SMALLTALK and C++. Prerequisite: CS 331 or Department Chair approval.

432 Theory of Programming Languages(3) (formerly CS 422)

A formal approach to state-of-the-art techniques in software design and development, including programming language translation and compiler design concepts. Prerequisite: CS 431 or Department Chair approval.

437 Computer Graphics (3)

Introduction to graphical data processing. Display parameters. Information retrieval versus data retrieval. Image recording parameters. Transmission of digitized information. Pattern description and recognition. Use of picture models and datastructures. Display software. Prerequisite: CS 331 or Department Chair approval.

440 Data Communications (3)

Techniques and applications in data communications. Types of data communications versus discipline methodology. Hardware requirements and constraints. Speed versus quality. Security and encoding algorithms. Prerequisite: CS 331 or Department Chair approval.

453 Artificial Intelligence (3)

Programming languages for Artificial Intelligence. Cognitive Science. Robotics. Natural language understanding. Pattern recognition. Planning, Problem solving. Automated learning. Expert systems and knowledge engineering. Prerequisite: CS 331 or Department Chair approval.

454 Robotics (3)

Design and control of stationary and mobile robots. Robot morphology. The nature of the drive mechanisms (electrical, mechanical, pneumatic and hydraulic) are described, as well as sensors, motors, effectors and the various peripheral modules. Simple feedback mechanisms. Prerequisite: CS 331 or Department Chair approval.

456 Introduction to Expert Systems (3)

Applications oriented facet of Artificial Intelligence, Course will introduce applications of expert systems in various fields (e.g. business, education, medicine). Prerequisite: CS 331 or Department Chair approval.

459 Independent Study (1-3)

Opportunity to work in areas of special interest to the student. Prerequisite: Dean and Department Chair approval required.

461 The UNIX Programming Environment (3)

Evolution of the Unix operating system. Commands and utilities. System services. The kernel. The shell and shell programming. File system. Processes and interprocess communication. Networking. Unix tools. A substantial project is implemented. Prerequisite: CS 232 or Department Chair approval.

471 Computer Networks (3)

Traditional packet switching as well as satellite networks and local area networks. Distributed processing. Network architectures and protocols will be analyzed in the local area network environment. Prerequisite: CS 440 or Department Chair approval.

477 Computer Security (3)

Topics include security for data communication (encryption), database, microcomputers. Other topics covered are computer center security, disaster planning, personnel screening, threat evaluation. Prerequisite: CS 440 or Department Chair approval.

487 Seminar (1-3)

Topics of current interest in computer science will be discussed, taken from journals, proceedings or specialized books. This course serves the purpose of an integrative experience for Computer Science majors. Prerequisite: CS 331.

499 Internship (3-6)

Computer Science applications in a professional work setting under direct supervision. Requires a minimum of 120 hours for 3 credits or 240 hours for 6 credits. A student may elect a maximum of 6 internship credits. Prerequisites: Junior or senior status and Dean and Department Chair approval.

MATHEMATICAL SCIENCES (B.S.)

A major in the mathematical sciences is intended for students who wish to build a strong foundation for careers in mathematics teaching, in computer-related areas, in engineering, in actuarial sciences, or who wish to pursue further study in the mathematical sciences at the graduate level for college teaching, research, government, and/or industry.

Barry offers a variety of courses and educational experiences within the mathematical sciences. The courses cover the main areas of algebra, analysis, probability, statistics and topology at the undergraduate level, as well as physics and computer science. Placement in mathematics courses is determined by diagnostic testing required from all new undergraduate students at the time of first enrollment (freshmen, transfer, non-degree).

Mathematical Sciences Major

The mathematics courses towards a Bachelor of Science in Mathematical Sciences are divided into two categories: core courses and electives. The Mathematical Sciences major requires a grade of C or better in all courses towards the major, with at least 18 credits in mathematics at the 300 level or above. Core courses are required of all students majoring in Mathematical Sciences. At least two electives must be chosen from a list of offerings by the Department. Each student is assigned a faculty advisor who will help him/her in his/her academic plans. Students are encouraged to take courses in other areas such as Accounting, Biology, Business, Chemistry, Computer Science, Economics, Education, Management, and Physics, in order to enhance their scientific background and understand the relevance of mathematics to other fields.

Students in Mathematical Sciences are strongly urged to develop proficiency in computer languages and in using computers, as they have become an important part of modern technology, both in education and in industry. An integrative experience is required at the end of the program.

Academic Requirements for the major

Core Courses	Credits
MAT 211 Calculus I	4
MAT 212 Calculus II	4
MAT 213 Calculus III	4
MAT 253 Discrete Mathematics I	3

MAT 314	Differential Equations	3
MAT 331	Algebraic Structures	3
MAT 332	Linear Algebra	3
MAT 356	Statistics for Science	3

In addition, each major must take two Physics courses: either PHY-201 and 202, or PHY-211 and 212, and the following Computer Science courses:

CS 231	Computer Science I	4
CS 232	Computer Science II	4

Elective Courses

MAT 254	Discrete Mathematics II	3
MAT 300	Special Topics	3
MAT 310	Advanced Calculus I	3
MAT 311	Advanced Calculus II	3
MAT 321	Topics in Geometry	3
MAT 414	Methods in Mathematical Physics	3
MAT 415	Introduction to Real Analysis	3
MAT 416	Introduction to Complex Analysis	3
MAT 441	Introduction to Topology	3
MAT 451	Probability Theory	3
MAT 452	Mathematical Statistics	3
MAT 459	Independent Study	3
MAT 462	Number Theory	3
MAT 471	History of Mathematics	3
MAT 476	Teaching Mathematics in the Middle and Secondary Schools	3
MAT 487	Undergraduate Seminar	1, 2 or 3

Students planning to major in Mathematical Sciences with a concentration in Computer Science should add two Computer Science (CS) courses. Students who seek teacher certification to teach in secondary schools must take MAT-321 and MAT-476, and may delete MAT-314 and CS-232. They are also encouraged to take MAT-471 and to follow the guidelines of the Florida State Department of Education for teacher certification. Students wishing to specialize in actuarial science must take both MAT-451 and 452.

Mathematical Sciences Minor

A minor in Mathematical Sciences consists of at least 20 credits above the 210 level with a minimum grade of C, and must include MAT-211, MAT-212, either MAT-213 or MAT-254, and at least one 300-level course.

Departmental Requirements

- a) Integrative Experience: During the senior year the student must satisfactorily complete an integrative experience, which may be the Undergraduate Seminar MAT-487 or a departmental area test, as a prerequisite for graduation. Students specializing in Actuarial Science may use the Statewide Actuarial Exam as their integrative experience. The goal of the integrative experience is to demonstrate good skills in problem-solving, adequate use

of mathematical reasoning in proving mathematical results, and a comprehensive and synthetic view of the mathematical sciences, with appropriate use of concepts and theorems learned during the course of study.

- b) Internship: One semester of internship will be expected of each graduate. The student will devote 30 hours of supervised mathematics tutoring in the Learning Center or some equivalent task. This internship experience is included in the program in order to provide the student with hands-on experience of the teaching-learning process, develop the student's own potential as a communicator of knowledge, and serve the community in the spirit of Barry's mission statement.
- c) Gordon Rule: The following courses fulfill in part the Gordon Rule relative to courses at or above the level of college algebra: MAT 101, MAT 108, MAT 109, MAT 110, MAT 111, MAT 152, and any course numbered 200 or above.

ENGINEERING (DUAL DEGREE PROGRAM) (B.S.)

A dual degree program has been established between Barry University and the University of Miami whereby an undergraduate student selects a major at Barry University and an engineering major at the University of Miami. On completion of the requirements for Barry University, the student will be awarded a Bachelor of Science degree in the selected major from Barry University; upon completion of the requirements for the University of Miami, the student will be awarded a Bachelor of Engineering degree in the selected engineering area from the University of Miami.

The student in the dual degree program will attend Barry University for approximately three years, completing a minimum of 90 credit hours with a GPA of 2.5 or above. These hours will include all general education requirements, prerequisites for engineering, and most of the requirements for a related major at Barry University.

It is expected that in most cases the student in this program will complete a Barry major in either mathematics or computer science.

The engineering prerequisites for the dual degree program are those described below under Pre-engineering.

Following the Barry University component of the program, dual degree candidates attend the University of Miami for approximately two years and are eligible to enter any of the following degree programs:

- Architectural Engineering
- Civil Engineering
- Electrical and Computer Engineering
- Engineering Science
- Industrial Engineering
- Mechanical engineering

NON-DEGREE PROGRAM

PRE-ENGINEERING

Students planning to study engineering can prepare at Barry University. Completion of the pre-engineering program will allow a student to apply for transfer directly to the third-year program of an engineering school.

Required courses are PHY 211, 211L, 212, 212L; CHE 111, 111L, 112, 112L; MAT 211, 212, and 213; ENG 111-112; engineering graphics; and other courses in computer science. Additional required courses will be determined by the engineering area the student plans to pursue and will include courses from the following list: MAT 314, or 356; PHY 313; CHE 243, 243L, 244, 244L; ECO 201; BIO 101, 111, or 116; CS 231 and CS 232. In addition to the above requirements, pre-engineering students will also take liberal arts courses in theology, philosophy, humanities and social sciences. Some students will need a preparatory year of study including MAT 109, 110 or 111; CHE 110; and language courses, before taking the required courses listed above.

Early in their Barry pre-engineering program, students will be encouraged to contact specific engineering schools for specific requirements. Transfer to the engineering school is competitive and the Department will advise each student individually.

See also the dual degree program described in this catalog under Engineering.

Course Descriptions —

Mathematics Prefix: MA

010 Mathematical Skills for CLAST (1)

This is a review course that helps the student prepare for the Mathematics section of the Florida College Level Academic Skills Test (CLAST). This course satisfies the requirement of the State of Florida for students who must register for CLAST review preparation in order to remain eligible for State financial aid. CR/PR/NC options only. Does not fulfill distribution or degree requirements.

Mathematics Prefix: MAT

090 Pre-Entry Math (3)

This course prepares a student to take MAT-100A. A variety of individualized strategies are used, including programmed materials, computer-aided instruction, and one-on-one tutoring. The course does not fulfill distribution or degree requirements. CR/PR/NC option only. Placement in this course is by appropriate score on the placement test. Three graded attempts maximum.

100A Preparatory Mathematics I (3)

Introduction to algebra; polynomials, factoring, solving linear and quadratic equations. Emphasis on problem solving skills. The course prepares students for MAT 100B and does not fulfill distribution or degree requirements. CR/PR/NC options available. Placement in this course is by appropriate score on the placement test. Three graded attempts maximum.

100B Preparatory Mathematics II (3)

Continuation of MAT 100A. Graphs, systems of linear equations, inequalities, fractional and radical expressions, fractional, radical and quadratic equations; emphasis on problem solving skills. This course does not fulfill distribution or degree requirements. CR/PR/NC options available. Prerequisite: MAT 100A or equivalent score on placement test. Three graded attempts maximum.

100C Preparatory Mathematics III (3)

Basic properties of real and complex numbers, equations and inequalities, coordinates and graphs, equations and graphs of lines. The course prepares science majors to take Precalculus courses, but does not fulfill distribution or degree requirements. CR/PR/NC options available. Prerequisite: MAT 100B or equivalent score on placement test. Three graded attempts maximum.

(In case of doubt about the placement of a student, the Department Chair should be consulted.)

101 General Education Mathematics (3)

Nature and application of mathematics for Liberal Arts students. Topics selected from algebra, geometry, logic, numeration systems, probability, and statistics, as required by the State of Florida CLAST examination. Prerequisite: MAT 100B or satisfactory score on placement test.

108 Precalculus Mathematics for Business (3)

Equations and inequalities; systems of equations and inequalities; exponential and logarithmic functions and their graphs; vectors, matrices, applications to linear programming. Prerequisite: MAT 100B or satisfactory score on the placement test.

109 Precalculus Mathematics I (3)

Functions and their graphs; polynomial, algebraic, exponential and logarithmic functions, roots of algebraic equations. Prerequisites: High school Algebra I and II, geometry, and MAT 100C or satisfactory score on placement test.

110 Precalculus Mathematics II (3)

Trigonometric functions of angles and of real numbers, trigonometric identities and equations, extension of coordinate geometry. Prerequisites: MAT 109 or Department Chair approval.

152 Elementary Probability and Statistics (3)

Description of sample data; probability; sampling; special distributions; estimation; testing hypotheses; applications. Not open to science or mathematics majors or minors. Prerequisite: MAT 100B or satisfactory score on placement test.

201 Fundamentals of Mathematics I (3)

Logic, sets, and integers, fundamentals of integer arithmetic, integer algorithms, extensions of integer systems; equations and inequalities; metric system. Emphasis on problem solving. Prerequisite: MAT 100B or satisfactory score on placement test.

202 Fundamentals of Mathematics II (3)

Informal plane and space geometry, measurements; metric system; coordinate geometry; introduction to probability and statistics; introduction to computers. Emphasis on problem solving. Prerequisite: MAT 201 or Department Chair approval.

211 Calculus I (4)

Limits of functions and approximation; differentiation and integration of elementary functions; maxima and minima applications. Prerequisites: MAT 110 or 111 or Department Chair approval.

212 Calculus II (4)

Advanced techniques of differentiation and integration; polar coordinates, sequences and series. Prerequisite: MAT 211 or Department Chair approval.

213 Calculus III (4)

Multivariable calculus; functions of several variables; partial derivatives; multiple integration; theorems of Green, Gauss and Stokes; introduction to linear differential equations. Prerequisite: MAT 212 or Department Chair approval.

253 Discrete Mathematics I (3)

Sets, counting, methods of proof. Logic. Relations, types of relations, functions, types of functions. Recursive functions. Two hours of lecture and two hours of problem laboratory per week. Prerequisite: MAT 110 or Department Chair approval.

254 Discrete Mathematics II (3)

Fundamental topics to be used in theoretical Computer Science. Automata theory, Formal Language Theory, and Turing machines. Prerequisite: MAT-253 or Department Chair approval.

300 Special Topics (3)

Contents to be determined each semester by the Department to meet needs of the program and/or of the students. Prerequisite: Department Chair approval.

310 Advanced Calculus I (3)

Functions, sequences, limits. Continuity, uniform continuity. Differentiation. Series, Uniform convergence. Prerequisite: MAT 213 or Department Chair approval.

311 Advanced Calculus II (3)

Continuation of MAT 310. Reimann-Stieltjes integral; functions of several variables, partial differentiation; multiple integrals. Prerequisites: MAT 310 or Department Chair approval.

314 Differential Equations (3)

Linear differential equations; systems of differential equations; solutions by series and by numerical methods; applications. Prerequisite: MAT 212 or Department Chair approval.

321 Topics in Geometry (3)

Topics selected from Euclidean and non-Euclidean geometry, including: geometric proofs from an axiomatic viewpoint; incidence and separation properties of the plane and the space; extension of congruence, area and similarity; advanced topics. Prerequisite: MAT 213 or Department Chair approval.

331 Algebraic Structures (3)

Groups, Lagrange's theorem; fundamental theorem of homomorphisms. Rings, integral domains, field of quotients, polynomial rings, unique factorization domains. Fields and finite field extensions. Prerequisite: MAT 213 or Department Chair approval.

332 Linear Algebra (3)

Systems of linear equations; matrices; vector spaces; linear transformations; determinant; quadratic forms; eigenvalues and eigenvectors. Prerequisite: MAT 211 or Department Chair approval.

356 Statistics for Science (3)

Analysis of data, histograms, measures of central tendency and of dispersion. Probability, normal curve. Statistical tests; hypothesis testing. This course is designed for science majors (Biology, Physics, Chemistry, Computer Science, Mathematical Sciences). Prerequisites: MAT 211 or Department Chair approval.

414 Methods of Mathematical Physics (3)

Fourier analysis, special functions, calculus of variations. Selected partial differential equations. Integral equations. Prerequisites: MAT 213 and MAT 314 or Department Chair approval.

415 Introduction to Real Analysis (3)

The real numbers, real functions. Measure theory. The Lebesgue integral. Prerequisites: MAT 311 or Department Chair approval.

416 Introduction to Complex Analysis (3)

Analytic functions, Cauchy-Riemann conditions. Complex integration, Cauchy's theorem and integral formula; power series, Laurent series. Calculus of residues and applications. Prerequisites: MAT 213 or Department Chair approval.

441 Introduction to Topology (3)

Axiom of choice, topological spaces, metric spaces. Compactness, connectedness. Separation properties, quotient spaces. Compactification. Prerequisite: MAT 311 or Department Chair approval.

451 Probability Theory (3)

Probability spaces, distribution functions, central limit theorem, conditional probability. Prerequisites: MAT 213 and MAT 356 or Department Chair approval.

452 Mathematical Statistics (3)

Sampling theory, statistical inference, hypothesis testing. Prerequisite: MAT 451 or Department Chair approval.

462 Number Theory (3)

The integers, congruences, multiplicative functions, primitive roots, quadratic residues, reciprocity, diophantine equations, applications to cryptology. Prerequisites: MAT 212 or Department Chair approval.

471 History of Mathematics (3)

People and ideas that have shaped the mathematical sciences throughout history. Contemporary problems and leading contributions. Emphasis on activities for secondary school mathematics classroom, which incorporate the historical viewpoint. Prerequisite: MAT 211 or Department Chair approval.

476 Teaching Mathematics in the Middle and Secondary School (3)

Methods of mathematics teaching for the prospective middle and secondary school teacher. Prerequisite: 21 credits in mathematics, including Calculus I, and candidacy in the School of Education.

359, 459 Independent Study (3) (3)

Opportunity for extensive research in areas of special interest to the student. Prerequisite: approval of Dean and Department Chair.

487 Undergraduate Mathematics Seminar (1-3 credits)

Topics will be chosen according to student and faculty interest. Presentations of papers on original work or advanced material to be discussed under a faculty moderator. Prerequisite: Department Chair approval.

499 Internship (3-6)

Application under direct supervision. Pre-requisites: Junior or senior status and Dean and Department Chair approval.

DEPARTMENT OF PHYSICAL SCIENCES

Mary Ann Jungbauer, Ph.D., Chair

Faculty: Fisher, Goehl, O'Donnell.

The Department of PHYSICAL SCIENCES includes the following:

- Chemistry major
- Chemistry minor
- Pre-pharmacy
- Physics

CHEMISTRY (B.S.)

Students electing a chemistry major should have a satisfactory background in high school chemistry and a minimum of 3 years of college preparatory mathematics. The Bachelor of Science degree with a major in chemistry prepares the student for graduate programs in chemistry, for employment in industry and government chemistry laboratories, and for chemistry teaching.

Major: The course of studies for the chemistry major may be adapted to the interests and goals of the individual student. Generally, the major includes 39 credits of chemistry and approximately 30 credits in related sciences and mathematics, including CHE 111, 111L, 112, 112L, 243, 243L, 244, 244L, 321, Physical Chemistry, and other chemistry courses (not CHE 300); PHY 201, 201L, 202, 202L; and mathematics through MAT 212.

The department requires that each major take the Major Field Achievement Test in chemistry as the integrative experience, required for graduation. The minimum grade of C is required in all major courses and related courses.

Minor: A minor in chemistry (20 credits) includes CHE 111, 111L, 112, 112L, 243, 243L and an additional 8 credits in higher courses (not CHE 300) with a minimum grade of C.

Students planning to study pharmacy can take up to two years of pre-pharmacy preparation under the direction of the Physical Sciences Department. See the section below on Pre-Pharmacy.

Course Descriptions — Chemistry Prefix: CHE

105 Fundamentals of Chemistry (3)

Non-mathematical treatment of selected topics for the general student who will ordinarily take no additional courses in chemistry. (Special fee)

110 Preparation for College Chemistry (3)

Preliminary course for students who wish to complete a major or minor sequence in chemistry but do not meet requirements for admission to Chemistry 111; given on CR/NC option only; credit not applicable toward the major or minor. Prerequisite: Mathematics placement in 100B or higher.

111, 112 General Chemistry and Qualitative Analysis (3) (3)

Chemical principles and descriptive inorganic chemistry for students majoring in science and mathematics. CHE 111: Prerequisite: CHE 110 or high school chemistry and satisfactory score on chemistry placement test, and mathematics placement in 100B or higher; Corequisite: 111L. CHE 112: Prerequisite: CHE 111, CHE 111L; Corequisite CHE 112L.

111L, 112L General Chemistry and Qualitative Analysis Laboratory (1) (1)

Three hour laboratory to be taken concurrently with CHE 111, 112. (Special fee)

142 Chemistry for Allied Health Sciences (2) (2) Concurrently

Elements of general and biological chemistry for students of physical therapy and certain other allied health programs. (Special fee)

152, 152L Introduction to Organic and Biological Chemistry (3) (1)

Organic chemistry with application to the chemistry of the cell. 3 hours lecture, 2 hours laboratory weekly, to be taken concurrently. Prerequisite: High school chemistry or CHE 105. (Special fee)

241 Organic Chemistry Survey (4)

Structure and reactions of monofunctional compounds, with related laboratory. Offered in BEC program only.

243, 244 Organic Chemistry (3) (3)

Chemistry of carbon compounds, their structure, reactivity, and reaction mechanisms. CHE 243: Prerequisite: CHE 112, 112L; Corequisite: CHE 243L. CHE 244: Prerequisite: CHE 243, 243L. Corequisite: CHE 244L.

243L, 244L Organic Chemistry Laboratory (1) (1)

Three hour laboratory to be taken concurrently with CHE 243, 244. (Special fee)

300 Special Topics (3)

Special Topics in Chemistry for students in other fields; not part of the chemistry major or minor. No prerequisites or corequisites.

321 Quantitative Analysis (4)

Theory and practice of analysis, including volumetric, colorimetric, gravimetric and electrochemical procedures. 2 hours lecture, 6 hours laboratory. Prerequisite: Chemistry 112. (Special fee)

341 Organic and Introductory Biochemistry for the Health Sciences (3)

Survey of organic molecular structure, important organic functional groups and their chemical reactivity, and introduction to biological molecules and their functions. Prerequisites: CHE 111 and 112 or equivalent.

352 Biochemistry (4)

Molecular structures in the cell, biological oxidations, selected biosynthetic pathways, molecular genetics. See Biology 352. Prerequisite: Chemistry 243.

452 Biochemistry for High School Teachers (3)

Concepts and developments in biochemistry; the molecular basis of life processes. Prerequisite: CHE 476 or teaching chemistry.

355 Basic Physical Chemistry (3)

Selected topics in physical chemistry for students in the life sciences as well as for those who will continue in the physical chemistry sequence. Prerequisites: Chemistry 112, Physics 212 or 202, Mathematics 211.

356, 357 Physical Chemistry (3) (3)

Quantitative study of chemical principles: thermodynamics, kinetics, structure of matter. Prerequisite: Chemistry 355 or permission of Department, Physics 212 or 202, Mathematics 212 or equivalent.

366 Physical Chemistry Laboratory (2)

Laboratory problems in physical chemistry, with emphasis on equilibria and kinetics; one four-hour laboratory weekly. Prerequisite: Chemistry 355 and permission of Department Chair. (Special fee)

447 Advanced Organic Chemistry (3)

Advanced topics in organic chemistry such as syntheses, reaction mechanisms, spectroscopy, and qualitative-organic analysis. Prerequisite: Chemistry 244. Corequisite: Chemistry 355.

460 Inorganic Chemistry (3)

Senior-level course in modern inorganic chemistry. Prerequisite: Chemistry 356 or permission of Department Chair.

476 Teaching Chemistry in Middle and Secondary School (3)

Special methods course in teaching chemistry in middle and secondary schools. Prerequisite or corequisite: Chemistry 355 and candidacy in the School of Education. Tutorial.

259, 359, 459 Independent Research (3) (3) (3)

Opportunity for work in areas of special interest to the student. Prerequisite: Dean and Department Chair approval.

295, 395, 495 Research (1-3) (1-3) (1-3)

Investigation of an original research problem of special interest to the student; independent execution of chosen experimental work under direction of selected staff member. MARC scholars follow a special research program. Prerequisite: Department Chair approval. (Special fee)

NON-DEGREE PROGRAMS**PRE-PHARMACY**

The student planning to study pharmacy can take up to two years of pre-pharmacy at Barry University. The curriculum in the School of Arts and Sciences, under the direction of the Department of Physical Sciences, is made up of courses required in the first two years by most institutions granting the bachelor degree in pharmacy. These will include CHE 111, 111L, 112, 112L, 243, 243L, 244, 244L; PHY 201, 201L, 202, 202L; MAT 111 or 211; BIO 112, 116. Admission to these courses presumes adequate high school preparation. Students less well prepared will require a preliminary course in chemistry and, possibly, in mathematics.

Barry's pre-pharmacy program prepares the student to take the Pharmacy College Admissions Test (PCAT) and to apply to a College of Pharmacy. Pre-pharmacy students are expected to inform themselves of the specific requirements of the school to which they plan to transfer. Admission remains competitive.

PHYSICS

The study of physics helps to develop a habit of seeking and recognizing the underlying physical principles in observation of the environment. Offerings in physics are designed to meet the needs of students concentrating in science, mathematics, pre-engineering and the allied health areas; and to provide opportunities for liberal arts students to see the world around them with new understanding.

Course Descriptions — Physics Prefix: PHY

105 Physical Science (1-3)

Organized according to modules; student may elect as many as three modules during the semester; each module centers on one topic, which is developed through demonstration, lecture, and simple laboratory exercises.

141 Introductory Physics for the Allied Health Sciences (2) (2) Concurrently

Basic concepts of physics for students of physical therapy and certain other allied health programs. (Special fee)

151, 151L Introductory Physics (3) (1)

Basic concepts of physics, for students desiring a one semester course with laboratory. 3 hours lecture, 2 hours laboratory. PHY 151 and PHY 151L must be taken concurrently. (\$20 fee)

201, 201L, 202, 202L General College Physics (3) (1) (3) (1)

Mechanics, heat, wave phenomena, electricity and magnetism, optics, modern physics. 3 hours lecture, 3 hours laboratory. Prerequisite: MAT 110 or equivalent; recommended: MAT 211; PHY 201 and 201L must be taken concurrently, also PHY 202 and 202L. PHY 202: Prerequisite PHY 201, 201L.

211, 211L, 212, 212L University Physics (3) (1) (3) (1)

Calculus based physics including mechanics, heat, wave phenomena, electricity and magnetism, optics, modern physics; for pre-engineering students and for students of science and mathematics desiring a calculus based physics course. 3 hours lecture. 3 hours laboratory. PHY 211 and 211L must be taken concurrently, also PHY 212, 212L; Prerequisite: MAT 211. PHY 212: Prerequisite: PHY 211, 211L.

300 Special Topics in Physics (3)

Technology and Society. Discussion of the relationship between modern technology and society; guest lectures by members of the Barry faculty are featured; no scientific background is assumed; satisfies the distribution requirement for science.

313 Statics (3)

Principles of statics, rigid body equilibrium, trusses, frames, machines, friction, moments of inertia. Prerequisites: PHY 211, MAT 211.

476 Teaching Physical Science in the Middle and Secondary Schools (3)

Special methods course in teaching physical science in the middle and secondary schools. Prerequisite: a thirty hour content area in the physical sciences and candidacy in the School of Education. Tutorial.

DEPARTMENT OF PSYCHOLOGY

Linda M. Peterson, Ph.D., Chair

Faculty: Carifio, Koncsol, Szuchman

PSYCHOLOGY (B.S.)

The psychology major requires the completion of 39 credits. The required courses include PSY 281, 320, 325, 333, 382, 413, 490, 497, and MAT 152. The student is permitted wide flexibility in the choice of the remaining five or more elective courses from the various sub-specialities of psychology.

The minimum grade of C is required in all major and minor courses. Psychology majors are required to achieve a satisfactory grade on their integrative experience, PSY 497.

Psychology Minor

The psychology minor (24 cr.) requires PSY 281, 320, 325, 413, and 9 elective credits within the discipline, with a minimum grade of C.

PSY 281 is a prerequisite to all other psychology courses.

Course Descriptions — Psychology Prefix: PSY

281 Introduction to Psychology (3)

Survey of general principles underlying human behavior, including the study of the nervous system, perception, learning, emotion, personality and mental disorders.

282 Psychology of Adjustment (3)

Introduction to applied psychology with an emphasis on knowledge useful to daily life such as human development, stress management, and communication skills.

300 Special Topics (3)

Content to be determined by the Department as requested by faculty and/or students to fulfill specified needs or interests.

306 Psychology of Women (3)

Study of the various issues affecting the changing role of women in today's society, consideration given to psychological and social factors as they relate to contemporary feminine behavior.

318 Psychology of Learning (3)

Study of the basic principles related to human and animal learning with special emphasis on the theoretical approaches utilized to explain various learning phenomena.

320 Tests and Measurements (3)

Introduction to testing, including discussion of validity, reliability and overview of testing instruments in clinical, educational, and industrial settings. Prerequisite: MAT 152 (\$30 fee).

323 History and Systems (3)

Consideration of the major historical schools of psychological thought and their relationship to the present-day discipline of psychology.

325 Theories of Personality (3)

Survey of theoretical approaches to the study of personality from Freudian theory to contemporary humanistic theories.

- 333 Experimental Psychology (3)**
Mastery of research methods and techniques with emphasis on experimental design; students conduct experiments, evaluate data, and write research reports. Prerequisite: MAT 152.
- 343 Introduction to Perception (3)**
Survey of contemporary issues in the area of perception and the theories offered to explain perceptual phenomena.
- 370 Social Psychology (3)**
Cognitive processes, roles, communication and persuasion, aggression and interaction of individuals within small and large groups are studied from a psychological perspective.
- 382 Developmental Psychology (3)**
Analysis of human development from conception through old age, with emphasis on physiological, cognitive and affective processes.
- 413 Abnormal Psychology (3)**
Theories of abnormal behavior, pathological syndromes, methods of treatment and prevention.
- 417 Psychology of Aging (3)**
Analysis of the factors characterizing normal aging: biological and perceptual changes, social processes, work and retirement, family, sexuality, cognition, personality. Disorders associated with aging are also covered.
- 423 Industrial Psychology (3)**
Application of psychological principles and procedures in business and industry setting; consideration given to topics such as selection, placement, employee motivation, morale and leadership.
- 426 Health Psychology (3)**
Study of the application of principles of psychology to health enhancement, illness prevention, diagnosis and treatment of disease, and psychobiosocial rehabilitation.
- 428 Human Sexuality (3)**
A survey of issues and scientific findings with regard to physiological, developmental and emotional aspects of sexuality, as well as theory and practice related to treatment of sexual dysfunction.
- 452 Child and Adolescent Psychopathology (3)**
Comprehensive study of the etiology, diagnosis, and treatment of the personality disorders common to the child and adolescent. Prerequisite: PSY 382.
- 459 Independent Study (1-3)**
Opportunity for independent research on a topic of special interest to the student. Dean and Department Chair approval required.
- 464 Human Development Throughout the Lifespan (3)**
Advanced study of theory and research in physiological, intellectual, social, and emotional development. Prerequisite: PSY 382.
- 490 Physiological Psychology (3)**
Study of basic neuroanatomy and neurophysiology including the neurological bases of emotion, psychopathology, sleep, memory and learning.
- 494 Substance Abuse (3)**
Consideration of habituating and addicting drugs including alcohol and their effects upon society.
- 295, 395, 495 Research (3) (3) (3)**
Investigation of an original research problem of special interest to the student; independent execution of chosen experimental work or library research; under direction of selected staff member MARC scholars follow a special research program.
- 497 Senior Seminar**
Integrative experience for senior psychology majors with focus on paper preparation and presentation skills. Prerequisite: graduation status.
- 498 Seminar (3)**
Advanced topics.

MASTER OF SCIENCE IN CLINICAL PSYCHOLOGY

The Master of Science in Clinical Psychology was first offered in Fall 1982. The program responds to the increased needs for mental health services and prepares candidates for licensing in the category of Mental Health Counselor.

ADMISSION REQUIREMENTS AND POLICIES

- See School of Arts and Sciences requirements, graduate section.
- Prerequisites in abnormal psychology, developmental psychology, tests and measurements, and theories of personality (12 undergraduate credit hours).
- A combined score of at least 1,000 on the verbal and quantitative sections of the GRE.

GRADUATION REQUIREMENTS

45 semester hours with a minimum grade point average of 3.0 (B) with no more than two Cs.

The master's thesis (PSY 650) and clinical practicum (PSY 665) are required prior to graduation.

Required Courses 39 semester hours

PSY 564	Human Development-Lifespan	3
PSY 590	Physiological Psychology	3
PSY 596	Techniques of Therapy	3
PSY 602	Clinical Psychopathology	3
PSY 605	Statistics	3
PSY 610	Clinical Assessment I	3
PSY 611	Clinical Assessment II	3
PSY 615	Clinical Ethics	3
PSY 616	Experimental Design	3
PSY 650	Master's Thesis	6
PSY 665	Clinical Practicum	6

Electives 6 semester hours

*PSY 528	Human Sexuality	3
*PSY 594	Substance Abuse	3
*PSY 625	Advanced Personality	3
*PSY 635	Group Therapy	3

*Required for licensure.

Course Descriptions — Psychology Prefix: PSY

All courses numbered at the 500 level may be open to undergraduates properly qualified to take them by permission of the Department Chair.

528 Human Sexuality (3)

A survey of issues, theories and scientific findings with regard to physiological, developmental and emotional aspects of sexuality, as well as issues of sexual dysfunction and its treatment.

564 Human Development Throughout the Lifespan (3)

Physical, intellectual, social, and emotional development throughout the lifespan.

590 Physiological Psychology (3)

Review of neuroanatomy, physiological processes, and psychopharmacology.

594 Substance Abuse (3)

Consideration of habituating and addicting drugs, including alcohol, and their effects upon society.

596 Techniques of Therapy (3)

Counseling theories and techniques of behavior change and psychotherapeutic intervention. Prerequisite: PSY 602

598 Advanced Topic Seminars (3)

Detailed presentation and discussion of topical issues within the field of clinical psychology.

All courses numbered at 600 and above are open only to students with baccalaureate degrees or their equivalent.

602 Clinical Psychopathology (3)

Detailed description and analysis of the DMS-III-R with an exploration of case history materials. Diagnostic and therapeutic issues are considered.

605 Statistics (3)

Review of basic statistics and an introduction to multivariate and nonparametric techniques.

610 Clinical Assessment I (3)

Rationale and application of general assessment skills, intellectual and objective assessment techniques including: the Wechsler scales, Bender-Gestalt, MMPI, and MCMI. Prerequisite: PSY 602, PSY 605.

611 Clinical Assessment II (3)

Continuation of clinical assessment techniques with primary emphasis on projective personality measures including the Rorschach, TAT, projective drawings, Incomplete Sentences, and association techniques. Prerequisite: PSY 610.

615 Clinical Ethics (3)

Consideration of issues of confidentiality, certification and licensing, ethical and legal codes, standards of preparation and practice, identity and roles of mental health professionals, psychologists, and counselors, and the goals and objectives of professional organizations of counselors and psychologists.

616 Experimental Design (3)

Design and implementation of psychological research with emphasis on clinical topics. Prerequisite: PSY 605.

625 Advanced Personality (3)

Historical foundations, contemporary theory, and research in the area of personality.

635 Group Therapy (3)

Introduction to theories, practice and research findings of group psychotherapy. Issues are explored through readings and participation in an ongoing group. Leader interventions are analyzed in terms of integrating group process and interpersonal phenomena.

650 Master's Thesis (6)

Supervised, independent research study. Prerequisites: PSY 605, PSY 616.

665 Clinical Practicum (6)

Supervised experience in applied mental health facilities. Diagnostic and therapeutic skills are practiced. Prerequisites: PSY 596, 602, 610, 611.

704 Thesis Research (1)

Research in residence or continuous registration for all departments/schools offering graduate programs.

DEPARTMENT OF SOCIAL SCIENCES

Jesus Mendez, Ph.D., Chair

Faculty: Butler, Callaghan, Cvejanovich, Grizzle, Lowe, Luma, Melody, Smith, Stinchcomb.

CRIMINAL JUSTICE (B.S.)

The U.S. criminal justice system encompasses the police, courts, and corrections and is responsible for all stages of criminal processing—from arrest through sentencing and post-conviction sanctions. The Criminal Justice program exposes students to all components of the system as well as to the criminal laws which form its foundation and the criminal behavior to which it responds. With this interdisciplinary focus, students will find a wide variety of career opportunities available to them at local, state, and federal levels of government, along with the rapidly expanding private sector.

The Criminal Justice major requires 39 credits, which includes seven core courses, along with 15 credits from supporting courses and POS 307 (required distribution course). Recommended distribution courses are PHI 170, 292 or 308, and SOC 409. Majors will also complete an integrative experience which consists of a 3- or 6-credit internship and/or independent study. A minimum grade of "C" is required in all major and minor courses.

A minor in Criminal Justice requires 24 credits, including the core courses listed below, along with POS 307 (required distribution course). A minimum grade of C in all minor courses is required.

Students should consult their advisors to ensure that courses selected meet program and degree requirements.

Core Courses:

CRJ 103	The Criminal Justice System
CRJ 202	Juvenile Delinquency
CRJ 211	Corrections in America
CRJ 221	Law Enforcement
CRJ 307	Critical Issues in Criminal Justice
CRJ 420	Criminal Justice Organization and Administration
CRJ 421	Criminal Law

Supportive Courses:

CRJ 212	Criminology
CRJ 313	Community Crime Prevention

CRJ	314	Community-Based Corrections
CRJ	323	Correctional Facilities: Prisons and Jails
CRJ	325	Organized Crime
CRJ	402	The Juvenile Justice System
CRJ	427	Courtroom Demeanor and Technique
CRJ	499	Senior Internship and/or
CRJ	359/459	Independent Study

Required Distribution Course:

POS	307	The Judicial Process
-----	-----	----------------------

Recommended Distribution Courses:

PHI	170	Contemporary Moral Problems
PHI	292	Ethics
PHI	308	Philosophy of Law
SOC	409	Research Methodology

Course descriptions — Criminal Justice Prefix: CRJ

103 The Criminal Justice System (3)

A comprehensive survey of the administration of justice. Explores the nature and extent of crime and the development of criminal law, along with law enforcement, judicial, and correctional functions at the local, state, and federal levels of government. (Same as SOC 103).

202 Juvenile Delinquency (3)

A study of the nature, extent, and causes of delinquent behavior. The challenges of measuring, preventing, and responding to delinquency are assessed, along with the role of the police, the courts, and various treatment programs in dealing with delinquency. (Same as SOC 202).

211 Corrections in America (3)

An overview of the U.S. correctional system, including historical developments, offender characteristics, sentencing practices, custodial institutions (jails and prisons), community-based alternatives (probation and parole), inmate rights, correctional administration, and special contemporary issues.

212 Criminology (3)

A review of the nature and extent of crime in society, its legal and social aspects, and theories of causation. Explanations of criminal behavior are studied from sociological, psychological, biological, and interdisciplinary perspectives.

221 Law Enforcement (3)

An analysis of law enforcement policies, procedures, and operations from the perspective of crime control, the legal system, discretion, community values, professionalism, and public safety priorities. Examines future directions, career options, and such job realities as corruption and stress.

300 Special Topic (3-6)

Content varies according to current issues in the field, as well as specific needs and/or interests of students.

307 Critical Issues in Criminal Justice (3)

An analysis of contemporary topics/events influencing the police, courts, and corrections. Emphasizes the impact of issues which are generating debate in the field, creating operational difficulties, stimulating change, and/or altering current public policies. Prerequisite: CRJ 103.

313 Community Crime Prevention (3)

Reviews traditional and experimental methods directed toward preventing crime and delinquency and maintaining social order, including such techniques as environmental design, community involvement, police-community relations, and technological innovations. Preventive efforts are analyzed with regard to their proactive/reactive nature, relationship to public attitudes, practicality, cost-effectiveness, and ability to address crime causation and achieve results.

314 Community-Based Corrections (3)

Examines various traditional and innovative alternatives to incarceration within the context of current sentencing patterns, public policies, and correctional goals. Alternative methods of intervention are reviewed, including such options as diversion, pre-trial release, electronic monitoring, halfway houses, restitution, community treatment, work/study-release, probation, pardons, and parole. Emphasis is placed on the role of corrections, nature of punishment, and the interaction between sentencing procedures and changing public attitudes. Prerequisite: CRJ 103.

323 Correctional Facilities: Prisons & Jails (3)

An in-depth assessment of the functions and operations of correctional institutions. Federal, state, and local secure-confinement facilities are analyzed in terms of their history, purpose, clientele, custodial practices, costs, treatment/industrial programs, effects on inmates, riots/disturbances, staffing, and management/administration. Emphasis is placed on the results of society's demand for more punitive sentencing and its impact on the future of corrections. Prerequisite: CRJ 103.

325 Organized Crime (3)

A survey of the history, scope, and methods of control used by organized criminal enterprises in the U.S., as well as organized crime practices in other cultures, and the impact of criminal organizations on the national economy.

402 Juvenile Justice System (3)

An overview of the juvenile justice procedures employed in response to delinquencies, status offenses, and the neglect/abuse of children. The processing of juveniles is traced through each significant stage of the system, from identification, apprehension, diagnosis, and adjudication to final disposition. Trends toward transferring serious juvenile offenders to adult court are examined, with overall focus on the differences between the criminal and juvenile justice systems in terms of their distinct purposes, functions, and associated due process rights. Prerequisite: CRJ 103.

420 Criminal Justice Organization and Administration (3)

An analysis of the nature, goals, organizational structure, and functions of law enforcement and correctional agencies. Supervisory and management theories are applied to challenges facing complex criminal justice organizations. Emphasis is placed on leadership, decision-making, dealing with conflicts, planning, and developing operational strategies within the context of a continually-changing environment. Traditional practices are assessed in light of current innovations, trends, public policies, and legal issues. Prerequisite: CRJ 103.

421 Criminal Law (3)

A detailed study of the origin, definition, scope, and function of substantive criminal law. Analyzes the responsibilities of the police and the rights of defendants in the application of the law to individual behavior and social interaction.

427 Courtroom Demeanor and Techniques (3)

A preparation for the experience of testifying in open court through analysis of general rules of evidence, courtroom practices and procedures, and the roles of prosecutor, defense, and other court officials. Students are familiarized with what occurs during trial and how to anticipate and prepare for it. Prerequisite: CRJ 421.

499 Internship (3-6)

A systematic means of combining classroom learning with practical work experience. Students are placed in work situations designed to complement and enrich their personal and professional career development. Work experience is arranged through local criminal justice agencies. Requires approval of Department Chair and Dean. For CRJ majors only.

459 Independent Study (3)

An opportunity for extensive research into criminal justice topics of special interest to the student. Requires approval of Department Chair and Dean.

HISTORY (B.A.)

History is the study of the changing character of civilization on all levels, including the economic, political, social, cultural, intellectual, and religious, and, as such, provides a fundamental context for liberal arts education. This far ranging nature of the discipline enables history majors to pursue many careers including those in law, government service, business, education or pastoral ministry. The Barry history program offers particular specializations in modern U.S., Latin America, and medieval and early modern Europe.

History students have opportunities to participate in scholarly activities through membership in Barry University's local Xi Kappa chapter of Phi Alpha Theta, the international honor society for history, and in various history writing awards offered by the university, including the President's Writing Award, presented each year during the Spring Honors Convocation.

A total of 39 credit hours is required for the B.A. in history. Majors must take HIS 101, 102, 201, 202, and 474 (which serves as the integrative experience), as well as a minimum of 18 hours in upper biennium courses, including 9 hours of 400-level courses but excluding 476. Of the upper biennium courses, at least 3 credits must be taken in each of the U.S., European, and non-western areas.

Graduation requirements include 1) earning a minimum grade of C in all major and minor courses and 2) passing a department-approved examination.

Requirements for minors are 21 credit hours, including HIS 101, 102, 201, 202, and 9 hours in upper biennium courses. A minimum grade of C in all minor courses is required.

Course Descriptions — History Prefix: HIS**101, 102 Western Civilization I and II (3) (3)**

General survey of western history examining the origins and development of ideas and institutions. First semester concentrates on the period from prehistory to the Peace of Westphalia (1648), and second semester, on the modern age. Non-western history is included as it has influenced western thought and activity.

201, 202 U.S. People & Ideas, I & II (3) (3)

Topical survey of American History, its people and ideas; first semester includes the period to 1877; second semester continues from 1877 to the present.

300 Special Topics (3-6)

Contents to be specified by the Department according to the interest and expertise of faculty members and the specific needs and/or interest of the students.

308 History of Asian Civilizations (3)

Overview of selected major Asian nations with emphasis on twentieth century developments.

315 History of Florida (3)

A survey history course of Florida from pre-history to the present. The relationship between South Florida and the rest of the state is emphasized during the more contemporary period.

335 Modern Russia (3)

Survey of the historical evolution of Russia with emphasis on the imperial and soviet periods (since the 1400s), including the development of revolutionary, economic, military, political, and social institutions.

339 Germany Since 1871 (3)

A survey of German history focusing on nationalism and the political, cultural, economic, and social developments since becoming a nation.

342 Emergence of Modern Europe: 1350-1650 (3)

Europe from the decline of medieval civilization to the Scientific Revolution, concentrating on the origins of modern ideas and institutions through a study of the Italian and Northern Renaissances, the Protestant and Catholic Reformations, nation-state building, overseas expansion, changing economic patterns, popular culture, and the development of a scientific outlook.

343 Europe in the Age of Absolutism: 1650-1815 (3)

Focusing on Europe from the end of the Thirty Years War to the Congress of Vienna, this course examines the Old Regime and its culture, politics, economics, ideas, and social structure, ending with the French Revolution, its impact, and the Napoleonic imperium.

344 Europe in the Nineteenth Century (3)

The political, economic and intellectual developments of modern Europe from 1815 to 1914, including industrial society, revolution and reaction, nationalist movements, imperialism, cultural and scientific achievements, and the background to the First World War.

345 Europe in the Twentieth Century (3)

Contemporary Europe with a concentration on the decline of Europe since the First World War, the rise of totalitarian movements, the Great Depression, the Second World War, postwar recovery, and the "new Europe" of the European Community.

383 History of Latin American Colonial Period: to 1824 (3)

A survey of Spanish and Portuguese America from the pre-Columbian era through the end of the colonial period.

384 Latin American National Period: from 1824 to present (3)

Overview of selected major Latin American nations with emphasis on twentieth century developments (i.e., revolutions, nationalism).

388 History of the Caribbean (3)

Survey of the history of the main island nations of the Caribbean; emphasis on their historical, cultural, and political dependency on colonial powers.

389 U.S. History: From the Gilded Age to World War II (3)

A political, economic, intellectual, cultural and diplomatic history of the United States from 1890-1945.

390 U.S. in the Cold War Era (3)

A study of the effects of the cold war on the diplomacy, domestic politics, and culture of the United States. Topics include the development of the cold war, McCarthyism, Civil Rights Movement, the Korean and Vietnam Wars, cultural changes in the 1960s, Watergate, and the end of the cold war.

403 American Diplomatic I to 1870 (3)

Foundation of American diplomacy; Monroe Doctrine; foreign wars and diplomacy of America's Civil War.

404 American Diplomatic II 1970 to present (3)

Significant topics in diplomatic history; including the emergence of the U.S. as a world power; the Cold War; decision making in the Department of State; and the role of interest groups in foreign policy.

431, 432 History of England I & II (3) (3)

Political, social, economic, and intellectual history of England from Roman to modern times. First semester includes the period to 1603 and emphasizes consolidation of the state, early constitutional development, and religious upheaval. Second semester concentrates on the modern period, including political and industrial revolutions, the British Empire, reform movements, world wars, and Thatcherism.

437 European Diplomatic Since 1815 (3)

This course will examine the diplomatic processes developed and employed by the Great Powers in the nineteenth century, including the establishment of a diplomatic corps, the "balance of power" idea, the Concert of Europe, and the "new imperialism." The second half of the course will study the breakdown of this system and the effect of two world wars on European hegemony.

449 Race, Gender, and Class in Latin America (3)

An historical study of the colonial legacy in Latin America and its implications in the national period of the society of castes which reflected racial, gender, and social perspectives.

451 The Rise of a World Economy (3)

Focus on the participation of major nations in the expansion of world trade from the middle ages to the present, and the exploration of political and ideological justifications for their activities.

454 America in the 1960s (3)

A topical study of the history of the United States in the 1960s. The Civil Rights Movement, antiwar movement, student movement, women's movement, the Vietnam War, and the presidencies of Kennedy, Johnson and Nixon will be the focus of the course.

474 Historical Methods

An examination of history as a written subject, exploring the philosophies of history and applying methods of historical research and interpretation to specific historical problems. Required of all history majors.

476 Methods of Teaching Social Sciences, Grade 6-12 (3)

Method of teaching social studies, emphasizing the integration of history, a survey of problems confronting middle and secondary school social studies teachers, including an evaluation of courses and textbooks; instruction in the use of audio-visual materials. Prerequisite: Candidacy in the School of Education. Same as POS 476.

487 Seminar (3-6)

Specialized treatment of a particular historical issue or problem with intensive research conducted under the direction of a faculty member.

499 Internship (3-6)

Opportunity to integrate scholarly activities with practical applications. Dean and Department Chair approval required.

359, 459 Independent Study (3)

Opportunity for extensive research in an historical area of special interest to the student. Dean and Department Chair approval required.

POLITICAL SCIENCE (B.S.)

The Political Science program pursues three basic objectives: to explore the nature of politics — its purposes, limitations, and significance in human life; to promote understanding of the American regime; and to develop a capacity for intelligent evaluations of public policies and a sensitive awareness of opposing points of view in the political conflicts of our time.

Requirements for a major in political science are 39 credits including POS 100, 201, 309, 312 or 396, 317, 325, 401 and 425.

Graduation requirements include: 1) earning a minimum grade of C in all major and minor courses, 2) completing POS 487 as an integrative experience, and 3) successfully completing a departmental examination at the end of the program.

Requirements for minors are 21 credits, including POS 100, 201, 309, 325, 401, and 425. A minimum grade of C in all minor courses is required.

Course Descriptions — Political Science Prefix: POS

100 Introduction to Political Science (3)

Broad exposure to the field including discussion of the major approaches to the study of politics and government; questions asked by political scientists; major subfields within the discipline; and discussion and analysis of contemporary events.

201 American Government (3)

National Government and its structure; administrative and political practices of the central agencies of authority in the United States.

202 State and Local Government (3)

Role of states in our federal system as well as interrelationships among them; analysis of patterns of legislative and executive process on the state level; particular attention will be devoted to these processes in Florida.

204 American Political Parties (3)

Analysis of history, structure and function of political parties; evaluation of parties and related institutions; emphasis on party decline.

300 Special Topics (3-6)

Content to be determined by the Department according to the faculty and specific needs and/or interests of the students.

305 The Executive Process (3)

Study of the complexities of the executive process; particular attention devoted to the office of the President of the U.S. with emphasis on twentieth century incumbents.

306 Legislative Process (3)

Based upon an overview of the rule making process; analysis of the organization of U.S. Congress with particular attention to the role of Congress within this political system and the centrality of committees in the law making process.

307 The Judicial Process (3)

Overview of the adjudicative process; analysis of the organization and jurisdiction of the Federal Courts; contemporary constitutional issues in their historic content.

308 Constitutional Law (3)

Use of the case method approach, focus on the development of constitutional law. Prerequisite: POS 307.

309 Comparative Government and Politics (3)

Analysis of politics and government of western European democracies with some attention devoted to ancient regimes, Marxist systems, and less developed countries.

312 African Politics (3)

Survey of the politics of post-independent Sub-Sahara nations; emphasis on social, political and economic characteristics.

314 Urban and Minority Politics (3)

Institutional analysis of the urban political arena; evolution of American cities; politics of race and ethnicity.

317 American Public Policy (3)

Survey of the policy making process; emphasis on the formation and implementation of policy; use of case study approach.

325 International Relations (3)

Analysis of relations among subnational, national, and supranational actors in the international system; foreign policy formation; quest for peace and security in a shrinking world.

395 International Organizations (3)

Study of the structure and functions of international organizations as well as their importance in the international arena; special attention will be devoted to the role of the United Nations and the European economic community.

396 Latin American Politics (3)

Detailed analysis of government and politics in select Latin American countries. Special attention will be devoted to authoritarian as well as revolutionary regimes.

401 Public Administration (3)

Critical evaluation of major theories; development of the field; current issues; emphasis on administrative organization and management.

406 Political Economy of Development

Analysis of the process of political and economic development. Topics include modernization, industrialization, the new international economic order, the role of the state and military and ethical issues of development. Department approval. Same as ECO 406.

408 Inter-American Relations (3)

International relations between the U.S. and Latin America and the foreign policies of Latin American states.

412 Conflict Resolution (3)

A study of contemporary approaches to structuring world peace; focus on nuclear deterrence, arms control, diplomacy, and negotiations.

425 Political Theory (3)

Inquiry into the nature of man and corresponding views of the res publica based upon classical and modern texts.

476 Methods of Teaching Social Sciences, Grades 6-12 (3)

Methods of teaching social studies, emphasizing the integration of social science, a survey of problems confronting middle and secondary school social studies teachers, including an evaluation of courses and textbooks; instruction in the use of audio-visual materials. Prerequisite: Candidacy in the School of Education. Same as HIS 476.

487 Seminar (3)

Guided individual reading and study; seminar discussions on selected topics and/or authors. Departmental approval required.

499 Internship (3-6)

Opportunity to integrate scholarly activities and the art of politics. Open to majors and minors who receive departmental approval. Requires a minimum of 120 or 240 hours. In order to receive 6 credits for POS 499, students must select the 40 s.h. major, together with independent study. Requires Department Chair and Dean approval.

359,459 Independent Study (3-6)

Opportunity for extensive research in an area of special interest to the student. Department Chair and Dean approval required.

SOCIOLOGY (B.S.)

The Sociology program is designed to provide an understanding of the interactive dynamics of social institutions, organizations, and everyday life. The curriculum acquaints students with a range of theoretical and practical approaches to the study of contemporary social problems and issues. The program is designed as an integral component of a liberal arts education as well as a preparation for graduate study in sociology and related fields. The major also prepares students for several types of occupations.

A major in sociology requires a minimum of 39 credit hours. The student is required to complete:

- SOC 201 Introduction to Sociology
- SOC 370 Social Psychology
- SOC 409 Research Methodology
- SOC 423 Sociological Theory

Twenty-seven hours of elective sociology courses.

Additional requirements include:

1. MAT 152
2. a minimum grade of C (2.0) in all major and minor courses and in MAT 152
3. completion of one of the following integrative experiences during the Fall or Spring semesters of the senior year:
 - a) a senior research project; or
 - b) an internship experience in a relevant practical setting (SOC 499).

Sociology Minor

A minor in Sociology requires 21 credit hours, including SOC 201, 370, 409 and 423. A minimum grade of C in all minor courses is required.

Course Descriptions — Sociology Prefix: SOC

103 The Criminal Justice System (3)

A comprehensive survey of the administration of justice. Explores the nature and extent of crime and the development of criminal law, along with law enforcement, judicial, and correctional functions at the local, state, and federal levels of government. (Same as SOC 103).

201 Introduction to Sociology (3)

An introduction to the major theoretical perspectives in sociology. Emphasis on the application of these perspectives to contemporary social issues, including: deviance, marriage and the family, organizations, religion and social change.

202 Juvenile Delinquency (3)

A study of the nature, extent, and causes of delinquent behavior. The challenges of measuring, preventing, and responding to delinquency are assessed, along with the role of the police, the courts, and various treatment programs in dealing with delinquency. (Same as SOC 202).

204 Social Problems (3)

A survey of sociological perspectives on social problems. Sociological perspectives will be applied to such problems as alcohol and drug abuse, crime, healthcare, homelessness, poverty, and racism.

246 Marriage and the Family (3)

A survey of historical and sociological perspectives regarding the family as an important social institution. Emphasis on contemporary family issues, including: intimacy and sexuality, family violence, parenting, divorce and remarriage.

300 Special Topics (3)

Content to be determined by the Department to fill specified needs or interests.

304 Ethical Issues in Social Science (3)

An introduction to the range of ethical issues that arise during the practice of social science. Emphasis on research issues, including: research topics, research methods, the use of research, the role of the researcher, and the creation of ethical standards.

306 Sociology of Art (3)

A survey of sociological perspectives on the relationship between art and society. Emphasis on: the social production of art, the social uses of art, and art as an indicator of social processes. Perspectives will be applied to: film, literature, music, painting, and the theater.

307 Race and Ethnicity (3)

Study of sociological perspectives in minority-majority relations; assimilation ideologies; dynamics of prejudice and discrimination; biological, historical and sociological data on race; survey of American minorities.

317 Sociology of Work (3)

An examination of the cultural, social and organizational aspects of work in contemporary society. Work is studied as a fundamental human activity, which is socially constructed through complex organizations, power, cultural beliefs and values, the wage system, consumption, management ideologies, and technology. Topics discussed include: the significance of work in everyday life, postindustrialization, the relationship between work and family, housework, professionalization, and the consumer culture.

349 Sociology of Religion (3)

Analytical approach to the problem of reciprocal incidence and dependence between "religious" phenomena and the socio-cultural world; deals principally with classical sociologists, Marx, Freud, Durkheim, Malinowski, Weber and their views on the function of religion and the process of secularization.

370 Social Psychology (3)

An introduction to the major theoretical perspectives in social psychology. Emphasis on the application of these perspectives to such issues as everyday interaction, deviance, gender, and social organizations.

372 Social Stratification (3)

Theories of social class; wealth, power and prestige as class correlates; social mobility; and consequences of social placement.

405 Sociology of Race, Class and Gender (3)

A comprehensive examination of race, class and gender as central categories of social experience. A variety of sociological approaches are integrated to analyze how these differences in identities and accompanying inequalities are constructed within social institutions and processes. Prerequisites: SOC 201 & 3 additional SOC hours or permission of Department Chair.

409 Research Methodology (3)

Introduction to sociological research methods. Contemporary data collection and analysis techniques will be introduced. The assumptions, limitations, and implications of these techniques will be discussed.

423 Sociological Theory (3)

A critical review of the classical theorists who developed the foundations of modern sociological theory. Specific theorists and theories to be considered: Durkheim, Spencer, Marx, Weber, structure-functionalism, conflict theory, and symbolic interaction.

487 Seminar (3)

Intensive exploration of a particular topic relevant to sociology.

499 Internship (3-6)

Internship experience under qualified supervision. Requires a minimum of 120 hours. Department Chair and Dean approval required.

359, 459 Independent Study (3)

Designed to allow the student an opportunity to complete the senior project under the supervision of a faculty member. Department Chair and Dean approval required.

SOCIAL SCIENCE MINOR

An academic minor in Social Science for a History, Political Science or Sociology major fulfills State of Florida requirements for certification in Social Studies (30 credits plus Teaching Methods course). A minimum grade of C in all minor courses is required. In the process of completing the Social Science minor and the major, the student will complete the following requirements:

U.S. History	6 hours
Western Civilization	3 hours
Asian or Latin American History	3 hours
Economics	6 hours
Political Science (including POS 201)	6 hours
Geography	3 hours
Sociology or Psychology	3 hours

NON-DEGREE PROGRAMS

ANTHROPOLOGY

Course Descriptions — Anthropology Prefix: ANT

243 Cultural Anthropology (3)

Comparative cultural behavior explored through theoretical constructs and ethnographic data; social organization, linguistics, psychological anthropology, and technology.

300 Special Topics (3-6)

Content to be determined by the Department according to specific needs and/or interest of students and faculty.

GEOGRAPHY

Course Descriptions — Geography Prefix: GEO

300 Special Topics (3-6)

Content to be determined by the Department according to the faculty and specific needs, and/or interest of the students.

303 Geography of Europe (3)

Europe with an emphasis on man, his culture, economy, history, and political entities on a regional basis; man's adaptation and development in relation to his physical environment, and the influence of environment upon man and his activities.

305 Latin American Geography (3)

Latin America with an emphasis on man, his culture, economy, history and political entities on a regional basis; focus on man's adaptation and development in relation to his physical environment and the influence of environment upon man and his activities.

307 Physical Geography (3)

Holistic approach to man in nature; climatic, physical, biochemical, economic, and political influences upon the ecological structure of the Earth; Earth resources and conservation.

308 United States Geography (3)

Survey of physical, cultural, and economic relationships in the contemporary setting of the United States.

DEPARTMENT OF THEOLOGY AND PHILOSOPHY

Rev. Cornelius J. van der Poel, C.S.Sp., Interim Chair

Faculty: Alzaga, Cassini, Cunningham, Del Colle, Madden, Sause, Sunshine, Trau, Uritus, Vizcaino.

PHILOSOPHY (B.A.)

Philosophy searches for wisdom and knowledge and is especially concerned with ultimate questions of existence and meaning. Philosophy explores the most basic yet wide ranging issues of human life and experience: truth, beauty, goodness, reality, freedom, mind, thought, knowledge, justice, language, faith, and so forth. The study of philosophy involves the rational examination of various positions on such issues. The study of the works of important philosophers and philosophical methods provides a basis for integration with other academic subjects. The goal is a consistent, coherent, and all-inclusive view of the world and human beings.

The philosophy faculty, representing a variety of philosophical interests, endeavors to develop students' analytical and reflective skills and the capacity for independent thinking.

The program attempts to accomplish this mission by the following goals:

1. provide a broad historical background in philosophy,
2. assist students in the development of the philosophical method of analysis,
3. introduce important trends in contemporary philosophical thought, and
4. integrate philosophical knowledge with human experience.

Requirements For the Major:

The major consists of a minimum of 39 credits. Required courses: 212, 292, 304, 314, 316, 317, 318, 319, 487, and 12 elective credits.

A written departmental exam completes the requirements.

A minor consists of a minimum of 21 credits. Required courses: 212, a 300-level course in the history of philosophy, a 300-level problems course and 12 elective credits.

The minimum grade of C is required in all major and minor courses.

Course Descriptions — Philosophy Prefix: PHI

120 Critical Thinking (3)

Enhancement and development of reasoning skills and argument analysis. Topics include the concepts of truth, verification, and knowledge; the subjective/objective distinction; deductive/inductive reasoning; formal and informal arguments; awareness of common errors in informal reasoning.

122 Thought of Spain and the Americas I (3)

Major trends in Hispanic and American thought from its origins through the 19th century in historical and cultural context; development of ideas and their influence on the hemisphere.

123 Thought of Spain and the Americas II (3)

Major trends in Hispanic and American Thought of the late 19th and the 20th centuries in historical and cultural context; development of ideas and their influence on the hemisphere.

150 Philosophical Problems (3)

An introduction to fundamental philosophical questions and areas of interest. Topics may include theories of truth and knowledge, the notion of beauty, concepts of goodness and evil, the nature of reality, the relation between body and mind, personal and social ethics, the existence and nature of God.

154 History of Philosophy I (3)

Opportunity to recognize, to formulate, and to clarify representative philosophical problems of human experience and knowledge from the pre-Socratics through the end of the Middle Ages; recommended preparation for all 200 level courses and above.

155 History of Philosophy II (3)

Opportunity to recognize, to formulate, and to clarify representative philosophical problems of human experience and knowledge from the Renaissance to the twentieth century; recommended preparation for all 200 level courses and above.

170 Contemporary Moral Problems (3)

An introduction to fundamentals of ethical reasoning, various methodologies, and application to current topics in ethical discourse. Topics may include capital punishment, euthanasia, abortion, war and peace, pornography, poverty and hunger, environmental rights, animal rights, academic freedom, sexual discrimination, or other areas of interest.

212 Introduction to Formal Logic (3)

The study of the principles of valid argument: deductive inference, syllogism and symbolic logic, including propositional and predicate logic.

260 Philosophy of the Human Person (3)

Philosophical overview of human psychology: individual and social natures of human beings; their materiality and spirituality; human cognition, volition and freedom; differing order of human needs; powers and habits; unity within a complexity of activities, human destiny.

292 Ethics (3)

A study of fundamental elements in ethical theory: analysis of the concept of moral goodness, the origins and nature of moral law and obligation, comparison of various moral systems for moral decision making. Discussion will include application through consideration of concrete examples.

300 Special Topics (3)

Content to be determined each semester by the Department as requested by faculty and/or students to fill specified needs or interests.

302 Spanish and Spanish-American Philosophers (3)

Major ideas of the most important Spanish and Spanish-American philosophers in their historical and cultural context; development of their ideas and their influence in Western culture; primary emphasis placed on Unamuno, Ortega y Gasset, Zubiri, Varona, Ingenieros, Vasconcelos, Romero, Francovich, etc.

304 Epistemology (3)

Philosophical inquiry into the nature of knowledge, kinds of experience, belief and truth, justification and verification.

306 Philosophy of God and Religion (3)

Philosophical investigation of the nature of the holy, faith and its relation of reason, religious language and symbol, proof for the existence of God, religious experience and verification.

308 Philosophy of Law (3)

Philosophies of law, including natural law theory, legal positivism, American legal realism, Marxism, and recent theories; relationship of law and morality; concepts of justice, responsibility and punishment; the conscientious objector.

313 Aesthetics (3)

Philosophical study of the nature of art; relation between the various arts, concepts of beauty, the creative process, principles of art criticism, religious art and symbolism.

314 Metaphysics (3)

A discussion of the nature of reality. Topics may include the nature of being, principles of individuation, materiality and immateriality, predication and causation.

316 Ancient Philosophy (3)

An historical survey of the development of Western Philosophy, including the pre-Socratics, Plato, Aristotle, the Stoics, Cynics, Skeptics, Plotinus.

317 Medieval Philosophy (3)

An historical survey of the development of Western philosophy, including the Patristic period, Saint Augustine, John Scotus Eriugena, Saint Anselm of Canterbury, Avicenna, Saint Bonaventur , Saint Albert the Great, Saint Thomas Aquinas, Scotus.

318 Modern Philosophy (3)

A survey of Western philosophy, from the 17th century to the mid-19th century, including Rationalism, Empiricism, Positivism, Kant and Idealism; emphasis on the continuity and development of metaphysical and epistemological ideas during the period.

319 Contemporary Philosophy (3)

A survey of the major branches of late 19th and 20th century thought: Marxism, American pragmatism, process philosophy, analytic philosophy, phenomenology, existentialism, hermeneutics and other recent developments, e.g. feminist philosophy.

320 American Philosophers (3)

European influences; Colonial thinkers; philosophy of the Founding Fathers; Transcendentalism; Pragmatism; Naturalism; recent developments.

321 Philosophy of Peace and War (3)

Classical and contemporary philosophical analysis of peace, war, and conflict between individuals, groups, and nations. Discussion of ethical questions concerning the initiation and the conduct of conflict, revolution and war. Analysis of nonviolent resolution of disputes, of proposals for solving the problem of war, and of pacifism. Ethical aspects of nuclear weapons employment and the contemporary nuclear weapons dilemma.

353 Bio-Medical Ethics (1-10)

Interdisciplinary investigation of current ethical issues in health care and the medical, biological, and behavioral sciences; organized according to modules which may change each year.

353a Ethical Foundations (1)

(Prerequisite to all other modules)

Philosophical ethics; professional codes of ethics; professional responsibilities.

353b Genetics and Reproduction (1)

Artificial insemination; genetic engineering; genetic counseling; genetic screening; cloning and in vitro fertilization; pre-natal diagnosis. Prerequisite: 353a.

353c Limitation of Reproduction (1)

Ethical issues relating to birth control, sterilization, and abortion with reference to social, psychological, biological, and legal aspects. Prerequisite: 353a.

353d Ecological and Environmental Ethics (1)

Ethical study of the effect of human intervention in the manipulation of the environment; epidemiological and moral consequences of ecological imbalance; pollution; industrial health regulations. Prerequisite: 353a.

353e Human Experimentation (1)

Ethical aspects of clinical investigation; organ transplantation; informed consent to participation in research; institutional guidelines on human research; behavioral research; research on prisoners; mental patients, children, and fetuses. Prerequisite: 353a.

353f Death and Dying (1)

Care of terminally ill patients; decisions concerning withholding of life-saving treatment; defining death; the right to die and death with dignity; decisions about the newborn; suicide; euthanasia. Prerequisite: 353a.

353g Health Care Delivery (1)

An analysis of the structural and ideological interests that lead to numerous value conflicts within the health care system of the United States; DRG's cost containment vs. care containment; corporatization of medicine; patient transfers; plight of the medically indigent; medicalization; malpractice; societal and personal responsibilities regarding health care. Prerequisite: 353a.

353i Population Ethics (1)

Population trends and public policy; relationships existing between development, environment, and population; ethical aspects of population control. Prerequisite: 353a.

353j Clinical Setting and Interaction (1)

An analysis of the various life-worlds which inform the health care professional and influence role interaction, care process and patient outcome; paternalism vs. autonomy; truth telling; patients' rights; informed consent; patient abandonment; institutional neglect; patient advocacy. Prerequisite: 353a.

353m Mental Health (1)

An analysis of the numerous structural forces, principles, concepts and indices affecting the delivery of care to the mentally ill and warranting ethical reflection; models of illness; labelling; deinstitutionalization; intrusive therapy; societal obligations; right to treatment; right to refuse treatment; incompetency; Baker Act; Civil Rights of Institutionalized Persons Act (CRIPA). Prerequisite: 353a.

353n Geriatric Ethics (1)

Analysis of policy and clinical issues evolving from the confluence of demographic, epidemiological, economic, political, medical, and legal forces which directly impinge upon the geriatric population; economic restraint vs. rising entitlement; autonomy; clinical evaluation for competency vs. the legal definition; informed consent; negotiated treatment; paternalism vs. therapeutic persuasion; surrogate decision-making; institutionalization vs. least restrictive alternative; quality of care; the life-care contract. Prerequisite: 353a.

353o Communicative Diseases/AIDS (1)

Analysis of ethical and social issues surrounding the treatment and prevention of communicative diseases with particular emphasis upon Acquired Immune Deficiency Syndrome. Patient rights; employer housing, and insurance discrimination; Florida Civil Rights Act; Rehabilitation Act of 1973, Section 504; mandatory blood testing; reporting laws; confidentiality; duty to notify innocent third parties; restricting of occupational activity; drug efficacy issues; determination of price control of drugs; allocation of resources. Prerequisite: 353a.

355 Philosophy of Politics (3)

Chronological treatment of the political theories of the major philosophers from classical to modern times.

365 Advanced Argument Analysis (3)

In-depth analysis of various types of argument, including those in knowledge theory and ethics, which relate to professional and social issues; verbal puzzles; categorizing schemas. Prerequisite: PHI 120

460 Philosophical Classics (3)

Examination of the basic writings of an individual philosopher, of a school of philosophers, or of philosophers of an historical period.

487 Seminar (3)

Research and discussion on selected topics under direction of instructor.

THEOLOGY (B.A.)

The academic study of Theology is essential to a complete education. The Department fulfills its goals by the pursuit of the following objectives: 1) it studies Roman Catholic theology in dialogue with other Christian traditions, non-Christian traditions and especially Judaism. By this objective, the Department fulfills Barry's commitment to Roman Catholic education on the university level; 2) it acknowledges the human search for religious meaning and experience and seeks not only to offer the possibility of a study of the varying approaches to religious witnesses in history but also to place Roman Catholic theology in communion with that quest; 3) it aspires to a fruitful encounter with other university disciplines since the department believes that theology's concerns are related to all vital human issues.

Requirements for the Major

THE 111, 122 (301, 304 for transfer students); 103 and 110 (for those lacking sufficient background in Catholicism); 207, 214, 327, 336, 337, 338, 360; and any three of the following: THE 110, 311, 370, 487. All courses must be completed with a grade of C or above.

Requirements for the Minor

The minor consists of completion of a minimum of 21 credits, with a grade of "C" or above.

Course Categories

I. Biblical Studies

- 111 Biblical Covenant: Introduction to the Bible
- 122 Jesus and the New Testament
- 301 Theology of the New Testament: New Testament Studies
- 304 Theology of the Old Testament
- 495 Topics in Bible

II. Christian Studies

- 120 Christian Understanding of Human Person
- 207 Christology
- 214 Christian Morality
- 300 Special Topics
- 311 Sexuality, Sex and Morality
- 327 Peace and Justice
- 337 History of Christianity
- 338 Church

- 360 Women and Justice in the Church
- 370 Protestantism
- 413 Religion and Social Issues
- 496 Topics in Christian Studies

III. Roman Catholic Studies

- 110 Catholicism
- 220 Marriage in Roman Catholic Tradition
- 336 Sacraments and Liturgy
- 476 Process in Religious Education
- 497 Topics in Roman Catholic Studies

IV. Religious Studies

- 103 World Religions: Religious Experiences of Humankind
- 134 Judaism
- 349 Sociology of Religion
- 351 Future of Religion in America
- 414 Religious Anthropology
- 422 Religious Psychology
- 487 Seminar
- 492 Workshop
- 498 Topics in Religious Studies
- 499 Independent Study

Course Descriptions — Theology Prefix: THE

103 World Religions: Religious Experiences of Humankind (3)

A survey of the history, beliefs, practices and contemporary influence of the major religions of the world: Hinduism, Buddhism, Taoism, Confucianism, Maoism, Shintoism, African traditions, Judaism, Christianity, and Islam; a discussion of a basic methodology for understanding religions.

110 Catholicism (3)

An explanation of the spirit, beliefs and practices of Roman Catholicism including its understanding of sacramentality, mediation and communion; a study of the Roman Catholic classics and issues confronting Roman Catholicism.

111 Biblical Covenant (3)

Contract made on Sinai by the people of Israel with Yahweh, their God; ambivalence of Israel and the mission of the prophets; fulfillment of the divine promises in the advent of the Messiah.

120 Christian Understanding of Human Person (3)

An investigation into the question of "What does it mean to be human?", according to Christian teaching; a discussion of the relationship of the human person to self, others, the world, and the Divine as the basis for humanness; a study of the issues involved in these four relationships, e.g., freedom, grace, contemplation.

122 Jesus and the New Testament (3)

Study of Jesus in the New Testament and other sources in light of the examination of the New Testament texts; Jewish and Pagan worlds in New Testament times; history and kerygma; theology and tradition of the apostolic times and the encounter with Jesus and the spirit today.

131 Judaism (3)

A survey of modern Jewish history to discover roots and traditions of the Jewish people in American, Israeli and Soviet Union...view of the Holocaust and its effects on the world Jewry. The faith, beliefs and practices of Jewish life today.

207 Christology (3)

Person and message of Jesus as seen in the scriptures and the life of the church; contemporary understanding of Jesus and the challenge of Jesus for the Christian of today.

214 Christian Morality (3)

Value choices manifest in the teaching and example of Jesus; basic moral option and the nature of personal responsibility in conscience formation; influence of charity in the moral decisions of a Christian; critical areas in contemporary moral teaching and practice.

220 Marriage in Roman Catholic Tradition (3)

A personally-oriented and practical treatment of the marital union as seen in its Christian theological, psychological, and sexual aspects; and discussion of Christian marriage as a bond of love, as a sacrament, and as a way of human fulfillment.

300 Special Topics (3)

Topics of interest to faculty and students.

301 Theology of the New Testament: New Testament Studies (3)

A study of specific themes or books of the New Testament focusing on particular questions of contemporary Christianity.

304 Theology of the Old Testament (3)

Examination of the Theology of the various books of blocks of writing in the Old Testament; an attempt to draw together and present the major themes, motifs, and concepts of the Old Testament; a study of the relationship between the Old Testament and the New Testament.

311 Sexuality, Sex and Morality (3)

An analysis of the nature of sex and sexuality, according to the sources and developments of Christian thought; the integration of those concepts into a contemporary moral and ethical system.

327 Peace and Justice (3)

The course is meant to explore the issues of peace and justice as fundamental concerns of Christianity today. Building on the foundation of scripture, Roman Catholic (and other churches') documents on these topics, students will explore the questions being asked today and some of the responses proposed.

336 Sacraments and Liturgy (3)

Christian sacraments from the perspective of religious experience and symbol; Christ as primordial sacrament; historical-theological development of each sacrament.

337 History of Christianity (3)

Survey of the beginning, growth and development of Christianity, through the medieval period to the time of the Reformation; post-Reformation trends briefly addressed.

338 The Church (3)

The Church as it emerges from New Testament times; development of different theological models of Church, with special emphasis on understanding the Church today in the light of Vatican Council II.

349 Sociology of Religion (3)

Analytical approach to the problem of reciprocal incidence and dependence between religious phenomena and the socio-cultural world; deals principally with the classical sociologists: Marx, Freud, Durkheim, Malinowski, Weber and their views of the function of religion and the process of secularism. Same as SOC 349.

351 Future of Religion in America (3)

Sociological analysis of the role of religion in American Society; viability of the function in the last quarter of the twentieth century.

360 Women and Justice in the Church (3)

An investigation of the anthropological, philosophical, and theological development of the role of women in society and the Church: the meaning of personhood, the role of women in the Christian Scriptures and in the life of the early and contemporary Church; goals for a just society and Church.

370 Protestantism (3)

An introduction to the thought of the principle reformers: Luther, Calvin, Zwingli, Wesley; a study of speculative and practical forces operative in the fifteenth-sixteenth centuries which gave rise to the reforming movement; the formulation Protestant Orthodoxy.

401 Supervised Ministry I (3)

A practicum in a specific ministry: Religious Education, Liturgy, or Health Care.

402 Supervised Ministry II (3)

403 Supervised Ministry III (3)

404 Supervised Ministry IV (3)

413 Religion and Social Issues (3)

A study of the influence of religious convictions in confronting major social issues of today's world, e.g., population growth, famine, ecology, liberation and revolution, truth as a social issue, wealth, taxation.

476 Process in Religious Education (3)

Application of recent educational, psychological, and catechetical theory and practice to religious education; catechetical materials in current media. For majors only. Prerequisite: Candidacy in the School of Education.

487 Seminar (3)

Group research and interchange of ideas on a topic of contemporary significance in the field of Religious Studies. Required of major students.

492 Workshop (1-3)

495 Topics in Bible (3)

Specific themes, books, texts are chosen which have materialistic interest and relevance to the contemporary world.

496 Topics in Christian Studies (3)

The topics will change regularly and will be published within the Department.

497 Topics in Roman Catholic Studies (3)

The topics will change regularly and will be published within the Department.

498 Topics in Religious Studies (3)

The topics will change regularly and will be published within the Department.

499 Independent Study (3)

Contract will be formulated by the professor and the student. Requires approval of Department Chair and Dean.

Courses taught by the Archdiocese of Miami and approved by the Theology Department of Barry University:

- 140 Religious Education Methodology I
- 141 Religious Education Methodology II
- 142 Introduction to the Sacraments
- 143 Principles of Christian Morality I
- 144 Principles of Christian Morality II
- 151 Introduction to the Old Testament
- 152 Introduction to the New Testament
- 157 Celebrating Liturgy I
- 158 Celebrating Liturgy II
- 161 The Church After Vatican II
- 163 Peace and Justice I
- 164 Peace and Justice II
- 173 Principles of Youth Ministry

MASTER OF ARTS IN THEOLOGY

The graduate program in Theology is a community of faculty and students engaged in reflection within an academic context on the meaning of God and the human response to the presence of God. It is characterized by a strong intellectual tradition with considerable diversity among its participants.

The program provides its service primarily through the search for truth and wisdom in the knowledge of God in Jesus Christ. First among the tools necessary for this effort is knowledge of western Catholic tradition, including a close acquaintance with its origins, development, and kinship to Protestant, eastern Christian, and Jewish traditions. Theological reflection demands openness to experience as well as awareness of the world and of contemporary human needs.

The graduate program in Theology, as an integral part of a larger community, benefits from the broader perspective of a liberal arts institution, from the multiple viewpoints of a larger faculty, and from the many facilities, cultural opportunities, and services which the University and the Miami area provide.

The program attempts to accomplish this mission in light of the following goals:

1. Providing students with a firm academic foundation in Christian theology.
2. Assisting students to engage in theological research.
3. Integrating insights gained through theological reflection with actual experience.
4. Relating the vision of Roman Catholic theology to other Christian traditions as well as to Judaism and to the human religious experience.

ADMISSION REQUIREMENTS AND POLICIES

See School of Arts and Sciences requirements, graduate section.

Sufficient undergraduate preparation or life experience, usually 18 hours of undergraduate theology or religious studies.

A minimum score of 40 on the Miller Analogies Test or 1000 on the G.R.E.

Applicants for the Program in Health Care Ministry will also submit to an evaluation of psychological aptitude for ministry. This may be done privately or through the University.

Personal interview.

Provisional acceptance may be granted on an individual basis. See School of Arts and Sciences, requirements, graduate section.

Non-degree-seeking acceptance: see School of Arts and Sciences, requirements, graduate section.

REQUIREMENTS FOR GRADUATION

For completion of the degree, students must 1) complete a minimum of 30 course credit hours, or complete 27 course credit hours and 3 thesis research credit hours culminating in a satisfactory thesis according to an acceptable style sheet; and 2) pass written and oral comprehensive examinations.

Comprehensive Examinations

The Department will provide students with a list of topic areas and questions in Old Testament, New Testament, Systematic Theology, Sacramental/Historical Theology, and Moral Theology together with a reading list. The student will be expected to prepare all topic areas and questions. On the day of the examination, two questions from each area will be presented. The student will pick one question from each area and respond.

The oral examination will be based on the responses to the written examination as well as other topics and questions in the five areas and the thesis, if applicable. It will last one hour and will be conducted by at least three examiners.

CERTIFICATE IN THEOLOGICAL STUDIES

Persons who do not intend to obtain a Master's degree in Theology but want to acquire some of its professional training may take courses and be granted a Certificate in Theological Studies for the credits earned.

Core Curriculum Required of all Students in Master's Program in Theology and in Health Care Ministry

- Old Testament Course
- New Testament Course
- 635 Ecclesiology
- 636 Christology
- 642 Sacramental Theology
- 655 Principles of Christian Morality

Theology Courses

- 501 Supervised Ministry I
- 502 Supervised Ministry II
- 503 Supervised Ministry III
- 504 Supervised Ministry IV
- 600 Torah
- 601 Synoptic Gospels and Acts
- 605 Johannine Literature
- 610 Prophetic Literature
- 611 Pauline Theology
- 612 Wisdom Literature
- 634 Selected Topics: Biblical Studies
- 635 Ecclesiology: The Mystery of the Church
- 636 Christology
- 637 The Christian God and the Human Response
- 640 Theology of Liturgy
- 641 Liturgical Time and Prayer
- 642 Sacramental Theology
- 643 Rites of Christian Initiation
- 650 History of Christianity I
- 655 Principles of Christian Morality
- 656 Catholic Social Thought
- 657 Moral Issues in Interpersonal Relationships
- 670 Health Care Ministry

673	Health Care Ethics
684	Selected Topics in Roman Catholic and Christian Studies
698	Practicum in AIDS Ministry
699	Special Topics in Related Studies
700	Directed Research
704	Thesis Research
729	Continuous Registration

**Course Descriptions — Theology Prefix: THE
(Includes Health Care Ministry)**

501/502/503/504 Supervised Ministry I, II, III, IV (3)(3)(3)(3)
A practicum in a specific ministry.

600 Torah (3)

An historical-critical study of the Pentateuch in the light of literary, historical, theological, and archeological research on the Old Testament and its environment.

601 Synoptic Gospels and Acts (3)

A study of the influences contributing to the crystallization of the primitive Christian catechesis; development of the Gospel literature in the different Christian communities; overview of the characteristic theologies of Matthew, Mark, and Luke.

605 Johannine Literature (3)

An analysis of the last gospel with special concern for its unique theology. The role of the Beloved Disciple as founder of the community with its emphasis on the faith commitment to the Lord and the love of the brethren.

610 Prophetic Literature (3)

A study of the origin and development of the prophetic movement in Israel and its relationship to other prophetic movements in the Ancient Near East; analysis of the prophetic books of the Old Testament and of the role of the prophets. Major emphasis will be on the prophets from the 8th to the 6th centuries.

611 Pauline Theology (3)

An analysis of the genius of Paul as seen in his letters. Paul the founder of Churches, the missionary, his Jewishness, and his anthropology which gave birth to the Christian Church of the Gentiles.

612 Wisdom Literature (3)

A study of the Wisdom Books of the Old Testament with emphasis on an examination of the position and limits of Wisdom within the message of the Bible; also, an investigation of the wisdom tradition as it extends into the New Testament.

634 Selected Topics: Biblical Studies (3)

Topics, issues, and questions will be occasionally chosen and studied from the Biblical and historical perspective with special attention given to contemporary relevancy. The specific topics will be publicized through the department.

635 Ecclesiology: The Mystery of the Church (3)

An understanding of the Church as seen in the New Testament with emphasis on the foundations of the Church in the Priesthood of Jesus. The Church as one, holy, catholic, and apostolic and its implications of the Church today.

636 Christology (3)

The mystery of Christ as seen in the Scriptures; incarnation as development in the documents and tradition of the Church and in the light of contemporary research.

637 The Christian God and the Human Response (3)

A study of the Christian God as Trinity and the human response to this revelation. The course will also consider the nature and destiny of humankind considered in relation to Jesus Christ; special reference to secularization and faith in God.

640 Theology of Liturgy (3)

Analysis of anthropological and theological roots of liturgy. These include symbol, myth, rite, and the sacred. Examination of origins, evolution, and current practice of major Christian rites.

641 Liturgical Time and Prayer (3)

The nature of liturgy as source and summit of the Church's life. Special attention will be given to: general forms of Christian prayer; the development of structured daily prayer (especially Liturgy of the Hours); and the history and meaning of the liturgical year. Some discussion of the relationship between liturgical time and liturgical environment (especially art and architecture).

642 Sacramental Theology (3)

A look at Christian sacraments from the perspective of religious experience and symbol; Christ, the primordial sacrament, the Church as sacrament and a theological-liturgical-historical examination of each sacrament.

643 Rites of Christian Initiation (3)

An in-depth study of Baptism-Confirmation and Eucharist as sacraments of full initiation into Christian Life. Evolution and current thought on these sacraments. Discussion of the Rite of Christian Initiation of Adults.

650 History of Christianity I: Apostolic Period to Reformation (3)

Survey of the beginnings, growth, and development of Christianity from the Apostolic period to the eve of the Reformation about 1500 A.D.; special emphasis will be placed on the development of doctrine, church structure, and liturgy during this time.

655 Principles of Christian Morality (3)

Fundamental questions regarding the person from a moral theological viewpoint; meaning of freedom, knowledge, and conscience with the totality of person and the basic sources of morality.

656 Catholic Social Thought (3)

An examination and evaluation of the teaching on major social issues in the papal encyclicals, conciliar documents, and episcopal pronouncements from Leo XIII to the present day.

657 Moral Issues in Interpersonal Relationships (3)

An analysis of the methods and problems involved in moral decision-making in interpersonal relationships such as sexual relationships, relationships of trust and confidence, of superior and subject, of collegiality.

670 Health Care Ministry (3)

Theology of Health Care Ministry and the theological meaning of human suffering.

673 Health Care Ethics (3)

A study of the theological meaning of human life as a basis for health care ethics. Analysis of ethical methods in health care. Applications to topics including life and death issues, prolongation of life, experimentation, genetics, reproduction, and others.

684 Selected Topics in Roman Catholic and Christian Studies (3)

Topics, issues, and questions will be occasionally chosen and studied to suit the needs of individual students or for enhancement of the program. The specific topics will be publicized through the Department.

698 Practicum in AIDS Ministry (3)

An exploration of the current AIDS (Acquired Immune-Deficiency Syndrome) epidemic now sweeping the world, with the goal of developing more effective pastoral ministry approaches to maximize spiritual consciousness and growth of those affected. Readings, films, lectures, and peer-group critique and discussion will complement a variety of weekly clinical experiences in ministry with persons with AIDS/HIV and those near to them.

699 Special Topics in Related Studies (3)

Topics, issues, and questions will be occasionally chosen to suit the needs of individual students or for the enhancement of the program. The specific topics will be publicized through the Department.

700 Directed Research (3)

A faculty member will direct a student in individual research with the approval of the Chair.

704 Thesis Research (1)

This is a research in residence or continuous registration for all departments/schools offering graduate programs.

729 Continuous Registration (1)

This is a continuous registration for departments/schools offering graduate programs.

**MASTER OF ARTS IN
PASTORAL MINISTRY FOR HISPANICS**

(For further information, please contact (305) 223-7711)

Required Courses 27 credits

- RSP 421/521 Pastoral Planning and Evaluation (3)
- RSP 460/560 Foundations of Theory (3)
- RSP 461/561 The Bible: Its Liberating Message (3)
- RSP 462/562 Jesus Liberator & His Community of Faith (3)
- RSP 463/563 The Sacraments & Liturgical Creativity (3)
- RSP 464/564 History of the Church in USA (3)
- RSP 465/565 Anthropology & Spirituality of Hispanic People (3)
- RSP 466/566 Pastoral Principles of Hispanic Ministry (3)
- RSP 467/567 Ethical Principles & Social Doctrine (3)

Required Skills Workshops 6 credits

- RSP 421/521 Pastoral Planning & Evaluation (3)
- RSP 422/522 Team Work & Team Decision (3)

Elective Courses 15 credits

- RSP 423/523 Psychological Growth and Faith Development (2)
- RSP 424/524 Techniques of Communication (2)
- RSP 426/526 Faith Dynamics (2)
- RSP 431/531 Evangelization & Hispanic Culture (2)
- RSP 432/532 Basic Ecclesial Community (2)
- RSP 433/533 Theology of Ministries (2)
- RSP 434/534 Hispanic Catechesis (2)
- RSP 435/535 Hispanic Youth Ministry (2)
- RSP 436/536 Youth Ministry for Adult Advisors (2)
- RSP 438/538 Hispanic Music & Liturgy (2)
- RSP 439/539 Religion & Sociology (2)
- RSP 440/540 Contemporary Spirituality (2)
- RSP 487/587 Seminar (1-3)
- RSP 570 Directed Research (6)
- RSP 423/523 Psychological Growth & Faith Development (2)
- RSP 424/524 Techniques of Communication (2)
- RSP 425/525 Consciousness-Raising Dynamics (2)
- RSP 426/526 Faith Dynamics (2)

Course Descriptions — South East Pastoral Institute Prefix: RSP

301 Immersion in Spanish Language and Culture (6)

Immersion en la Lengua y Cultura Hispana

Necessary skills to communicate in Spanish using the psychogenerative methodology; knowledge of the Hispanic culture in daily life situations and in its pastoral dimensions. Living experiences and cultural events are an integral part of this course.

409/509 Ministry I (3)

Ministerio I

Overview of the Christian journey with reference to anthropological foundations, vocation, covenant, ecclesiology, and present models for pastoral ministry.

410/510 Ministry II (3)

Ministerio II

Focus on response to ministry in the Hispanic community according to the III National Encuentro and the National Pastoral Plan; special emphasis on development of ministerial skills and practical issues for parish and diocesan ministry.

421/521 Pastoral Planning and Evaluation (3)

Planificacion y Evaluacion Pastoral

Guidelines and skills toward designing and implementing a pastoral plan; emphasis on coordination, delegation of authority, and on-going evaluation in joint pastoral planning.

422/522 Team Work and Team Decision (3)

Nature and development of groups; elements of group dynamics; types of leadership, defense mechanisms, techniques for group decisionmaking.

423/523 Psychological Growth and Faith Development (2)

Desarrollo Psicologico Personal y de la Fe

Structure of personality as a channel of faith; personal wholeness, psychological growth, and the conditioning by family, history, and culture as this affects pastoral action.

424/524 Techniques of Communication (2)

Tecnicas de Comunicacion

Skills in human interaction and language; levels and instruments of interpersonal and intercultural communication, and ways of facilitating or blocking it; concrete application to communication in the family, community of faith, and pastoral work.

426/526 Faith Dynamics (2)

Dinamicas de Fe

Process of faith; stages in faith development; faith experiences in relation to the person, family, and community, fundamental values clarifications; revisions of life; communal prayer.

432/532 Basic Ecclesial Community (2)

Comunidad Ecclesial Basica

Role of the basic ecclesial community in relation to the ecclesiology of Vatican II. Process and development of these small communities and their relationship to apostolic movements; their missionary and ministerial aspects. An active participatory methodology is an essential element of the course.

433/533 Theology of Ministries (3)

Teologia de los Ministerios

Appropriate ecclesiological model according to recent Church documents; its implications for the diversification of ministries toward a Church of participation and communion; theological guidelines for ministry; reasons for the development of new ministries and models for restructuring of ministry.

434/534 Hispanic Catechesis (2)

Catequesis Hispana

Catechesis as the process of Christian growth toward conversion and liberation; the person's existential and cultural situation interpreted in the light of the Gospel; the role of catechesis in promoting and strengthening evangelical values inherent in Hispanic culture; catechetical methodologies.

435/535 Hispanic Youth Ministry (2)

Pastoral Juvenil Hispana

Basic principles and models of youth ministry; elements of group dynamics, leadership development, techniques for planning and evaluation; guidelines for education in faith including two days of spiritual experience of retreat; an active methodology requiring much participation.

436/536 Youth Ministry for Adult Advisors (2)

Pastoral Juvenil para Asesores Adultos

Youth groups and the role of the adult advisor in the various states; interior dynamics of spiritual exercises for youth; study of the process of conversion; essential elements of formation; dynamics to create commitment.

438/538 Hispanic Music and Liturgy (2)

Musica y Liturgia Hispana

Theological reflection on the history, faith, and cultural values of the Cuban people; analysis of Cuban musical forms and rhythms; incorporation of these into creating new community liturgical expressions.

439/539 Religion and Sociology (2)

Religion y Sociologia

Sociological study of religion in the world today; faith and secularism; sociology of change; possibilities of a socio-political option in the light of the Gospel; socio-religious problems arising from cultural pluralism.

440/550 Contemporary Spirituality (2)

Espiritualidad Contemporanea

Contemporary trends in spirituality; ecclesial renewal and its influence in new forms of communal and personal prayer and holiness; Jesus seen as the integrating force in a person's individual and communal conversion.

460/560 Foundations of Theology (3)

Fundamentos de Teologia

This course is a study of the concepts of revelation, faith, grace, dogma, tradition, and the magisterium.

461/561 The Bible: Its Liberating Message (3)

La Biblia: Su Mensaje Liberador

Revelation of God in the liberating experience of the People of Israel (Old Testament), in the experience of the historical Jesus and the Risen Christ, expressed in the primitive Christian community (New Testament), and developed in the ecclesial community. Interpretation of this experience within the framework of human existence.

462/562 Jesus Liberator and His Community of Faith (3)

Jesus Liberador y Su Comunidad de Fe

Study of the person of Jesus and his faith community to discover the concrete implications of the following of Jesus today, including an analysis of the lived experience of faith of the Cuban people.

463/563 The Sacraments and Liturgical Creativity (3)

Los Sacramentos y la Creatividad Liturgica

Sacramental theology and its liturgical implications; special emphasis on liturgical creativity of the sacraments of initiation within the present norms of the church.

464/564 History of the Church in USA (3)

Historia de la Iglesia en Estados Unidos

Roman Catholicism in the USA from its Hispanic roots and indigenous reception; development of evangelization in the southeast; Puritan and non-Catholic traditions influencing its Anglo-Saxon roots; development of Hispanic Consciousness and ministry within a growing cultural pluralism in the Church.

465/565 Anthropology and Spirituality of the Hispanic People (3)

Antropologia y Religiosidad Popular del Pueblo Hispano

Anthropological study of the human response to the Word of God within the cultural framework: characteristics and peculiarities of the Hispanic people in their history, their socio-economic and religious experiences within the dominant culture; their faith response in traditions, customs and religious symbols.

466/566 Pastoral Principles for Hispanic Ministry (3)

Principios de Pastoral Hispana

Contemporary problems and methodologies of pastoral theology, and its application in the religious and sociological context of the local Hispanic situation.

467/567 Ethical Principles and Social Doctrine (3)

Principios Morales y Sociales de la Iglesia

Concept of the person from a moral theological viewpoint; relationship of law and love in the light of the Gospel; basic sources of morality; fundamental documents of the Church's social doctrine before and since Vatican II, including Latin American Church documents.

487/587 Seminar (1-3) (1-3)

Seminario

Selected topics as determined by special needs and/or interests of students in collaboration with faculty member and approval of the Director.

570 Directed Research (6)

HEALTH CARE MINISTRY PROGRAM (M.A.)

The program in Health Care Ministry is a new specialization under the Master of Arts in Theology. The graduate program in Health Care Ministry will meet the needs of those individuals who are employed as Health Care Ministers or who are interested in this ministry. The program is designed to offer both conceptual and practical skills to meet the demands of such a ministry. Such a program continues the University's commitment to the health care professions as already witnessed in the Academic Health Science Center, the School of Podiatric Medicine, the School of Nursing, and the Health Care Ethics program in Theology and Philosophy. The mission of the University to serve those in need according to the Judeo-Christian tradition can find special fulfillment in responding to the spiritual and pastoral needs of those in the health care profession and those who are in need of health care.

OBJECTIVES

1. To respond to the growing spiritual and pastoral needs of the older population in South Florida and the increasing number of patients in health care facilities.
2. To educate interested students in both theology and pastoral care.
3. To provide on-site experience through co-operation with existing health care facilities.
4. To offer service to members of the health care profession by giving guidance in dealing with patients in a pastoral manner.
5. To continue the mission of the University by providing spiritual and pastoral care to the local community.

PROGRAM CURRICULUM

The total program consists of 42 credits. Eighteen of them belong to the core curriculum. The other 24 credits belong to the specialization in Health Care Ministry. Nine of these credits are in the field of Theology: Theology of Health Care Ministry, Psychological and Spiritual Perspectives in Human Suffering, and Health Care Ethics. Three are taken from human sciences, either Psychology or Sociology. The remaining 12 credits are in Supervised Ministry.

CORE CURRICULUM

The core curriculum consists of six courses: One course in Old Testament studies, one course in New Testament Studies, Ecclesiology, Sacramental Theology, Christology, and Principles of Moral Theology. At the discretion of the program director, individual arrangements can be made to substitute other courses in Theology for one or two of these courses when a student belongs to a different religious denomination, or when specific courses are not available.

SPECIALIZATION IN HEALTH CARE MINISTRY

The specialization in Health Care Ministry consists of three parts:

- A. Theological understanding:
Theology of Health Care Ministry and the Meaning of Human Suffering
Health Care Ethics
- B. Psychological understanding:
Psychological and Spiritual Perspectives in Human Suffering
A course in Psychology or Sociology according to the student's need
- C. Field experience:
Supervised Ministry I, II, III, IV.

FIELD EXPERIENCE

The field experience is part of the chaplaincy training and provides the opportunity for direct contact with patients and staff in a hospital setting. First-hand working experience with staff, patients and families, as well as opportunities to deal with personal reactions to grief, death and depression constitute an integral part of this experience.

The field experience is conducted at the university, except for the patient visitation which is done at local health care facilities. At such facilities, a preceptor will supervise the student in his/her patient visitation. The preceptor will work closely with the director of the program.

The specialization in Health Care Ministry is conducted in accordance with the standards of the National Association of Catholic Chaplains. Application for accreditation with NACC is being processed. Once accreditation has been granted, the completion of this specialization leads to eligibility for certification as chaplain.

A student can enter the program at the beginning of any semester. It is necessary, however, to take an academic course within the specialization together with or prior to starting supervised ministry. The combination of one academic course with one supervised ministry course is necessary to fulfill the requirements of one CPE unit. Too-large intervals between courses is strongly discouraged.

REQUIREMENTS FOR GRADUATION

For completion of a degree in Health Care Ministry, the student must (1) have successfully completed 42 credit hours, (2) present a satisfactory research paper according to an acceptable style sheet, and (3) pass an oral comprehensive. The M.A. in Theology may be granted when a student has successfully completed all the academic theological requirements without having completed all supervised ministry requirements.

COMPREHENSIVE EXAMINATIONS

Students at the end of their studies and field experience will write a paper on the meaning of philosophy and theological basis of Health Care Ministry. For the Master of Arts this paper will be approximately 20 pages in length and will show the place of this ministry in the particular religious tradition of the student. Each candidate will also participate in an oral examination based on the paper emphasizing the theological issues expressed. The Chair will appoint two members of the Department to administer this examination.

Students receiving a Barry University Certificate will write a paper of approximately 15 pages dealing with the meaning and theology of Health Care Ministry.

CERTIFICATION PROGRAM

Persons who do not intend to obtain a Masters degree in Theology-Health Care Ministry but want to acquire its professional training may enroll in the program as special students. They may take the specialization courses only. Upon successful completion of the specialization requirements, they will be given a Barry University Certificate in Health Care Ministry. The completion of the specialization will make the student eligible for certification as chaplain. Persons who are already in chaplaincy or in parish ministry and want to hone their ministerial abilities can register for any of the specialization courses in consultation with the program director.

Course Descriptions — Theology Prefix: THE

501 Supervised Ministry I (3)

An experience in "hands-on" ministry through patient visitation, verbatim, interpersonal group sessions, individual conferences, etc. to develop a deeper insight into ministry and a greater ability to minister to people.

502 Supervised Ministry II (3)

503 Supervised Ministry III (3)

504 Supervised Ministry IV (3)

670 Health Care Ministry (3)

Theology of Health Care Ministry and the theological meaning of human suffering.

673 Health Care Ethics (3)

A study of the theological meaning of human life as a basis for health care ethics. Analysis of ethical methods in health care. Applications to topics including life and death issues, prolongation of life, experimentation, genetics, reproduction and others.

INTERDISCIPLINARY MAJORS

INTERNATIONAL STUDIES (B.A.)

International Studies is an interdisciplinary major for students interested in global political, social, cultural, and economic affairs. The major has social science, business, and cultural components. The first of these entails the study of international relations, comparative government, and history. The second component provides basic business skills and an understanding of international business forces. The final component is aimed at greater understanding of other societies and cultures.

The minimum grade of C is required in all major courses. Students should choose a regional track (e.g. Latin America) within the major. The advisor's approval is needed when choosing an elective within the major.

The social science component will include HIS 102 and 9 credits of HIS electives; POS 100 and 325, and 9 credits of POS electives.

The business component will include BUS 181; ECO 201-202; 6 credits of ECO 300, 351, 406, or 426; BUS 366; MGT 305; and MGT 336.

The cultural component will include THE 103; ANT 243; 3 credits of PHI 122, 123, or 302; 12 credits of a foreign language; and 6 credits of culture-focused humanities.

The remaining distribution requirements will include ENG 111-112; MAT 108, 152; PHI 120; SPE 101 or COM 104; and a 3-credit elective in fine arts and in science.

In their remaining coursework (18 credits), students are encouraged to take CAT 110, 120, 130 (3 credits) and to strengthen a component of the major.

The integrative experience will consist of one of the following: a senior thesis, internship, or study abroad; or POS 487.

LIBERAL STUDIES (B.A.)

The Liberal Studies major is offered to students with career goals that require greater flexibility in a course of study than that provided by traditional majors and that require concentrated study in more than one discipline.

The course of study must be justified by a high level of coherence demonstrated in a plan and rationale that the student will submit to the program advisor. The student and the advisor will discuss the plan, its rationale, and its goals, and, in consultations with faculty in the primary and secondary disci-

plines, will determine the courses to be taken as well as a final integrative project appropriate to the student's plan.

All courses taken in the area of concentration as well as in the secondary areas must be courses above and beyond those taken to fulfill distribution requirements.

The minimum grade of C is required in all courses in the area of concentration and in the secondary areas.

The course of study will consist of one area of concentration (21-30 cr.) chosen from among the disciplines in the liberal arts (Art, Chemistry, English, French, History, Mathematics, Music, Philosophy, Political Science, Psychology, Sociology, Spanish, Theater, and Theology); and at least two secondary areas (12-18 cr. each) chosen from among the disciplines above and from Journalism, Physics, and Speech, as well as from offerings in Business, Computer Science, and Biological Sciences; Communication, Sport Sciences, and Criminal Justice. Students are required to take the senior seminar (LIB 487) during their senior year. A minimum of 24 credits will be at upper-division level.

Course Description — Prefix: LIB

487 Senior Seminar (3)

This course will introduce the student to critical approaches to the question of the educated person in general and in America in particular. Special emphasis will be placed on contemporary issues in higher education policy from the standpoint of the liberal arts.

PRE-LAW (B.A.)

Pre-Law is an interdisciplinary major representing a variety of disciplines. Although the Pre-Law major does not rule out pre-law preparation through the pursuit of traditional single discipline majors, it offers preparation for entry into any law school. The Pre-Law major specifically aims for breadth of knowledge and considers its interdisciplinary components an excellent preparation for students to perform successfully in law school.

The Pre-Law major consists of a 96-credit interdisciplinary program (45 credits in the distribution and 51 credits in the major). The remainder of the program is comprised of 24 credits in elective courses.

Students will include the following courses as part of the 45-credit distribution requirements in the following areas:

Oral and Written Communication — ENG 111, 112; SPE or COM elective

Theology and Philosophy — PHI 120, 292; THE elective

Humanities and Arts — 9 elective credit hours

Mathematics and Science — MAT 152; 6 elective credit hours

Social Sciences — HIS 101, POS 100, PSY 281

Students will include the following courses as part of the 51-credit major requirements in the five indicated component areas:

Philosophy (12 credit hours) — PHI 304, 308, 355, 365

Political Science (12 credit hours) — POS 201, 307, 308, 425

History (12 credit hours) — HIS 102, 201, 202, 431

Business (12 credit hours) — BUS 181, 339; ECO 201, 202

English (minimum 3 credit hours) — ENG 406

The balance of 24 credit hours completing the 120-credit-hours course of study is to be chosen from electives to strengthen each component of the major with ENG 207, 312, 410 recommended as needed and with SOC 370 especially recommended.

The minimum grade of C is required in all courses in the major. Students must complete an integrative experience which can consist of an approved internship in a Social Sciences discipline and/or an appropriate examination which may be the LSAT (Law School Admission Test).

MASTER OF ARTS IN UNIVERSITY STUDIES

The M.A. in University Studies is an interdisciplinary program for those students who seek personal development and professional enrichment, but who do not seek a degree in a specific discipline. The degree is flexible in its design and thereby responds to diverse student interests and needs. Students are required to select two or three areas of study that will serve to enhance their personal and professional goals. The Orientation and Methods Seminar assists students in selecting areas of study and providing a rationale for their program of study. The Integrative Project and Report allows the student to relate the theoretical and the practical while integrating the selected areas of study.

DEGREE REQUIREMENTS

- 1) Completion of 36 graduate credits.
- 2) Completion of the Orientation and Methods Seminar (3 credits).
- 3) Completion of 3 clusters (2 clusters of 9 credits each and one cluster of 12 credits) or completion of 2 clusters of 15 credits each. Clusters may be selected from any discipline offering courses at the graduate level. Students should include a professional area and a liberal arts area. Options in each discipline are determined and/or limited by prerequisites as specified by the participating graduate programs.
- 4) Completion of the Integrative Project and Report (3 credits). This project may be a didactic, library-oriented endeavor or a more practical experientially oriented project. In either case, the results of the project must be presented in a written report.

ADMISSION REQUIREMENTS AND POLICIES

- See also School of Arts and Sciences requirements.
- A minimum score of 40 on the Miller Analogies Test or 1000 on the Graduate Record Examination.
- Suitable academic preparation in selected areas of concentration.

Course Descriptions — University Studies Prefix: UST

601 Orientation and Methods (3)

The course will assist in developing a rationale for course selection; it will include an introduction to research and bibliography; it will provide a format for development of a prospectus for the Integrative Project and Report; it will explore methods of critical analysis and concepts of integrative learning.

699 Integrative Project and Report (3)

Development of a project according to an approved prospectus. The project must integrate theories and principles for disciplines in each cluster.

729 Continuous Registration (1)

This is a continuous registration for departments/schools offering graduate programs.

INTERDISCIPLINARY NON-DEGREE PROGRAMS

HONORS (See Description of Honors Program)

Course Description: Prefix: HON

101-102 Freshman Honors Seminar (3) (3)

An interdisciplinary seminars open only to Honors students. Contents will be determined by the interest and expertise of the faculty members and the specific needs and/or interests of the Honors students. The course sequence will fulfill an Honors Program requirement.

HUMANITIES

The Humanities offerings consist of a sequence of interdisciplinary courses using literature as “the hub of a wheel” that explores fundamental questions of the human condition. Literature has been described as a “logical” focus for the integration of knowledge because of its ability to extend outside itself to forms of human experience beyond disciplinary boundaries. In this regard, it satisfies the search for “the connectedness of things” (Mark Van Doren).

“Literary interrelations” afford the opportunity to explore human concerns as the literary expressions of those concerns reflect or are refracted by other modes of thought and methods of inquiry: psychological, historical, gender, religious, legal, musical, and possibly others.

Course Descriptions — Humanities Prefix: HUM

Under HUM 300, Special Topics, the courses listed below will be offered. Students may take HUM 300 as many times as they wish as long as the course content is different.

Women in/and Literature (3)

Depiction of the reality experienced or perceived by women and the portrayal of women in world literature (stereotypes, traditional roles, role conflict, relationships, cultural differences, etc.)

Psychological Dimensions of Literature (Lit. & Psychology) (3)

The relationship between literature and psychology with particular emphasis on the influence of psychoanalysis in critical interest in authorial unconscious intention, literary interest in motivation of character and the interior life, abnormal behavior, and societal definition of “normalcy.” The influence of psychology on literary style and genres: dream, stream of consciousness, symbolism, etc.

Historical/Sociological Dimensions of Literature

(Lit. & History/Sociology) (3)

Exploration of literary works that reflect historical or social events (revolutions, wars, Depression years), movements (industrialization, urbanization, democratization), or person-ages. The premise is that a socio-historical perspective enhances an understanding of the literature as well as of the individual period of culture.

Anthropological Dimensions of Literature (Lit. & Anthropology) (3)

Literary works which depict through cross-cultural perspectives social structures found in various societies: kinship and marriage systems; gender; myth; legend; ethnicity; ritual; rites of passage; witchcraft; religion; symbolic classifications; structuralism; legal, political, and economic structures, etc.

Commercial Dimensions of Literature (Lit. & Business) (3)

Literary works which depict financial, economic, and business practices and practitioners. Discussion of concepts of ethics, the middle class work ethic, power, the "American Dream," social responsibility, American affluence and consumption, relationship between labor and management, effects of technology and government regulation, and quality of work life.

Literature and Film (3)

Exploration of the translation of literary classics from print to film medium. Consideration given to editing, directorial interpretation, camera work, music, set design, and visual symbols.

Musical Dimensions of Literature (Lit. & Music) (3)

The attempt to "cross over" between the two disciplines, particularly in the musical expression of literary themes. Consideration also to musical aspects of literature. Various musical forms will be considered including opera, ballet, musicals, folk music, and symphonic music.

Religious Dimensions of Literature (Lit. & Religion) (3)

Examination of literature written to confirm or challenge belief. Literature that developed out of religious traditions (such as Morality drama) or practices (such as spiritual meditation); that articulates religious conceptions and belief; that challenges orthodoxies; or that reflects socio-historical attitudes to religion. The course may also include a "Bible as Literature" component — the Bible as repository of universal themes and myths as well as of narrative and lyric genres.

Literature and the Law (3)

The law and legal issues (trials, lawyers, investigations, laws) as themes and motifs in works of literature, with emphasis on the relationship between law, interpretation of law and justice, as well as political and historical contexts.

Literature in Translation/Cross-Cultural Approaches to Literature (3)

A comparative approach to literature read in translation enriched by emphasis on differing cultural (i.e., national, group) attitudes, values, ways of life, roles, and historical and socio-economic conditions of life.

Man's Search for Meaning (3)

A selection from the Great Books, both ancient and modern, studied from the perspectives of theology, philosophy, aesthetics, and psychology in order to see what kinds and levels of reality they focus on, what they perceive, and how they value them. Through discussion of the great ideas which emerge and through reflections of different epistemological approaches to reality, students will be encouraged to clarify their own views of reality, to find relationships among them, and to refine their own value systems.

PEACE STUDIES

In the May 1983 pastoral letter, "The Challenge of Peace: God's Promise and Our Response," the American bishops wrote:

We urge universities, particularly Catholic universities in our country to develop programs for rigorous, interdisciplinary research, education and training directed toward peacemaking expertise.

As a response to this mandate, the School of Arts and Sciences offers an interdisciplinary minor in Peace Studies. The minor requires a minimum of 21 credits which must include POS 412 and either PHI 321 or THE 327. The courses should be chosen from those listed below or from relevant special topics courses.

POS	325	International Relations
POS	395	International Organizations
POS	412	Conflict Resolution
PHI	292	Ethics
PHI	321	Philosophy of Peace and War
PHI	355	Philosophy of Politics
THE	120	Christian Understanding of the Human Person
THE	214	Contemporary Christian Morality
THE	327	Theology of Peace and Justice
HIS	404	American Diplomatic History: 1870 to Present

The minimum grade of "C" is required in all courses.

WOMEN'S STUDIES

Women's Studies is an interdisciplinary program that explores the female experience and perspective by integrating biological, historical, literary, religious, political, economic, sociological, psychological, and anthropological perspectives of gender. Cutting across traditional academic boundaries, it coordinates courses in ten different disciplines.

The Women's Studies program provides students with the opportunity to take a minor in Women's Studies, to earn a certificate in Women's Studies, or to take individual courses for elective credit or personal enrichment.

Women's Studies Minor

The minor in Women's Studies requires completion of a minimum of 21 credits (to include WMS 201 and WMS 487) with a minimum grade of C. Transcripts will state "Minor in Women's Studies" upon request.

Certificate in Women's Studies

The certificate program requires a minimum of 18 credits (to include WMS 201 and WMS 487). It is intended to supplement a student's traditional academic major. The program may also appeal to individuals who have already earned a degree and who wish an additional specialization.

**Course Descriptions — Women's Studies Prefix: WMS
or designated academic discipline**

The courses listed below are either regular offerings in their academic departments or Special Topics (300).

BIO Biology of Women (3)

Anatomy and physiology of the human female with exploration of the health problems that occur in females as a consequence of being female.

BUS Women in the Workplace (3)

Examination of issues or problems that have special relevance to female and male workers, managers or professionals: gender-based division of labor, roles, role stereotypes, role conflict, child care, medical plan coverage, maternity/paternity leaves, mentoring, networking, time management, stress, authority, communication, equal pay, discrimination and sexual harassment.

ENG/PSY Women: Literature and Psychology (3)

An examination of selected literary works (fiction, poetry, essay, film, drama) for their expression of women's psychological experiences. Particular emphasis on traditional roles, stereotypes, psychological health (including the learning of roles, theories of personality, psychological treatment, role strain and role conflict), and traditional roles in transition.

HIS 449 Race, Gender, and Class in Latin America (3)

An historical study of the colonial legacy in Latin America and its implications in the national period of the society of castes which reflected racial, gender, and social perspectives.

HUM Women in/and Literature (3)

Examination of stereotypes, themes, and depiction of women in works of literature (fiction, poetry, essay, drama, and film) with particular emphasis on the development of feminist criticism and female creative expression.

PSY/POS Politics of Gender (3)

Examination of gender in politics as well as the law, with emphasis on the second wave of feminism and the role of women in politics. Special attention is devoted to violence directed towards women, psychological precursors and ramifications of violence, and current therapeutic approaches.

PSY 306 Psychology of Women (3)

Study of the various issues affecting the changing role of women in today's society; consideration given to psychological and social factors as they relate to contemporary feminine behavior.

SOC 405 Sociology of Race, Class and Gender (3)

A comprehensive examination of race, class and gender as central categories of social experience. Various sociological approaches are integrated to analyze how these differences in identities and accompanying inequalities are constructed within social institutions and processes. Pre-requisite: SOC 201 and 3 additional SOC hours or permission of instructor.

SPA Women in Hispanic Literature (3)

Survey of the works written by the most outstanding women of the Hispanic world. Analysis of readings from aesthetic and ideological points of view.

THE 360 Women and Justice in the Church (3)

An investigation of the anthropological, philosophical, and theological development of the roles of women in society and the Church; women, men and personhood; the experience of women in the Gospels and in the life of the early and contemporary Church; goals for a just society and Church.

WMS 201 Introduction to Women's Studies (3)

Survey of the issues, topics, and theories relevant to Women's Studies. The interdisciplinary nature of the subject is emphasized by an overview of women's lives and contributions as studied in various academic disciplines. Special attention is paid to how women's experiences have been affected by biology, age, race, class, ethnicity, religion, education and culture differences.

WMS 487 Senior Integrative Seminar (3)

Group seminar, requiring a research paper or other integrating experience. Faculty- and student-led discussions provide a forum for integrating course material, exploring new topics, and clarifying issues.

D. INEZ ANDREAS SCHOOL OF BUSINESS

Lloyd D. Elgart, J.D., D.B.A., Dean
Lewis W. Lash, D.B.A., Associate Dean
for Undergraduate Programs
Ron Lennon, Ph.D., Associate Dean
for Graduate Programs

Faculty: Axe, Broihahn, Clotey, Daghestani, Danese, Duchatelet, Gallagher, Gochenouer, Hervitz, Kalphat, Mansourian, Morrell, Nicholas, Nickerson, Paul, Priddle, Rocourt, Salvaneschi, Scarborough, Schumacker, Ser, Zarzeski.

MISSION

The Andreas School of Business is charged with implementing the mission of Barry University within the domain of business. To that end, the first and foremost part of our mission is to work for the success of our diverse student body by providing modern, effective educational programs with a global perspective designed to develop professional careers and leadership, utilizing an outstanding and accessible faculty within a caring and ethical environment.

The second part of our mission is to serve the South Florida business community, which extends to the Caribbean and Latin America in particular and to the world in general, by providing graduates with the requisite knowledge, skills, values and attitudes to become effective business leaders in multicultural environments, by being responsive to community needs for special business educational services, and by promoting free enterprise and an important means for improving the quality of life.

UNDERGRADUATE PROGRAMS (LEADING TO THE BACHELOR OF SCIENCE DEGREE)

CLASS ATTENDANCE POLICY

Students demonstrate their responsibility in the regularity and punctuality of their attendance at class sessions and other School functions. There are no "free" cuts, but absences due to illness or other reasonable causes generally entitle the student to make up missed work. If the number of such absences exceeds three in a three-credit course meeting three times weekly, or two in a three-credit course meeting twice weekly, the professor should reduce the student's earned grade by one letter. If such absences exceed seven in a course meeting three times a week, or, five times in a course meeting twice a week, the student should be issued a grade of "F" in the course.

Absences above three for exceptional reasons may be excused by the instructor only upon presentation of a letter from a physician or other acceptable documentation. As part of this policy, three tardies constitute one absence in a course meeting three times a week, and two tardies constitute one absence in a course meeting twice a week.

Requirements for Graduation

- (1) Completion of graduation requirements for undergraduates as listed under Academic Information in this catalog.
- (2) Completion of the core business curriculum and the required courses for one of the School of Business areas of specialization with a grade of C or better in each course. Students in the School of Business do not select a minor since they complete an area of specialization.

Degree Requirements:

Corequisites (12 semester hours)

- * CAT 110 Word Processing (1)
- * CAT 120 Spreadsheets (1)
- * CAT 130 Applications to Database (1)
- ** MAT 108 Precalculus Mathematics for Business (3)
- ** MAT 152 Elementary Probability and Statistics (3)
- MIS 215 Administrative Applications of Computers (3)

* Students may obtain a waiver or test out of any or all of these course if they can demonstrate sufficient knowledge of the applicable software.

** These courses are used to partially fulfill the Natural Science and Mathematics distribution requirement.

Business Core (42 semester hours)

- ACC 201 Principles of Accounting I (3)
- ACC 202 Principles of Accounting II (3)
- ECO 201 Introductory Macroeconomics (3)
- ECO 202 Introductory Microeconomics (3)
- MGT 211 Management Science (3)
- MGT 305 Organizational Behavior and Management (3)
- MKT 306 Marketing Concepts and Applications (3)
- BUS 339 Business Law I (3)
- BUS 371 Social and Ethical Issues in Business (3)
- FIN 319 Financial Management I (3)
- BUS 366 International Business (3)
- BUS 498 Strategic Management (3)
- Two three-hour electives (6)

MAJOR FIELDS

1. Accounting:

- ACC 335 Intermediate Accounting I (3)
- ACC 336 Intermediate Accounting II (3)
- ACC 337 Intermediate Accounting III (3)
- ACC 360 Cost Accounting (3)

ACC	362 Federal Income Tax	(3)
ACC/MIS	400 Accounting/Management Information Systems	(3)
ACC	435 Advanced Accounting	(3)
ACC	437 Auditing	(3)
Total Hours:		24

2. Economics/Finance:

a. Six required courses:

ECO	301 Intermediate Macroeconomics	(3)
ECO	302 Intermediate Microeconomics	(3)
ECO	426 International Economics	(3)
ECO	441 Econometrics	(3)
FIN	427 International Finance	(3)
FIN	452 Global Investments	(3)

b. Two elective courses selected from among the following:

ECO	300 Special Topics in Economics	
ECO	351 Comparative Economics	
ECO	406 Political Economy of Development	
FIN	300 Special Topics in Finance	
FIN	316 Money and Banking	
FIN	419 Financial Management II	
Total Hours:		24

3. International Business:

ECO	426 International Economics	(3)
FIN	427 International Finance	(3)
MKT	466 International Marketing	(3)
MGT	336 Cross-Cultural Management	(3)
BUS	443 Internship I	(3)
BUS	443 Internship II	(3)
	One three-hour elective	(3)
Total Hours:		21

4. Management:

MGT	325 Operations Management	(3)
MGT	352 Human Resources Management	(3)
MGT	409 Organizational Communication	(3)
MGT	427 Managerial Decision Making	(3)
MGT	428 Entrepreneurship	(3)
MIS	400 Management Information Systems	(3)
Total Hours:		18

5. Marketing:

MKT	381 Marketing Research	(3)
MKT	385 Consumer Behavior	(3)
MKT	386 Promotion	(3)
MKT	402 Marketing Management Problems	(3)
MKT	403 Channels of Distribution	(3)
MKT	466 International Marketing	(3)
Total Hours:		18

6. Management Information Systems:

MIS	201	Introduction to Computer Programming	(3)
MIS	202	Intermediate Computer Programming	(3)
MIS	311	Data Processing and COBOL	(3)
MIS	333	Database Management and Design	(3)
MIS	400	Management Information Systems	(3)
MIS	408	Expert Systems and 4th Generation Languages	(3)
MIS	409	Structured Systems Analysis and Design	(3)
MIS	412	Software Development Project	(3)

Total Hours: 24

Minor in Business (21 credits; approval of Associate Dean)

Corequisites: MAT 152; CAT 110, CAT 120, CAT 130*

BUS	181	Concepts of Business Behavior	(3)
ACC	201	Principles of Accounting I	(3)
ECO	201	Introductory Macroeconomics	(3)
MGT	305	Organizational Behavior and Management	(3)
MKT	306	Marketing Concepts and Applications	(3)
		Choice of two business electives approved by the Associate Dean.	(6)

* Students may obtain a waiver or test out of any or all of these CAT courses if they can demonstrate sufficient knowledge of the applicable software.

Minor in Economics (21 credits; approval of Associate Dean)

ECO	201	Introductory Macroeconomics	(3)
ECO	202	Introductory Microeconomics	(3)

Plus any five courses selected from those listed below and approved by the Associate Dean:

BUS	366	International Business	(3)
ECO	300	Special Topics in Economics	(3)
ECO	301	Intermediate Macroeconomics	(3)
ECO	302	Intermediate Microeconomics	(3)
ECO	351	Comparative Economic Systems	(3)
ECO	406	Political Economy of Development	(3)
ECO	426	International Economics	(3)
ECO	441	Econometrics	(3)
FIN	316	Money and Banking	(3)
FIN	319	Financial Management I	(3)
FIN	427	International Finance	(3)
FIN	454	Global Investments	(3)

Minor in Computer Science (12 credits)*

CS	312	Computer Software Organizations	(3)
CS	331	Data Structures and Algorithms	(3)
CS	413	Operating Systems	(3)
CS	471	Computer Networks	(3)

* This minor is only available to students completing a concentration in Management Information Systems in the School of Business.

Internship (3) — 443

Business majors may elect an Internship as an elective credit. A contractual agreement between the student and the School of Business is essential before beginning the internship. A letter of evaluation from the employer/cooperative agency and a portfolio of performance must be submitted to the Associate Dean and applicable faculty member. Prerequisites: 3.0 GPA, Junior/Senior status, recommendation of the appropriate faculty member, and approval of the Associate Dean. CR/NC option only. Prefix of the course will be that of the individual major. All employment-related internships will be coordinated through the Student Development Center.

Course Descriptions — Accounting Prefix: ACC

201 Principles of Accounting I (3)

Nature and function of accounting and its importance in the social order. The accounting cycle, the measurement of income and valuation problems, reporting of financial position and results of operations for sole proprietorships. (Fall, Spring, Summer)

202 Principles of Accounting II (3)

Partnership and corporate accounting; debt and equity financing; cost accounting principles; budgeting and management decision-making. Prerequisite: ACC 201. (Fall, Spring, Summer)

335 Intermediate Accounting I (3)

The accounting process, the framework of accounting theory, and content and analysis of financial statements with emphasis on current assets and current liabilities. Prerequisite: ACC 202. (Fall)

336 Intermediate Accounting II (3)

Income determination and valuation problems in long-term assets and long-term liabilities; stockholders' equity; special accounting topics of pensions and investments. Prerequisite: ACC 335. (Spring)

337 Intermediate Accounting III (3)

Special topics of accounting changes, error correction, earnings per share, income tax accounting and leases; cash flow statement; equity accounting for partnerships; interim and segment reporting. Prerequisite: ACC 336. (Fall)

360 Cost Accounting (3)

Principles of cost accounting for both manufacturing and service industries. Topics include income statement measurement and analysis, break-even, job-order and process costing systems, overhead allocation and analysis, operational and capital budgeting variance analysis, scrap and managerial decision-making. Prerequisite: ACC 202. (Spring)

362 Federal Income Tax (3)

A review of the Internal Revenue Code and the regulations from an accounting/law perspective. Topics include determinations of income, deductions, exemptions and credits. This course emphasizes individual taxation and sole proprietorships. Prerequisite: ACC 202. (Fall)

400 Accounting Information Systems (3)

Analysis, design, and implementation of manual and computer-based accounting systems; organization, operations and controls; preparation of flowcharts, documentation analyses, and systems modifications; internal control in computer-based accounting systems. Prerequisite: ACC 335. (Fall)

435 Advanced Accounting (3)

Accounting for mergers and acquisitions, consolidations, consolidated financial statements and foreign operations. Prerequisites: ACC 337, Senior status. (Spring)

437 Auditing (3)

Basic auditing standards and procedures as applied to both internal and public auditing, professional ethics, audit programs, working papers, legal responsibility, auditing computerized systems, completing the audit and reports. Prerequisite: ACC 337, Senior status. (Spring)

Course Descriptions — Business Prefix: BUS

181 Concepts of Business Behavior (3)

For freshmen non-business majors. Principles and mechanics of business behavior, covering issues in the business-society relationship, including past history, world events, economics issues, and future expectations. (Fall, Spring)

300 Special Topics in Business

This course, offered on a periodic basis, will include subjects which may satisfy the elective credits in the Business Core and/or be of special interest due to the timeliness of the subject matter.

339 Business Law I (3)

Designed to afford the student a background of basic legal principles, concepts and the nature of the judicial process. The first part of the course is devoted to the legal environment of business, including common, statutory and administrative law, federal and state court structure, theories of law, court procedure, conflicts of law and judicial forms of dispute resolution. This is followed by a detailed study of contracts including basic elements, interpretation, remedies for breach, assignment and discharge. The course concludes with agency and employment. (Fall, Summer)

340 Business Law II (3)

An extension of Business Law I (339) with emphasis on personal property, real property, leases, bailments, bankruptcy, insurance, single proprietorships, partnerships, corporations, and selected portions of the Uniform Commercial Code. This course should be selected as an elective by those students who are planning to take the C.P.A. exam. (Spring, Summer)

366 International Business (3)

Overview of the unique problems faced by firms engaging in international activities; the importance of understanding the foreign economic, social, political, cultural, and legal environment; the mechanics of importing and exporting; joint ventures, franchising, and subsidiaries; international dimensions of management, marketing and accounting; international financial management; the special problems of multi-national corporations; recent problems of the international economic system; country-risk analysis; the increasing use of countertrade. Prerequisites: ECO 201, ECO 202. (Fall, Spring)

371 Social and Ethical Issues in Business (3)

This course is designed to create an awareness of and a sensitivity to social and ethical issues which can, and should, influence the management of business enterprises by entering into the decision-making processes of today's business managers. Focus is on the legal, social and ethical implications of problems in contemporary business issues such as employer-employee relationships, consumerism (advertising and product safety), environmental conservation, etc. Numerous cases are studied to illustrate the complexities of these issues at the society/business interfaces. (Spring)

359, 459 Independent Study (3)

Opportunity for research in areas of special interest. Prerequisite: recommendation by faculty member and approval of the Associate Dean. Junior/senior status only.

498 Strategic Management (3)

A capstone course which integrates the various business disciplines. Using a senior management perspective, the student addresses strategy formulation and implementation in a volatile business environment. The case method of instruction is actively used. Prerequisite: Senior standing. (Fall, Spring)

Course Descriptions — Economics Prefix: ECO

201 Introductory Macroeconomics (3)

Introduction to the foundations of economic analysis with concentration on macroeconomic structure and models as they relate to the global economy with an emphasis on the U.S. Course focuses on fundamentals of demand and supply analysis; salient facts about the economy's performance; measures of economic activity such as GDP, employment and inflation; determinants of trends in economic growth and business cycle fluctuations; fiscal, monetary and international trade policies and their effect on domestic and foreign business cycles and growth. (Fall, Spring, Summer)

202 Introductory Microeconomics (3)

Economic analysis of consumer and producer behavior and decision making with a concentration on how economic agents voluntarily interact in markets for various goods and services. Topics include advanced demand/supply analysis emphasizing allocational efficiency, opportunity cost and elasticity; the theory of consumer utility maximization; short- and long-term cost and production decisions in the theory of the firm; price, output and profit maximization under differing market structures including competitive, monopolistic and hybrid alternatives; the pricing of input resources including labor and capital along with income distribution implications; market failure and the consequences of government regulation; and an introduction to international finance and the balance of payments. Prerequisite: ECO 201. (Fall, Spring, Summer)

300 Special Topics in Economics (3)

Each semester this course will focus on a different selected topic of particular relevance to the national and global economy. These might include, for example, "The Economics of Discrimination," "Industrial Organization and Antitrust Regulation", "The Economics of Environmental Issues", "The Economics of European Integration", or "Economics Policies and Problems in Latin America". Prerequisites: ECO 201, ECO 202. (Spring, Summer)

301 Intermediate Macroeconomics (3)

This course deals with the formulation of macroeconomic theories and their application of the analysis of the current problems affecting the U.S. and the world economy. Key topics include Keynesian and monetarist models, supply side economics, rational expectations, open-economy monetary models, the budget deficit, inflation, and unemployment. Prerequisites: ECO 201, ECO 202. (Fall)

302 Intermediate Microeconomics (3)

This course deals with the formulation of microeconomic theories and their application to the analysis of day-to-day economic problems of the firm. Key topics include models of monopolies, oligopolies, and pure competition, utility functions and isoquants, empirical estimation of production, cost and demand functions, elasticities, pricing decisions, and valuation of fringe benefits. Prerequisites: ECO 201, ECO 202. (Spring)

351 Comparative Economic Systems (3)

Detailed analysis of the world's major economic systems in both industrialized and developing countries; the universality of scarcity and the main economic questions; the importance of natural, human, and man-made resources; variants of market economies; the transformation of socialist economies; the role of government in owning, managing, and distributing resources; developing countries and the way out of poverty; attitudes towards foreign trade, credit, and banking; agricultural and industrial policies; the role of economic planning. Prerequisites: ECO 201, ECO 202. (Fall)

406 Political Economy of Development (3)

Analysis of the process of political and economic development. Topics include modernization, industrialization, the new international economic order, the role of the state and military and ethical issues of development. Prerequisites: ECO 201, ECO 202 and departmental approval. Same as POS 406. (Spring)

426 International Economics (3)

This course deals with the theory of international trade, commercial policy, balance of payments, and international monetary issues. Key topics include the theory of comparative advantage, exchange rate determination, different forms of protectionism, open-economy fiscal and monetary policies, and the analysis of common markets and free-trade areas. Prerequisites: ECO 201, ECO 202, BUS 366. (Spring, Fall)

441 Econometrics (3)

This course deals with the application of statistical methods to the quantitative estimation of economic models. Key topics include simple regression, multiple regression, parameter estimation with deficient data and in the presence of statistical anomalies—such as heteroskedasticity and autoregressive disturbances, generalized linear regression, and simultaneous equation systems. Substantial emphasis is given to business applications of econometric methods utilizing state-of-the-art econometric software programs. Prerequisites: MAT 108, MAT 152, MGT 211, MIS 215, ECO 201, ECO 202, ECO 301, ECO 302. (Fall)

Course Descriptions — Finance Prefix: FIN

300 Special Topics in Finance (3)

Each semester this course will focus on a different selected topic of specialization in the area of finance. These might include, for example, "Real Estate Finance", "Mergers and Acquisitions", "Bankruptcy and Receivership". Prerequisites: ECO 201, ECO 202.

316 Money and Banking (3)

An examination of the nature and functions of money, financial institutions within the larger economic system, and central banks. Course emphasizes the role of financial instruments, financial markets and financial institutions as well as the functioning of the Federal Reserve System by examining monetary policy and its roots in macroeconomic and monetary theory. Special focus is on structure and evolution of the banking industry, depository institutions, and regulation of financial intermediaries within the context of the global financial system and international monetary system. Prerequisites: ECO 201, ECO 202. (Spring)

319 Financial Management I (3)

Financial techniques and analysis for business decision making, which build upon the prerequisites of economics, accounting and statistical methods. The major tools include cash flow, financial statement structure and analysis, the time value of money, and risk. Specific topics studied with these tools include working capital management, asset investment and capital budgeting, corporate financial structure and the choice of debt vs. equity financing, financial market valuations, and the financial implications of business strategic decisions. Prerequisites: ACC 201, MGT 211, junior/senior status. (Spring)

419 Financial Management II (3)

This course is a continuation of FIN 319 covering more advanced issues such as options, futures, pensions, leasing mergers, acquisitions, and bankruptcies. Prerequisite: FIN 319. (Spring)

427 International Finance (3)

This course presents an overview of the international financial environment and a detailed analysis of tools and techniques for international financial management. Key topics include the functioning of foreign exchange markets and international capital and money markets, international portfolio diversification, multinational capital budgeting, import-export financing, direct foreign investment, and international banking. Prerequisites: ECO 201, ECO 202, FIN 319, BUS 366. (Spring)

452 Global Investments (3)

This course is an introduction to the theories, techniques, and strategies of investment management, with emphasis on the global context of investment decisions. Topics include domestic and foreign securities markets, analysis and valuation of stocks and bonds, fundamental security analysis, efficient markets and technical analysis, hybrid and derivative securities, options and futures, portfolio and capital market theory and applications including diversification strategies with foreign securities. Prerequisites: ECO 201, ECO 202, ACC 201, ACC 202, FIN 319. (Spring)

Course Descriptions — Management Prefix: MGT

211 Management Science (3)

Quantitative modeling techniques including payoff matrices, decision trees, simulation, forecasting, project planning, inventory, waiting lines and linear programming along with applications. Prerequisites: MAT 108, MAT 152, CAT 110/120/130. (Fall, Spring, Summer)

305 Organizational Behavior and Management (3)

Organizational behavior as it relates to the management functions of planning, organizing, leading, and controlling is the focus of this course. Examination is made of the individual's role within the organization, of interpersonal influence and group behavior, and of organizational processes. The course will provide the tools necessary for the development of a personal management philosophy. Prerequisites: ACC 201, ACC 202, ECO 201, ECO 202. (Fall, Spring, Summer)

325 Operations Management (3)

Study of processes used to efficiently and effectively transform resources into goods and services. Process types, capacity planning, inventory systems, workforce utilization and quality management to produce defect-free, competitive products and services delivered on time. Prerequisites: MGT 211, MGT 305. (Spring)

336 Cross-Cultural Management (3)

This course explores the challenges of managing a culturally diverse work force and the complexities of managing in countries with different religions, traditions, and value systems. The course focuses on the ability of managers to lead, motivate, communicate, and negotiate with individuals with different attitudes towards achievement and work, time and change, wealth and success, gender and the family, religion and language. The course places a special emphasis on the cultural characteristics and diversity of people in Latin American and the Caribbean, Europe and the U.S. Prerequisites: MGT 305, BUS 366. (Spring)

352 Human Resources Management (3)

The focus of this survey course is to equip the prospective manager with an understanding of the issues involved in effective management of staff. Topic areas discussed include human resource planning, recruitment, selection, training/development, EEO, performance evaluation, quality of work life and labor-management relations. Prerequisites: ECO 202, MGT 305. (Spring)

409 Organizational Communication (3)

This course is designed to help students refine their ability to communicate—a skill rated as the prime requisite of a promotable executive. Effective communication skills will be developed by sensitizing students to the human considerations of their message. Business research methodologies, report writing, and career preparation are major topics of this course. Prerequisite: MGT 305, Senior status. (Fall)

427 Managerial Decision Making (3)

Application of the basic concepts of computer simulation, decision theory and decision support systems to practical managerial problems. Use of computer packages and games. Prerequisites: MGT 211, MGT 305, MIS 215. (Fall)

428 Entrepreneurship

Study of the creation of new businesses including business organizations, identifying opportunities, preparing a business plan, sources of finance and launching a new business. Prerequisite: MGT 305, MKT 306, FIN 319. (Spring)

Course Descriptions — Marketing Prefix: MKT

306 Marketing Concepts and Applications (3)

Elements of the marketing function in bringing the organization's goods and services from the producers to the consumer. Prerequisites: ACC 202, ECO 202. (Fall, Spring, Summer)

381 Marketing Research (3)

Quantitative and analytical tools and techniques that are used for studying marketing data and formulating marketing strategies and tactics. Prerequisites: MAT 152, MGT 211, MKT 306. (Fall)

385 Consumer Behavior (3)

An analysis of the actions and decision processes of individuals and organizations involved in discovering, evaluating, acquiring, consuming and disposing of products and services. The disciplines of Marketing, Psychology and Sociology will be used to understand how consumer behavior is the basis for management decision making. Prerequisite: MKT 306. (Fall)

386 Promotion (3)

Examines the process of planning, executing, and evaluating promotional programs utilizing personal selling, advertising, and sales promotion techniques to achieve company objectives. Prerequisite: MKT 306. (Spring)

402 Marketing Management Problems (3)

Development of managerial decision-making techniques and problem-solving through practice in analyzing practical marketing cases. Prerequisites: MGT 305, MKT 306, Senior status. (Spring)

403 Channels of Distribution (3)

Identifies wholesaling middlemen, retailing middlemen, and physical distribution institutions useful for the effective distribution of products and the services they perform. Prerequisite: MKT 306. (Fall)

466 International Marketing (3)

Considers the adjustments in marketing strategy needed to remain competitive in a global environment. The impact of changing economic, political, legal, social, and cultural environments on management decision making is examined. Prerequisite: MKT 306. (Spring)

Course Descriptions — Management Information Systems Prefix: MIS

201 Introduction to Computer Programming (3)

This is a course in the fundamentals of digital computer programming. Concepts covered include the evolution of hardware and software, algorithms, data types, control structures, modularization, arrays, records, text file handling, problem analysis and top-down design, using a procedural high order language (HOL). Prerequisites: CAT 110/120/130. (Fall)

202 Intermediate Computer Programming (3)

This course is a continuation of MIS 201. The new concepts introduced include data abstraction, access types, recursion, search and sort techniques, algorithm complexity, introduction to data structures, object oriented programming, packages and generic packages. Ada will be used as the primary instructional language. Prerequisite: MIS 201. (Spring)

215 Administrative Applications of Computers (3)

This course uses a case study approach to develop extensive business applications. These applications will demonstrate advanced techniques with both database and spreadsheet software packages. Prerequisites: CAT 110/120/130. (Fall, Spring, Summer)

311 Data Processing and COBOL (3)

This is an advanced course in programming using COBOL. It is oriented toward data processing applications in business. Concepts include various techniques for organizing and processing files, sequential files, random-access files, indexed and inverted files, file sorting and maintenance and report generation. Several case studies will be analyzed and solutions implemented using COBOL. Prerequisite: MIS 202. (Fall)

333 Database Management and Design (3)

This is a course in the logical aspects of databases and database management systems. The network, hierarchical, relational and semantic models are examined. Concepts include optimization, security, integrity, database design and query languages. A relational database management system that includes SQL and SQL bindings to high order languages (HOL) will be used to develop applications. Prerequisite: MIS 202. (Fall)

400 Management Information Systems (3)

Study of life cycle and prototyping methodologies used to develop, implement and maintain computer-based information systems. Discusses transaction processing, management information and decision-support systems. Includes case studies and team presentations. Prerequisites: CAT 110/120/130, MIS 215. (Fall, Spring)

408 Expert Systems and 4th Generation Languages (3)

This is a course in computerized approaches to decision making using rule base expert systems and 4th generation languages. Concepts include knowledge acquisition, knowledge representation, propositional and predicate calculus, inference, backward and forward chaining, validation, heuristics, business applications, languages and shells. Students will develop applications using expert shells and 4th generation languages. Prerequisite: MIS 333. (Spring)

409 Structured Systems Analysis and Design (3)

This course introduces the student to the basic tools and techniques for analyzing, specifying, designing, implementing, verifying, validating and maintaining large software projects. Prerequisites: MIS 311, MIS 333, MIS 400. (Fall)

412 Software Development Project (3)

This is the capstone MIS course and a continuation of MIS 409. The student will use CASE tools and work in teams to analyze, specify, design, verify, validate and implement a major business application project. The entire lifecycle of the project will be covered. Prerequisite: MIS 409. (Spring)

GRADUATE PROGRAMS

The Andreas School of Business offers four degree programs: (1) The Master of Business Administration (MBA); (2) The Master of Professional Accountancy (MPA); (3) The Executive Master of Business Administration (EMBA); and (4) The Master of Science in Management Information Systems (MS in MIS).

MASTER OF BUSINESS ADMINISTRATION

Business organizations of every size and type, including non-profit institutions and government agencies, require the effective coordination and administration of human and material resources in achieving the objectives of successful operation. The MBA is designed to provide the tools and the breadth and depth of knowledge necessary for responsible performance and leadership in middle and top areas of management and administration.

The functional areas of environmental analysis, planning, policy formulation, decision-making, organization, evaluation/recommendation and control are all encompassed within the framework of the MBA curriculum. The program of studies emphasizes preparation for a general management career and provides a broad and humanistic background.

It should be understood that the MBA offers advanced level course work. Students must be adequately prepared, especially in quantitative and writing skills. Proficiency in the English language must be demonstrated by non-native students.

ADMISSION REQUIREMENTS

Admission to the MBA program requires a bachelor's degree from a regionally accredited college or university and the Graduate Management Admission Test (GMAT).

Generally, admission is granted only to those with a high promise of success in graduate business study. An applicant may show high promise by previous schooling and testing, which results in a *minimum* total of:

950 points based upon the formula:
200 x undergraduate GPA
plus GMAT score,

or

1000 points based upon the formula:
200 x the upper division (junior and senior) undergraduate GPA
plus the GMAT score.

The above formula notwithstanding, the Admissions Committee reserves the right to prescribe a *minimum GMAT score* for applicants.

(The GMAT is a basic aptitude examination and does not require previous knowledge of business subjects. It is offered four times each year in the Greater Miami area. Applications are available from the Educational Testing Service, Princeton, N.J. 08541, or from the Admissions Offices at Barry.)

COMMON BODY OF KNOWLEDGE REQUIREMENTS

In order to earn a Master's Degree, students must acquire a "common body of knowledge" in business administration. This requires an understanding of:

1. The production and marketing of goods and services and the financing of the enterprise.
2. The economic and legal environment, along with the ethical, social, and political influences upon enterprises.
3. Concepts and applications of accounting, quantitative methods, and computer systems management.
4. Organization theory, behavior, and interpersonal communication.
5. Integrating analysis and policy determination under conditions of certainty and uncertainty.

Students must also acquire a breadth of knowledge beyond the common body of knowledge in order to achieve general competence for overall management. In general, the common body and breadth of knowledge may be obtained by completing the prerequisites, required and concentration course work.

At the time of entry, or shortly thereafter, students must also have satisfactorily completed (C grade or better) the following undergraduate courses:

Prerequisite Courses

- 6 credit hours of Introductory Accounting
- 6 credit hours of Macro and Microeconomics or equivalents
- 3 credit hours of Algebra or Pre-Calculus or equivalent
- 3 credit hours of Statistics or equivalent

These courses may be taken at any accredited institution or waived via CLEP testing. They may be taken as survey courses (no graduate credit earned) in the Graduate Curriculum (see MBA 550, 560, 580).

Applicants who are unable to complete all admission requirements of the program prior to the beginning of their first semester may be granted provisional status for one semester (up to six semester hours of MBA and preparatory course work only).

All admission requirements must be satisfied and the provisional status changed to degree seeking status by the beginning of the second semester.

Students who have completed the requirements for the MBA degree and who wish to earn either the MPA or MS in MIS degree through the Andreas School of Business must complete an additional 18 graduate credits above the MBA degree at Barry University.

TRANSFER CREDIT

Acceptance of graduate transfer credits from approved institutions is dependent on the pertinence of the work to the MBA program. The transfer of up to six semester hours of graduate work upon entering the program may be allowed subject to the following restrictions:

1. All transfer credits must be a B (3.0) or better and courses must be directly parallel to required or concentration courses in the MBA program.

2. No graduate credit will be allowed for correspondence or extension work.
3. Students may not transfer credits after they have entered the program.

DEGREE REQUIREMENTS

To qualify for the degree of Master of Business Administration, each candidate must:

1. Be fully accepted into the program.
2. Complete at least 36 semester hours of required and concentration courses with a grade point average of 3.0 or greater and with no grade below C.
3. Meet all general requirements of the University for a Master's degree and complete the program within five years from the date of initial matriculation.

OFF-CAMPUS LOCATIONS

In addition to classes offered at the Miami Shores campus, the Andreas School of Business offers the MBA program in the Treasure Coast area of Florida (Stuart, Florida), as well as MBA coursework in the Kendall area of Miami, Florida.

ACADEMIC PROGRAM

The MBA degree requires 36 semester hours of course work, at least 30 of which must be taken from Barry University. Students may either choose to complete the requirements for the general MBA or choose a concentration from the following areas: Accounting, Finance, Management, Management Information Systems or Marketing.

Students may not take courses with MPA prefix designations toward their MBA degree (except Accounting concentration students).

Preparatory Courses: 9 semester hours — may be waived

- *MBA 550 Math for Graduate Business Studies
 - *MBA 560 Accounting Principles
 - *MBA 580 Economics Principles
- * May *only* be taken on a Credit/No Credit basis (no Graduate credit earned).

Common Body of Knowledge Courses: 27 required semester hours, (except Accounting concentration)

- *MBA 600 Management
- MBA 610 Computers and Executive Applications
- MBA 620 Financial Management
- MBA 640 Marketing Management
- MBA 652 Management Science
- MBA 660 Managerial Accounting
- MBA 680 Managerial Economics
- *MBA 690 Legal Environment
- MBA 699 Management Strategy & Policy

* Suggested entry-level courses.

General MBA:

Students are not required to select a concentration. Those who do not may choose any three concentration courses for which they have met the prerequisites and earn a General MBA.

MBA Concentrations:

Finance — The Common Body of Knowledge courses plus the following 9 required semester hours:

- MBA 622 Investment Analysis
- MBA 624 Financial Markets and Institutions
- MBA 628 Advanced Topics in Financial Management

Management — The Common Body of Knowledge courses plus 9 required semester hours chosen from the following:

- MBA 601 Human Resource Management
- MBA 602 Public Administration
- MBA 603 International Business
- MBA 604 Research Methodology in Management
- MBA 605 Entrepreneurial Management
- MBA 606 Ethical and Social Issues in Management

Marketing — The Common Body of Knowledge courses plus the following 9 required semester hours:

- MBA 643 Buyer Motivation and Behavior
- MBA 644 Marketing Research
- MBA 645 Marketing Strategy

Management Information Systems — The Common Body of Knowledge courses plus 9 required semester hours chosen from the following:

- | | | |
|---------|--|---|
| MIS 620 | Management Information Systems | 3 |
| MIS 630 | Data Communications & Computer Networks | 3 |
| MIS 650 | Database Management Systems | 3 |
| MIS 655 | Computer Systems Administration | 3 |
| MIS 660 | Decision Support Systems | 3 |
| MIS 670 | Fourth Generation Languages | 3 |
| MIS 675 | Strategic Uses of Information Technology | 3 |
| MIS 685 | Software Engineering and CASE Tools | 3 |
| MIS 695 | Expert Systems | 3 |

(Courses must be approved by the student's advisor in advance).

Accounting — The Common Body of Knowledge courses (with the exception of MBA 660) and 12 required semester hours chosen from the following:

- MPA 660 Professional Accounting and Auditing Issues
- MPA 662 Managerial Cost Accounting
- MPA 663 Business Taxation
- MPA 664 Advanced Auditing
- MPA 665 Accounting Theory and Practice I
- MPA 666 Accounting Controls for EDP Systems
- MPA 667 Accounting Theory and Practice II

Accounting concentration students may not substitute any other MBA or MPA courses in place of those stated above.

Graduate Course Descriptions — Business Prefix: MBA

550 Math for Graduate Business Studies (3)

Preparatory course in mathematical and statistical tools for students who need the mathematics prerequisite requirements. Topics include elements of algebra; systems of linear equations, functions and graphs; inequalities; linear programming; rules for differentiation; some rules of probability; descriptive statistics; expected value; probability distributions; binomial and normal distributions; sampling distribution; and inferences about the means. (Credit is not applicable to a graduate degree.)

560 Accounting Principles (3)

Preparatory course in principles of accounting for students who lack the accounting prerequisite. Topics include an introduction to the accounting cycle; generally accepted accounting principles; and classified financial statements. Includes financial statement analysis of annual reports of major corporations. (Credit is not applicable to a graduate degree.)

580 Economic Principles (3)

Preparatory course in economics for students who lack the economics prerequisites. Topics covered include: supply and demand; elasticity; market structure; GNP; inflation; unemployment; fiscal and monetary policy; foreign exchange; and balance of payments. (Credit is not applicable to a graduate degree.)

600 Management (3)

Nature and functions of management, emphasizing decision-making, communication, interpersonal and group dynamics, and those things necessary for effective planning, organization, direction and control of business.

601 Human Resource Management (3)

This survey course is designed to provide the line manager or staff specialist with an expanded understanding of the processes which management utilizes today to ensure that the right number/quality of persons are being hired, that appropriate governmental regulations are being adhered to, and that the internal policies provide a work environment which encourages cost-competitive labor costs and maximum worker satisfaction.

602 Public Administration (3)

Exploration of the administrative problems and challenges in non-profit organizations, with an emphasis on management in government. Prerequisite: MBA 600.

603 International Business (3)

This course focuses on the opportunities and risks of the complex environment of international business, with an emphasis on the unique problems involved in managing international operations. Main topics include foreign economic, political, legal, and cultural environments; international market analysis; foreign exchange; risk management; international human resource management; and the mechanics of import and export transactions. Special emphasis is placed on the transformations occurring in Eastern Europe, the European Community, and Latin America. Prerequisites: MBA 600, 640.

604 Research Methodology in Management (3)

This course emphasizes developing research methodology. Library resources are used extensively. Research projects directed at specific industrial segments are selected and a formal research paper developed.

605 Entrepreneurial Management (3)

An overview of the managerial function of operating a small business enterprise with emphasis on planning, organizing and controlling. Specific attention is given to demand analysis, to developing the business plan, and to financing sources including the Small Business Administration. Innovation is the key concept of this course. Prerequisite: MBA 600.

606 Ethical and Societal Issues for Management (3)

A survey course designed to create an awareness of and sensitivity to social and ethical issues which influence the management of business enterprises. Focus is on legal, social and ethical implications of problems in contemporary business issues such as employer-employee relationships, consumerism, environmentalism, civil rights, etc.

610 Computers and Executive Applications (3)

Study of computers used for the support of management tasks. The emphasis is on increasing management productivity and effectiveness through the use of spread sheet, data base, word processing and graphics programs.

620 Financial Management (3)

Study of corporate financial topics which include: ratio analysis, financial forecasting, financial planning and budgeting, working capital management, sources and forms of long-term financing, financial structure and the cost of capital, decisions involving long-term assets, and investment banking. Prerequisite: MBA 660.

622 Investment Analysis (3)

Study of principles and practices used in analyzing marketable securities. Course coverage includes investment risks, portfolio management, and policies of institutional investors. Prerequisite: MBA 620.

624 Financial Markets and Institutions (3)

Analysis of the characteristics and operating policies of financial institutions and the interrelationships among intermediaries in the money and capital markets. Focus is placed upon commercial banks, other depository institutions, insurance companies, investment banks and pensions.

628 Advanced Topics in Financial Management (3)

This course covers different topics in financial management and employs the case method to develop the student's ability to apply financial theory and analytical techniques to all areas of financial management. Prerequisite: MBA 620.

640 Marketing Management (3)

Analytical approach to the development of marketing policies in the major marketing areas such as advertising, sales, promotion, pricing, channel selection, products, marketing costs, budgets, and others. Prerequisite: MBA 580 or equivalents.

643 Buyer Motivation and Behavior (3)

This course covers the psychological, sociological and anthropological theory related to buying decision processes by consumer and organizational buyers. Prerequisite: MBA 640.

644 Marketing Research (3)

Research methodology is applied to marketing problems. Topics covered include measurement, survey research, experimentation, and statistical analysis. Prerequisite: MBA 640.

645 Marketing Strategy (3)

This course focuses on the marketing manager's decision process. Topics include market opportunity analysis, strategy development, planning, and integration with corporate strategy. Prerequisite: MBA 640.

652 Management Science (3)

Management science methods including decision trees, simulation, inventory models, waiting line models, project planning, and statistical process control applied to business problems. Case studies used extensively for applications. Prerequisite: MBA 550 or equivalents.

660 Managerial Accounting (3)

Accounting cycle, relevance and limitations of cost information in managerial decision-making, emphasis on cost systems, determination and allocation of overhead, analysis of cost variances, direct costing, flexible budgets, break-even analysis, and capital budgeting. Prerequisite: MBA 560 or equivalents.

665 Special Topics in Business (3)

The content of this course will typically reflect the interest of a faculty member or a group of students. The course provides a means for introducing current issues into the curriculum. Special permission from the Associate Dean needed to take this course. Prerequisite: as needed.

680 Managerial Economics (3)

This course focuses on the study of the firm's costing and pricing decisions under different market structures, government regulation, and macroeconomic conditions. The overall theme of the course is the application of economic logic and tools to the management process, and the interpretation of current economic events, making extensive use of case studies. Prerequisites: MBA 550, 580, or equivalents.

690 Legal Environment (3)

Legal aspects of the management process, including government regulation of business, structure of our legal system, the Constitution and business, legislation, administrative and common law, labor and employment laws, securities regulations, consumer protection, antitrust, torts, and various forms of business organization. This course is designed to meet the CPA preparatory requirements for The Florida State Board of Accountancy.

691 Managerial Law (3)

Overview of contracts, sales, bulk sales, documents of title and investment securities, commercial paper, secured transactions, suretyship, bankruptcy, real and personal property, bailments, insurance, agency and administration of estates and trusts. This course is designed to meet the CPA preparatory requirements for The Florida State Board of Accountancy.

699 Management Strategy and Policy (3)

This capstone course integrates all management processes in the activities management follows in formulating strategy in a highly competitive environment as well as the key activities utilized in implementing a well-thought out strategy. This course is to be taken at the conclusion of the required MBA sequence of courses (in the student's final semester of the MBA program). Prerequisites: MBA 600, 620, 640, 652, 660, and 680.

MASTER OF PROFESSIONAL ACCOUNTANCY

The Master of Professional Accountancy is a 30 semester hour program requiring 18 semester hours in advanced accounting and 12 semester hours of course work in the MBA program selected from non-accounting courses.

ADMISSION REQUIREMENTS

Admission to the MPA program will be limited to students with undergraduate majors in accounting from accredited institutions. Admission decisions will be based on the undergraduate grade point average and the score on the Graduate Management Admissions Test. (Same standards as the MBA program). Applicants with undergraduate majors in accounting and acceptable GPA's will be allowed to enter the program as Provisional Students for one semester only for a maximum of six credit hours prior to submission of the GMAT score. The GMAT will be waived for persons holding CPA or CMA certification.

The admission, transfer, retention and graduation policies of the MBA program will govern the MPA program unless otherwise stated.

Persons with appropriate accounting backgrounds who hold the MBA degree may be allowed to waive the 12 semester hours of MBA business courses and thus satisfy the MPA degree requirements by successfully completing the 18 semester hours of required accounting courses. The undergraduate transcript and MBA transcript will be reviewed, along with professional experience in the determination of appropriate background. Applicants deficient in any areas may be required to take additional prerequisite course work. Such persons may or may not meet the new Florida guideline for approval to sit for the CPA examination.

It is anticipated that graduates of the Barry University Master of Professional Accountancy program, with appropriate undergraduate course work, will meet the qualification standards to sit for the CPA examination.

Students who have completed the requirements for the MPA degree and who wish to earn either the MBA or MS in MIS degree through the Andreas School of Business must complete an additional 18 graduate credits at Barry.

ACADEMIC PROGRAM

Required Accounting Courses — 18 hours

MPA 660	Professional Accounting and Auditing Issues	3
MPA 662	Managerial Cost Accounting	3
MPA 663	Business Taxation	3
MPA 664	Advanced Auditing	3
MPA 665	Accounting Theory and Practice I	3
MPA 666	Accounting Controls for EDP Systems	3
MPA 667	Accounting Theory and Practice II	3
	Accounting Course work Total	18 of 21

Electives:

MBA	Non-accounting elective	3
MBA	Non-accounting elective	3
MBA	Non-accounting elective	3
MBA	Non-accounting elective	3

Note: MBA 699 may not be used as an elective.

Business Course work Total 12

Total Accounting and Business Course work 30

Students are allowed to enter the program at the beginning of any semester and take any combination of MPA and MBA course work that will meet their scheduling needs and degree requirements.

It is anticipated that two of the MPA courses will be offered in the Fall, Spring, and Summer terms. The MBA non-accounting electives may be taken in any term, thus making it possible for a full time student to complete the degree in one year.

Graduate Course Descriptions — Accounting Prefix: MPA

660 Professional Accounting and Auditing Issues

A selection of current issues (both accounting and auditing) confronting the accounting profession. Through research and case analysis, emphasis is on practical utilization of GAAP (Generally Accepted Accounting Principles) and GAAS (Generally Accepted Auditing Standards).

662 Managerial Cost Accounting

Effective managerial decision-making and financial planning through accounting systems; performance evaluation; control of operations; capital budgeting and management of assets. Production cost; budgeting control; cost, volume and profit analysis; alternative methods of measurement and analysis.

663 Business Taxation

Study of the theory of taxation. Federal tax laws and regulations and their impact on the operations of partnerships, corporations, estates and trusts, with emphasis on practical tax planning through tax case studies and preparation of actual tax returns relating to these areas.

664 Advanced Auditing

Study of the concepts, assumptions, standards and issues related to contemporary auditing theory and practice. Professional and technical aspects of auditing practice; ethics and legal responsibilities; review of field work emphasizing materiality, sampling, and working papers, reporting problems including long-form and special purpose reports; study of recent auditing developments. Prerequisite: ACC 437 or equivalent.

665 Accounting Theory and Practice I

Theoretical and practical application of accounting principles relating to basic concepts, assets, liabilities, equities, tax allocation, pensions, leases, accounting changes, the four required financial statements including disclosures. Emphasis on current accounting developments.

666 Accounting Controls for EDP Systems

A comprehensive accounting controls approach to the contemporary computer environment, providing the necessary understanding of a complete system of accounting controls, both manual and data processing, and their interrelationships; practical state-of-the-art solutions to EDP auditing control problems are developed.

667 Accounting Theory and Practice II

Theoretical and practical application principles relating to Accounting for governmental and nonprofit entities.

**EXECUTIVE MASTER OF
BUSINESS ADMINISTRATION**

The Executive MBA (EMBA) program is an exciting concept in graduate management education that prepares organizational leaders from private and public enterprise to meet the challenges of an ever changing economic and cultural environment. These programs are designed to allow senior and mid-level executives to keep pace in their profession without career interruption.

The curriculum has been developed to integrate basic disciplines of accounting, management, marketing, economics, and finance with innovation and entrepreneurship. Learning modules have been coordinated to give the manager a core of professional knowledge and a broad framework for decision making. Emphasis is placed on team effort and the sharing of experience and expertise in a structurally integrated program. A full range of traditional and non-traditional learning techniques are used including case studies, research projects, computer simulation, interaction groups and lectures.

The EMBA program, which extends over six semesters, meets one day each week on alternate Fridays and alternate Saturdays from 8:30 a.m. to 4:30 p.m. Semesters are ten weeks long from September through November, from January through March and from April through June. In addition, workshops in Accounting, Economics and Math are offered in the periods between each semester for those students who have not met the prerequisites. Students remain together for the entire two years, allowing group dynamics established in the first semester to continue throughout the entire program.

Executives applying for and being admitted to the program are expected to hold a Bachelor's degree; however, a limited number of executives who lack such a background will be considered for admission if their credentials indicate a strong probability for success in the program. It is anticipated that all candidates will have at least ten years of professional experience.

Candidates for admission should complete the graduate application form, provide two letters of professional reference, provide a current resume, and submit official transcripts of all previous college course work and the GMAT, if requested. The admission decision is based on a number of factors including present level of executive responsibility, employment history, and results of a personal interview.

Executives who complete the 36 semester hour program maintaining a B average are awarded the Master of Business Administration (MBA) degree at the University's graduation in June.

Executives who have completed the requirements for the EMBA program and who wish to earn either the MPA or MS in MIS degree through the Andreas School of Business must complete an additional 18 graduate credits at Barry (assuming they have met all of the entrance requirements).

OFF CAMPUS LOCATIONS

In addition to the Executive MBA program being offered at the Miami Shores campus it is also offered in Kingston, Jamaica.

ACADEMIC PROGRAM

WORKSHOP PROGRAMS — These workshop programs are made available to students who have not met the prerequisites:

- * Accounting for Executive MBA Studies (offered November-December of First year)
- * Mathematics for Executive MBA Studies (offered March-April of First year)
- * Economics for Executive MBA Studies (offered November-December of Second year)

COURSE OFFERINGS:

EMB 600	Management of Organizations
EMB 603	International Business
EMB 608	Human Resources Management
EMB 611	Information Systems and Computer Applications
EMB 620	Managerial Finance
EMB 640	Marketing Management
EMB 652	Management Science for Managers
EMB 660	Managerial Accounting
EMB 680	Managerial Economics
EMB 690	Social, Legal and Ethical Aspects of Business
EMB 698	Advanced Topics in Management
EMB 699	Planning and Policy Seminar

Executive MBA Course Descriptions — Executive Business Prefix: EMB

First Semester (September – November)

600 Management of Organizations

This foundation course will provide an exploratory review of management thought and how organizations can most effectively carry out the planning, organizing, leading and controlling functions in the global, competitive environment in which most firms exist. Case problems will be utilized to assist the student in translating concepts into the real-world environment.

640 Marketing Management

Examination of current marketing concepts and practices relating to planning, product development, pricing, promotion and distribution. Attention is given to managing the marketing efforts and applying the current marketing concepts. Marketing problems are analyzed from the perspective of top management and considerable time is devoted to strategic planning and the executives' own marketing experiences.

Between First and Second Semesters (November – December)

Accounting Workshop (only required for those students who have not met the prerequisites)

Workshop course in principles of accounting for students who lack the accounting prerequisite. Topics include an introduction to the accounting cycle; generally accepted accounting principles; and classified financial statements. Includes financial statement analysis of annual reports of major corporations. (No credit is granted for this workshop.)

Second Semester (January – March)

660 Managerial Accounting

Emphasis on the uses of accounting data to assist managers in planning operations, controlling activities and making decisions. The course will show what kinds of information the manager needs, where this information can be obtained, and how it is used in directing the affairs of business organizations.

608 Human Resources Management

This course will explore the strategic processes by which management successfully integrates the human resources into the organization's efforts to achieve established goals. The areas of human resource planning, staffing, compensation, ensuring employee influence, reward systems, and employee relations will be explored, utilizing a case method as a key learning tool.

Between Semesters Two and Three (March – April)

Math Workshop (only required for those students who have not met the prerequisites)

Workshop course in mathematical and statistical tools for students who need the mathematics prerequisite requirement. Topics include elements of algebra; systems of linear equations, functions and graphs; inequalities; linear programming; rules for differentiation; some rules of probability; descriptive statistics; expected value; probability distributions; binomial and normal distributions; sampling distribution; and inferences about the means. (No credit is granted for this workshop.)

AND

Executive Development I

Students will participate at an off-campus site, a weekend-in-residence program which will provide them with an intense learning experience. The purpose of this key activity is to allow the student to integrate their learning by applying it to a comprehensive case while strengthening the collegial relationship of the student body.

Third Semester (April – June)

611 Information Systems and Computer Applications

This course is designed to assist top managers in developing a better understanding of what computerized management information systems can and cannot do and to explore the consequences and potential impact of computers and computer-assisted management systems on the attitudes and performance of executives. Topics include design and selection of appropriate management information systems for financial, statistical, and programming planning, reporting, and control and management of the processes of developing special purpose information systems. In addition, participants are introduced to several software packages and applications, including electronic spreadsheets, data base management, and word processing.

620 Managerial Finance

The objective of this course is development of the student's ability to apply the main techniques of financial analysis to corporate problems. Topics include an overview of the financial environment, ratio analysis, financial planning and budgeting, working capital management, sources and forms of long-term finance, financial structure and the cost of capital and decisions involving long-term assets.

Fourth Semester (September - November)

690 Social, Legal and Ethical Aspects of Business

The focus of this course will be on the examination of the legal and social environments of business along with the norms and values developed by firms to meet the challenges of government regulation, community pressure, and public demand for accountability. Topics include the legal system, litigation and resolution of disputes, the constitution and business, administrative law, contracts, torts, forms of business organization, equal employment opportunity, antitrust law, and consumer protection.

652 Management Science for Managers

The purpose of this course is to reactivate latent skills in problem formulation and decision making within the context of what is often called operations research. The individual applies tools of mathematics, linear programming and stochastic processes to problems in optimization, sensitivity analysis and expected value. Model types include product mix, inventory control, queuing theory, payoff matrices, quality control and other concepts essential to managerial decision-making.

Between Semesters Four and Five (November – December)

Economics Workshop (only required for those students who have not met the prerequisites)

Workshop course in economics for students who lack the economics prerequisites. Topics covered include: supply and demand; elasticity; market structure; GNP; inflation; unemployment; fiscal and monetary policy; foreign exchange; and balance of payments. (No credit is granted for this workshop.)

Fifth Semester (January – March)

680 Managerial Economics

This course focuses on the study of the firms's costing and pricing decisions under different market structures, government regulation, and macroeconomic conditions. The overall theme of the course is the application of economic logic and tools to the management process, and the interpretation of current economic events, making extensive use of case studies.

698 Advanced Topics in Business

Many important and timely topics for executives do not fit into any of the courses in the existing curriculum, but are worthy of inclusion in this program. Each year the faculty will identify several such subjects and develop modules to be covered in this course. Topics will be current and relevant to the South Florida business environment.

Sixth Semester (April – June)

603 International Business

This course focuses on the opportunities and threats of the complex environment of international business, with an emphasis on the unique problems involved in managing international operations. Main topics include the relevance of the foreign economic, political, legal, and cultural environment, international market analysis, foreign exchange risk management, international human resource management, and the mechanics of import and export transactions. Special emphasis is placed on the transformations occurring in Eastern Europe, the European Community, and Latin America.

699 Planning and Policy Seminar

In this capstone course, the student integrates and applies knowledge obtained in the functional areas of management, marketing, finance, and economics to formulate and implement strategy from the perspective of the general manager. Extensive use of case studies provides opportunities to strengthen problem identification and decision-making skills. Emphasis is on how to convert intuition and vision into objectives and action plans for their achievement.

MASTER OF SCIENCE IN MANAGEMENT INFORMATION SYSTEMS

The Master of Science in Management Information Systems (MS in MIS) is a professional master's program designed to meet the needs of students seeking advanced skills in designing and implementing computer applications, and of those seeking academic preparation for responsibilities as managers of computer based activities. The course of study includes both administrative and technical aspects of information systems.

The program objective is to provide the student with the theoretical and practical foundation which will lead to a career as manager of systems analysis or data processing operations, data base administrator, director of management information systems, director of data communications, manager of information technology, or consultant.

ADMISSION REQUIREMENTS

Admission to the MIS program requires a bachelor's degree from a regionally accredited college or university and the Graduate Management Admission Test (GMAT).

Generally, admission is granted only to those with a high promise of success in postgraduate business study. An applicant may show high promise by previous schooling and testing, which results in a *minimum* total of:

950 points based upon the formula:
200 x undergraduate GPA
plus GMAT score,

or

1000 points based upon the formula:
200 x the upper division (junior and senior) undergraduate GPA
plus the GMAT score.

The above formula notwithstanding, the Admissions Committee reserves the right to prescribe a *minimum GMAT score* for applicants.

(The GMAT is a basic aptitude examination and does not require previous knowledge of business subjects. It is offered four times each year in the Greater Miami area. Applications are available from the Educational Testing Service, Princeton, N.J., 08541, or from the Admissions Office at Barry.)

PREREQUISITES

1. Minimum of (6) undergraduate credits in programming languages. Three (3) of which must be beyond introductory programming.
2. Minimum of (6) undergraduate credits in mathematics (algebra or above) including statistics or MBA 550 or equivalents.
3. Minimum of (3) undergraduate credits in computer applications or MBA 610 or equivalent.

TRANSFER CREDIT

Acceptance of graduate transfer credits from approved institutions is dependent on the pertinence of the work to the MIS program. The transfer of up to six semester hours of graduate work upon entering the program may be allowed subject to the following restrictions:

1. All transfer credits must be a B (3.0) or better, and courses must be directly parallel to required or elective courses in the MIS program.
2. No graduate credit will be allowed for correspondence or extension work.
3. Students may not transfer credits after they have entered the program.

DEGREE REQUIREMENTS

To qualify for the degree of Master of Science in Management Information Systems each candidate must:

1. Be fully accepted into the program.
2. Complete at least 36 semester hours of required and elective courses with a grade point average of 3.0 or greater and with no grade below C.
3. Meet all general requirements of the University for a Master's degree and complete the program within five years from the date of initial matriculation.

CURRICULUM OUTLINE

The curriculum provides the flexibility to allow each student to pursue a program designed to meet his or her professional goals.

Common Core Credits

MIS 620	Management Information Systems	3
MIS 630	Data Communications & Computer Networks	3
MIS 650	Database Management Systems	3
MIS 655	Computer Systems Administration	3
MIS 660	Decision Support Systems	3
MIS 670	Fourth Generation Languages	3
MIS 675	Strategic Uses of Information Technology	3
MIS 685	Software Engineering and CASE Tools	3
MIS 695	Expert Systems	3
		(27)

Electives – 9 hours may be chosen from the MBA courses that students have met the prerequisites for (excluding MBA 610 and MBA 699) or the following: (Electives must be approved by the student's advisor in advance.)

MIS 665	Special Topics in Computing	3
MIS 699	Thesis (6 credits required for this option)	6
	(The student may take from 1 to 6 credits per semester)	

The suggested sequence for completing the curriculum in three semesters is as follows:

FALL

MIS 620	Management Information Systems
MIS 630	Data Communications & Computer Networks
MIS 650	Database Management Systems
	ELECTIVE

SPRING

- MIS 655 Computer Systems Administration
- MIS 660 Decision Support Systems
- MIS 670 Fourth Generation Languages
ELECTIVE

SUMMER

- MIS 675 Strategic Uses of Information Technology
- MIS 685 Software Engineering and CASE Tools
- MIS 695 Expert Systems
ELECTIVE

Graduate Course Description — Management Information Systems Prefix: MIS

620 Management Information Systems (3)

Study of the role of information (internal, external and competitive) at the various levels of corporate management. Considers resources and techniques required in the design and implementation of cost-effective, user-oriented information systems for planning, control and decision making. (Fall)

630 Data Communications & Computer Networks (3)

A thorough coverage of data communications and computer networks, covering media, satellite based systems, microwave links, carrier systems, forward error correction, modulation types and techniques, modems, packet switching, satellite networks, local area networks, and distributed processing. Network architectures and protocols will be analyzed. (Fall)

650 Database Management Systems (3)

This is a course in the design and implementation of database applications in an MIS environment. The network, hierarchical, relational and semantic models are examined. Concepts include optimization, security, integrity, database design and query languages (with particular emphasis on SQL). (Fall)

655 Computer Systems Administration (3)

The study of the functions of the MIS executive. Topics include strategic planning for MIS, computer capacity planning, hardware and software acquisition, training and development of personnel, and computer operations management. Prerequisite: MIS 620 (Spring)

660 Decision Support Systems (3)

Intensive use of interactive computer software in developing quantitative models to aid decision making. Case problems related to planning and control of various areas of business are considered. Topics include demand analysis, simulation, financial analysis, and decision trees. (Spring)

665 Special Topics in Computing (3)

The content of this course will typically reflect the interest of a faculty member or a group of students. The course provides a means for introducing current issues into the curriculum. Special Permission from the Associate Dean needed to take this course. Prerequisite: as needed

670 Fourth Generation Languages (3)

This course examines non-procedural and graphical languages used for prototyping and implementation of computer programs that can be developed by non-programmers as well as professional programmers. (Spring)

675 Strategic Uses of Information Technology (3)

Study of the current and future impact of information technology (computers, telecommunications, and office automation) on the development of corporate strategy. Use of cases to illustrate the techniques for managing information technology to gain competitive advantage. Prerequisite MIS 620 (Summer)

685 Software Engineering and CASE Tools (3)

Use of CASE tools in requirements analysis, feasibility studies, specification, design, documentation, implementation, verification and validation of large scale computer projects. Prerequisite: MIS 620 (Summer)

695 Expert Systems – 650 (3)

This is a course computerized approaches to decision making using rule base expert systems and knowledge engineering. Concepts include knowledge acquisition, knowledge representation, propositional and predicate calculus, inference, backward and forward chaining, validation, heuristics, and business applications. The EXSYS and OPS5 inference engines will be used for case studies. Prerequisite: MIS 650 or equivalent (Summer)

699 Thesis (6)

The student must submit a thesis proposal to the Associate Dean and, if it is accepted, will work under the supervision of a faculty committee. The student must become knowledgeable of and agree to adhere to the School's policies in effect at the time the thesis is begun. Prerequisite: Advisor and Associate Dean approval required.

ADRIAN DOMINICAN SCHOOL OF EDUCATION

Evelyn Piche, O.P., Ph.D., Dean

Faculty: Bohning, Burke, Cafolla, Carneal, Foster, Hale, LeBlanc Kohl, Levine, Miller, Owens, Powell, Rice, Sacks, Shannon, Siena, Superfisky, Tulloss, Williams.

The Adrian Dominican School of Education offers students a comprehensive range of updated professional programs designed to meet the current needs of educators, administrators, counselors, instructional technologists and human resource leaders for the 21st Century. Programs have been created to prepare students to function as competent professionals in their chosen careers and to broaden, deepen and expand their professional lives.

Faculty are committed to promote the mission of Barry in a caring, educational environment which includes teaching, advising, scholarship, research and supportive service to Barry and the surrounding community. Through continued curricular development, the School is responsive to the needs of its culturally diverse student population and community.

OBJECTIVES:

The Adrian Dominican School of Education, through a competent and academically prepared faculty, offers contemporary programs designed to:

- meet current professional standards including licensure and certification requirements.
- provide knowledge and skills which enable graduates to practice in their career choices.

ELEMENTARY AND EARLY CHILDHOOD (PRIMARY) EDUCATION MAJOR (B.S.)

This program, which prepares students for teaching careers in the elementary school, emphasizes both general and professional courses.

Following the completion of the B.S. degree in Elementary and Early Childhood (Primary) Education, graduates will have acquired the ability to:

1. recognize patterns of physical, social, emotional and cognitive development in students, including exceptional students in the regular classroom.
2. identify and meet the learning needs and abilities of all children, including those from diverse cultural backgrounds and those with special needs.
3. implement a wide range of instructional strategies to translate content into developmentally appropriate classroom activities.

GENERAL PREPARATION

Theology and Philosophy:	9 credits.
Communications:	English 111 and 112; Speech 101 or 312.
Science and Mathematics:	Mathematics 201 and 202; 3 credits in Science.
Social and Behavioral Sciences:	History; Sociology 201.
Human Adjustment:	Psychology 281.
Humanities and Applied Arts:	English 320; Art 376; Music 376.
Computer Education:	CED 405.

PROFESSIONAL EDUCATION

Major (60 cr.) - EDU 151, 218, 322, 344, 362, 366, 388, 400, 414, 417, 435, 441, 465, 466, 470, 472, 499, ENG 320. Prerequisites for student teaching: EDU 151, 218, 322, 362, 366, 388, 435, 466.

EDUCATION MINOR

Students may choose education as a minor ONLY IF they are majoring in a field which is both a state and University approved program for teacher education.

Major (a minimum of 30 cr.) — Requirements for major in teaching field, including the special methods course (476) related to the specific discipline.

Minor (24 cr.) — Secondary Education — EDU 151, 218, 417, 463, 468, 499. Prerequisites for student teaching: EDU 151, 218, 463 and Special Methods 476.

ADMISSION TO THE ADRIAN DOMINICAN SCHOOL OF EDUCATION

Declaration to enter the teaching profession represents informal admission to the Adrian Dominican School of Education. Candidacy is considered formal admission to a Teacher Education Program and to the Adrian Dominican School of Education. Both education majors and minors must be accepted as candidates to the School before they are allowed to enroll in more than 12 hours of professional education courses. Transfer students may enroll in Education courses for only one semester without having been formally accepted into a Teacher Education Program. Candidacy application forms are available from the Office of the Dean, Adrian Dominican School of Education, Garner 234.

Prerequisites for Candidacy

Students must meet the following requirements before applying for candidacy:

1. A grade of C or better in the written English components of the distribution requirements.
2. A grade of C or better in one of the following mathematics components:
 - a. Math 201 and Math 202.

- b. Math 101. (Education minors)
 - c. Six semesters of college level mathematics.
3. Successful achievement of a minimum score of either 840 on the SAT or 20 on the enhanced ACT.

GRADUATION REQUIREMENTS

1. Successful completion of graduation requirements for undergraduates as identified under Academic Information in this catalog.
2. Successful completion of the core Education curriculum and the required courses for the Education major or minor with a C or better in each professional Education course and an overall GPA of 2.5.
3. File appropriate materials for graduation with the Registrar.

STUDENT TEACHING

The student teaching program represents the culminating phase in teacher preparation and consists of a carefully planned sequence of laboratory experiences under the supervision of professional educators. During student teaching, a full-time schedule (a minimum of 12 credits) must be carried by the student. Passing of all sections of the Florida Teacher Certification Examination is required for credit in student teaching.

Prerequisites for Student Teaching — Students must participate in the Florida Teacher Certification Examination and achieve a satisfactory score on the CLAST prior to receiving a student teaching assignment.

Admission to the student teaching program also requires senior status (a minimum of 90 credits of course work completed), a minimum grade point average of 2.5 and a grade of C or better in all required professional Education courses.

Prior to student teaching, courses required to meet the general preparation requirements should be taken to assure that the student will not have to delay graduation. All students must have completed a minimum of 30 credits at Barry prior to student teaching. Prerequisites for student teaching in specific programs are listed under program descriptions.

Students must earn a C or better in student teaching in order to successfully complete their Education major or minor.

COURSE DESCRIPTIONS — Education Prefix: EDU

151 Introduction to Education (3)

Surveys the principles of education with emphasis on school and society, history and philosophy of education. Field experience.

218 Educational Psychology (3)

Applies the principles of psychology to the field of education. Examines innate and acquired forms of behavior control, motivation of learning, transfer of training, individual differences in intelligence and achievement, evaluation and measurement. Field experience. Prerequisite/Corequisite: EDU 151 or equivalent.

263 Organization and Use of Audio-Visual Materials (3)

Presents the selection and use of audio-visual aids. Explores community resources and trains for effective organization and distribution of learning materials appropriate to various age levels.

320 Children's Literature (3)

Surveys the literature suited to the needs of children. See ENG 320.

322 Methods of Teaching Reading (3)

Surveys the methods of teaching reading and the strategies and materials appropriate for use at the primary and elementary levels. Field experience includes teaching reading lessons at the appropriate grade level.

344 Teaching Health + Physical Education in the Primary/Elementary School (3)

Examines the methods, materials, content material and organizational procedures for conducting primary/elementary school health and physical education programs; practice in teaching activities in primary/elementary school health and physical education programs. Field experience.

362 Teaching Arithmetic (3)

Investigates the content, methodology, and materials for teaching modern mathematics in the primary/elementary school; field experience required in a primary/elementary school mathematics program. Prerequisite: MAT 201 or equivalent.

366 Teaching Social Studies in the Primary/Elementary School (3)

Examines the content, materials and methodology in the social science field needed for the instruction of primary/elementary children. Field experience.

388 Teaching Science in the Primary/Elementary School (3)

Examines the principles and methods of selecting and organizing suitable units for primary/elementary school science; includes demonstrations, laboratory experiments, field trips and tests. Field experience.

400 Comprehensive ESOL Strategies (3)

Surveys the principles and strategies of ESOL, with emphasis on their practical applications for teaching the basic content areas to classes with students of Limited English Proficiency (LEP).

409 Multicultural Primary Education (3)

Studies the national and international dimensions of cultural diversity in order to develop the understandings for coordinating primary school curriculum and instruction appropriate for a cultural pluralistic school setting.

410 Multicultural Education (3)

Studies the national and international dimensions of cultural diversity in order to develop the understandings for coordinating school curriculum and instruction appropriate for a cultural school pluralistic setting.

411 Speech Correction for Children (3)

Presents an elementary, non-technical course in speech-correction for the teacher who works with speech handicapped children in the classroom. See SPE 411.

412 Teaching the Elementary Mainstreamed Exceptional Student (3)

Offers an introduction to exceptional student education in the elementary years for those preparing for regular classroom teaching. Presents procedures for instructing elementary school students mainstreamed in the regular classroom.

414 Classroom Management (3)

Examines the techniques for the observation, description, measurement and evaluation of student behavior. Ways to strengthen positive behavior and eliminate distracting non-productive negative behavior are applied in classroom situations. For preservice teachers K-6 an applied project at a specific grade or subject level is required.

415 Guiding Primary Learning (3)

Explores the ways young children learn and the factors influencing learning as the basis for designing instruction to facilitate primary learning. An application of the principles of learning is made to primary classroom situations.

416 Guiding Elementary Learning (3)

Applies learning theory relevant to the nature of children and the factors influencing learning for facilitating learning in the subject areas in the elementary classroom.

- 417 Evaluation and Measurement in Education (3)**
Provides laboratory experience in designing classroom tests and writing test items. Examines group and individual tests as means of accountability and facilitating decision making.
- 435 The Teaching of Language Arts in Primary/Elementary Education (3)**
Examines the methods and materials for instruction in all areas of the language arts curriculum in primary and elementary grades. Field experience.
- 436 Strategies for Primary Diagnostic-Prescriptive Instruction (3)**
Develops a framework for diagnostic-prescriptive teaching in the primary classroom. Includes classroom organizational practices and teaching strategies which implement the model.
- 437 Strategies for Elementary Diagnostic-Prescriptive Instruction (3)**
Develops a framework for diagnostic-prescriptive teaching in the subject areas at the elementary level. Includes classroom organization, materials, and instructional strategies which implement the model.
- 438 Teaching the Primary Mainstreamed Exceptional Student (3)**
Offers an introduction to exceptional student education in the primary years for those preparing to teach in the regular classroom. Presents strategies for instructing primary exceptional students mainstreamed in the regular classroom.
- 441 Primary/Elementary School Curriculum (3)**
Examines the principles and problems in primary/elementary school curriculum. Offers practical experiences for the student in developing criteria for valid practices and curriculum changes.
- 442 Secondary School Curriculum (3)**
Explores current trends in modern secondary school curriculum. Offers practical experiences in developing criteria for valid practices and curriculum changes.
- 462 Principles of Teaching and Testing (Primary/Elementary) (3)**
Introduces specific and general techniques which underlie teaching/learning in the primary/elementary school. Provides opportunities for students to receive critiques of the mini-lessons they present in class.
- 463 Principles of Teaching and Testing (Secondary) (3)**
Introduces specific and general techniques which underlie teaching/learning in the secondary school. Provides opportunities to receive critiques of the mini-lessons they present in class.
- 465 Language Acquisition in Primary Education (3)**
Deals with the fundamental concepts and questions of language acquisition from birth to nine years and relates those concepts and questions to the primary classroom. Field experiences observing children and their language and interacting with children through language is required.
- 466 Diagnostic Teaching of Reading in the Primary/Elementary Classroom (3)**
Presents techniques of informal reading diagnosis, interpretation, and planning for individualized and small group instruction for the primary/elementary classroom. Field experience. Prerequisite: EDU 322 or equivalent.
- 467 Foundations of Reading Instruction (3)**
Surveys more advanced methods, techniques, and materials for teaching reading K-12, including current strategies and trends.
- 468 Reading in the Content Areas (3)**
Presents strategies for developing students' reading abilities in the content area subjects at the primary, elementary, middle, and secondary levels. Focuses on the instructional materials and methods for subject area teaching in vocabulary, comprehension, study strategies, and text learning experiences. Examines informal evaluation techniques to meet individual differences in reading abilities and interests. Requires course projects and field experiences in specific area at appropriate grade level or subject area.
- 470 Introduction to Exceptional Children (3)**
Explores the detection of physical, mental, and emotional exceptionalities in children and their educational provisions. Field experience.

471 Psycho-Social Foundations in Primary Education (3)

Examines ways of improving understanding of the socialization process for children. Examines ways of conceptualizing and accepting responsibility for improving children's interpersonal relations. Examines the study and evaluation of the primary curriculum as it contributes to the development of social and emotional sensitivity.

472 Primary Programs and Practices (3)

Covers the foundations of the primary education curriculum; emphasizes building a basic curriculum related to perspectives of emotional, social, perceptual-cognitive, physical, and language development patterns. Addresses play, communication, integrating the arts, bilingualism, and multicultural issues. Observations at school sites are required.

478 The Learning Disabled Child (3)

Presents the causes of learning disabilities and how they affect children in their social, emotional, and intellectual development. Offers practical experiences in the study of how children learn control of movement, language, and thought.

481 Learning Strategies for Exceptional Student Education (3)

Explores specific procedures and methods for implementing learning strategies for teaching ESE students. Focuses on the strategies of teaching ESE students how to learn and how to perform academic tasks.

483 Educational Assessment of the Exceptional Child (3)

Presents methods of diagnosing and individualizing instruction in specific curricular areas of Exceptional Student Education. Examines alternate methods of diagnosis and prescriptive learning.

484 Reading Diagnosis (3)

Examines methods of diagnosing reading problems, interpreting tests, and identifying reading-learning needs (K-12). Prerequisite: EDU 322, 467 or equivalent.

490 Corrective Reading (3)

Determines and implements appropriate classroom teaching techniques, strategies, and materials to meet the learning needs of students with reading difficulties (K-12). Prerequisite: EDU 322, 467 or equivalent.

492 Workshop in Education (Variable)

Provides special interest areas developed from student needs and community requests. Number of credits depends on individual workshop requirements.

493 Child Study Skills for Primary Education (3)

Includes guidelines and techniques for observing, recording, diagnosing, analyzing, and prescribing for the personal, social, motor, language, and perceptual-cognitive development of primary children in a variety of child care and educational settings. Includes working with families and parents. Field experience.

499 Directed Student Teaching (9)

Provides the student teacher with on-the-job experiences under the supervision of a certified teacher and University personnel. Requires the synthesis and application of theory acquired in course work to realistic classroom situations. Prerequisites: Senior status, 2.5 GPA, C or better in all required education courses, participation in all sections of the FTCE, and a satisfactory score on the CLAST.

Course Descriptions — Computer Education Prefix: CED

300 Special Topics (3)

Provides the opportunity to investigate specific topics/issues. Content to be determined by the department to fill specified needs or interests of the students.

405 Introduction to Computers in Education (3)

Provides a comprehensive introduction to the broad role of computers in education. The computer is examined both as a subject of instruction as well as a tool for the professional educator. (This course replaces CED 410)

415 Microcomputing in the Curriculum (3)

Prepares teachers to use microcomputers in the classroom. Strategies and methods for integrating microcomputing within the elementary and secondary curriculum are explored. Teachers will have opportunities to explore a full range of microcomputer applications suitable for classroom use. Prerequisite: CED 405.

421 Computer Programming in Basic for Educators (3)

Prepares the teacher to program and use the BASIC language. The course is taught in a laboratory setting with extensive hands-on experience. Emphasis is on the preparation to teach BASIC in an educational environment. Prerequisite: CED 405.

445 Software-Based Instructional Tools (3)

Investigates a variety of specialized software in relation to their benefits in developing materials and methods for the presentation and management of instruction. Prerequisite: CED 405.

476 Teaching Computer Science (3)

Introduces participants to the special problems and methods of teaching computer science to K-12 students. This course is intended primarily for Computer Education students. Prerequisite: Departmental approval by the Adrian Dominican School of Education.

MASTER OF SCIENCE EDUCATION

The School of Education offers the Master of Science (M.S.) degree in twelve areas of specialization:

- COMPUTER EDUCATION**
- EDUCATIONAL LEADERSHIP**
- ELEMENTARY EDUCATION**
- EXCEPTIONAL STUDENT EDUCATION**
- GUIDANCE AND COUNSELING**
- HUMAN RESOURCES DEVELOPMENT AND ADMINISTRATION**
- HRDA—LEADERSHIP OF NOT-FOR-PROFIT/RELIGIOUS ORGANIZATIONS**
- MENTAL HEALTH COUNSELING**
- MONTESSORI ELEMENTARY EDUCATION**
- PRIMARY EDUCATION**
- READING**
- REHABILITATION COUNSELING**

The following degree programs of the School are approved by the Florida State Department of Education, and by virtue of this approval, Barry graduates in Educational Leadership, Elementary Education, Exceptional Student Education, Guidance and Counseling and Reading are eligible for certification in many states without specific course analysis.

GENERAL ADMISSION REQUIREMENTS

- Bachelor's degree from a regionally accredited college or university with appropriate credits in related disciplines and/or professional education courses as indicated by transcripts.
- Undergraduate grade point average of 3.00 (B) or higher.
- Acceptable score on the Miller Analogies Test or Graduate Record Examination.
- Two letters of professional recommendation for graduate study.
- Florida Teacher's Certification or eligibility for certification only when enrolling in a State approved certification program.

SPECIAL STUDENT STATUS

Applicants may be permitted to take three graduate courses (nine credits) in Education on the basis of a signed application and proof of a Bachelor's degree from an accredited institution of higher education. Students under this status will not be allowed to register for courses beyond the nine credits (three courses) limitation.

GENERAL GRADUATION REQUIREMENTS FOR THE MASTER OF SCIENCE DEGREE

- Successful completion of the stated number of required semester hours for each program, including the requisites listed and all required specialization courses.
- Maintain a grade point average of 3.00(B) or higher.
- Passing grade on a final written and/or oral comprehensive examination in a specific area of specialization.
- All requirements for Florida certification must be achieved before the University recommends the student for Master's level certification, if enrolled in a state-approved program. (A copy of the student's professional teacher certificate must be on file in the Adrian Dominican School of Education Office.)
- Seven years are permitted to complete degree requirements from the date of initial matriculation.
- Processing of all graduate degrees can only be accomplished through student completion of appropriate University forms and procedures.

STANDARDS OF PROGRESS

All students must maintain a cumulative grade point average (GPA) of 3.0 or higher to remain in good academic standing. If a student's G.P.A. drops below 3.0, he/she is placed on academic probation. The student is allowed to remain on academic probation for a maximum of 12 credits of course work. If at the end of the probation period, the student has not raised his/her GPA to 3.0, he/she cannot remain in the program. Students must remain in good standing during the last six credits of a program.

TRANSFER CREDIT

- A maximum of six graduate credit hours may be transferred from an accredited college or university.
- Course work must be relevant to the discipline, at B level or higher.
- Credits must be earned within the seven-year limitation set for the degree.
- Courses must be approved by the appropriate program advisor.
- Courses must not have been applied toward another degree.

REQUISITES

All matriculated candidates in the areas of Computer Education, Educational Leadership, Elementary Education, Exceptional Student Education, Guidance and Counseling, Human Resources Development and Administration, HRDA-Leadership of Not-For-Profit/Religious Organizations, Mental Health

Counseling, Montessori Elementary Education, Rehabilitation Counseling, Primary Education and Reading must take EDU 601, Methodology of Research (3 cr.), ordinarily within the first six to twelve (6-12) credit hours of their program.

CENTER FOR INSTRUCTIONAL TECHNOLOGY

The Center for Instructional Technology conducts research and development in the application of computers and other electronic technology to instruction. The Center provides an environment conducive to collegial cooperation in specialized areas of research. The contracts and grants obtained by the center provide research opportunities and support for participating faculty members, as well as, provide work experience and financial support for Barry students. Current research specializations include technology applications in instructional systems design and evaluation.

MASTER OF SCIENCE COMPUTER EDUCATION

The Master of Science Degree in Computer Education is a 36 semester hour program for educators and trainers who use computers in their disciplines, train individuals to use computers or teach specific Computer Science courses. The program prepares educators and trainers who will be involved with students in an educational environment. The program specialization designated Computer Science Education, has been developed to meet all Computer Science (K-12) certification requirements stipulated by Florida Department of Education. The program specialization designated as Computer Applications in Education has been developed to meet the needs of educators who desire to use computers effectively in their content area.

Following the completion of the MASTER OF SCIENCE DEGREE IN COMPUTER EDUCATION, graduates will have acquired the ability to:

1. demonstrate their functional knowledge of methods and strategies for teaching the content in computer application courses and/or computer science courses.
2. design and develop computer-based materials for teaching and learning which reflect the needs of students.
3. evaluate, select and integrate computer hardware and software technologies to support the instructional process.
4. apply current instructional principles, research and appropriate assessment practices to the effective instructional uses of computers and related technologies.
5. demonstrate knowledge of uses and benefits of computers for problem solving, data collection, information management, communications, presentations, and decision making for teachers and students.
6. demonstrate knowledge of the characteristics and capabilities of computer hardware and software and their applications for instructional delivery and management.

7. demonstrate their knowledge and skills for the use and application of software productivity tools and/or computer languages within educational environments.

The courses in the Graduate Computer Education Programs enable educators to utilize technology tools in order to improve the teaching and learning that takes place in the classroom. These courses use a variety of software which includes those generic to all disciplines and those specific only to education. Students needing additional time to become proficient with the mechanics of hardware and software operations/functions, are required to spend appropriate time outside class. Applicants must have teaching experience in educational institutions and must have basic computer skills before entering the CED program. Permission of the advisor is needed prior to the first computer education course. Barry University makes available several learning resources for obtaining these needed skills. These include: audio visual materials, interactive multimedia materials, computer software tutorials, tutorial print materials, staff members for consultation and training courses. Supportive services are available through the Academic Computing Center.

PROGRAM TRACKS

COMPUTER SCIENCE EDUCATION (36 s.h.)

Required Courses (30 s.h.)

EDU 601	Methodology of Research
CED 505	Introduction to Computers in Education
CED 534	Using Software for Educational Applications
CED 603	Programming with Applications in Education: BASIC
CED 604	Programming with Applications in Education: PASCAL I
CED 605	Programming with Applications in Education: PASCAL II
CED 606	Advanced Programming with Applications in Education
CED 627	Teaching Computer Programming
CED 639	Computer Technology Applications for Education
CED 653	Computer Communications in Education

Elective Courses (6 s.h.)

The elective courses should include at least one additional computer language course.

COMPUTER APPLICATION IN EDUCATION (36 s.h.)

Required Courses (30 s.h.)

EDU 601	Methodology of Research
CED 505	Introduction to Computers in Education
CED 534	Using Software for Educational Applications
CED 560	Teaching with Computer Technologies in the Classroom
CED 603	Programming with Applications in Education: BASIC
CED 607	Design and Evaluation of Computer-Based Education
CED 609	Courseware Generators
CED 639	Computer Technology Applications for Education

- CED 641 Implementing Computer-Assisted Instruction
- CED 653 Computer Communications in Education

Elective Courses (6 s.h.)

The elective courses should include at least one additional computer language course.

Suggested Elective Courses

- CED 545 Software-Based Instructional Tools
- CED 560 Teaching with Computer Technologies in the Classroom
- CED 600 Programming with Applications in Education: LOGO
- CED 603 Programming with Applications in Education: BASIC
- CED 607 Design and Evaluation of Computer-Based Education
- CED 609 Courseware Generators
- CED 627 Teaching Computer Programming
- CED 631 Computer-Assisted Instruction I
- CED 632 Computer-Assisted Instruction II
- CED 641 Implementing Computer-Assisted Instruction
- CED 670 – CED 688 (Discipline Application Courses)

Other Computer Education elective courses are listed in the catalog.

MASTER OF SCIENCE COUNSELING PROGRAMS

The counseling program provides opportunities for personal and professional growth for those helping others through counseling in community agencies, government, schools or private business. The program focuses on the knowledge and skills necessary to become effective change agents. Emphasis is placed on helping oneself and others to achieve greater personal, social, vocational, and ethical development. Students are given opportunities to explore personal and professional issues within a supportive and challenging environment.

Following the completion of the MASTER OF SCIENCE DEGREE in the COUNSELING PROGRAMS, graduates will have acquired the ability to:

1. demonstrate knowledge of specific counseling theories and techniques in human growth and development, social and cultural differences, case management and career development.
2. apply research theories and techniques.
3. assess clinical problems and plan effective treatment strategies.
4. recognize issues related to personality theories, human sexuality, psychopathology, diagnosis, and family dynamics in mental health populations. (Mental Health Students Only)
5. plan and implement guidance services for individuals and/or groups. (Guidance & Counseling Students Only)
6. analyze medical, psychosocial, and vocational aspects of disability and service delivery in order to promote integration of persons with disability into the work force and society. (Rehabilitation Counseling Students Only)

7. obtain area-appropriate licenses and/or certifications.
8. acquire entry-level positions in one's chosen area or a closely related area of counseling specialization.

SPECIAL ADMISSION REQUIREMENT

A personal interview may be required of students seeking the M.S. degree in the counseling program.

PROGRAM OUTLINE

All counseling specializations require completion of 39 semester hours of core courses plus the stated required courses for each specialization:

Core Courses (39 s.h.)

CSL	600	Legal & Ethical Issues in Counseling
EDU	601	Methodology of Research
CSL	610	Human Growth and Development
EDU	621	Psychological Measurement
CSL	629	Social and Cultural Issues in Counseling
CSL	652	Individual Counseling Procedures
CSL	653	Career Development and Life Work Planning
CSL	658	Group Counseling Procedures
CSL	686	Counseling Theories and Interventions
CSL	694	Counseling Practicum (6 s.h.)
CSL	699	Internship in Counseling (6 s.h.)

AREAS OF SPECIALIZATION:

The counseling specializations require the following:

GUIDANCE AND COUNSELING (9 s.h.)

Guidance and Counseling meets the academic requirements for certification as a school counselor in Florida. However, candidates for certification must acquire a Florida Professional Teaching Certificate before receipt of the guidance and counseling certification from the Florida Department of Education.

CSL	585	Principles of Guidance
CSL	591	Group Dynamics
CSL	682	Consultation Procedures

MENTAL HEALTH COUNSELING (18 s.h.)

Mental Health Counseling provides the course work necessary for functioning as a mental health counselor in applied settings; addresses the academic requirements for certification as a mental health practitioner and for licensure as a mental health counselor.

CSL	569	Mental Health
CSL	589	Introduction to Mental Health Counseling
CSL	591	Group Dynamics
CSL	650	Human Sexuality
CSL	680	Family Therapy
CSL	691	Personality Theories

REHABILITATION COUNSELING (9 s.h.)

Rehabilitation Counseling provides the knowledge and experience necessary for counseling the physically, mentally, socially disadvantaged, and/or emotionally impaired. The curriculum addresses the knowledge and skills required for certification as a rehabilitation counselor (C.R.C.) or insurance rehabilitation specialist (C.I.R.S.).

- CSL 639 Physical and Mental Disabilities
- CSL 683 Industrial Rehabilitation/Risk Management
- CSL 685 Rehabilitation Issues

ADDITIONAL SPECIALIZATIONS

More than one area of specialization may be completed by taking the specialty courses, practicum, and internship in each specialty. Only students who have completed the requirements for a given specialty will be endorsed for licensure/certification or employment in that area.

COURSE TIMES

Courses on the Barry campus are usually offered from 4:00-7:00 p.m. and 7:00-10:00 p.m. (Monday-Thursday) or on Saturday morning, 9:00-12:30 p.m., over the two (2) 15 week semesters. Some electives may be offered from 5:30-10:00 p.m. over a 10-week term. Summer classes typically meet twice per week for 3.5 hours over two six-week terms. Special eight-hour per day classes may also be offered. Students are asked to take at least 18 credits per year in order to facilitate completion of the program in a timely fashion.

ADDITIONAL GRADUATION REQUIREMENT

— The completion of a scholarly paper.

ADDITIONAL REQUIREMENTS

The faculty in the Counseling Program reserve the right to recommend entry into personal counseling or psychotherapy as a condition of continuation in the Counseling Program. Graduation from the program is recommended when students are personally and academically ready for entry into the counseling profession. Professional liability insurance coverage is required during matriculation in the Counseling Program.

MASTER OF SCIENCE EDUCATIONAL LEADERSHIP

Educational Leadership is a 36-semester-hour graduate program leading to the Master of Science degree in Educational Leadership and eligibility for the Florida Educational Leadership Certificate (K-12), Level I.

The program is designed to prepare students in the skills and competencies necessary to become outstanding leaders as principals of schools or in other mid-management positions in public and non-public educational institutions. The program includes the study of the dynamics of educational organizations and successful practices that enhance and improve schools and the people who work in them.

Following completion of the MASTER OF SCIENCE DEGREE in EDUCATIONAL LEADERSHIP, graduates will have acquired the ability to:

1. understand organizational development, plan effective change processes and improve institutional climate.
2. comprehend the processes necessary in decision-making, resource allocation, and management systems.
3. use competencies developed in the areas of instructional, institutional and human resource management.
4. project and communicate an articulate, positive position for education.

SPECIAL PREREQUISITES

- Applicant's statement of purpose which describes how past achievement, leadership, administrative talents, and goals relate to the decision to apply to the leadership program.
- Documentation of successful teaching or school experience.
- Interview with program advisor.

PROGRAM OUTLINE

The M.S. in Educational Leadership is a 36-semester-hour program that includes the eight Florida Leadership Domains. The following courses are offered in the program:

Each course is three (3) semester hours:

EDU 601	Methodology of Research
EDU 614	Educational Leadership I
EDU 615	Educational Leadership II
EDU 623	School and Community Relations
EDU 624	Instructional Design and Evaluation
EDU 637	The Principalship
EDU 674	School Law
EDU 675	School Finance
EDU 699	Internship in Educational Leadership
CED 687	Administrative Application of Technology

Elective Courses (6 s.h.)

Course Options:

EDU 603	Research Trends and Current Issues
EDU 628	Issues in Curriculum

PROGRAM OPTIONS

The program in Educational Leadership offers seven options to accommodate students' needs:

1. **Certificate Master's Track:** Students who do not possess a Master's degree and are planning to obtain Florida state certification in Educational Leadership can study for the Master's degree in the certification Master's track of the Educational Leadership Program (36 credits).
2. **Non-certificate Master's Track:** Students seeking a Master's degree who do not desire Florida State Certification may enter the non-certificate Master's

track (36 credits). With approval of the advisor, students are allowed flexibility in course electives and, depending on their experience and career goals, may substitute some of the core courses in the program for other courses designed to meet their professional needs.

3. **Certificate Track:** Students possessing a Master's degree and who are seeking a Florida State certificate may enter the certification track of the Educational Leadership Program (33 credits).
4. **Modified Certificate Track:** Students who possess a Master's degree and who possess a significant number of graduate educational leadership credits may enroll in the modified core track for certification. Program advisor and student mutually design a plan of study.
5. **National Catholic Educational Leadership Track:** This track is designed to meet the needs of Catholic school educators nation-wide. In conjunction with the advisor, the student enrolling in the National Catholic Educational Leadership track develops a plan of study to complete a Master's degree in Educational Leadership.
6. **International Student Track:** There is a special track for International Students to earn a Master's degree in Educational Leadership. Groups of international students may contact the program advisor to arrange for the development of an international students' study plan. The plan of study includes generic educational leadership courses as well as specific courses designed to meet students' identified needs.
7. **Recertification:** Students interested in Florida State recertification should contact program advisor.

ADDITIONAL GRADUATION REQUIREMENTS

- comprehensive examination must be taken after 24 s.h. and before the final course.
- an exit interview with the program advisor is required.

NOTE: The Adrian Dominican School of Education offers a Ph.D. in Administration and Leadership with a specialization in Educational Leadership.

MASTER OF SCIENCE ELEMENTARY EDUCATION

Elementary Education is a 30-semester-hour graduate program leading to the Master of Science degree. The purpose of the graduate Elementary Education program is to meet the continuing professional growth needs of elementary classroom teachers and to attain expanded teaching competencies through a study of theoretical and conceptual foundations with practical applications in the classroom. The program is one answer to the challenge of providing quality preparation for experienced practitioners to assume the role of teacher-leader at the school level.

The objectives of the Master of Science degree in Elementary Education are organized into a three-domain framework:

Domain 1— Description (Sources for Making Decisions)

Domain 2— Application (Elements for Development)

Domain 3— Implementation (Use and Evaluation of Description and Application).

Following completion of the MASTER OF SCIENCE DEGREE in ELEMENTARY EDUCATION, graduates will have acquired the ability to:

1. integrate a knowledge of children and schooling at the elementary level to make appropriate decisions about teaching/learning tasks.
2. plan and implement curriculum and instructional improvements at the elementary classroom level.

PROGRAM OUTLINE

Required courses are identified; elective courses are chosen by the student with advisor approval.

Description Framework (6 s.h. required)

EDU 516 Guiding Elementary Learning

EDU 595 Advanced Elementary Curriculum

Application Framework (18 s.h.)

Required Courses (6 s.h.)

EDU 601 Methodology of Research (required)

(Select one course)

EDU 505 Research and Current Trends in Elementary Curriculum and Instruction

EDU 510 Multicultural Education

EDU 567 Foundations of Reading Instruction

Elective Courses (12 s.h. - select four courses)

EDU 500 Comprehensive ESOL Strategies

EDU 514 Classroom Management

EDU 535 The Teaching of Language Arts in Elementary Education

EDU 551 Problem Solving in Elementary School Mathematics

EDU 554 Literature for the Elementary Classroom

EDU 566 Teaching Elementary Social Studies

EDU 568 Reading in the Content Area

EDU 590 Corrective Reading

EDU 594 Teaching Elementary Science

EDU 604 Teaching Vocabulary and Comprehension Skills

CED 680 Computer Applications in Elementary Education

Implementation (6 s.h. required)

EDU 605 Practicum in Elementary Curriculum and Instruction

EDU 606 Advanced Practicum in Elementary Curriculum and Instruction

Note: Courses accepted in lieu of any of the above must have an advisor-approved plan submitted to the Office of the Dean.

ADDITIONAL GRADUATION REQUIREMENT

— Written evaluation forms for Practicum EDU 605 and EDU 606 must be filed with the advisor.

ALTERNATIVE TRACK FOR CERTIFICATION

The certification track is designed for students who have completed a Bachelor's degree in a major other than elementary education and wish elementary certification. The program leads to a M.S. degree and elementary education certification and is delivered through a combination of ten-week courses, semester-long courses, and summer courses of varying time lengths. The ten-week courses match the ACE cycle. Presently, students are required to complete field work on Saturdays.

EDU 551	Problem Solving in Elementary School Mathematics
EDU 554	Literature for the Elementary Classroom
EDU 566	Teaching Social Studies
EDU 567	Foundation of Reading Instruction
EDU 584	Reading Diagnosis
EDU 594	Teaching Elementary Science

The following required undergraduate courses are offered on a semester basis:

ART 376	Art in the Elementary School
MUS 376	Teaching Music in the Elementary Schools
EDU 344	Teaching Health and Physical Education in the Primary/Elementary School

When students have completed the above courses, they are eligible for a temporary teaching certificate.

The student teaching requirement may be satisfied by:

- (1) two years' teaching experience on a temporary certificate or
- (2) completing Education 499 (Directed Student Teaching).

Once students have passed all Department of Education tests and have completed the following courses, they are eligible for a Professional Certificate.

EDU 151	Introduction to Education
EDU 218	Educational Psychology
EDU 417	Evaluation and Measurement in Education
EDU 516	Guiding Elementary Learning
EDU 595	Advanced Elementary Curriculum

Education 602, Education 605 and Education 606 complete the requirements for the Master of Science degree in Elementary Education.

MASTER OF SCIENCE EXCEPTIONAL STUDENT EDUCATION

Exceptional Student Education is a 33-semester hour graduate program leading to a Master of Science degree in Exceptional Student Education. This program offers a comprehensive background for those persons interested in the exceptional child in the classroom as well as those working in related professions such as regular elementary and secondary school teachers, guidance counselors, school psychologists and administrators.

The completion of the program leads to certification in the areas of learning disabilities and mental retardation. The program enables students to understand a variety of exceptionalities, to plan an appropriate program for an exceptional student, and to take an active role in staffing a child into the least restrictive environment.

Additional areas of certification in Exceptional Student Education are offered during the summer sessions in the "Summer Institute for Educators." Areas such as gifted education, emotionally handicapped, early childhood handicapped, hearing, vision and learning disabilities are available.

Following the completion of the MASTER OF SCIENCE DEGREE in EXCEPTIONAL STUDENT EDUCATION, graduates will have acquired the ability to:

1. identify a variety of exceptionalities.
2. assess the exceptional students' learning needs.
3. plan appropriate programs in cooperation with a multidisciplinary team.
4. implement and evaluate comprehensive student programs and progress (IEP).
5. coordinate multiple student plans.
6. respond effectively to administrative directives.
7. coordinate special education as part of the total education program in schools.

PROGRAM OUTLINE

All courses are required. Ordinarily, courses are scheduled on Saturdays and are offered in a cycle format.

SPECIAL REQUISITES FOR TEACHERS NOT CERTIFIED IN ELEMENTARY EDUCATION (12 s.h.)

Applicants must complete twelve (12) semester hours in teaching Elementary Reading, Elementary Arithmetic, Reading Diagnosis and Language Arts.

STUDENTS WORKING TOWARD TEMPORARY CERTIFICATION

To ensure that teachers of the exceptional student are competent professionally, they are required to complete four elementary education courses at Barry University, as well as the methods courses in the Exceptional Student Education program. The four courses are as follows:

- | | |
|---------|--|
| EDU 551 | Problem Solving in Elementary School Mathematics |
| EDU 567 | Foundations of Reading Instruction |

EDU 535 The Teaching of Language Arts in Primary Elementary Education

EDU 584 Reading Diagnosis

Please note some of these courses have a required field component.

On completion of the above courses, a student is eligible for temporary certification. It is the student's responsibility to complete all other courses and requirements necessary for professional certification.

Required Basic Courses

EDU 601 Methodology of Research

CED 678 Computer Applications in Exceptional Student Education

Required Exceptional Student Education Courses

EDU 511 Speech Correction for Children

EDU 540 Foundations of Mental Retardation

EDU 570 Introduction to Exceptional Children

EDU 573 Teaching of the Mentally Retarded

EDU 583 Educational Assessment of the Exceptional Child

EDU 635 Individualized Remedial Instruction for the Reading and Related Learning Disabled Child

EDU 636 Theories and Research in Reading and Related Learning Disabilities

EDU 638 Educational Management of Retarded Children

EDU 643 Evaluation of Children with Learning Disabilities

**MASTER OF SCIENCE
HUMAN RESOURCES DEVELOPMENT
AND ADMINISTRATION**

Human Resources Development and Administration is a 33- or 36-semester hour program leading to a Master of Science degree. The program meets the professional growth needs of adults aspiring to leadership careers or of those who want to improve their skills for continued success in their current work. It provides the knowledge and practical experiences to help adults become successful leaders, trainers, facilitators, administrators, supervisors, adult educators and mentors.

The program is designed for adults employed in the settings of business, government, community and private agencies, health, religious, technical, vocational and other people-powered agencies. A Master's degree in Human Resources Development and Administration serves the educational needs of trainers, supervisors and leaders and will assist them to facilitate in a positive, nurturing manner the changes and growth needs of those in their professional environment. The program prepares students to create a learning environment which enhances an organization's productivity.

Following completion of the MASTER OF SCIENCE DEGREE in HUMAN RESOURCES DEVELOPMENT AND ADMINISTRATION, graduates will have acquired the ability to:

1. project economic and fiscal trends for the future and to discuss their implications.
2. apply adult learning principles in presenting a workshop or training program.
3. use effective communication and behavioral skills in diagnosing and resolving learning problems in an organization.
4. identify separate and overlapping roles and responsibilities among human resource professionals.
5. apply appropriate change models to a select organizational setting.
6. apply appropriate research methodologies to an HRD problem or concern.

SPECIAL PREREQUISITE

Professional work experience is required of students entering the Human Resources Development and Administration Program.

PROGRAM OUTLINE

Core courses are required; electives are chosen by the student with advisor approval. Each course is three (3) semester hours.

Core Courses (21-24 s.h. required)

EDU 601	Methodology of Research
HRD 644	Leadership in Human Resources Development and Administration
HRD 645	Communication in Leadership
HRD 646	Dynamics of Change and Planning
HRD 647	Introduction to Instructional Design
HRD 659	Adult Learning and Motivation
HRD 678	Human Resources Development and Administration Practicum
HRD 679	Human Resources Development and Administration Internship (waived for HRD professionals)

Elective Courses (12 s.h.; select 4 courses)

HRD 628	Networking in HRD
HRD 648	Group Behavior in Organizations
HRD 649	Designing Supervisory Training Programs
HRD 653	Career Development and Life Work Planning
HRD 660	Designing Health and Wellness Programs
HRD 669	Consultant Activities in Leadership
HRD 670	Productivity and Quality
CED 668	Computer Applications for Adult Education
MBA 600	Management
MBA 601	Human Resources Management or
MBA 606	Ethical and Societal Issues for Management

Six (6) credits may be selected from other schools at Barry University with the approval of the Dean of the selected School and of the Human Resources Development and Administration advisor. The program is not designed for certification by the Florida Department of Education.

MASTER OF SCIENCE HUMAN RESOURCES DEVELOPMENT AND ADMINISTRATION WITH A SPECIALIZATION IN LEADERSHIP OF NOT-FOR-PROFIT/RELIGIOUS ORGANIZATIONS

The specialization in Leadership of Not-for-Profit/Religious Organizations is a 36-semester hour program leading to a Master of Science degree. The program meets the professional needs of adults who lead or who are aspiring to leadership positions in Not-for-Profit/Religious Organizations. The program provides the basis for sophisticated leadership and administrative knowledge necessary in a rapidly changing social milieu.

The program is designed for those people who, either as employees or volunteers, are or desire to be in leadership positions. The Master's degree is an opportunity for graduates to develop skills in collaboration with boards, working with governmental agencies, developing the potential of volunteer members and understandings in the federal regulations and laws pertaining to Not-for-Profit/Religious Organizations. A special feature of this program is the opportunity for leaders of Religious Organizations to focus on the unique features of their organization.

The overall goal of this specialization is to provide a foundation of sound knowledge, understanding, skills, ethical and moral perspectives for leadership and administration in a Not-for-Profit/Religious Organization. Following completion of the MASTER OF SCIENCE DEGREE SPECIALIZATION in NOT-FOR-PROFIT/RELIGIOUS ORGANIZATIONS of HUMAN RESOURCES DEVELOPMENT AND ADMINISTRATION, graduates will have acquired the ability to:

1. integrate the knowledge and skills necessary to lead and administer a Not-for-Profit/Religious Organization effectively.
2. clarify and evaluate a Not-for-Profit/Religious Organization in light of its mission statement.
3. develop, implement and evaluate a plan of leadership action for a Not-for-Profit/Religious Organization.

PROGRAM OUTLINE

Core courses are required; electives are chosen by the student with advisor approval. Each course is three (3) semester hours. A student may choose 18 semester hours of core courses and be awarded a Certificate in Leadership in Not-for-Profit/Religious Organizations.

Core Courses for Certificate Track (18 s.h. required)

(Courses chosen by student with advisor approval)

HRD	645	Communication in Leadership
HRN	603	Organizational Theories: NFP/Rel Org
HRN	606	Volunteers/Personnel in NFP/Rel Org
HRN	609	Stewardship and Development
HRN	633	Administrative Technology Application for NFP/Rel Org
HRN	648	Leadership and Administrative Practicum
THE	635	Ecclesiology: The Mystery of the Church
THE	655	Principles of Christian Morality

Enrollment in one semester (3 credits) of practicum work in which the student participates in an Not-for-Profit/Religious experience is required.

Core Courses for Master's Track (18 s.h. required)

EDU	601	Methodology of Research
HRD	645	Communication in Leadership
HRN	603	Organizational Theories: NFP/Rel Org
HRN	609	Stewardship and Development
HRN	633	Administrative Technology Applications for NFP/Rel Org
HRN	648	Leadership and Administration Practicum
THE	635	Ecclesiology: The Mystery of the Church
THE	655	Principle of Christian Morality

Enrollment in one semester (3 credits) of practicum work in which the student participates in an Not-for-Profit/Religious experience is required.

Elective Courses (18 s.h.; select 6 courses)

HRD	648	Group Behavior in Organizations
HRN	629	Boards/Councils Empowerment
HRD	646	Dynamics of Change and Planning
HRN	647	Special Issues Seminar
HRD	659	Adult Learning and Motivation
MBA	602	Public Administration
MBA	606	Ethical and Societal Issues for Management

(Note: Core courses not previously studied may also be chosen as electives)
Six credits may be selected, as electives, from other schools at Barry University with the approval of the Dean of the selected School and Not-for-Profit/Religious Organizations advisor. The program is not designed for certification by the Florida Department of Education.

**MASTER OF SCIENCE
MONTESSORI ELEMENTARY EDUCATION**

The Master of Science in Montessori Elementary Education is a 36-39 semester hour program. The purpose of the graduate Montessori Elementary Education program is to educate teachers with the professional competencies to implement the Montessori approach in the elementary classroom.

Following completion of the Master of Science Degree in Montessori Elementary Education, graduates will have acquired the ability to:

1. identify the learning needs of each elementary student.
2. integrate the knowledge, understanding, skills and values necessary to meet individual and group developmental needs.
3. analyze data from classroom observation to improve effectiveness of instruction.
4. design, organize and implement a developmentally appropriate program for the elementary age group in accordance with the Montessori philosophy
5. interpret student and classroom observable data to administrators, parents and the community.

PROGRAM OUTLINE

Required courses are identified; elective courses are chosen by the student with advisor approval.

Required (36 s.h.)

EDU 601	Methodology of Research
EDM 600	Montessori and the Child *
EDM 605	Language Arts for Montessori Teachers
EDM 628	Life Sciences for Montessori Teachers
EDM 629	Physical Sciences for Montessori Teachers
EDM 631	Math I for Montessori Teachers
EDM 632	Math II for Montessori Teachers
EDM 633	Humanities in the Montessori Classroom
EDM 649	Management for Montessori Teachers
EDM 659	Practicum I
EDM 660	Practicum II

*Waived for students with previous Montessori training.

Elective (3 s.h.)

EDU 567	Foundation of Reading Instruction
EDU 566	Teaching Social Studies
EDU 570	Introduction to Exceptional Children
EDU 594	Teaching Elementary Science
CED 680	Computer Applications in Elementary Education

ADDITIONAL GRADUATION REQUIREMENT

— Written verification of Practicum EDM 659 and EDM 660 must be filed with the advisor.

MASTER OF SCIENCE PRIMARY EDUCATION (Pending approval by Florida Department of Education)

The Master of Science Degree in Primary Education is a 30- semester hour program. The focus of the program is to meet the continuing professional growth needs of primary teachers. Emphasis is placed on a foundation of theoretical and conceptual considerations with practical applications at the classroom and school building levels.

The objectives of the Master of Science Primary Education Degree are organized into a three-domain framework:

Domain 1— Description (Sources for Making Decisions)

Domain 2— Application (Elements for Development)

Domain 3— Implementation (Use and Evaluation of Description and Application).

Following completion of the MASTER OF SCIENCE DEGREE in PRIMARY EDUCATION, graduates will have acquired the ability to:

1. integrate a knowledge of children and schooling at the early childhood level to make appropriate decisions about teaching/ learning tasks.
2. plan and implement curriculum and instructional improvements at the early childhood level.

PROGRAM OUTLINE

Required courses are identified; elective courses are chosen by the student with advisor approval.

Description Framework (6 s.h. required)

(select one course)

- EDU 539 Primary Programs, Curriculum, Instruction
- EDU 572 Primary Programs and Practices
(and the following course)
- EDU 515 Guiding Primary Learning

Application Framework (18 s.h.)

Required (6 s.h.)

- EDU 601 Methodology of Research
(select one course from the following)
- EDU 509 Multicultural Primary Education
- EDU 543 Research and Trends in Primary Education
- EDU 565 Language Acquisition in Primary Education
- EDU 625 Advanced Educational Psychology

Electives (12 s.h. – select four courses)

- EDU 514 Classroom Management
- EDU 536 Strategies for Primary Diagnostic—Prescriptive Instruction
- EDU 538 Teaching the Primary Mainstreamed Exceptional Student
- EDU 544 Problem Solving in Primary Mathematics
- EDU 547 Critical Thinking in Primary Science and Social Studies
- EDU 548 Literature for Young Children
- EDU 593 Child Study Skills for Primary Education
- EDU 607 Beginning Reading for the Primary Years
- CED 679 Computer Applications in Primary Education

Implementation (6 s.h. required)

- EDU 608 Practicum in Primary Curriculum and Instruction
- EDU 609 Advanced Practicum in Primary Curriculum and Instruction

Note: Courses accepted in lieu of any of the above must have an advisor approved plan submitted to the Office of the Dean.

ADDITIONAL GRADUATION REQUIREMENT

— Evaluation forms for Practicum EDU 608 and EDU 609 must be filed with the advisor.

MASTER OF SCIENCE READING

The Master of Science Degree in Reading (30 s.h.) is committed to offering opportunities for personal and professional growth for teachers who desire to extend their knowledge and skills in the field of reading. The purpose of advanced preparation in reading is to provide quality learning opportunities to meet the continuing professional needs of teachers and leaders at the elementary, middle, secondary and adult levels. Emphasis is placed on a foundation of reading research with practical classroom, school, and district applications.

Graduate students in Reading broaden their knowledge and gain greater teaching competencies in providing increased literacy to the educational community. The reading program is approved by the Florida State Department of Education and leads to Florida certification in reading K-12.

Following completion of the MASTER OF SCIENCE DEGREE in READING graduates will have acquired the ability to:

1. apply knowledge gained and skills learned to classroom teaching and to special literacy instruction.
2. demonstrate skill in teaching appropriate strategies for successful learning and reading.
3. integrate reading skills and concepts into a whole language arts curriculum.
4. plan, develop and implement special literacy programs in the school.

ADDITIONAL GRADUATION REQUIREMENT

— A practicum (EDU 717, Curricular and Supervising Problems in Reading) is required. Written verification must be filed with the advisor.

SPECIAL PREREQUISITES

Applicants must have completed a course in Children's Literature (undergraduate or graduate). The Reading sub-test of the Florida Teacher Certification Examination must be passed prior to the student's graduation unless the student is already certified in Reading.

Required Courses (27 s.h.)

EDU 601	Methodology of Research
EDU 517	Evaluation and Measurement in Education or
EDU 621	Psychological Measurement
EDU 535	Teaching Language Arts
EDU 567	Foundations of Reading Instruction
EDU 568	Reading in the Content Areas
EDU 584	Reading Diagnosis
EDU 590	Corrective Reading or
EDU 607	Beginning Reading for the Primary Years or
EDU 718	Developmental Reading

- EDU 634 Remedial Reading
- EDU 717 Curricular and Supervisory Problems in Reading
(Practicum)

Electives (3 s.h.)

- EDU 604 Teaching Vocabulary and Comprehension Skills
- EDU 611 Reading and Thinking Skills
- EDU 612 Teaching Reading to Secondary, College and Adult
Students
- EDU 613 Methods for the Reading Resource Teacher
- EDU 625 Advanced Educational Psychology
- EDU 630 Psychology of Reading
- EDU 631 Administration and Supervision of Reading Programs
- CED 676 Computer Applications in the Teaching of Reading

SPECIALIST IN EDUCATION

The School of Education, through the Educational Specialist degree, offers professionals a further opportunity to extend their knowledge and to develop their professional expertise. The Specialist degree, building upon the Master's degree, endeavors to promote excellent teaching, significant learning, quality leadership and creative research.

The School of Education offers Specialist programs in the following areas:

- COMPUTER EDUCATION**
- GUIDANCE AND COUNSELING**
- MENTAL HEALTH COUNSELING**
- READING**
- REHABILITATION COUNSELING**
- EXCEPTIONAL STUDENT EDUCATION (proposed Fall 1992)**

GENERAL ADMISSION REQUIREMENTS

- Master's degree from a regionally accredited college or university.
- Graduate grade point average of 3.0 (B) or higher.
- Two letters of professional recommendation for advanced graduate study.
- Florida Professional Teacher Certification or eligibility for certification only when enrolling in a state-approved certification program.

SPECIAL STUDENT STATUS

Applicants may be permitted to take three graduate courses (9 credits) in Education on the basis of a signed application and proof of a Master's degree from an accredited institution of higher education. Students under this status will not be allowed to register for courses beyond the 9-credit (3 courses) limitation.

GENERAL GRADUATION REQUIREMENTS FOR THE SPECIALIST DEGREE

- Successful completion of the stated number of required semester hours for each program, including the requisites listed and all required specialization courses.
- Maintain a grade point average of 3.00(B) or higher.

- Passing grade on a final written and/or oral comprehensive examination.
- Seven years are permitted to complete degree requirements from the date of initial matriculation.
- Processing of all graduate degrees can only be accomplished through student completion of appropriate University forms and procedures.

STANDARDS OF PROGRESS

All students must maintain a cumulative grade point average (GPA) of 3.0 or higher to remain in good academic standing. If a student's G.P.A. drops below 3.0, he/she is placed on academic probation. The student is allowed to remain on academic probation for a maximum of 12 credits of course work. If at the end of the probation period, the student has not raised his/her GPA to 3.0, he/she cannot remain in the program. Students must remain in good standing during the last six credits of a program.

TRANSFER CREDIT

- A maximum of six graduate credit hours may be transferred from an accredited college or university.
- Course work must be relevant to the discipline, at B level or better.
- Credits must be earned within the seven-year limitation set for the degree.
- Courses must be approved by the appropriate program advisor.
- Courses must not have been applied toward another degree.

SPECIALIST IN EDUCATION COMPUTER EDUCATION

The Educational Specialist Degree in Computer Education is a 36- semester hour program for educators and trainers who use computers in their disciplines or train individuals to use computers or teach specific Computer Science courses. This degree program is designed for educators who have completed a Master's degree in any educational field of study. Specific courses have been incorporated to reflect a higher level of research, synthesis, and application beyond the Master's level.

The program prepares educators and/or trainers who will be involved with students in an educational environment. The program track designated as Computer Science Education has been developed to meet all Computer Science (K-12) certification requirements stipulated by the Florida Department of Education. The program track designated as Computer Applications in Education has been developed to meet the needs of educators who want to use computers effectively in their content area.

Following the completion of the SPECIALIST DEGREE IN COMPUTER EDUCATION, graduates will have acquired the ability to:

1. demonstrate their functional knowledge of methods and strategies for teaching the content in computer application courses and/or computer science courses.
2. design and develop computer-based materials for teaching and learning which reflect the needs of students.

3. evaluate, select and integrate computer hardware and software technologies to support the instructional process.
4. apply current instructional principles, research and appropriate assessment practices to the effective instructional uses of computers and related technologies.
5. demonstrate uses and benefits of computers for problem solving, data collection, information management, communications, presentations and decision making for teachers and students.
6. demonstrate knowledge of the characteristics and capabilities of computer hardware and software and their applications for instructional delivery and management.
7. demonstrate their knowledge and skills for the use and application of software productivity tools and/or computer languages within educational environments.

The courses in the Graduate Computer Education Programs enable educators to utilize technology tools in order to improve the teaching and learning that takes place in the classroom. These courses use a variety of software which includes those generic to all disciplines and those specific only to education. Students needing additional time to become proficient with the mechanics of hardware and software operations/functions, are required to spend appropriate time outside class. Applicants must have teaching experience in educational institutions and must have basic computer skills before entering the CED program. Permission of the advisor is needed prior to the first computer education course. Barry University makes available several learning resources for obtaining these needed skills. These include: audio-visual materials, interactive multimedia materials, computer software tutorials, tutorial print materials, staff members for consultation and training courses. Support services are available through the Academic Computing Center.

PROGRAM TRACKS

COMPUTER SCIENCE EDUCATION (36 s.h.)

Required Courses (33 s.h.)

EDU 708	Directed Research
CED 505	Introduction to Computers in Education
CED 534	Using Software for Educational Applications
CED 603	Programming with Applications in Education: BASIC
CED 604	Programming with Applications in Education: PASCAL I
CED 605	Programming with Applications in Education: PASCAL II
CED 606	Advanced Programming with Applications in Education
CED 627	Teaching Computer Programming
CED 639	Computer Technology Applications for Education
CED 653	Computer Communications in Education
CED 705	Seminar: Computer-based Technology in Education

Elective Courses (3 s.h.)

The elective course must be a computer language course.

COMPUTER APPLICATIONS IN EDUCATION (36 s.h.)

Required Courses (33 s.h.)

EDU 708	Directed Research
CED 505	Introduction to Computers in Education
CED 534	Using Software for Educational Applications
CED 560	Teaching with Computer Technologies in the Classroom
CED 603	Programming with Applications in Education: BASIC
CED 607	Design and Evaluation of Computer-Based Education
CED 609	Courseware Generators
CED 639	Computer Technology Applications for Education
CED 641	Implementing Computer Assisted Instruction
CED 653	Computer Communications in Education
CED 705	Seminar: Computer-based Technology in Education

Elective Courses (3 s.h.)

The elective course must be a computer language course.

Suggested Elective Courses

CED 545	Software-Based Instructional Tools
CED 560	Teaching with Computer Technologies in the Classroom
CED 600	Programming with Applications in Education: LOGO
CED 607	Design and Evaluation of Computer-Based Education
CED 609	Courseware Generators
CED 627	Teaching Computer Programming
CED 631	Computer-Assisted Instruction I
CED 632	Computer-Assisted Instruction II
CED 641	Implementing Computer-Assisted Instruction
CED 670 - CED 688 (Discipline Application Courses)	

Other computer education elective courses are listed in the catalog.

SPECIALIST IN EDUCATION PROGRAMS IN COUNSELING

The Educational Specialist Degree in Counseling requires 30 to 60 semester hours of study. The exact number of semester hours required for the degree is determined by the development of a plan of study with the Program Advisor at the time of admission. Failure to complete a plan of study may necessitate taking the maximum number of credits required for receipt of the degree.

Following the completion of the SPECIALIST DEGREE in the COUNSELING PROGRAMS, graduates will have acquired the ability to:

1. demonstrate knowledge of specific counseling theories and techniques in human growth and development, social and cultural differences, case management and career development.
2. apply research theories and techniques.
3. assess clinical problems and plan effective treatment strategies.

4. recognize issues related to personality theories, human sexuality, psychopathology, diagnosis and family dynamics in mental health populations. (Mental Health Students Only)
5. plan and implement guidance services for individuals and/or groups. (Guidance & Counseling Students Only)
6. analyze medical, psychosocial and vocational aspects of disability and service delivery in order to promote integration of persons with disability into the work force and the society. (Rehabilitation Counseling Students Only)
7. obtain area-appropriate licenses and/or certifications.
8. acquire entry-level positions in one's chosen area or a closely related area of counseling specialization.

SPECIAL ADMISSION REQUIREMENT

A personal interview may be required of students seeking the ED.S. degree in a counseling program.

ADDITIONAL GRADUATION REQUIREMENT

— Completion of a scholarly paper.

TRANSFER CREDIT

A maximum of thirty graduate semester hours may be transferred into a Counseling Program.

ADDITIONAL REQUIREMENTS

The faculty in the Counseling Program reserve the right to recommend entry into personal counseling or psychotherapy as a condition of continuation in the Counseling Program. Graduation from the program is recommended when students are personally and academically ready for entry into the Counseling profession. Professional liability insurance coverage is required during matriculation in the Counseling Program.

Required Courses (39 s.h.)

CSL	600	Legal and Ethical Issues in Counseling
EDU	601	Methodology of Research
CSL	610	Human Growth and Development
EDU	621	Psychological Measurement
CSL	629	Social and Cultural Issues in Counseling
CSL	652	Individual Counseling Procedures
CSL	653	Career Development and Life Work Planning
CSL	658	Group Counseling Procedures
CSL	686	Counseling Theories and Intervention
CSL	694	Practicum (6 s.h.)
CSL	699	Internship in Counseling (6 s.h.)

AREAS OF SPECIALIZATION (9-18 s.h.)

Mental Health Counseling (18 s.h.)

CSL	569	Mental Health
CSL	591	Group Dynamics

- CSL 650 Human Sexuality
- CSL 651 Counseling the Mentally Ill
- CSL 680 Family Therapy
- CSL 691 Personality Theories

Guidance and Counseling (9 s.h.)

- CSL 585 Principles of Guidance
- CSL 591 Group Dynamics
- CSL 682 Consultation Procedures

Rehabilitation (9 s.h.)

- CSL 639 Physical and Mental Disabilities
- CSL 683 Industrial Rehabilitation
- CSL 685 Rehabilitation Issues

Electives

- Guidance and Counseling (12 s.h.)
- Mental Health Counseling (3 s.h.)
- Rehabilitation Counseling (12 s.h.)

Note: Courses accepted in lieu of any of the above must have an advisor-approved plan submitted to the Office of the Dean.

Note: The Adrian Dominican School of Education offers a Ph.D. in Administration and Leadership with a specialization in Counseling.

**SPECIALIST IN EDUCATION
PROGRAM IN READING**

The Ed.S. or Specialist in Education degree program in Reading is a 30-semester hour program beyond the Master's degree. This advanced program is designed for teachers and leaders at the K-12, community college and adult levels.

All course work for the degree of Specialist in Education must be completed within seven years of admission to the program.

Following completion of the SPECIALIST DEGREE PROGRAM IN READING, graduates will have acquired the ability to:

1. apply knowledge of reading research to improve literacy instruction.
2. demonstrate refined teaching strategies for improved reading and learning.
3. model the integration of reading in the whole language arts curriculum.
4. provide literacy leadership at the school and district levels.

ADDITIONAL GRADUATION REQUIREMENT

— A practicum (EDU 717, Curricular and Supervising Problems in Reading) is required in lieu of a comprehensive examinations. Written verification must be filed with the advisor.

SPECIAL PREREQUISITES

Four reading courses (undergraduate or graduate) (12 s.h.)

Required Courses (9 s.h.)

- EDU 708 Directed Research
- EDU 717 Curricular and Supervisory Problems in Reading
(Practicum)
- EDU 739 Non-Thesis Research in Reading or
- EDU 740 Thesis Research in Reading

Select seven courses from the following: (21 s.h.)

- EDU 535 Teaching of Language Arts
- EDU 604 Teaching Vocabulary and Comprehension Skills
- EDU 607 Beginning Reading for the Primary Years
- EDU 611 Reading and Thinking Skills
- EDU 612 Teaching Reading to Secondary, College, and Adult
Students
- EDU 613 Methods for the Reading Resource Teacher
- EDU 630 Psychology of Reading
- EDU 631 Administration and Supervision of Reading Programs
- EDU 701 Advanced Study in Education
- EDU 716 Advanced Diagnosis and Remediation in Reading
- EDU 718 Developmental Reading
- EDU 723 Advanced Seminar in Reading
- CED 641 Implementing Computer-Assisted Instruction
- CED 676 Computer Applications in Teaching Reading

Note: Courses accepted in lieu of any of the above must have an advisor-approved plan submitted to the Office of the Dean.

**DOCTOR OF PHILOSOPHY
IN ADMINISTRATION AND LEADERSHIP**

The School of Education offers the Doctor of Philosophy (Ph.D.) degree in Administration and Leadership with specialization areas in **Counseling and Education (Educational Leadership)**.

The doctoral program is an integrated study of leadership and administration in a selected area of specialization and research experiences, including a dissertation. The program's hallmark is the clear priority given to preparing the doctoral student for a leadership and administration role in a meaningful context. This is achieved through an area of specialization emphasis, a framework of courses, practicums/internships and other opportunities in a leadership setting. Leadership and administration do not occur in isolation; one works toward such a role within a chosen area. This perspective recognizes that leadership and administration occur in a meaningful setting.

The program is for practicing and potential leaders in a variety of settings: education, health care, social service, religion, business and government. It is for students who want to acquire the competencies and attitudes necessary to become outstanding leaders and administrators in a particular area of specialization, to investigate problems with originality and scholarship and to be involved in study that enhances and improves organizations.

Following the completion of the Ph.D. IN ADMINISTRATION AND LEADERSHIP, graduates will have acquired the ability to:

1. analyze and synthesize the knowledge and understandings of the process dimensions of administration and leadership.
2. apply the theories and concepts of administration and leadership to the practical aspects associated with one's area of specialization.
3. clarify one's ethical and moral perspectives and relate this perspective to personal and professional goals.
4. develop and implement an independent research investigation.
5. assess and contribute to the literature related to one's area of specialization.
6. continue to renew and extend the understandings and competencies acquired in the program.

ADMISSION REQUIREMENTS

- A completed application.
- A Master's or higher degree in the appropriate area of specialization or closely related area from a regionally accredited college or university.
- Graduate GPA of 3.25 (A = 4.0).
- 50th percentile in one of the aptitude sections of the GRE— Verbal, Analytical, or Quantitative; score from the GRE must be dated within 8 years preceding application.
- Three letters of professional recommendation for doctoral study.
- An interview.
- In certain cases, depending on career goals, students may be required to take certain courses as requirements in preparation for certification or licensure.
- International students must also observe special policies and procedures for the admission of international students (see the section in this catalog).

There is a two-tier screening for admission. The first screening involves a review of the admission materials; the next tier is an interview with the Doctoral Review Committee and selected faculty. When the student is admitted, an advisor will be appointed to help the student make a tentative Plan of Study; the plan will be individualized to meet the student's career goals. A student may not enroll for more than nine semester hours of credit without being fully admitted to the doctoral program. The coordinator will be the advisor for students who have not been admitted fully.

A maximum of twelve (12) post-Master's credits will be considered for transfer. Transfer credits must have been taken within 8 years preceding application and be directly related to the student's Planned Program of Study. Only those courses in which a student has earned a grade of B or better may be used for transfer credits. International transfer credits must be from an accredited college or university.

DEGREE REQUIREMENTS

A minimum of 62 semester hours beyond the Master's degree is required.

- Administration and Leadership Core — minimum 18 credits.
- Research Tools — 12 credits.

- Area of Specialization — 18 credits (Counseling or Educational Leadership).
- Electives inside or outside declared area of specialization.
- Residency (can be met through part-time or full-time enrollment — 2 credits).
- Comprehensive examinations.
- Candidacy.
- Dissertation — 6-15 credits.

PLAN OF STUDY

A Plan of Study which meets the doctoral student's career goals will be developed by the student and the advisor. A preliminary program of doctoral study, excluding dissertation credit, must be submitted to the coordinator before the end of the student's second semester after being admitted to doctoral study. A final Plan of Study must be submitted to and approved by the coordinator prior to the completion of 18 semester hours.

Comprehensive examinations are required.

Requirements, including the dissertation, must be completed by the end of eight calendar years beginning with the date the student first registers as a student for the Ph.D. Administration and Leadership Program.

All fees must be paid and requirements for the degree must be completed and reported to the Coordinator no later than two weeks prior to graduation. A student must enroll for at least three hours of credit in the semester in which graduation requirements are completed.

Course Descriptions — Administration and Leadership Prefix: ADL

705 Theories of Leadership (3)

Describes theories of leadership, studies the relationship between leadership style and organizational change and examines the implementation process of a leader's vision.

709 Ethical and Legal Issues (3)

Explores the issues of ethical, moral and legal development relevant to formulating a personal philosophy of leadership and administration and developing a continuing renewal of personal and professional growth for oneself and others.

713 Program Planning (3)

Overviews how to use a systematic planning process to set priorities; provides an organized approach to policy development and program implementation and describes evaluation procedures.

717 Human Resources Development (3)

Uses team building, group dynamics, and interpersonal sensitivity to motivate and inspire individuals and groups to work toward common goals.

721 Policy Development (3)

Examines the process to identify problems and how to achieve solutions consistent with an organization's vision; uses critical thinking and analytic reasoning as problem and policy framing skills for continued renewal.

725 Financial Administration (3)

Compares and contrasts for-profit, not-for-profit, public organizations; examines the conventions of revenue and expenditure budgeting; presents the basic principles of proposal writing and grantsmanship.

729 Directed Study in Leadership (3)

Offers opportunities to pursue, under the direction of an instructor, an area of special leadership interest to the student.

733 Advanced Study in Leadership (3)

Offers a supervised advanced study experience in recent developments, issues and trends in leadership and administration.

750 Contemporary Topics Seminar (1)

Addresses current issues and problems encountered by leaders and administrators in a multicultural setting; enrollment is required during the residency.

799 Dissertation (1-6)

Culminates the research of the doctoral program; methods of inquiry must be appropriate to the problem being investigated.

Course Descriptions — Counseling Prefix: CSL

758 Advanced Counseling Techniques (3)

Explores the latest theories and techniques in counseling. Students are expected to review the literature on specific counseling techniques and identify their efficacy for use with specific counseling populations. Application of techniques to clinical problems is emphasized.

794 Advanced Counseling Practicum (3)

Provides the opportunity for students to field-test basic concepts and strategies in counseling administration and leadership learned throughout the curriculum. Students are required to supervise other counselors, develop specific counseling interventions, evaluate counseling programs, and provide leadership in planning and administering counseling programs. A minimum of 75 hours of field experience is required for each three (3) credits earned. Weekly group and individual meetings with faculty and an on-site supervisor are required. Prerequisites: Leadership core courses, appropriate counseling courses and permission of the program advisor.

799 Advanced Counseling Internship (3)

Links the administration and leadership concepts and techniques learned in core courses with the specific counseling theories and techniques learned through the area of specialization courses. Emphasizes application of learning to representative roles and responsibilities of leaders in counseling settings. Students are required to develop a specific work plan detailing goals, activities, and outcomes associated with the internship. Approval of the site and work plan by the program advisor and instructor is required. Typically, 320 hours of field experience are required for each three (3) credits earned. Individual and group supervision is provided by a field supervisor. Periodic site visits and group supervision by faculty are required. Prerequisites: All leadership core courses, appropriate area of specialization courses, and permission of the program advisor.

Course Descriptions — Educational Leadership Prefix: EDU

701 Advanced Study in Education (3)

Offers opportunities to pursue a research project with the guidance of an advisor in areas of special interest to the student; approval of program advisor required.

708 Directed Research (3)

Investigates a significant problem in education with an emphasis in the student's area of specialization culminating in a project describing the research. Prerequisite: EDU 601.

710 Politics of Education (3)

Examines the political aspects of schooling. Students will become familiar with community power structures; the local electoral process; how boards of education function; how the school interacts with community pressures and needs; who is best and least well served and why.

726 Educational Evaluation (3)

Examines program assessment and organizational outcomes with an emphasis on terminology, models, standards, practices and common problems associated with evaluation.

730 Theories and the Use of Theories (3)

Engages students in learning experiences to examine the empirical and practical uses of theories as a means of effective leadership.

735 Advanced Curriculum Theory and Planning (3)

Examines curriculum designs to identify and determine: an optimum set of educational objectives for students' settings, subject matter and advantageous learning experiences which best accomplish these objectives. Students will be required to identify ways they will evaluate the curriculum if the objectives are to be realized.

794 Practicum (3)

Links as a practicum the administration and leadership core courses with the Education (Educational Leadership) courses. Students are required to practice administrative leadership in a site selected through an agreement with the professor and under the guidance of a university professor. Prerequisites: Administration and Leadership core, appropriate educational leadership courses and approval of program advisor.

Course Descriptions - Research Prefix: RES

711 Experimental Research Design (3)

Examines theory and practice in experimental research methods. Emphasizes hypothesis building, experimental design, measurement, data collection and statistical analysis. Explores the impact of computers on research methodology.

712 Alternative Research Designs (3)

Explores research designs other than conventional experimental designs. Examines survey and qualitative research methods, content analysis, historical and comparative research, action research, meta-analysis, aggregate data analysis, policy research, program validation research and field observation.

713 Research Data Analysis (3)

Reviews and expands upon the statistical techniques studied in RES 711 and 712. The focus is on learning specific techniques for computer analysis of research data. The professional responsibility of the researcher to follow high ethical standards in the use of subjects, data collection and data reduction and reporting will be emphasized. Prerequisites: RES 711 and 712.

787 Doctoral Research Seminar (3)

Assesses researchable questions in leadership and administration in a student's area of specialization resulting in a dissertation proposal.

Course Descriptions - Computer Education Prefix: CED

505 Introduction to Computers in Education (3)

Provides a comprehensive introduction to the broad role of computers in education. The computer is examined both as a subject of instruction as well as a tool for the professional educator. Prerequisite: Permission from advisor.

520 Teaching Computer Literacy (3)

Provides an investigation of the major issues involved in cognitive and functional computer literacy and prepares teachers to plan and implement such computer education. Prerequisite: CED 505.

534 Using Software for Educational Applications (3)

Enables educators to repurpose generic computer software for classroom use. This course will include a variety of educational applications and strategies which are facilitated with word processing, data base management, spreadsheet graphics, and telecommunications software. Prerequisite: CED 505.

545 Software-Based Instructional Tools (3)

Investigates a variety of specialized software in relation to their benefits in developing materials and methods for the presentation and management of instruction. Prerequisite: CED 505.

560 Teaching With Computer Technologies in the Classroom (3)

Provides an investigation of the relative benefits and utilization of various computer technologies with respect to their pedagogical value. Participants will be introduced to special problems and methods of teaching and applying computer technologies in a variety of content areas. Prerequisite: CED 534.

600 Programming With Applications in Education: LOGO (3)

Prepares educators to learn and apply the LOGO language for the purpose of developing programs for their disciplines and/or teaching programming skills to students in the K-12 classroom. (Formerly CED 614). Prerequisite: CED 505.

603 Programming With Applications in Education: BASIC (3)

Prepares educators to learn and apply the BASIC language for the purpose of developing programs for their disciplines and/or teaching programming skills to students in the K-12 classroom. (Formerly CED 621). Prerequisite: CED 505.

604 Programming With Applications in Education: PASCAL I (3)

Prepares educators to learn and apply the PASCAL language for the purpose of developing programs for their disciplines and/or teaching programming skills to students in the K-12 classroom. (Formerly CED 612). Prerequisites: CED 603.

605 Programming With Applications in Education: PASCAL II (3)

Prepares educators to learn and apply the advanced PASCAL language for the purpose of developing programs for their disciplines and/or teaching programming skills to students in the K-12 classroom. (Formerly CED 613). Prerequisite: CED 604.

606 Advanced Programming With Applications in Education (3)

Prepares educators to learn and apply the Data Structures and Algorithms for the purpose of developing programs for their disciplines and/or teaching programming skills to students in the K-12 classroom. (Formerly 618). Prerequisite: CED 604.

607 Design and Evaluation of Computer-Based Education (3)

Provides the student with an overview of instructional systems design, learning theory, and learning research. Each of these is then applied to the development and evaluation of Computer-Based Education materials. Prerequisites: CED 505 and CED 603.

608 Programming With Applications in Education: C (3)

Prepares educators to learn and apply the C language for the purpose of developing programs for their disciplines and/or teaching programming skills to students in the K-12 classroom. (Formerly CED 620). Prerequisite: CED 604.

609 Courseware Generators (3)

Provides an introduction to applications and methods for generating instructional courseware. Several commercially available courseware generators will be used to create courseware which can be integrated in a variety of curricula. Prerequisite: CED 505.

627 Teaching Computer Programming (3)

Provides an investigation of the relative strengths and weaknesses of various computer languages with respect to their pedagogical value. Participants will be introduced to the special problems and methods of teaching computer programming to individuals of various backgrounds at the K-12 levels. Prerequisites: CED 603 and 604.

631 Computer-Assisted Instruction I (3)

Provides an introduction to CAI with emphasis upon the principles of instructional systems design. Courseware developed will be primarily linear and verbal lessons of simple design to permit emphasis on development techniques and validation. Prerequisite: CED 604 or 605.

632 Computer-Assisted Instruction II (3)

Focuses on branching lesson designs, and employs advanced graphics, sound and simulation techniques. Prerequisites: CED 631 and CED 605 or CED 609.

635 Educational Computing Hardware (3)

Examines a variety of microcomputer hardware and technical functions. Special emphasis given to educational applications and auxiliary equipment with educational usefulness. Prerequisite: CED 505.

639 Computer Technology Applications for Education (3)

Surveys microprocessor driven hardware technologies and their uses for learning and the management of the learning process. Special emphasis is given to the devices that enable a computer to accept, analyze and report information for educational purposes. Prerequisite: CED 505.

641 Implementing Computer-Assisted Instruction (3)

Examines all aspects of the CAI program from planning facilities to courseware selection and program management. Prepares teachers to function within a CAI environment in a traditional school setting. Prerequisite: CED 505.

653 Computer Communications in Education (3)

Explores communications technology as it relates to computers and pedagogical applications of computers and the use of appropriate educational data accessed. Prerequisite: CED 505.

671 Computer Applications in Business Education (3)

Prepares the Business Education teacher to use the microcomputer in a variety of business education applications. Emphasis is placed upon the identification, evaluation and integration of specialized Business Education CAI courseware. Prerequisite: CED 534.

672 Computer Applications in Teaching English (3)

Prepares teachers of English to use the many applications of microcomputers in their teaching. The use of microcomputers to create an educational environment for the teaching of English is emphasized. Includes the identification, evaluation and integration of CAI courseware for the development of skills such as vocabulary, spelling and writing. Prerequisite: CED 505.

673 Computer Applications in Math Education (3)

Prepares Math teachers to use the computer as a teaching and learning tool in the math classroom. Includes the identification, evaluation and integration of CAI courseware in the development of mathematical skills and concepts. Prerequisite: CED 505.

674 Computer Applications in Science Education (3)

Prepares Science teachers to deal with the computer as content and a teaching and learning tool in the science classroom. Emphasis is placed on identification, evaluation and integration of CAI courseware and hardware in the science area. Prerequisite: CED 505.

676 Computer Applications in the Teaching of Reading (3)

Prepares Reading teachers to use a variety of the attributes of computers in the teaching of reading. Emphasis is on the diagnostic, remedial and record-keeping strengths of computers. Prerequisite: CED 505.

678 Computer Applications in Exceptional Student Education (3)

Prepares Exceptional Student Education teachers to use the unique strength of computers for diagnostic remediation and record-keeping in the remedial education environment. Prerequisite: CED 505.

680 Computer Applications in Elementary Education (3)

Prepares Elementary School teachers to implement a variety of computer applications in various disciplines. Emphasis is upon the use of CAI courseware to augment the elementary school curriculum. Prerequisite: CED 505.

684 Computer Applications in the Media Center (3)

Prepares Media Coordinator to use a variety of the attributes of computers for maintaining an efficient media center. Emphasis is on computer management for various record keeping tasks. Prerequisite: CED 505.

686 Computers, Creativity and Critical Thinking (3)

Prepares teachers to deal with advanced students working on individualized projects involving computers. Presents special techniques for using the computer to enhance student abilities. Prerequisite: CED 505.

687 Administrative Applications of Technology (3)

Prepares the student to be able to apply computer technology to the areas of administration and instruction in educational institutions. Prerequisite: CED 505.

688 Computer Applications for Adult Education (3)

Prepares the adult educator to utilize the computer for a variety of applications. Emphasis is placed on the instructional and administrative applications that would benefit the adult learner. Prerequisite: CED 505.

689 Computer Applications in Teaching ESOL (3)

Prepares teachers of LEP students to use computers to enhance teaching and student learning. Emphasizes the use of computer technology to assist educators in accomplishing the following ESOL strategies: 1) Methods of teaching English to speakers of other languages, 2) ESOL curriculum and materials development, 3) Cross-cultural communication and understanding or 4) Testing and evaluation of ESOL. Prerequisite: CED 505.

690 Special Topics (1-6)

Explores current issues and/or topics in computer education. Content will be determined by the department to fill specific needs and interests. Prerequisite: Permission from advisor.

700 Independent Study (1-6)

Provides the student the opportunity to study one or more selected areas of computer science education under the guidance of a faculty member. Prerequisite: Departmental approval.

705 Seminar: Computer-Based Technology in Education

Examines current research and theories related to applications of computer-based technology in education. Includes new strategies for restructuring curriculum and learning environment to integrate technology. Prerequisite: Departmental approval.

710 Practicum (3-6)

Requires the creation of a product such as CAI courseware or a simulation. The student must develop the product, field-test and evaluate it and refine it into publishable form. Prerequisite: Departmental approval.

720 Internship (3-6)

Provides the student with the opportunity to select and serve an internship. Selection will be done in consultation with an advisor. The internship is measured, in part, as a function of time and at least 160 hours (80 hours/3 credits) of service must be logged. Prerequisite: Departmental approval.

730 Thesis (6)

Provides the students with the opportunity to undertake a more theoretical and experimental effort within their degree requirements. A committee will be selected to supervise the progress of the students' efforts. Prerequisite: Departmental approval.

Course Descriptions — Counseling Prefix: CSL

522 Guidance and Counseling of Gifted Students (3)

Focuses on the guidance and counseling of exceptional children, including special personality needs and strategies for intervention.

569 Mental Health (3)

Introduces the DSM III-R as a diagnostic systems, examines the dynamics of psychopathology and identifies the criteria associated with specific mental disorders. Case material and analyses are presented.

585 Principles of Guidance (3)

Overviews the structure of guidance programs in various school settings, identifies the administrative and clinical responsibilities of the guidance counselor, addresses specific student concerns and describes specific interventions appropriate for use with children.

588 Crisis Intervention (3)

Investigates and analyzes theories and techniques in crisis intervention with particular emphasis on situational and developmental crises.

589 Introduction to Mental Health Counseling (3)

Introduces qualitative methods used in clinical assessment and diagnosis, reviews the DSM-III and psychopharmacology and emphasizes intake interviewing and treatment planning. Examines the history and philosophy of mental health services, including the mental health counselor's role as a member of a multidisciplinary treatment team, consultant and community advocate. Prerequisites: CSL 569, CSL 652 and CSL 686.

591 Group Dynamics (3)

Provides an opportunity for face-to-face group experience. Emphasizes the psycho-social approach to group functions and fosters development of personal identity, self and social control.

600 Legal and Ethical Issues in Counseling (3)

Examines the historical development of counseling as a profession, identifies professional organizations, discusses the ethical standards established by these organizations, examines licensure laws and national certification standards in counseling and overviews the rights of consumers.

610 Human Growth and Development (3)

Discusses life-span theories of development, models of moral, intellectual, and sexual development, normal and abnormal behavior and learning theories and relates them to the needs of specific client populations.

629 Social and Cultural Issues in Counseling (3)

Identifies the needs and issues relevant to counseling special populations such as women, the physically handicapped, the mentally impaired, Blacks, Hispanics, American Indians, children, victims of abuse, the poor and the aged. Application of counseling methods to solving the unique problems of these special populations is encouraged.

639 Physical and Mental Disabilities (3)

Overviews the physical and mental aspects of specific disabilities and assesses their impact upon the rehabilitation process. Management of the medical, psychiatric, psychological and social services delivered to clients with specific disabilities is discussed.

650 Human Sexuality (3)

Examines theories and etiology of human sexuality, sexual development, and sexual role expectations. Particular attention is given to exploration of sexual attitudes, values, and behavior. The biological, psychological, cultural and social implications of sexuality are discussed.

652 Individual Counseling Procedures (3)

Presents the major theories and practices in individual counseling. Topics include case conceptualization, treatment planning, case management, relationship building, problem-solving and outcome assessment. Students may be required to conduct individual counseling sessions outside of class with a population appropriate to their area of specialization.

653 Career Development and Life Work Planning (3)

Overviews the major theories and skill areas in educational planning, career development and work motivation. Emphasis is placed on understanding career decision making, using appropriate information and assessment techniques and applying knowledge and skills to planning and conducting career development activities in appropriate counseling settings. Resume development and job seeking skills are taught.

657 Advanced Group Dynamics (3)

Presents concepts, research, and theory relative to the small group process. Students participate in small advanced, face-to-face task groups. Emphasis is placed on developing competencies in self-intervention and growth as well as competence in the processes of small group phenomena such as interpersonal communication, feedback, norms, decision-making, leadership, authority and membership. Prerequisite: CSL 591 and permission of instructor.

658 Group Counseling Procedures (3)

Discusses major concepts in group counseling theory and practice. Students develop competence in group counseling relationships. Students may be required to conduct group counseling sessions in an appropriate setting. Prerequisite: CSL 652.

660 Designing Health, Wellness, and Employee Assistance Programs (3)

Examines the principles of designing, organizing and administering health and wellness programs within organizations. Emphasis will be given to program design, program leadership and activity and participant evaluation.

680 Family Therapy (3)

Investigates the theories and practices of family therapy. Current models of therapy are studied and applied in practice sessions. Prerequisites: CSL 591, 652, 658.

682 Consultation Procedures (3)

Presents the principles and theories of consultation and examines the practices of the counselor as a consultant in schools and related settings. Process models of consultation are discussed.

683 Industrial Rehabilitation/Risk Management (3)

Examines the principles of disability risk management, basic insurance and legal concepts and the roles of the risk manager and rehabilitation counselor in risk management. Cooperation between the human resources and rehabilitation professionals in case management, job modification, job placement and expert testimony is emphasized. Case studies and simulated expert testimony may be required.

684 Counseling Supervision (3)

Discusses the theories and models of counselor supervision. Requires students to apply knowledge and skills to supervision of counselor trainees. Prerequisites: CSL 652, 658, 686, 694.

685 Rehabilitation Issues (3)

Overviews the history and development of rehabilitation counseling, examines the functions of the rehabilitation counselor in a variety of settings and addresses the current issues and trends in the field.

686 Counseling Theories and Interventions (3)

Examines various counseling theories and interventions and their application to the problem identification and intervention phases of the counseling process. Students may be required to prepare case studies and to demonstrate selected techniques. Prerequisites: CSL 652.

687 Marital and Family Systems (3)

Explores the systems approach to marital and family counseling and facilitates understanding of marital and family problems from a systems perspective.

688 Marital Therapy (3)

Examines the theory and techniques associated with marital and conjoint therapies. Case examples are provided. Prerequisites: CSL 680 and 687.

689 Issues in Marriages and Family (3)

Identifies the latest trends and issues affecting marital and family systems and discusses their impact upon marriage and family function.

691 Personality Theories (3)

Surveys various cognitive, psychodynamic, behavioral, humanistic, existential and family systems theories of personality development and change. Focuses on critical analysis of theoretical models of personality, development of one's own model of change and exploration of individual differences in behavior.

694 Counseling Practicum (3-6)

Requires 200-400 hours of supervised field experience in a setting consistent with a student's area of specialization. Students are expected to demonstrate the knowledge and skills learned throughout the counselor education program. Individual and group supervisory meetings are required weekly. Prerequisites: CSL 591, 652 and 658 for all students (with CSL 569, CSL 651 and CSL 680 being additional prerequisites in Mental Health Counseling; CSL 585 and CSL 686 being additional prerequisites in Guidance and Counseling, and CSL 639, CSL 683 and CSL 685 being additional prerequisites in Rehabilitation Counseling); Permission of the program advisor.

698 Seminar in Counseling (3)

Presents the recent developments, issues and trends in counseling. Library research is required for preparation of a presentation and/or research paper.

699 Counseling Internship (6)

Requires completion of 600 clock hours of field experience in a community health and/or human services organization or in a primary or secondary school. Specific emphasis is placed on direct contact with consumers of counseling services. Weekly meetings with faculty and field supervisors are required. Case conceptualizations, counseling skills and techniques and service delivery systems are discussed in weekly group sessions. Prerequisites: All core and area of specialization courses; permission of program advisor.

Course Descriptions — Montessori Elementary Prefix: EDM

600 Introduction to Montessori Education (3)

Examines Montessori philosophy, theory, teaching, strategies, rationale and basic methodology for the materials in the curriculum areas of every day living, mathematics and language.

603 Child Development and the Montessori System of Education (3)

Explores the philosophy, theory and strategies of the Montessori approach to early and elementary education. The course is designed to provide a background for understanding the sequence of normal human development, the study and practice of objective observation and its use as an assessment tool for educational planning.

605 Language Arts for Montessori Teachers (3)

Includes a comprehensive approach to a whole language arts curriculum through the use of imaginative, multi-sensorial, manipulative materials in sequential lessons. The course consists of a comprehensive approach to literacy development including listening, speaking, reading, creative writing, grammar, sentence analysis, the history of language and research skills.

628 Life Sciences for Montessori Teachers (3)

Examines methods to initiate children into the skills for observing, identifying, classifying and organizing information concerning plants, animals, and humans, and understanding their life functions. Health education, physical and outdoor education, and conservation are included in this interdisciplinary course.

629 Physical Sciences for Montessori Teachers (3)

Presents the knowledge and methods for teaching the history and process of science, scientific thinking and the physical configurations of our planet. The content of this course is the basis of economic geography involving the interdependence of all peoples.

631 Math I for the Montessori Teacher (3)

Introduces the teacher to an understanding of the mathematical nature of the child's mind. The student learning how to initiate children to mathematical thinking, the decimal system and the four basic mathematical operations. The history of mathematics as well as the study of measurements and the meaning and uses of plane and solid geometry are also studied.

632 Math II for the Montessori Teacher (3)

Continues at an advanced level the methods of teaching the basic operations of mathematics and their applications in a variety of contexts. Topics such as factors, multiples, numeration and operations in different base systems as well as the solutions of word problems and algebra are also explored.

633 Humanities in the Montessori Classroom (3)

Includes the teaching of history, fine arts, and performance arts (music, drama and dance). The techniques of graphic arts and music are presented in a manner that enables integrating these areas into the daily curriculum.

649 Management for Montessori Teachers (3)

Equips the students with the knowledge and skills necessary to implement and oversee a Montessori program. Includes such topics as: classroom management and record keeping; conducting parent programs; communication and listening skills; involving the local community; coordination and supervision of personnel; scheduling and budgeting.

659 Practicum I (3)

Involves the supervision of the student in an approved Montessori teaching or administrative setting by a Montessori elementary certified teacher and a University advisor. During this time the student will apply Montessori elementary school curriculum and instructional techniques.

660 Practicum II (3)

Continues the application of Montessori curriculum and instruction techniques under the supervision of a Montessori certified teacher and a University advisor.

Course Descriptions — Education Prefix: EDU

All courses numbered 500 are open to qualified undergraduate seniors.

500 Comprehensive ESOL Strategies (3)

Surveys the principles and strategies of ESOL, with emphasis on their practical applications for teaching the basic content areas to classes with students of Limited English Proficiency (LEP).

509 Multicultural Primary Education (3)

Develops the national and international dimensions needed to understand cultural diversity, cultural pluralism, and the implications for curriculum and instruction of young children (age three through grade three).

510 Multicultural Education (3)

Develops the national and international dimensions needed to understand cultural diversity, cultural pluralism and the implications for the elementary school curriculum.

511 Speech Correction for Children (3)

Evaluates functional and organic speech deviations and the possible psychological implications in society with a view toward early and early recognition of a child's possible speech problem.

512 Teaching the Elementary Mainstreamed Exceptional Student (3)

Introduces exceptional student education for the regular classroom teacher. Includes methods and materials for instructing mainstreamed exceptional students in the elementary regular classroom.

514 Classroom Management (3)

Offers techniques for observation, description, measurement and evaluation of student behavior in the classroom. Applied project in area of specific grade interest required.

515 Guiding Primary Learning (3)

Focuses on how young children learn and on the developmental factors which influence learning. The principles of learning are applied to early childhood classroom situations to facilitate the learning process.

516 Guiding Elementary Learning (3)

Uses learning theory as the foundation for teaching elementary children. Applies the principles of learning to teaching subject areas in the elementary classroom.

517 Evaluation and Measurement in Education (3)

Provides laboratory experiences in designing classroom tests and writing test items. Examines group and individual tests as means of accountability and facilitating decision making.

523 Nature and Needs of the Gifted (3)

Introduces the student to the characteristics and special needs of the gifted child. The unique nature and nurture situations in the development of the gifted child are discussed.

524 Educational Procedures and Curriculum for Gifted (3)

Analyzes the procedures, curriculum and specific teaching models for gifted children. An emphasis on individual and group needs through curriculum and materials will be introduced.

525 Behavior Management (3)

Investigates behavior management strategies necessary to create an effective learning experience. Reviews managing individual and group behavior through behavior modification techniques and learning psychology.

526 Educational Program - Emotionally Handicapped (3)

Appraises the curriculum and program for the emotionally handicapped child. Programs for the multi-handicapped child with dominant emotional problems will be evaluated. The individual program as it affects the group curriculum will be analyzed.

527 Classroom Management - Emotionally Handicapped Child (3)

Compares various classroom management techniques and specific situations within that classroom involving the management of emotionally handicapped children.

529 Education of the Hearing Impaired (3)

Introduces the student to an overview of different language development techniques for the hearing impaired child beginning with normal language development. It also covers the social and psychological elements influencing the hearing impaired child.

530 Education of Children with Visual Disabilities (3)

Examines the population defined as blind or partially sighted. It is directed at those aspects of behavior that are affected by loss of vision and appropriate delivery systems of educational or rehabilitation services.

531 The Young Handicapped Child: Part I (3)

Focuses on the development of young handicapped children; the normal development as well as genetic and environmental handicapping conditions will be studied.

532 The Young Handicapped Child: Part II (3)

Focuses on the cognitive and social development of the young handicapped child. Information on language disorders, visual, and hearing impairments will be studied.

533 Language Acquisition in Primary Education (3)

Deals with the fundamental concepts and questions of language acquisition for ages birth to nine years; relates those concepts and questions to primary classroom concerns. Required: school-site experiences to observe children and their language and to interact with children through language.

534 Child Study Skills for Primary Education (3)

Includes guidelines and techniques to observe, record, diagnose, analyze and prescribe for the personal, social, motor, language and perceptual-cognitive development of primary children in a variety of child care and educational settings. Includes guidelines and techniques for working with families and parents. School-site experience required.

535 The Teaching of Language Arts in Primary/Elementary Education (3)

Uses an interdisciplinary approach to the teaching of language arts primary/elementary children. Studies models and methods for interrelating language arts. Project interrelating listening, speaking, reading and writing required.

536 Strategies for Primary Diagnostic-Prescriptive Instruction (3)

Develops a framework for diagnostic-prescriptive teaching for working with children (age three through grade three). Includes early childhood classroom organization, materials and instructional strategies. Application project required.

537 Strategies for Elementary Diagnostic-Prescriptive Instruction (3)

Develops a framework for diagnostic-prescriptive teaching in the elementary subject areas. Includes classroom organization, materials, instructional strategies, roles of the teacher and responsibilities of the learner. Applied project required.

538 Teaching the Primary Mainstreamed Exceptional Student (3)

Introduces the young special need student (age three through grade three) for the regular classroom teacher and includes procedures, methods and materials for managing and instructing the mainstreamed exceptional student.

539 Primary Programs, Curriculum, Instruction (3)

Examines the foundations of early childhood curriculum principles, instructional practices and legal issues for teaching children (age three through grade three). Includes understandings about measurability, program designs and evaluation. Field experiences and observations in the areas of language arts, mathematics, science, art, music, rhythms and dramatic play are required.

540 Foundations of Mental Retardation (3)

Examines the biological, psychological and social foundations of mental deficiency, with emphasis on the need for educating the community to greater understanding and increased provision for mentally deficient children and adults.

543 Research and Current Trends in Primary Education (3)

Explores current research findings and the resulting trends in early childhood education about children (age three through grade three) for developing curriculum and improving instruction.

544 Problem Solving in Primary Mathematics (3)

Examines the curriculum foundations and instructional methods for early childhood education mathematics for children (age three through grade three). Presents the knowledge and methods for classroom applications.

547 Critical Thinking in Primary Science and Social Studies (3)

Presents the knowledge and methods for teaching critical and creative thinking in the areas of primary science and social studies for children (age three through grade three). Classroom log and applied project required.

548 Literature for Young Children (3)

Deals with trends and issues in literature for children (age three through grade three). Focuses on literature to enhance positive attitudes about self and others and to help young children enjoy books and reading.

- 550 Research and Current Trends in Elementary Curriculum and Instruction (3)**
Examines current research findings and the trends in elementary education and identifies components for developing curriculum and improving instruction at the elementary school level.
- 551 Problem Solving in Elementary School Mathematics (3)**
Presents curriculum foundations and instructional methods for elementary school mathematics. Includes knowledge and methods for classroom applications.
- 552 Critical Thinking in Elementary School Science and Social Studies (3)**
Presents the knowledge and methods for teaching critical and creative thinking in the areas of elementary school science and social studies. Classroom log and applied project required.
- 554 Literature for the Elementary Classroom (3)**
Deals with trends and issues in literature for the elementary school child. Focuses on literature to support the academic areas, to enhance positive attitudes about self and others and to assist children to enjoy books and reading.
- 565 Language Acquisition in Primary Education (3)**
Deals with the fundamental concepts and questions of language acquisition and communication for children (age three through grade three). Relates those concepts to early childhood setting.
- 566 Teaching Elementary Social Studies (3)**
Offers knowledge and instructional methodology for teaching social studies in the elementary school. Applied teaching project required.
- 567 Foundations of Reading Instruction (3)**
Surveys the knowledge and teaching strategies necessary to understand the nature of the reading act and the basic principles of reading instruction. Includes use of professional resources to investigate historical and current trends in reading instruction.
- 568B Reading in the Content Areas for the Elementary School Teacher (3)**
Assists elementary classroom teachers with reading instruction and study skill strategies as they apply to the individual subject areas in their curriculum. Lessons, practice activities, and informal screening devices will be designed for specific content areas in the elementary grades. Field experience will be conducted in elementary classrooms.
- 568D Reading in the Content Areas for the Secondary Subject Area Teacher (3)**
Helps secondary content area teachers deal with student interaction with printed material. Teachers will learn reading and study strategies to facilitate learning in specific subject areas. Includes designing lessons, activities and screening devices in the content area and using them in secondary field experience.
- 570 Introduction to Exceptional Children (3)**
Presents an overview of the physical, mental, emotional and social exceptionalities in children and their educational and social implications.
- 571 Psycho-Social Foundations in Primary Education (3)**
Studies psycho-social concepts dealing with a high level of receptivity and adaptability on the part of teachers of children (age three through grade three). Assists in the acquisition of practical skills in the affective domain for the purpose of creating climates conducive to academic success. Field experience and observation experiences required.
- 572 Primary Programs and Practices (3)**
Addresses the foundations of curricula for children (age three through grade three)—how to plan, implement and evaluate perspectives related to emotional, social, perceptual-cognitive, physical and language developmental patterns. Explores communication, integrating the arts, bilingualism, and multicultural issues. Project required which includes working with parents as well as children.
- 573 Teaching of the Mentally Retarded (3)**
Appraises the objectives, methods, materials and curriculum content in arithmetic, science, and social studies for the educable and trainable retardate.
- 578 The Learning Disabled Child (3)**
The causes of learning disabilities and how they affect children in their social, emotional and intellectual development. Practical experiences in the study of how children learn control of movement, language and thought are provided.

581 Learning Strategies for Exceptional Student Education (3)

Focuses on the specific procedures and organizational techniques which enable teachers to implement learning strategies and intervention instruction for teaching ESE students. The strategies focus on principles and techniques which enable ESE students to learn, to solve problems and to complete tasks independently.

583 Educational Assessment of the Exceptional Child (3)

Proposes educational assessment techniques and procedures to provide an objective data base for individualizing instruction for exceptional children.

584 Reading Diagnosis (3)

Focuses on diagnosing problems in reading. Includes the administration, interpretation and use of formal and informal tests. Prerequisites: EDU 322, 467/567, or equivalent.

587 College/University Student Services (3)

Overviews the fundamental concepts, organization, and administration of higher education student affairs/service work. Current methods and instruments as well as professionalism and ethics are discussed.

590 Corrective Reading (3)

Deals with the selection and preparation of classroom instructional methods, materials and strategies for use in correcting reading difficulties with students in the K-12 classroom. Prerequisite: EDU 484/584 or permission of advisor. Practical field experience required.

592 Workshop in Education (variable)

Investigates special interest areas developed from student needs and community requests. Number of credits depends on individual workshop requirements.

593 Child Study Skills (3)

Presents guidelines and techniques to observe, record, diagnose, analyze and prescribe for the personal, social, motor, language and perceptual-cognitive development of young children (age three through grade three). Includes guidelines and techniques for working with families and parents.

594 Teaching Elementary Science (3)

Offers knowledge and instructional methodology for teaching science in the elementary school. Applied teaching project required.

595 Advanced Elementary Curriculum (3)

Overviews the developments in elementary curriculum, the problems involved in curriculum construction and innovative programs.

596 Advanced Secondary Curriculum (3)

Overviews the developments in secondary curriculum, the problems involved in curriculum construction and current innovative programs.

All courses numbered 600 are open only to students with baccalaureate degrees or their equivalent.

601 Methodology of Research (3)

Requires students to identify a research problem, develop a design for the study and write a research proposal. Provides opportunities to evaluate and interpret research literature.

603A Research Trends and Current Issues in Primary/Elementary Childhood Education (3)

Surveys current issues in research in public and non-public schools from a leadership perspective. Focus area is on primary/early childhood.

603C Research Trends and Current Issues in Middle School Education (3)

Surveys current issues in research in public and non-public schools from a leadership perspective. Focus area is on middle school education.

603D Research Trends and Current Issues in Secondary Education (3)

Surveys current issues in research in public and non-public schools from a leadership perspective. Focus area is on secondary education.

604B Teaching Vocabulary and Comprehension Skills (3)

Assists elementary teachers in improving the teaching of vocabulary and comprehension in grades 1-6. Specific vocabulary and comprehension strategies for the elementary grades are taught through modeling. Teachers will develop lesson plans and videotape vocabulary and comprehension lessons in elementary classrooms.

604D Teaching Vocabulary and Comprehension Skills (3)

Assists secondary content area teachers (Art, Biology, Business, Chemistry, English, Foreign Languages, History, Music, Physics, Mathematics, Exceptional Student Education, etc.) in improving the teaching of vocabulary and comprehension in their individual subject areas. Specific vocabulary and comprehension strategies for the secondary content areas are presented. Teachers will develop lesson plans and videotape vocabulary and comprehension lessons taught in their specific content area classroom.

605 Practicum in Elementary Curriculum and Instruction (3)

Applies elementary school curriculum and instruction in meaningful situations. Field-based experience under the supervision of a University instructor.

606 Advanced Practicum in Elementary Curriculum and Instruction (3)

Applies knowledge and skills about elementary school curriculum and instruction in a professional setting. Field-based experience under the supervision of a University instructor.

607 Beginning Reading for the Primary Years (3)

Includes theoretical foundations of emergent literacy, reading curriculum for primary children and techniques for teaching primary reading. Applied project required.

608 Practicum in Primary Curriculum and Instruction (3)

Implements early childhood curriculum and instruction in meaningful situations when working with children (age three through grade three). Field-based experience under the supervision of a University instructor.

609 Advanced Practicum in Primary Curriculum and Instruction (3)

Implements knowledge and skills about curriculum and instruction for children (age three through grade three). Field-based experience under the supervision of a University instructor.

611B Reading and Thinking Skills (3)

Helps elementary teachers improve reading and thinking skills in their classrooms. Teachers will learn tactics and strategies which help organize elementary children's thinking. Techniques to guide the reading and thinking processes of elementary school children will be featured.

611D Reading and Thinking Skills (3)

Assists secondary content area teachers (Art, Biology, Business, Chemistry, English, Foreign Languages, History, Music, Physics, Mathematics, Exceptional Student Education, etc.) in improving reading and thinking skills in their subject area classrooms. Teachers will learn strategies which help organize secondary students' thinking in the specific content area. The secondary content area teacher will learn to make decisions for teaching content area reading based on strategies for teaching thinking.

612 Teaching Reading to Secondary, College, and Adult Students (3)

Studies the major components involved in the teaching of reading at the secondary, college and adult levels. Includes diagnostic-prescriptive procedures and the organization and implementation of corrective instruction in vocabulary, word attack, comprehension and study strategies.

613 Methods for the Reading Resource Teacher (3)

Focuses on methods for implementing the duties and responsibilities of a reading resource teacher at a school site. Includes consultative skills for assisting classroom and content area teachers. The focus includes human relations and leadership skills. Prerequisite: EDU 567 or equivalent.

614 Educational Leadership I (3)

Explores models and theories of organizational development and their application to the development and maintenance of educational organizations.

615 Educational Leadership II (3)

Develops student communication skills, an understanding of leadership ethics and an understanding of the behavior of people who work and live within organizations.

- 616 Assessment and Intervention in Preschool Special Education (3)**
Selects assessment instruments useful in the evaluation of infants and young children. The need to develop interdisciplinary teams for assessment and intervention will be discussed.
- 619 Analysis of the Individual (3)**
Develops proficiency in the administration and scoring of the Weschler and Stanford-Binet. Requires students to write psychological reports on client's performance on the tests. Prerequisite: EDU 621 and/or consent of instructor.
- 620 Working With Families and Communities Preschool Special Education (3)**
Focuses on the various environments in which the exceptional infant and child must function. In addition to the home, school and community, available resources and referral agencies must be included to aid the child and the family.
- 621 Psychological Measurement (3)**
Examines the theory, administration, scoring and interpretation of standardized intelligence, interest, personality, psychomotor and aptitude testing. Practical experience in use of tests in applied settings is offered. Prerequisite: EDU 601.
- 622 Leadership Skill and Change (3)**
Acquaints students with major leadership theories. Implementation skills focus on formal and informal organizations, decision making and the change process. Strategies are included for planning and resource management for change implementation.
- 623 School and Community Relations (3)**
Examines the policies, practices and strategies in school and community relations.
- 624 Instructional Design and Evaluation (3)**
Surveys the field of curriculum theory and organizational frameworks for current practices in curriculum development and evaluation and exploration of curriculum revision and change.
- 625 Advanced Educational Psychology (3)**
Surveys the modern theories and principles of human development in learning and applies them to present-day educational settings.
- 626 Philosophy of Education (3)**
Studies the philosophy underlying the interrelations of school and community and the formulation of a workable school philosophy based on accepted standards.
- 628A Issues in Curriculum in Primary/Early Childhood Education (3)**
Surveys current trends in educational curriculum development and their impact on public and non-public schools from a leadership perspective. Focus area is on primary/early childhood education.
- 628C Issues in Curriculum in Middle School Education (3)**
Surveys current trends in educational curriculum development and their impact on public and non-public schools from a leadership perspective. Focus area is on middle school education.
- 628D Issues in Curriculum in Secondary School Education (3)**
Surveys current trends in educational curriculum development and their impact on public and non-public schools from a leadership perspective. Focus area is on secondary school education.
- 630 Psychology of Reading (3)**
Examines the reading process psychologically, physiologically and socially. Current methods and trends in teaching reading and historical and current research are examined. Prerequisite: EDU 567 or equivalent.
- 631 Administration and Supervision of Reading Programs (3)**
Includes the principles of leadership, staff development and group processes to be used as the bases for administering and supervising a reading program at a school site. Prerequisite: EDU 567 or equivalent.
- 634 Remedial Reading (3)**
Focuses on remedial techniques for students who evidence reading problems. Prerequisites: EDU 584, 643 or equivalent or permission of advisor. Practical field experience required.

635 Individualized Remedial Instruction for the Reading and Related Learning Disabled Child (3)

Analyzes and applies specific teaching methods and curriculum materials for individualizing remedial instruction for pupils with reading and related learning disabilities. Includes classroom management skills. Prerequisites: EDU 583 or 584 or equivalent or permission of advisor.

636 Theories and Research in Reading and Related Learning Disabilities (3)

Examines theories in reading and related learning disabilities through physiological, psychological and sensory correlates. Includes an investigation of recent research conducted in relation to success and failure in teaching the child with reading and related learning disabilities.

637 The Principalship (3)

Explores the principal's roles and responsibilities as related to organizational development, information systems, faculty and staff selection, orientation, supervision and evaluation, curriculum development and implementation, scheduling, budgeting and plant/facilities use.

638 Educational Management of Retarded Children (3)

Surveys the education, management and curriculum of mentally deficient children and youth (educable, trainable and profoundly handicapped) with emphasis on individual as well as classroom management techniques.

643 Evaluation of Children with Learning Disabilities (3)

Evaluates the instructional diagnosis of the learning disabled child with formal and informal diagnostic procedures used to determine causes and nature of learning disabilities. Specific recommendations for individual education programs to ameliorate learning problems in home, school and community will be discussed.

674 School Law (3)

Examines federal and state education laws with particular emphasis on Florida school law.

675 School Finance (3)

Examines school finance and school business management with particular emphasis on procedures for Florida public and private schools.

699 Internship in Educational Leadership (3)

Provides leadership experiences in an educational institution or agency commensurate with the student's graduate program, certification objectives, educational experiences and career goals.

716 Advanced Diagnosis and Remediation in Reading (3)

Examines the interpretation of tests used to diagnose reading-learning disabilities having an effect on the reading process. Development and implementation of a remedial program in the K-12 classroom setting. Prerequisite: EDU 584.

717 Curricular and Supervisory Problems in Reading (3) (Practicum)

Provides a supervised practicum in an instructional reading situation. Focus is on the reading teacher using techniques for working with students, administrators, other teachers and the community in a supervised setting. Prerequisite: Admission to the M.S. or Ed.S. program in Reading.

718 Developmental Reading (3)

Explores the objectives, techniques and procedures for programs of developmental reading in primary, elementary, middle and secondary schools. Serves as the foundation of studies to integrate reading within total academic programs. Prerequisite: EDU 567 or equivalent and permission of advisor.

723 Advanced Seminar in Reading (3)

Examines current research and theories in reading. Includes new approaches to restructuring curriculum to integrate reading and the language arts. The function and responsibilities of the coordinator or program administrator as related to classroom reading instruction are studied. Prerequisite: Permission of advisor.

739 Non-thesis Research In Reading (variable credit)

Requires the specialist student in education to complete a project relating to a problem in reading. Supervised by a University faculty member. Variable credit 3-6 semester hours. Prerequisite: Admission to the Ed.S. program in Reading.

740 Thesis Research In Reading (variable credit)

Requires the specialist student in education to complete a thesis related to a problem in reading. Supervised by a University faculty member. Variable credit 3-6 semester hours. Prerequisite: Admission to the Ed.S. program in Reading.

Course Description — Human Resources Development and Administration Prefix: HRD

644 Leadership in Human Resources Development (3)

Examines the theory, processes, skills and understanding related to human resources development. Concepts of the leadership role are analyzed and applied. This course includes the forces, interest groups and power structures influencing the role of trainers and HRD professionals.

645 Communication in Leadership (3)

Develops an understanding of the process of communication in leadership roles and the improvement of personal skills for effective communication. Topics include the communication process, effects of organizational structure on communication and conflict management.

646 Dynamics of Change and Planning (3)

Examines how change that affects work related behavior takes place within organizations and individuals as a result of the intentional interventions of a change agent. Ways of obtaining both monetary funding and community/organizational support for innovative projects are examined.

647 Introduction to Instructional Design (3)

Examines the principles of designing and conducting sales training seminars in an organizational setting. Emphasis will be given to curriculum design, program leadership and course and participant evaluation.

648 Group Behavior in Organizations (3)

Emphasizes knowledge and skills necessary to build an effective team and team relationships to carry out a work related goal. Topics include person-to-person communication, small group processes, conferencing skills, networking and coaching.

649 Designing Supervisory Training Programs (3)

Examines the principles of designing and conducting supervisory training seminars in an organizational setting. Emphasis will be given to curriculum design, program leadership and course and participant evaluation.

653 Career Development and Life Work Planning (3)

Overviews the major theories and skill areas in educational planning, career development and work motivation including understanding career decision-making, using appropriate information and assessment techniques and applying knowledge and skills to the planning and conducting of career development activities in appropriate HRD settings. Resume development and job seeking skills are taught.

659 Adult Learning and Motivation (3)

Examines human learning and motivation for the purpose of creating and facilitating effective learning experiences for adults in a work-related setting. Projects are required which design the environment for effective adult learning and enhance the motivational value for task completion.

660 Designing Health and Wellness Programs (3)

Examines the principles of designing, organizing and administering health and wellness programs within organizations. Emphasis will be given to program design, program leadership and activity and participant evaluation.

669 Consultant Activities in Leadership (3)

Introduces human resource development professionals to the role of the internal and external consultant. Emphasis will be given to marketing, negotiating, providing and evaluating services.

670 Productivity and Quality (3)

Introduces the applications of productivity, team work and cooperation as they apply to organizational efficiency.

678 Human Resources Development Practicum (3)

Requires students to plan and participate in a human resources development situation by serving as counselor, trainer, instructor or administrator. The practicum site may be varied and selected through agreement of the professor. Requires supervision of approved professor.

679 Human Resources Development Internship (3)

Required of all students who are not currently working in the field. Students will engage in supervised field experience(s) in an HRD setting. Regular meetings with faculty and field supervisors are required. Experiences in instructional design, training, career development, program planning or administration may be assigned. This course may be waived for students currently working in the field.

Course Description — Not-for-Profit/Religious Organizations

Prefix: HRN

603 Organizational Theories: NFP/Rel Org (3)

Analyzes major organizational theories and their interfacing with the organization's mission statement. The course will provide administrators/leaders with the knowledge and skills to choose appropriate structures to implement the mission of their particular organizations.

606 Volunteers/Personnel in NFP/Rel Org (3)

Considers basic administration and supervision of volunteers and personnel in Not-for-Profit/Religious Organizations. Students are required to study, analyze and formulate responses to issues of volunteer and employee recruitment, selection, orientation, retention, compensation, development, evaluation and welfare provisions.

609 Stewardship and Development (3)

Enables participants to acquire competence to design and to evaluate grant writing, establish effective fund-raising and development activities for their organizations. Topics include use of time, talents and treasury, accountability, long-range and strategic planning, advertizing and marketing strategies.

629 Boards/Councils Empowerment (3)

Examines the role of boards/councils within the Not-for-Profit/Religious Organization with a focus on an appraisal of the interrelationship of vision, mission, policy formation, responsibility, accountability and committees. Proposes theories and strategies for effective board/council advisement and leadership and prepares the leader to develop productive board/council relationships.

633 Administrative Technology Application for NFP/Rel Org (3)

Prepares administrators and leaders of Not-for-Profit/Religious Organizations to use technologies to maximize effectiveness and efficiency of both administrative and instructional functions in their organizations.

647 Special Issues Seminar (3)

Provides the program advisor and students the opportunity to design special seminar sessions to address issues and concerns of interest to particular groups.

648 Leadership and Administrative Practicum (3)

Equips students through a planned program of experiences and responsibilities to lead a Not-for-Profit/Religious Organization. The internship experience, responsibilities and subsequent projects are under the direction of the student's university program advisor and the site administrator/leader responsible for the internship experience.

SCHOOL OF NATURAL AND HEALTH SCIENCES

Sister John Karen Frei, O.P., Ph.D.,
Associate Vice President for Academic Affairs;
Dean, School of Natural and Health Sciences;
Professor of Biology

Faculty: Avalos, Bloom, Comiskey, Davis, Duberceau-Haroon, Dwyer, Ellis, Ganter, Hays, Kay, Madan, Marconi, Martinez, Montague, Page, Robleto, Sanborn, Shaffner, Stechschulte, Stewart, Tincher, York.

The Academic Health Science Center and the Division of Biological and Biomedical Sciences were established in 1985. The division was renamed in 1991 as the School of Natural and Health Sciences in order to integrate the undergraduate and graduate life and health science programs into a cohesive academic unit. The academic programs within the School respond to the demanding needs of society by preparing professionally competent scientists/health practitioners whose values are congruent with the purpose and objectives of the University.

The undergraduate program offers a variety of career opportunities available through its majors. Special options available to qualified students include the MARC (Minority Access to Research Careers) Program, the MBRS (Minority Biomedical Research Support) Program, and the university's institutional membership in the School of Field Studies which offers summer courses around the world.

The graduate programs include: the Master of Science in Biology for the science teacher, the Master of Science in Biomedical Science for the student who wishes to pursue biomedical studies, and the Master of Science in Physical Therapy for the student who wishes to become a licensed physical therapist.

ALLIED HEALTH PROFESSIONS — "3 + 1" PROGRAMS

Allied Health is a term used to describe a range of occupations in which individuals have responsibility for assisting, facilitating, or complementing physicians and other specialists in delivering health care services to patients. Advances in the prevention and diagnosis of disease, in therapy and rehabilitation, and the need to cope with new health and environmental concerns have increased demands for skilled personnel in allied health fields. A student entering these fields must possess certain attributes such as manual dexterity, reliability, moral character, and the ability to remain calm, courteous, and efficient under adverse conditions and stressful situations.

Barry offers a choice of four different "3 + 1" programs for those students seeking to meet the growing demands in these fields: Medical Technology, Cytotechnology, Diagnostic Medical Ultrasound Technology, and Nuclear Medicine Technology.

MEDICAL TECHNOLOGY (B.S.)

A student majoring in medical technology must meet the following requirements: Biology 112, 116, 230, 325, 330, 334, 341, 346. Also required as part of the program are Chemistry 111, 112, 243, 321; Math 211 (note prerequisites); Physics 151; and the distribution requirements. After successfully completing this 90-credit program, the student may apply for a 12 to 15 month period of academic and clinical training in a School of Medical Technology approved by the American Medical Association and the American Society of Clinical Pathologists. The university will grant 30 semester hours of credit for the internship program. At Mt. Sinai Medical Center, course credit assignment is as follows: Clinical Microbiology 7 credits, Immunology/Immunochemistry 7 credits, Clinical Chemistry 7 credits, Hematology/Hemostasis 7 credits, Special Topics in Medical Technology 2 credits. Upon completion of the 12 month internship, the student receives a Bachelor of Science degree with a major in Medical Technology. Students must apply individually for the year of clinical training. Schools of Medical Technology selectively admit qualified students on an individual basis.

CYTOTECHNOLOGY (B.S.)

A student majoring in cytotechnology must meet the following requirements: Biology 116, 230, 240, 253, 341, 346, 450, 451 (recommended). Also required as part of the program are 12 semester hours of chemistry including Chemistry 152; 6 semester hours of mathematics; a minimum of 4 semester hours of physics (PHY 151 or 201-202) and the distribution requirement. After successfully completing this 90-credit program, the student must complete the course of instruction at an approved school of Cytotechnology. The university will grant 30 semester hours of credit for the internship program. Barry University is affiliated with Jackson Memorial Hospital. Upon completion of the 12-month internship, a Bachelor of Science degree will be awarded with a major in Cytotechnology. Students must apply individually for the year of clinical training. Schools of Cytotechnology selectively admit qualified students on an individual basis.

DIAGNOSTIC MEDICAL ULTRASOUND TECHNOLOGY (B.S.)

To facilitate the varying professional needs of the diagnostic medical sonographer, two tracks of study have been established within the diagnostic medical ultrasound technology major. Track 1 has been designed for the student whose aptitude and/or interest lies more heavily in the sciences. These students are required to meet the following requirements: Biology 116, 230, 325, 330, 334, 341 and 451. Also required as part of the program are Chemistry 111, 112, 243, 321; Mathematics 211 (note prerequisites); 4 semester hours of physics; and the distribution requirements. Students in Track 2 are required to meet the following requirements; Biology 116, 220, 240, 253, 341 and 451;

Chemistry 111, 112; 3 semester hours of mathematics; a minimum of 4 semester hours of physics (PHY 151 or 201-202); a minimum of 6 upper level semester hours of psychology; and the distribution requirements. After successfully completing this 90-credit program the student must complete the course of instruction at an approved school of Diagnostic Medical Ultrasound Technology. The university will grant 30 semester hours of credit for the internship program. Barry University is affiliated with Mt. Sinai Medical Center and Jackson Memorial Hospital. Upon completion of the 12-month internship, a Bachelor of Science degree will be awarded with a major in Diagnostic Medical Ultrasound Technology. Students must apply individually for the year of clinical training. Schools of Diagnostic Medical Ultrasound Technology selectively admit qualified students on an individual basis.

The first 90 semester hours of work based at Barry University may be completed on a full- or part-time basis.

NUCLEAR MEDICINE TECHNOLOGY (B.S.)

To facilitate the varying professional needs of the nuclear medicine technologist, two tracks of study have been established within the nuclear medicine technology major. Track 1 has been designed for the student whose aptitude and/or interest lies more heavily in the sciences. These students are required to meet the following requirements: Biology 116, 230, 325, 330, 334, 341 and 450. Also required as part of the program are Chemistry 111, 112, 243 and 321; Mathematics 211 (note prerequisites); a minimum of 4 semester hours of physics (PHY 151 or 201-202); and the distribution requirements. Students in Track 2 must meet the following requirements: Biology 116, 230, 240, 253, and 450; Chemistry 111, 112, and 321; 4 semester hours of physics; and the distribution requirements. After successfully completing this 90-credit program, the student must complete the course of instruction at an approved school of Nuclear Medicine Technology. The University will grant 30 semester hours of credit for the internship program. Barry University is affiliated with Mt. Sinai Medical Center and Jackson Memorial Hospital. Upon completion of the 12-month internship, a Bachelor of Science degree will be awarded with a major in Nuclear Medicine Technology. Students must apply individually for the year of clinical training. Schools of Nuclear Medicine Technology selectively admit qualified students on an individual basis.

The first 90 semester hours of work based at Barry University may be completed on a full- or part-time basis.

BIOLOGY (B.S.)

Biology Major (including Pre-Medical, Pre-Dental, Pre-Podiatry, Pre-Veterinary programs)

Barry's undergraduate biology program provides students with the opportunity to prepare for a number of career goals. Possible alternatives include graduate study; teaching; medical, dental, podiatric and veterinary school; medical technology; and various careers in research.

A major requires a minimum of 35 credits including Biology 112, 116, 341, and at least one course from each of the following core areas:

1. Growth and development: Biology 225 or 230
2. Cellular and molecular biology: Biology 325 or 330
3. Physiological and biochemical principles: Biology 334 or 335
4. Environmental biology: Biology 305 or 310 or 312
5. Biological Theory: Biology 320 or 440 or 475

Students planning to teach at the secondary level add Biology 476. Students majoring in pre-professional biology must minor in either chemistry or mathematics. In any event they must include the following: Chemistry 111-112 and 243-244; Math 211 (note prerequisites). In addition, 8 semester hours of physics are required. Enrollment in the freshman biology courses is determined by achievement on the placement test. This test is required at the time of first enrollment for all new freshman majors. Biology majors (including the marine biology track and non-preprofessional Track I and II) are required to achieve a satisfactory score on an approved standardized pre-professional examination. Graduation requirements for all majors include giving a senior presentation and providing an alumni form to the senior academic advisor.

Biology Major (Marine Biology Track)

Barry's undergraduate biology program, with a concentration in marine biology, provides students with the opportunity to prepare for a number of career goals that focus on the marine environment. Possible alternatives include graduate study; teaching; opportunities in governmental agencies and utilities; as well as various careers in research.

40 credit hours in biology are required for this major including Biology 112, 116, 320 and courses from the following core areas:

1. Growth and development: Biology 225
2. Cellular and molecular biology: Biology 325
3. Physiological and biochemical principles: Biology 335
4. Environmental and marine biology: Biology 305, 310 and 435

Students in the marine biology track must also take an additional 5 s.h. of electives. Students are recommended to take: Biology 330, 400, 440 or 475, and 420. Students must also fulfill the following chemistry and math requirements: Chemistry 111, 112, 243, and 321; Mathematics 211 (note prerequisites); and 4 s.h. of physics. A satisfactory score on an approved, standardized, preprofessional examination is also required.

Biology Major (excluding Pre-Medical, Pre-Dental, Pre-Podiatry, Pre-Veterinary programs)

Barry offers an undergraduate biology program providing students with the opportunity to prepare for a number of career goals. Possible alternatives include teaching, technical positions in laboratory and research centers; positions in business, industry, biological illustration, computer science and other areas requiring a biological background. Track I or Track II requirements may be chosen as listed.

Track I

40 credit hours in biology are required for this major including Biology 112, 116, and at least one course from each of the following core areas.

1. Growth and development: Biology 220 or 230
2. Cellular and molecular biology: Biology 253, 325 or 330
3. Physiological and biochemical principles: Biology 240 or 335
4. Environmental biology: Biology 305 or 310 or 312
5. Biological Theory: Biology 320 or 440 or 475

Students in this program must complete 12 additional semester hours of biology electives.

Students in this program must include 12 hours in chemistry and 9 hours in mathematics. Physics 151 is recommended. Majors are required to achieve a satisfactory score on an approved, standardized, preprofessional examination.

Track II

31 credit hours in biology are required for this major including Biology 112, 116 and at least one course from each of the following core areas.

1. Growth and development: Biology 220 or 230
2. Cellular and molecular biology: Biology 253, 325 or 330
3. Physiological and biochemical principles: Biology 240 or 335
4. Environmental biology: Biology 305 or 310 or 312
5. Biological Theory: Biology 320 or 440 or 475

Students in this program must complete 4 additional semester hours of biology electives.

Students in this program must include a minor in an approved area such as business, computer science, photography, art, telecommunications; 12 hours of chemistry and nine hours of mathematics. Physics 151 is recommended. Majors are required to achieve a satisfactory score on an approved, standardized, preprofessional examination.

Biology Major (for the Medical Laboratory Technician)

Barry's undergraduate Biology program prepares Medical Laboratory Technicians (M.L.T.'s) for a B.S. Degree in Biology with a minor in Medical Laboratory Science. Students are able to transfer 64 semester hours from an accredited community college M.L.T. program and progress up the career ladder towards a B.S. degree through evening classes at off-campus sites.

Upon successful completion of the program and with appropriate clinical experience, the student will qualify for MT (ASCP) certification and/or the State of Florida HRS supervisory certification. MT(ASCP) certification requires 16 hours of chemistry; HRS certification requires 8 hours of chemistry.

The accelerated track is designed for the student to complete the degree requirements in a minimum of two years. By enrolling in four ten-week semesters each year, the student can achieve 24-30 semester hours in biology upon completion of the program. The student may also earn 24-30 semester hours through the School of Adult and Continuing Education to fulfill the distribution requirements and electives which satisfy the 48 semester hours in upper level courses. This program makes it possible for the adult working student to take one or two courses each semester as time allows.

The upper level science courses proposed for the M.L.T. to B.S. degree are:

- Chemistry 341 Introduction to Organic Chemistry and Biochemistry for the Health Sciences (3 semester hours)
- Biology 470/570 Biochemistry I (3 semester hours)
- Biology 477/577 Biochemistry II (3 semester hours)
- Biology 317 Laboratory Management Seminar (3 semester hours)
- Biology 325 Microbiology (3 semester hours - lecture)
- Biology 341 Genetics (3 semester hours - lecture)
- Biology 458/558 Infectious Diseases (4 semester hours)
- Biology 452/552 Quantitative Applications in Biology (3 semester hours)
- Biology 455/555 Immunology (3 semester hours)
- Biology 475 Seminar (3 semester hours)

Biology Minor

A minor in biology requires 20 credits including one lab course.

Exercise Science Minor

Students desiring a minor in sports medicine - exercise science, must meet the following requirements: SMD 320, 350, 360, 420, 440, and 460.

Human Biology Minor

A minor in human biology requires 20 hours in biology selected from: BIO 103, 116, 220, 240, 253, and selected 300 special topic courses.

Marine Biology Minor

A minor in marine biology requires 20 hours in biology including: Biology 112, 116, 225 and 330.

Other Biology Requirements

Students who have achieved junior status must maintain a 2.5 (C+) average in their major. Majors may not include toward graduation the credit for a biology course in which they have received a grade of D. The course may be repeated in order to raise the grade or it may be replaced by another course of the same kind, i.e., a core course can be replaced by a core course, an elective course can

be replaced by another elective course. Students must have demonstrated progressive achievement in mathematics and chemistry by the end of the freshman year to remain in the school. For all lecture courses with laboratories: the lecture and lab are corequisites and must be taken concurrently except with the instructor's permission.

Course Descriptions — Biology Prefix: BIO

101-102 General Biology I and II (1-6)

Organized according to modules; student may elect as many as three modules during one semester; content of the module may change each semester and is announced during the semester prior to registration; typical modules have included Cell Biology, Developmental Biology, Ecology, Florida's Environment, and Introductory Genetics.

103 Biological Crisis (3)

Current critical areas in biology; typical areas have included energy crisis, disease crisis, alcoholism, drug addiction, heart disease and mental health.

112 Botany (Lecture 3, Lab 1)

Plant forms: correlating structure, function, and environment. 3 hours lecture, 2 hours laboratory weekly. (\$35 fee)

116 Zoology (Lecture 3, Lab 1)

Animal kingdom including basic facts and principles of the anatomy, physiology, embryology, evolution, and heredity of the major groups. 3 hours lecture, 3 hours laboratory weekly. (\$35 fee)

120 Biology Overview for Majors - Section 01 (3)

Intended as the first biology course for biology majors who do not have a strong biology background.

120 Biology Overview for Non-majors - Section 02 (3)

For students curious about the living world. Includes an introduction to the systems comprising the human body, recent advances in biology, and man's relationship with the natural world.

202 Human Population Biology (Lecture 3, Lab 1)

Theoretical and applied aspects of population dynamics, with particular emphasis on the major physical, chemical, biological, social and economic factors that influence human populations. 3 hours lecture weekly.

220 Introductory Human Anatomy (Lecture 3, Lab 1)

Gross human anatomy with laboratory, including dissection of the mink. 3 hours lecture, 2 hours laboratory weekly. (\$40 fee)

225 Comparative Anatomy (Lecture 3, Lab 1)

Gross comparative vertebrate anatomy with laboratory, including dissection of five representative vertebrates. 2 hours lecture, 4 hours laboratory weekly. Prerequisites: Biology 116 or equivalent. (\$40 fee)

230 Human Anatomy (Lecture 3, Lab 1)

Gross human anatomy with laboratory, including dissection of the mink. 2 hours lecture, 4 hours laboratory weekly. (\$40 fee)

240 Introduction to Human Physiology (Lecture 4, Lab 1)

Survey of the functions of the organ systems in the human body. 4 hours lecture, 2 hours laboratory weekly. Prerequisite or corequisite: Biology 220. (\$45 fee)

247 Kinesiology (3)

The study of biomechanical principles in the actions of muscles working together to produce movement, with emphasis on the compensatory movements that may occur when normal patterns are interrupted.

253 Introductory Microbiology (Lecture 3, Lab 1)

Characteristics, physiology, pathogenicity of bacteria and viruses, with emphasis on organisms important in human disease; methods of cultivation, identification, and control of microorganisms. 3 hours lecture, 3 hours laboratory weekly. Prerequisite or corequisite: Chemistry 152. (\$45 fee)

300 Special Topics (3)

Content to be determined by the school as requested by faculty and/or students to fill specified needs or interests. Prerequisite: Biology 101, 102 or 103 or school approval.

305 Introduction to Oceanography (3)

Review of major physical and chemical variables in the marine environment. 3 hours lecture weekly. Prerequisites: Chemistry 111-112; 4 s.h. of physics (Physics 151 or 201,202).

310 Marine Biology (Lecture 3, Lab 1)

Common marine organisms of the littoral seas, coral reefs, and open ocean; interrelationships and problems of adaptation and survival. 3 hours lecture, 3 hours laboratory weekly; field trips by announcement. Prerequisite: Biology 116. (\$30 fee)

312 Ecology (Lecture 3, Lab 1)

Plants and animals in relation to their environments; population, communities, eco-systems, and behavioral patterns, utilizing many of the natural areas provided, such as coral reefs, hammocks, everglades. 3 hours lecture, 3 hours laboratory including field work and research projects. Prerequisite: Biology 112 and 116. (\$30 fee)

317 Laboratory Management Seminar (3)

General introduction to laboratory management for the medical laboratory technologist; emphasis on theories, methods, and techniques used in management, with specific application to the laboratory. (Restricted to MLS minors).

320 Invertebrate Zoology (Lecture 3, Lab 1)

Structure, classification, and embryology of the major invertebrate metazoan phyla with emphasis upon the marine forms. 2 hours lecture, 4 hours laboratory weekly. Prerequisite: Biology 116. (\$45 fee)

325 Microbiology (Lecture 3, Lab 1)

Bacterial and viral classification, structure, physiology, genetics, pathogenicity and immunology; methods of cultivation, identification, and control of microorganisms. 3 hours lecture, 3 hours laboratory weekly. Prerequisites: Biology 112 or 116; Chemistry 152 or 243. (\$45 fee)

330 Cell Biology (Lecture 3, Lab 1)

Biological processes in plant and animal cells and appropriate examples from viruses and bacteria, with emphasis on the correlation between structure and function on the molecular level. 3 hours lecture, 3 hours laboratory weekly. Prerequisite: Biology 112, 116; Chemistry 152 or 243. (\$45 fee)

334 Human Physiology (Lecture 3, Lab 1)

Comprehensive study of the functioning of the major organ systems of the human. 3 hours lecture, 2 hours laboratory weekly. Prerequisites: Biology 225 or 230, 330; Chemistry 243. (\$45 fee)

335 Comparative Physiology (Lecture 3, Lab 1)

Comparative study of homeostatic mechanisms in animals with special emphasis on vertebrates. 3 hours lecture, 2 hours laboratory weekly. Prerequisites: Biology 225; Chemistry 243. (\$45 fee)

340 Aquatic Botany (Lecture 3, Lab 1)

An examination of pelagic marine and shelf metaphyta, brackish estuary, and freshwater plants, with emphasis on the life cycle, identification and structure of algae. 2 hours lecture, 4 hours laboratory weekly. Prerequisite: Biology 112. (\$45 fee)

341 Genetics (Lecture 3, Lab 1)

Principles of heredity, from classical breeding experiments to current molecular and recombinant DNA techniques; emphasis on inheritance in virus, bacteria, Drosophila and humans. 3 hours lecture, 4 hours laboratory weekly. Prerequisites: Biology 112, 116; Biology 253 or 325; Chemistry 152 or 243 or permission of instructor. (\$40 fee).

345 Neuroanatomy (3) for OTR, (4) for PHT majors

This course studies the structural and functional aspects of the central, peripheral, and autonomic nervous systems. Emphasis will be placed on the central nervous system from the cellular level to sensory-motor systems, serving as a foundation for practical clinical problem-solving. (Restricted to OTR, PHT majors).

346 Parasitology (Lecture 3, Lab 1)

Morphology, taxonomy, identification, life history, host-parasite relationship, and control of protozoan, helminth, and arthropod parasites. 2 hours lecture, 4 hours laboratory weekly. Prerequisite: Biology 116 or equivalent. (\$30 fee)

347 Gross Anatomy for PHT majors (4)

Study designed to expose the student to the macroscopic aspects of human morphology. Cadaver lab will be correlated with surface anatomy, and other clinical information. Lecture and lab. (Restricted to PHT majors).

348 Human Anatomy (3) for OTR majors

This course studies the functional aspects of the descriptive anatomy of various systems with emphasis on musculoskeletal, neuromuscular anatomy, and clinical relationships.

349 Exercise Physiology and Biomechanics for Physical Therapy (4)

The physiological responses and adaptation of body systems to exercise stress are studied in conjunction with the functional anatomy and kinetic and kinematic analysis of movement. Covers analysis of manual gait as related to the physical therapist. (Restricted to PHT majors).

352 Biochemistry (4)

Molecular structure in the cell, biological oxidations, selected biosynthetic pathways, molecular genetics. Same as Chemistry 352.

400 Marine Physiology (2)

A study of the effects of exposure to increased pressure and other factors on the functioning of the various organ-systems. Prerequisites: Biology 225 or 230 or 240.

420 Summer Field Study (6)

An opportunity for the student to work in the marine field for both individual and group projects. Prerequisite: 16 s.h. Biology course work. (Cost variable).

435 Fisheries Biology (Lecture 3, Lab 1)

Ecology, dispersal and modes of life of fishes; adaptations by larvae and adults to their environment; economic aspects of fisheries. 3 hours lecture, 2 hours laboratory weekly. Prerequisite: Biology 116. (\$45 fee)

440 Evolution (3)

Evidence for and the principles involved in the evolution of plants and animals, including man. Prerequisites: Biology 112, 116, 230.

458/558 Infectious Diseases (1-4)

Major human bacterial, viral, rickettsial, fungal and parasitic diseases; identification, pathogenicity, mode of transmission, treatment, and methods of control. Same as BMS 458/558. (Restricted to MLS minors).

458a/558a Bacterial and Rickettsial Diseases (2)

458b/558b Viral Diseases (1)

458c/558c Fungal and Parasitic Infections (1)

450 Histology (Lecture 3, Lab 1)

Microscopic study of animal tissues, with the relationship between structure and function stressed. 2 hours lecture, 4 hours laboratory weekly. Prerequisites: Biology 116 or equivalent; Biology 230; Chemistry 152 or 243 or permission of instructor. (\$35 fee)

451 Embryology (Lecture 3, Lab 1)

Vertebrate embryology, including gametogenesis, fertilization, the formation of the germ layers, and organ systems. 2 hours lecture, 4 hours laboratory weekly. Prerequisites: Biology 116 or equivalent, Biology 230. (\$30 fee)

452/552 Quantitative Applications in Biology (3)

A laboratory oriented course designed to introduce the student to the integration, storage and retrieval of biological information to which the student has already been exposed in previous courses. (\$25.00 fee) Prerequisites: 25 s.h.; computer course or equivalent. (Restricted to MLS minors).

455/555 Immunology (3)

Major topics considered in this course are antibody formation, antigen-antibody interactions, biological effects of immunologic reactions, immunological specificity of normal diseased cells and tissues. Same as BMS 455/555. (Restricted to MLS minors).

470/570, 477/577 Biochemistry I,II (3), (3)

Introduction to the fundamental aspects of biochemistry. It emphasizes the relationship between structure and function of the major classes of macromolecules in living systems. Metabolic interrelationships and control mechanisms are discussed as well as the biochemical basis of human disease. Same as BMS-PDY 470/570, 477/577. (Restricted to MLS minors).

475 Seminar (3)

Presentation of reports, discussions, lectures, and papers on selected topic(s) in biology.

476/576 Teaching of Biology in the Secondary School (3)

Problems confronting teachers of biology in the secondary school; organization of courses, sources of materials, textbooks, methods of teaching. Prerequisite: school approval and candidacy in the School of Education.

480-485-490 Medical Technology (30)

Twelve- to fifteen-month period of academic and clinical training in a school of medical technology approved by the American Medical Association and the American Society of Clinical Pathologists.

481-486-491 Cytotechnology (30)

Twelve-month period of academic and clinical training in a school of cytotechnology approved by the American Society of Clinical Pathologists.

482-487-492 Nuclear Medicine Technology (30)

Twelve-month period of academic and clinical training in a school of nuclear medicine technology approved by the Council of Medical Education of the American Medical Association.

483-488-493 Diagnostic Medical Ultrasound Technology (30)

Twelve-month period of academic and clinical training in a school of diagnostic medical ultrasound technology approved by the Council of Medical Education of the American Medical Association.

259, 459 Independent Study (3) (3)

Opportunity for extensive study in areas of special interest to the student. Prerequisite: school approval.

295, 395, 495 Research (Semester hours will be arranged)

Investigation of an original research problem of special interest to the student; independent execution of chosen experimental work or library research; under direction of selected faculty member. MARC scholars follow a special research program. (\$30 fee). PHT majors complete 4 semester hours in the prerequisite year in preparation for a major scientific clinical research study.

OCCUPATIONAL THERAPY

Occupational Therapy is a health care profession that uses "occupation," meaning purposeful activity, as a means of preventing, reducing or overcoming physical, social, and emotional disabilities in people of all ages. This is a full-time weekend program specifically designed to enable the working certified occupational therapy assistant and those persons with related two-year and four-year degrees to attain a Bachelor of Science degree in Occupational Therapy.

The Occupational Therapy Program has initiated accreditation procedures with the Committee on Allied Health Education and Accreditation of the American Medical Association in conjunction with the Accreditation Committee of the American Occupational Therapy Association. Upon accreditation of the program, its graduates will be able to sit for the national certification examination for the occupational therapist administered by the American Occupational Therapy Certification Board. After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the AOTCB Certification Exam.

Admission Requirements

Applicant should be a Certified Occupational Therapy Assistant (COTA) with an Associate of Arts or an Associate of Science degree; and/or a person with a related two-year or four-year degree; must have had no grade lower than a C in prerequisite and/or occupational therapy courses; and must have maintained an overall G.P.A. of 2.50 (on a four point scale). Persons with work experience in the field will be given preference over those applicants lacking such experience.

Admission into the O.T. Program requires:

1. An admission interview
2. A written essay
3. Three letters of reference
4. A review of academic history
5. A review of work experience

Admission into the O.T. program is based upon a positive evaluation of these five criteria.

Weekend Class Schedule

This weekend program is built upon a trimester plan. Classes begin in the fall and run every other weekend, for nine weekends beginning in August and ending in December. The spring trimester begins in January and runs every other weekend, for nine weekends, until May. The summer session runs every other weekend in May through July.

Classes run from 9 a.m.- 5 p.m. on Saturday and Sunday, and the student may attain 9 credits a trimester by attending full time.

Program Requirements

Matriculating in the School of Natural and Health Sciences, the student will be required to take up to 48 upper division credits in the Occupational Therapy Program, and up to 30 more credits in upper and lower division liberal arts coursework in order to fulfill the university's distribution requirements.

Already having associate degrees, students will be granted advanced standing of up to 64 credits, (18 of which can be for COTA coursework). Students with four years of college experience will receive additional credits as indicated by established university policy.

To remain in good academic standing, a grade point average of 2.5, with no grade lower than C, must be achieved at the end of each trimester.

Students must be in good academic standing before being placed on fieldwork assignments.

Students are expected to schedule time for advisement and career counseling.

Full-time fieldwork placements are considered the equivalent of full-time enrollment for a student.

Students must comply with the policies of the University, the Program, and the profession. Students must attend each class session in its entirety during the trimester.

Absence for more than one class session due to illness may necessitate re-taking the course.

Prerequisites/Distribution

Prerequisite courses for the program will be:

Anatomy	General Psychology
Physiology	Developmental Psychology
*Human Anatomy for OT Majors	Abnormal Psychology
*Kinesiology	Group Dynamics
*Neuroanatomy	Sociology

* Must be taken at Barry University.

Those applicants who are not certified Occupational Therapy Assistants, but who have a degree in a related health profession are also required to take:

OTR 260, 261, 262, Introduction to OT Practice I, II & III, a directed individualized study. These students must also satisfy the other distribution requirements as stated under Admission Requirements.

All prerequisite courses for the professional program and the university's distribution requirements must be completed before beginning the professional program by COTA and non-COTA students.

The following prerequisite courses will be given on weekends during the preprofessional year.

Fall:

BIO	348	Human Anatomy for OT Majors
PHI	120	Critical Thinking
OTR	300	Occupational Therapy – Special Topics

Spring:

BIO	247	Kinesiology
THE	300	Special Topics
OTR	300	Occupational Therapy – Special Topics

Summer:

BIO	345	Neuroanatomy
PHI	353	Biomedical Ethics
HUM	300	Humanities – Special Topics

THE OCCUPATIONAL THERAPY CURRICULUM

The Occupational Therapy Curriculum itself, is based upon a developmental frame of reference which serves to unify the theoretical understanding and application of occupational therapy to all areas of practice.

The curriculum is divided into six developmental modules: Overview, Childhood, Adolescence, Adulthood, Maturity and Synopsis. Transecting each module are three strands of content knowledge.

DESCRIPTION OF CURRICULUM STRANDS**I. Human Growth and Development**

Explores biopsychosocial development throughout the life cycle with emphasis on the acquisition of skills and life tasks associated with specific stages.

II. Health Concepts and Practices

Focuses on the health-illness continuum as it relates to the role of the Occupational Therapist in medicine, rehabilitation, and the delivery of services in a variety of settings.

III. Assessment Techniques and Therapeutic Activities

Addresses the acquisition of professional concepts and abilities regarding evaluation tools, treatment planning and development skills that are current practices in occupational therapy.

The Occupational Therapy curriculum, exclusive of pre-professional courses and distribution requirements, takes two years to complete and requires the students' participation in four trimesters of academic work and two full-time three-month clinical field experiences. Each trimester consists of nine weekends of course work, over a four-month period, requiring the students' on-campus participation every other weekend. (Some weekends run consecutively.)

YEAR I—Professional Program**Fall:**

OTR	310	Overview of Occupational Therapy Practice	3
OTR	315	Childhood and Occupational Therapy Practice	6

Spring:

OTR	320	Adolescence and Occupational Therapy Practice	6
OTR	325	Medical Science for Occupational Therapy Practice	3

Summer:

OTR 330	Fieldwork in Occupational Therapy Practice— Pediatric	3
---------	--	---

YEAR II—Professional Program

Fall:

OTR 400	Adulthood and Occupational Therapy Practice	6
OTR 405	Advanced Treatment in Occupational Therapy Practice	3

Spring:

OTR 410	Maturity and Occupational Therapy Practice	6
OTR 415	Synopsis of Occupational Therapy Practice	3

Summer:

OTR 420	Fieldwork in Occupational Therapy Practice – Adult	3
---------	--	---

Course Descriptions — Occupational Therapy Prefix: OTR

260 Introduction to O.T. Practice I (2)

A study in the significance of purposeful activity as the hallmark of O.T. Practice for the non-COTA student. This course is taught as a directed individualized study.

261 Introduction to O.T. Practice II (2)

A study to familiarize the non-COTA student in the principles and areas of practice in Occupational Therapy with children and adolescents. This course is taught as a directed individualized study. Prerequisite: OTR 260.

262 Introduction to O.T. Practice III (2)

A study to familiarize the non-COTA student in the principles and areas of practice in Occupational Therapy with adults and the elderly. This course is taught as a directed individualized study. Prerequisites: OTR 260,261.

300 Special Topics (3)

Content to be determined each trimester by the Department.

310 Overview of Occupational Therapy Practice (3)

An exploration of the knowledge and theories regarding human development related to occupational therapy practice with emphasis on developing professional skills in activity analysis, treatment planning, and problem solving.

315 Childhood and Occupational Therapy Practice (6)

A study of the developmental stages of childhood; the most prevalent pediatric disorders; and the appropriate assessment and intervention strategies.

320 Adolescence and Occupational Therapy Practice (6)

A study of the multiple problems in the transition from childhood to adulthood; the most common causes of dysfunction in this age; and the appropriate assessment and intervention strategies.

325 Medical Science and Occupational Therapy Practice (3)

The study of significant disabilities and diseases most often encountered by the occupational therapist, their etiology, pathology, prognosis, and medical treatment.

330 Fieldwork in Occupational Therapy Practice - Pediatric (6)

Supervised full-time internship in various approved agencies following the first year of professional course work.

400 Adulthood and Occupational Therapy Practice (6)

A study of the "passages" the adult must negotiate to attain maturity; the health related disorders commonly associated with this age; and the appropriate assessment and intervention strategies.

405 Advanced Treatment Techniques in Occupational Therapy Practice (3)

A practicum in the most current treatment modalities used in occupational therapy practice to ameliorate dysfunction and maximize adaptation in work, leisure, and self-help skills.

410 Maturity and Occupational Therapy Practice (6)

The study of the elements which contribute to the aging process; the disabilities associated with aging; and the appropriate assessment and intervention strategies.

415 Synopsis of Occupational Therapy Practice (3)

A study of the managerial skills and organizational knowledge essential to professional practice. Integrates professional training and reinforces professional competencies.

420 Adult Fieldwork and Occupational Therapy Practice (3)

Supervised full-time internships in various approved agencies following the second year of course work.

PHYSICAL THERAPY TRACK

Catherine G. Page, Ph.D., P.T., Director

Physical Therapy is a health care profession which fosters optimal health and functional abilities for people with movement dysfunctions. By applying scientific principles, the therapist assesses, corrects, prevents or alleviates dysfunctions in movement by evaluating and treating those who need physical rehabilitation.

This weekend program is specifically designed to enable the working adult who is a physical therapist assistant to become a licensed physical therapist who can practice autonomously in rehabilitation, acute care, preventive, educational and research facilities. Others who are currently working in health care with Bachelor's degrees in other fields may be considered for admission; however, preference is given to licensed physical therapist assistants.

The physical therapy program offers a three year, entry-level Master's degree program leading to the B.S./M.S. academic degree in physical therapy. Only graduation from an accredited Physical Therapy Program will make the person eligible to sit for the licensure exam. Accreditation decisions are not made until the final term of the program. The program begins in the fall of each year and is divided into nine terms including full time clinical affiliations.

A Bachelor of Science in Biology — Physical Therapy Track — will be awarded at the end of the student's second year at Barry as a transitional degree leading on to the Master of Science in Physical Therapy degree. The Bachelor's degree does not entitle the graduate to take the licensure exam. Only after completion of the Master's degree will the graduate qualify to take the examination.

See the graduate program in physical therapy for program details.

CARDIOVASCULAR PERFUSION CERTIFICATE PROGRAM

Alan Becker, C.C.P., Director

Perfusion is the allied health field related to management of extracorporeal circulation during any long or short term procedure requiring support or replacement of the patient's circulatory and/or respiratory functions.

A perfusionist is primarily involved with chronic and acute cardiac patients undergoing surgical or invasive intervention or experiencing cardiac emergencies. Emotional and some physical demands will be placed on the perfusionist.

Perfusion has grown from the era of the on-the-job trained "pump tech" for open heart surgery to a recognized and respected allied health profession demanding highly skilled specialists, educated and certified in the art and science of extracorporeal technology.

This program is designed to enable the working adult who has a Certificate, Diploma or Degree in an allied health field from an accredited program and has at least one year of medically related work experience to become eligible for certification as a Cardiovascular Perfusionist.

The curriculum takes approximately 15 months to complete. The didactic portion of the program is approximately six months. Classes will be held Monday, Tuesday, Wednesday and Friday evenings, 5:30–9:30 p.m. and Saturdays, 8:30 a.m. – 5:30 p.m. on the main campus of Barry University. Clinical experience is obtained at various affiliated hospitals over an approximate of nine month period, consisting of two adult rotations and one pediatric rotation.

Admissions Requirements:

Applicants must submit a completed application with a \$50.00 application fee. Applications must be submitted at least three months prior to a scheduled class start date. There will be two classes scheduled per year. See the academic calendar 1992–1993 for dates. Applicants must have maintained a grade of 2.50 (on a four point scale) in all prerequisite courses, as well as a GPA of 2.50 in their allied health major. Three letters of recommendation, one preferably from a Cardiothoracic Surgeon or Certified Clinical Perfusionist, are required. Applicants must also submit confirmation of observation of one open heart procedure. Each student's credentials must include:

Biology: 8 semester hours of Anatomy & Physiology
Chemistry: 4 semester hours of college level Chemistry
with Laboratory

Math: 3 semester hours college Algebra or higher

Admission to the Cardiovascular Perfusion Program does not guarantee progression to clinical perfusion courses. The faculty of the Cardiovascular Perfusion Program reserves the right of retaining and progressing those students who, in its judgement, satisfy the requirements of scholarship, health and personal suitability.

Financial Considerations:

Tuition for the approximate 15 month program is \$15,000.00. Additional costs are estimated as follows: Text books: \$650.00. Student membership in AmSect: \$25.00/yr. Beeper: Approximately \$25.00/month for three months. Students must be financially prepared to provide housing during the program, to include the approximate nine months of clinical experience should they be required to relocate.

Requisite Courses:

- Embryology
- Anatomy & Physiology for Perfusionists
- Cardiovascular Pathophysiology
- Research Methodology
- Pharmacology
- Cardiology for Perfusionists
- Principles of Perfusion
- Biomedical Ethics
- Perfusion Devices
- Principles and Devices Lab

Program Requirements:

Accepted students must be in general good health and without handicaps which would impair his/her ability to function as a perfusionist.

Proof of medical insurance must be presented prior matriculation.

Proof of current immunizations, to include Measles, Mumps, Tetanus, Polio, and Hepatitis B, must be presented before the student will be allowed to progress to clinical status.

The matriculating student will be required to attend approximately 14 hours of evening classes and eight hours of Saturday classes for the didactic semester.

Students must maintain an average grade of "C" in all courses. Students must maintain an overall GPA of 2.0 (on a 4 point scale)

Students must be able to relocate for the clinical portion of the course work.

Students must receive passing evaluation on 75% of the clinical cases in which the student participates.

Students will be required to take emergency call with the clinical faculty staff.

Students must maintain a student membership in American Society of Extracorporeal Technologists (AmSect), the national organization for perfusionists.

Academic Dismissal and Probation:

A student may not receive a grade below "C" in any perfusion course. (A perfusion course is one where the primary emphasis of the course is perfusion related)

A student may not receive a grade below "C" in more than one non-perfusion course per semester. If a student receives an "F" in any one semester of a two semester course, she/he will be allowed to progress in the program on probationary status, but must receive an overall course average of "C" for semester 1 and 2. If a grade of "F" is received in any one semester course, she/he will be allowed to progress in the program on probationary status, but must retake the course with a minimum grade of "C" before a certificate of graduation will be awarded.

Any student withdrawing from or earning a grade lower than a "C" in any clinical perfusion course must have written permission from the Faculty Affairs Committee, or appropriate committee, to continue in the course. The individual student's academic and advising records will be evaluated by the perfusion faculty. Depending upon this evaluation, the student may be allowed to continue in the clinical perfusion course on probationary status or be refused permission to continue in the program.

A student may only withdraw from or earn a grade lower than "C" in one clinical course and be allowed to continue in the program on probationary status, and then only with the permission of the Faculty Affairs Committee, or appropriate committee.

Students will receive a supplemental student handbook at orientation. This handbook will contain the program policies concerning all aspects of student achievement, behavior and expectations. All fees and schedules are subject to change without prior notice.

The program will seek Accreditation of the Cardiovascular Perfusion Program through the Committee on Allied Health Education and Accreditation when eligible. When the program receives accreditation, all graduates will be eligible to take the certification examination offered by the American Board of Cardiovascular Perfusion.

MASTER OF SCIENCE IN BIOLOGY

PROGRAM

This Master's program in biology at Barry University has been designed to provide educational opportunities for secondary school teachers of biology.

The group targeted by this program includes:

- The certified teacher with a B.S. degree in biology. (The program will satisfy Florida State requirements for a Master's degree in field.)
- The teacher being reassigned to teach biology and who has been trained out-of-field.
- Currently certified biology teachers being updated.
- Continuing education needs of teachers.

In order to prepare the teacher being reassigned to biology and who was prepared out-of-field, this person would be asked to demonstrate competency of subject matter in certain core areas (Genetics, Cellular Structure and Function, Anatomy and Physiology) using programmed materials to attain the competency.

ADMISSION REQUIREMENTS

- Bachelor's degree from a regionally accredited college or university with appropriate undergraduate/graduate credits in biology.
- Undergraduate grade point average 3.0 (B).
- Acceptable score on the Graduate Record Examination.
- Two letters of recommendation in support of graduate work.

All requirements for State Regular Certification which the applicant lacks and which are not achieved in the Master of Science degree must be met before the University recommends the student for Master's level certification. The usual policies on transfer credit (6) and on time limitation (7 years) will apply. Minimal transfer grades of B will be accepted for courses not older than 5 years. The program is designed for the student who wishes to advance his or her education on a part-time basis with courses scheduled in the evenings and/or on Saturdays.

DEGREE REQUIREMENTS

Completion of thirty graduate credits. No comprehensive will be required.

Biomedical Science students with a semester OR cumulative grade point average below 2.00 (calculated utilizing a 0.0 to 4.0 scale) will be placed on academic probation. Students not in good standing will be periodically reviewed by the faculty student evaluation committee to determine eligibility to remain in the program.

The Dean may require a student on probation to register for a limited course load. Probation will be lifted the following semester IF the student achieves a cumulative GPA of 3.00 or more. If this condition is not met, the student will remain on probation.

A Biomedical Science student will be suspended who does not achieve a minimal GPA of at least 1.0 in any one semester or a minimal GPA of 2.0 for two consecutive semesters.

CURRICULUM

The instructional objectives of the Master's program are:

- Depth and breadth of information across core areas in biology.
- Practical application of this information in the high school setting.
- Relationship of biology and technology attained through the summer internship program.

To facilitate these objectives the program was designed so that in each core course taught the Barry University professor team teaches with a "Master" high school teacher designated by the science supervisor's office in participating counties within Florida. The purpose of this approach is to guarantee that the latest scientific information provided by the Barry University professor will have a practical application in the high school classrooms.

The "Master" high school teacher's role in the course is to supply the appropriate methodology so that the teacher/students understand how to incorporate the latest scientific information provided by the University professor back into their high school classroom on a day-to-day basis.

Additionally, many of the core courses are lecture/laboratory courses in which the emphasis in the laboratory will be practical application of content to the classroom.

Course Descriptions — Biology Prefix: BIO

500 Natural History & Ecology (5)

A lecture-lab course that examines the biogeographical distributions of species through time, including current ecological and evolutionary theories, with field trips to the South Florida coral reefs, coastal mangrove forest, and the Everglades National Park. (\$60.00 fee)

501 Biostatistics (3)

Concepts, principles, methods of descriptive and inferential statistics, and statistical quality control are applied to Biological and Biomedical health issues. Prerequisite: Algebra. Same as BMS 501.

507 Basic Research Methodology (2,3)

Introduction to experimental design and statistical analysis. Same as BMS 507 & PDY 507.

510 Pathophysiology (3)

A study of the alterations in biological processes that affect homeostasis in the human. Includes the dynamic aspects of disease, mechanisms involved, signs and symptoms. Physical and laboratory findings are emphasized. Prerequisite: BIO 595 or permission of Instructor.

525 Molecular Biology (5)

Integrated study of procaryotic and eucaryotic cells including structures, ultra structure, functions, and metabolism. (\$60.00 fee)

545, 665 Advanced Study (Credit not to exceed 6 s.h.)

Tutorial study with a faculty member in an area in which formal course work is not offered. Assigned reading, reports. Weekly discussion and examinations by arrangement with instructor. Same as BMS 545, 665.

550 Reproductive/Developmental Biology (5)

Survey of the various aspects of reproduction and development beginning at the molecular level and continuing through the gross aspects of biological organisms. (\$60.00 fee)

452/552 Quantitative Applications in Biology (3)

A laboratory oriented course designed to introduce the student to the integration, storage and retrieval of biological information to which the student has already been exposed in previous courses. (\$25.00 fee) Prerequisites: 25 s.h.; Computer Course or equivalent.

553a Biomedical Ethics (1-10)

Interdisciplinary investigation of current ethical issues in health care and the medical, biological and behavioral sciences; organized according to modules which may change each year. Same as PDY 553 and BMS 553.

553b Health Care Delivery (1)

An analysis of the economic, structural and ideological interests that lead to numerous value conflicts within the health care system in the United States: prospective payment system and quality control, for-profit vs. not-for-profit hospitals, societal and personal responsibilities in the health care sector. Prerequisite: 553a. Same as PDY 553b and BMS 553b.

455/555 Immunology (3)

Major topics considered in this course are antibody formation, antigen antibody interactions, biological effects of immunologic reactions, immunological specificity of normal and diseased cells and tissues. Same as BMS 455/555.

458/558 Infectious Diseases (1-4)

Major human bacterial, viral, rickettsial, fungal and parasitic diseases, identification, pathogenicity, mode of transmission, treatment, methods of control. 4 hours of lecture. Same as BMS 458/558.

458a/558a Bacterial and Rickettsial Diseases (2)

458b/558b Viral Diseases (1)

458c/558c Fungal and Parasitic Infections (1)

470/570, 477/577 Biochemistry I, II (3,3), (3,4)

Introduction to the fundamental aspects of biochemistry. It emphasizes the relationship between structure and function of the major classes of macromolecules in living systems. Metabolic interrelationships and control mechanisms are discussed as well as the biochemical basis of human disease. Same as BMS 470/570, 477/577 and PDY 570, 577.

597 Physiology (3)

Comprehensive study of systems physiology including neuronal and musculoskeletal system, circulation, respiration, excretion, digestion and fluid electrolyte balance. Prerequisites: BIO 570, 572. Same as BMS 597.

600 Organismal Physiology (4)

Interactions of organs and systems at the functional levels. Examples will include plants, invertebrate and vertebrate systems. (\$60.00 fee) Prerequisites: BIO 525, 550.

620 Pharmacology (3)

Course encompasses basic pharmacological principles/classes of drugs. Includes drug interaction with biological receptors: their absorption, distribution, metabolism and excretion. Drugs are covered on a systems basis. Same as PDY 620. Prerequisites: BMS/BIO 570, 572, and 597.

630 Internship (6)

Supervised experience relating biology and technology attained in an industrial and/or academic research setting.

635 Nutrition (2)

Biochemistry of nutrition, the assessment of nutriture, and the biological effects of excess or deficiency of nutrients. It will examine the identification and quantitation of requirements for calories, macronutrients and certain micronutrients. Same as BMS 635.

670 Seminar (2)

A course designed to expose the student to selected topics in biology.

***476/576 Teaching of Biology in Secondary School (2)**

Problems confronting teachers of biology in the secondary school; organization of courses, sources of materials, textbooks, teaching methods. Prerequisite: School approval; candidacy in the School of Education.

*Those students lacking a methods course may take BIO 476/576 for 2 s.h. These students will graduate with 32 semester hours of graduate credit.

MASTER OF SCIENCE IN BIOMEDICAL SCIENCES

PROGRAM

The Master's program in biomedical sciences at Barry University has been designed to prepare students for rewarding professional careers as creative biomedical scientists. It is anticipated that students completing this program will enter into medical, academic, government, health, or industrial positions in biomedical sciences or closely related areas and be committed to working toward solutions for the many unresolved problems of biomedical science which face mankind.

The Biomedical curriculum is composed of a core of basic science courses many of which also serve as the first year coursework of the basic science component in the DPM degree program at Barry University.

Some of the core courses may serve as post-baccalaureate preparation for students who completed a premedical preparation as an undergraduate and who have demonstrated superior academic achievement in their coursework and who wish to study in the basic sciences on a graduate level for a period of time before attempting full-time medical studies.

Other core courses serve the needs of those currently employed in the health care industry who seek advancement in their chosen professions. These same core courses also serve the need to "cross-train" those scientists with chemistry/physics backgrounds who wish to enter the biomedical field in industry.

ADMISSION PREREQUISITES

- Requirements for admission include a degree from an accredited college or university with a record of satisfactory academic work at the baccalaureate and/or graduate level.
- 8 semester hours of study each in General Biology, General Chemistry, Organic Chemistry, and Physics, and 6 semester hours in English.
- Applicants are expected to submit credible and current scores on the Medical College Admission Test or on the Graduate Record Examination
- Two letters of recommendation or a Health Professions Advisory report are required. A personal interview is strongly recommended.
- Foreign students must submit their scores on the Test of English as a Foreign Language (TOEFL).
- Advanced Placement is at the discretion of the Dean. Only course work taken in accredited universities or medical colleges listed with the World Health Organization will be considered for advanced standing.
- The usual policies on transfer credit (6 s.h.) and on degree time limitation (7 years) will apply; minimal transfer grades of B will be accepted for courses not older than 5 years.

Under special circumstances students may be admitted as provisional or non-degree seeking students. A maximum of 6 credits may be taken on a non-degree seeking basis. Full acceptance into the School of a provisionally accepted student is required before the student can be admitted to candidacy. Once a student has completed 12 credit hours, an admission to candidacy form must be filed.

CURRICULUM

The program of study is divided into three tracks. Students in the Track 1 Program (those who wish to pursue medical studies) are required to take BMS 547, Neuroanatomy; BMS 550, Histology; BMS 553, Bio-Medical Ethics; BMS 570, 577, Biochemistry; BMS 590, Gross Anatomy; BMS 595, Physiology. The remaining hours will be determined in consultation with advisor.

Students in the Track 2 Program would be required to take BMS 553, Bio-Medical Ethics and BMS 570, 577. The remaining hours will be determined in consultation with an advisor based on the career goals of the student and selected from the other BMS course offerings. Two courses with labs must be included in these remaining hours.

Students in the third track, i.e., the industrial track, would be required to take BMS 501 Biostatistics; BMS 507, Basic Research Methodology; BMS 553a, 553b, Biomedical Ethics; BMS 570, 577, Biochemistry; BMS 555, Immunology; BMS 675, Research.

The remaining hours may be selected from: BMS 558, Infectious Diseases; BMS 595 Physiology; BMS 620 Pharmacology; BMS 635 Nutrition; BMS 665, Advanced Study.

Course Descriptions — Biomedical Sciences Prefix: BMS

501 Biostatistics (3)

Concepts, principles, methods of descriptive and inferential statistics, and statistical quality control are applied to health issues. Prerequisite: Algebra. Same as Bio 501.

507 Basic Research Methodology (2,3)

Introduction to experimental design and statistical analysis. Prerequisite: BMS 501 or permission of instructor. Same as BIO 507 and PDY 507.

547 Neuroanatomy (3)

Presentation of the morphologic and physiologic aspects of the nervous system. Clinical correlations are incorporated to emphasize the important anatomic structures and pathways. Lecture and lab. Prerequisite: PDY 590 and 550. Same as PDY 547.

550 Histology (5)

Presentation of the normal microscopic structure of the human body. Emphasis will be placed on the integration of the morphology with the biochemical and physiologic processes of the body. Lecture and laboratory. Same as PDY 550.

553a Biomedical Ethics (1-10)

Interdisciplinary investigation of current ethical issues in health care and the medical, biological and behavioral sciences; organized according to modules which may change each year. Same as PDY 553a and BIO 553a.

553b Health Care Delivery (1)

An analysis of the economic, structural and ideological interests that lead to numerous value conflicts within the health care system in the United States: prospective payment system and quality control, for-profit vs. not-for-profit hospitals, societal and personal responsibilities in the health care sector. Prerequisite: 553a. Same as PDY 553b and BIO 553b.

455/555 Immunology (3)

Major topics considered in this course are antibody formation, antigen antibody interactions, biological effects of immunologic reactions, immunological specificity of normal and diseased cells and tissues. Same as BIO 455/555.

458/558 Infectious Diseases (1-4)

Major human bacterial, viral, rickettsial, fungal and parasitic diseases; identification, pathogenicity, mode of transmission, treatment, and methods of control. 4 hours of lecture. Same as BIO 458/558.

458a/558a Bacterial and Rickettsial Disease (2)

458b/558b Viral Diseases (1)

458c/558c Fungal and Parasitic Infections (1)

470/570, 477/577 Biochemistry I, II (3,3), (3,4)

Introduction to the fundamental aspects of biochemistry. It emphasizes the relationship between structure and function of the major classes of macromolecules in living systems. Metabolic interrelationships and control mechanisms are discussed as well as the biochemical basis of human disease. Same as BIO 470/570, 477/577 and PDY 570, 577.

571 Biochemistry Laboratory (1)

Isolation and characterization of the major classes of macromolecules. Application of techniques such as centrifugation, gel filtration, electrophoresis and spectroscopy to characterize biological molecules. Two hours per week. Same as PDY 571.

590 Gross Anatomy (6)

Study designed to expose the student to the macroscopic aspects of human morphology. Complete dissection of a cadaver will be correlated with surface anatomy, radiology and other clinical information provided in part by qualified local clinicians. Lecture and lab. Same as PDY 590.

595 Physiology (6)

Comprehensive study of systems physiology including neuronal and musculoskeletal system, circulation, respiration, excretion, digestion, and fluid-electrolyte balance. Lecture and Lab. Prerequisites: PDY 550 and PDY 570; Prerequisite or Corequisite: PDY 547 and PDY 572. Same as PDY 595.

597 Physiology (3)

Comprehensive study of systems physiology including neuronal and musculoskeletal system, circulation, respiration, excretion, digestion, and fluid-electrolyte balance. Lecture. Prerequisites: BMS 570, 572. Same as BIO 597.

600, 601 Pathology (4,2)

Fundamental principles of disease processes such as tissue injury and repair, inflammation, the immune response, and neoplasia, as well as mechanisms of hemodynamic and metabolic derangement; illustrated in laboratory by means of clinical material and case studies. Lecture and lab. Prerequisite: BMS 550 for BMS 600 and BMS 600 for BMS 601. Same as PDY 600, 601.

620 Pharmacology (3)

Course encompasses basic pharmacological principles/classes of drugs. Includes drug interaction with biological receptors: their absorption, distribution, metabolism and excretion. Drugs are covered on a systems basis. Same as PDY 620 and BIO 620. Prerequisites: BMS 570, 572, and 595 or 597, or BIO 570, 572, and 595.

623 Microbiology I (4)

This course covers the physical and chemical structure of bacteria and fungi, major human diseases associated with these microorganisms including identification, pathogenicity, mode of transmission, treatment, and chemotherapeutic drugs. 3 hours lecture, 2 hours lab weekly. Prerequisites: BMS 570 and 572. Same as PDY 623.

624 Microbiology II (4)

This course has two major topics. It first covers the major human viral and parasitic diseases, identification, pathogenicity, mode of transmission, and treatment. The second part covers major topics in immunology including antibody formation, antigen-antibody interactions, and immunologic specificity of normal and diseased cells and tissues. 4 hours of lecture. Prerequisite: BMS 623. Same as PDY 624.

635 Nutrition (2)

Biochemistry of nutrition, the assessment of nutriture, and the biological effects of excess or deficiency of nutrients. It will examine the identification and quantitation of requirements for calories, macronutrients and certain micronutrients. Same as PDY 735.

545, 665 Advanced Study (Credit not to exceed 6 s.h.)

Tutorial study with a faculty member in an area in which formal course work is not offered. Assigned reading, reports. Weekly discussion and examinations by arrangement with instructor.

560, 675 Research (Credit not to exceed 6 s.h.)

Research under the guidance of a faculty advisor.

GRADUATION REQUIREMENTS

A student must have completed 36 semester hours of coursework with a minimum grade point average of 3.0 (B) with no more than 8 semester hours of C grade. Track I and II students must pass a qualifying examination.

CANDIDACY

Degree-seeking students must be admitted to candidacy for the degree before beginning the last nine semester hours of graduate work. Requirements for candidacy are: completion of 12 credit hours of graduate study with a scholastic average of at least B; recommendation by the faculty, and approval of the Dean of the school.

**MASTER OF SCIENCE
IN PHYSICAL THERAPY**

Physical Therapy is a health care profession which fosters optimal health and functional abilities for people with movement dysfunctions. By applying scientific principles, the therapist assesses, corrects, prevents or alleviates dysfunctions in movement by evaluating and treating those who need physical rehabilitation.

This weekend program is specifically designed to enable the working adult who is a physical therapist assistant to become a licensed physical therapist who can practice autonomously in rehabilitation, acute care, preventive, educational and research facilities. The physical therapy program offers a three year, entry-level Master's degree program leading to the B.S./M.S. academic degree in physical therapy. Only graduation from an accredited Physical Therapy Program will make the person eligible to sit for the licensure exam. Accreditation decisions are not made until the first class graduates. The program begins in the fall of each year and is divided into nine terms including full time clinical affiliations.

A Bachelor of Science in Biology — Physical Therapy Track will be awarded at the end of the student's second year at Barry as a transitional degree leading on to the Master of Science in Physical Therapy degree. The Bachelor's degree does not entitle the graduate to take the licensure exam. Only after completion of the Master's degree will the graduate qualify to take the examination. All distribution requirements for the B.S. degree must also be met.

Admission Requirements

Admission Requirements reflect a program structure as a combined five year Bachelor of Science in Biology and Master of Science degree curriculum. To be eligible, applicants should be a graduate of an accredited physical therapist

assistant program with an Associate of Arts or an Associate of Science degree from an accredited institution. Other applicants would be eligible if they have completed a Bachelor of Arts or Bachelor of Science degree from an accredited institution in a field approved by the program director. Those applicants would also be admitted to the prerequisite year. The prerequisite course work must total a minimum of 64 credits with grades of "C" or higher in physical therapist assistant courses and/or prerequisite courses. Applicants must have maintained an overall GPA of 2.50 (on a four point scale). Three letters of recommendation are required. Each student's credentials must include:

Biology:	8 semester hours (i.e. Anatomy & Physiology)
Chemistry:	4 semester hours
Physics:	4 semester hours
English:	6 semester hours
Psychology:	6 semester hours
Math:	3 semester hours
Kinesiology:	3 semester hours (i.e. Biomechanics, Applied Anatomy)

Students are encouraged to complete distribution requirements in social and behavioral sciences and humanities and arts before entering the prerequisite year of Barry's program. See graduation requirements under Academic Information.

Foreign students must submit their scores on the Test of English as a Foreign Language (TOEFL). Applicants with work experience in the field of physical therapy will be given preference over those applicants with a degree or course work in a related science or health profession.

Applicants will be accepted into the Prerequisite year based on their credentials. A personal interview will be required before acceptance into the first Professional year.

Graduate Program Requirements

The graduate program starts in the summer of the second year. A student must complete a minimum of 48 semester hours of graduate course work with a minimum GPA of 3.0 (B) with no more than 8 semester hours of C grade. Master of Science degree-seeking students must be admitted to candidacy for the degree before beginning the last year of graduate work. Requirements for candidacy are: 1) credible and current scores on the verbal, quantitative and analytical portions of the GRE; 2) recommendation by the faculty; 3) approval of the Director of the Program; and 4) completion of all undergraduate prerequisite and professional course work at Barry with an overall GPA of 2.8. A student will be allowed no more than a seven-year maximum to complete the program. Degree requirements also include successful completion of four clinical education rotations and submission of a major scholarly clinical research project.

Weekend Class Schedule

Classes begin in the Fall and run every other weekend year round in the prerequisite year. In the professional years, the fall semester is followed immediately by a 6 week, full-time clinical affiliation. The Spring semester

begins as soon as this clinical affiliation ends and is followed by another 6-week clinical practice.

Classes run from 6:30 p.m. to 8:30 p.m. on Friday and from 8:30 a.m. to 6 p.m. on Saturday and Sunday. The student may attain 12 credits per semester by attending full time.

Prerequisite Year:

Fall:

CHE	142	Chemistry for Allied Health Sciences	4
THE	498	World Religion for Health Care Professionals	3
ENG	300	Reports and Presentations: Physical Therapy	3
BIO	295	Research: Methods for the Health Professional	2

Spring:

BIO	347	Gross Anatomy for Physical Therapists	4
PHI	120	Critical Thinking	3
PHY	141	Intro Physics for Allied Health Sciences	4
BIO	395	Research: Methods for the Health Professional	1

Summer:

BIO	349	Exercise Physiology & Biomechanics for Physical Therapists	4
BIO	345	Neuroanatomy for Physical Therapists	4
PHI	353	Biomedical Ethics	
BIO	495	Research: Methods for the Health Professional	1

Year One – Professional Program

Fall:

PHT	400	Physical Therapy in Acute Care	8
PHT	405	Problems in Acute Care	4

Spring:

PHT	420	Acute Care Clinical Practice	5
PHT	410	Physical Therapy in Outpatient Settings	8
PHT	415	Problems in Outpatient Setting	4

Summer:

PHT	520	Outpatient Clinical Practice	5
PHT	525	Research Seminar	3

Year Two – Professional Program

Fall:

PHT	530	Physical Therapy in Rehab and Home Care	8
PHT	535	Problems in Rehab and Home Care	4

Spring:

PHT	620a	Rehab and Home Care Clinical Practice	5
PHT	540	Physical Therapy in Geriatrics and Pediatrics	8
PHT	610	Problems in Geriatrics and Pediatrics	4

Summer:

PHT 620b	Geriatric/Pediatric Clinical Practice	5
PHT 630	Advanced Research Seminar	3

Course Descriptions — Physical Therapy Prefix: PHT

400 Physical Therapy in Acute Care (8)

Includes screening, evaluation, treatment and documentation of care of patients in the acute care physical therapy setting following cardiopulmonary/general medical, orthopedics and neurology tracks. Concurrent enrollment in PHT 405 required.

405 Problems in Acute Care (4)

Management problems, health care systems issues, common diagnoses, and the clinical picture of patients typically treated in acute care and the major focus areas. Concurrent enrollment in PHT 400.

410 Physical Therapy in Outpatient Settings (8)

Includes screening, evaluation, treatment and documentation of care of patients in the outpatient physical therapy settings following cardiopulmonary/general medical, orthopedics and neurology tracks. Concurrent enrollment in PHT 415 required.

415 Problems in Outpatient Settings (4)

Management problems, health care systems issues, common diagnoses, and the clinical picture of patients typically treated in outpatient settings are the major focus areas. Concurrent enrollment in PHT 410.

420 Clinical Education in Acute Care (5)

Supervised full-time six-week clinical education in approved agencies. Prerequisite: Successful completion of acute care module.

520 Clinical Education in Outpatient Settings (5)

Supervised full-time six-week clinical education in approved agencies. Prerequisite: Successful completion of outpatient module and PHT 420.

525 Research Seminar (3)

Independent study under the supervision of a thesis advisor to develop a thesis proposal as an individual or group clinical research project.

530 Physical Therapy in Rehab/Home Care (8)

Includes screening, evaluation, treatment and documentation of care of patients in the rehab and home care settings following cardiopulmonary/general medical, orthopedics and neurology tracks. Concurrent enrollment in PHT 535 is required.

535 Problems in Rehab and Home Care (4)

Management problems, health care systems issues, common diagnoses, and the clinical picture of patients typically treated in rehab/home care are the major focus areas. Concurrent enrollment in PHT 530.

540 Physical Therapy in Geriatrics/Pediatrics (8)

Includes screening, evaluation, treatment and documentation of care of patients in geriatric and pediatric settings following cardiopulmonary/general medical, orthopedics and neurology tracks. Concurrent enrollment in PHT 610 required.

610 Problems in Geriatrics/Pediatrics (4)

Management problems, health care systems issues, common diagnoses, and the clinical picture of patients typically treated in geriatric and pediatric settings. Concurrent enrollment in PHT 540.

620a Clinical Education in Rehab/Home Care (5)

Supervised full-time six-week clinical education in approved agencies. Prerequisite: Successful completion of PHT 420, 520, and the Rehab/Home Care Module.

620b Clinical Education in Geriatrics/Pediatrics (5)

Supervised full-time six-week clinical education in approved agencies. Prerequisite: Successful completion of PHT 420, 520, 620a, and the Geriatric/Pediatric Module.

630 Advanced Research Seminar (3)

Independent study under the supervision of a thesis advisor to conduct research and complete a thesis as an individual or group clinical research project.

SCHOOL OF NURSING

Judith A. Balcerski, Ph.D., R.N., Dean.

Faculty: Beauchamp, Cather, Charron, DiPasquale, Epley, Fairchild, McCormick, Gottlieb, Hauri, Hayes, Hoover, Hopkins, Kaplan, Lamet, Mercadante, Miller, Parns, Perkel, Rostock, Schantz, Schoolcraft, Thomas.

BACHELOR OF SCIENCE IN NURSING (B.S.N.)

The purpose of the nursing program is to offer students a baccalaureate education which will prepare them for professional nursing practice in the milieu of a caring environment. The program, within a basic Judeo-Christian humanistic framework, aims to lay a foundation for safe nursing practice, the progression to positions that require beginning administrative skills without additional education, beginning skills in research, continued personal and professional growth, and graduate study in nursing. The program is approved by the Florida Board of Nursing and is accredited by the National League for Nursing.

The curriculum in the School of Nursing is process based and flows from the belief that the practice of nursing is predicated on seven significant processes. These processes evolve from beliefs about human beings and their environment; Virginia Henderson's definition of nursing as a profession; and from the intellectual disciplines of natural and social sciences, psychology, education, administration, and the humanities. The seven processes which comprise the practice of nursing and upon which the undergraduate and graduate curriculums are based include: the change process, the communication process, the management process, the nursing process, the professionalization process, the research process and the teaching/learning process. At the end of the baccalaureate program in nursing, students in each option will be able to:

- (1) utilize the change process to improve health care;
- (2) utilize the communication process with clients, families, and members of the health team in providing nursing care;
- (3) utilize the management process in health care delivery;
- (4) utilize the nursing process with clients, including individuals, families, groups, and communities;
- (5) demonstrate professional behavior in the performance of nursing practice;
- (6) utilize the research process to improve nursing practice; and
- (7) utilize the teaching/learning process in providing nursing care and promoting health.

The baccalaureate degree in nursing may be earned in any one of six distinct options: the Basic Option, the R.N. to B.S.N. Option, the R.N. to B.S.N./M.S.N. Option, the Accelerated Option, the Two-Year Transfer Option, and the L.P.N. to B.S.N. Option. The Basic Option is designed for students who are not registered nurses and who do not have a bachelor's degree in any other major. This option takes three to four years to complete. The R.N. to B.S.N. Option is for registered nurses who have either a diploma or an associate degree in nursing, and takes two or three years to complete. A registered nurse with a bachelor's degree out of the field may be able to complete the program more rapidly. The R.N. to B.S.N./M.S.N. Option permits eligible registered

nurses to enroll in graduate level courses in lieu of part of the R.N. to B.S.N. curriculum. The Accelerated Option is planned for the person who is not a registered nurse and who has earned at least a bachelor degree in any field, and may be completed in one to two years. The Two-Year Transfer Option is available for transfer students with 41 or more credits applicable to the nursing program requirements. This option takes two years including the intervening summer to complete. The L.P.N. to B.S.N. Option allows qualified L.P.N.s to test out of 12 credits in the nursing program to avoid unnecessary duplication of content. Students in all options complete similar programs and attain the same terminal objectives.

Admission to the School of Nursing does not guarantee progression to clinical nursing courses or graduation. The faculty of the School of Nursing reserves the right of retaining, progressing, and graduating those students who, in its judgment, satisfy the requirements of scholarship, health and personal suitability.

In addition to the degree programs, the School of Nursing is approved by the Florida Board of Nursing to provide non-credit continuing education offerings for registered and licensed practical nurses, and sponsors the Center for Nursing Science. The Center is designed to organize resources to direct and guide the advancement of nursing through theory-based nursing research, practice, and education. The goals of the Center are to promote consultation, fortify links between practice and education, disseminate nursing knowledge, and create an environment that perpetuates scholarship.

BASIC OPTION

Admission Requirements

In addition to general university admission requirements, the following criteria must be met by applicants to the Basic Nursing Option:

- (1) completion of high school or college courses in biology and chemistry (with laboratories) with a minimum grade of C in each,
- (2) completion of Algebra II or equivalent, with a minimum grade of C,
- (3) achievement of minimum total score of 850 on the SAT or 20 on the ACT, and
- (4) achievement of a minimum of a 2.50 cumulative high school or college grade point average, with fewer than five W's, D's, or F's.
- (5) Successful completion of all four sections of the Florida CLAST may be substituted for the SAT or ACT test.

Progression to Clinical Courses

The following are the criteria for progression to the first clinical nursing course, NUR 225, which is taken in the sophomore year.

- (1) completion of human anatomy, microbiology, and biochemistry (with labs) with at least a C in each course;
- (2) attainment of a 2.00 (C) average in courses taken in the natural and behavioral science block;
- (3) attainment of a 2.00 (C) cumulative grade point average in all coursework taken at Barry;
- (4) completion of 30 credits of coursework applicable to nursing;

- (5) submission of evidence of health status acceptable for the practice of nursing and the yearly submission of a report of an examination indicating good mental and physical health; and
- (6) submission of a formal letter indicating compatibility of personal goals with the goals of the School and the University.

The following are policies regarding continued progression in nursing:

- (1) Physiology (BIO 240) must be taken prior to NUR 238, Nursing Concepts II. A student who receives a D or an F in physiology may repeat physiology while enrolled in Nursing Concepts II only with permission of the nursing faculty.
- (2) Pharmacology (NUR 215) must be taken prior to or concurrently with NUR 238, Nursing Concepts II.
- (3) Nutrition in Clinical Care (DIN 271) and Developmental Psychology (PSY 382) must be taken prior to Parent/Newborn Nursing (NUR 327).
- (4) Any student withdrawing from or earning a grade lower than a C in any clinical nursing course or NUR 215 must have written permission from the Student Affairs Committee to retake the course. The individual student's academic and advisee records will be evaluated by the nursing faculty. Depending upon this evaluation, the student may be allowed to repeat the nursing course or be refused permission to continue.
- (5) Only one lab/clinical nursing course or NUR 215 may be repeated and then only with the permission of the nursing faculty.

REGISTERED NURSE (R.N. TO B.S.N.) OPTION

Graduates of state-approved diploma and associate degree programs in nursing are eligible to apply for admission to the baccalaureate program in the Registered Nurse Option. The program followed by the R.N. students will be designed to be as flexible and responsive to individual student needs as possible within the constraints of curriculum, university and accreditation requirements, and quality educational theory. The length of the program for the R.N. student is dependent upon the amount of acceptable transfer credit, success in completion of CLEP, proficiency and NLN examinations, and part-time or full-time status. In most instances a minimum of two years should be anticipated for completion.

Admission to the R.N. to B.S.N. Option requires:

- (1) a cumulative G.P.A. of 2.5;
- (2) a current active license from the State of Florida, and professional liability insurance; and
- (3) an information and planning interview with an academic advisor for R.N. students.

Alternatives to Earn Credit

Requirements of the program are met through CLEP, NLN Mobility and Achievement Examinations or their equivalents, proficiency examinations, transfer, correspondence courses, or by enrolling in courses at Barry University. The student may also earn credit through the School of Adult and Continuing

Education where courses are taught in a manner and in time blocks appropriate for the adult working student.

Proficiency Examinations

One way in which the R.N. student may receive credit for a course at Barry University is by the proficiency exam. For each specified course there is a study sheet available with course expectations. The student may obtain a study sheet from the School of Nursing and then sit for the exam. Proficiency exams are available for the following:

CHE	152	Biochemistry
BIO	220	Human Anatomy
BIO	240	Physiology
BIO	253	Microbiology
NUR	483	Health Assessment

The examinations are taken for "CREDIT/NO CREDIT" and if a student achieves an acceptable score, "CREDIT" for the course will be given. If an acceptable score is not achieved, "NO CREDIT" will be given. This "NO CREDIT" will not go on a permanent record and will not affect the overall grade average. It does mean that the student must enroll in, and pass, the course. Proficiency exams may not be repeated. A fee of \$20 per credit (in place of tuition) must be paid to cover administrative costs.

NLN Mobility Profile II/Achievement Tests

R.N. students earn 32 nursing credits through examination by sitting for the NLN Mobility Profile II and the NLN Achievement Test. The testing series is designed to evaluate previous learning and experience. It includes five content areas in four test booklets. Credit by NLN exam is awarded as follows:

NLN Book I: Care of the Adult Client (8 credits) in lieu of
NUR 238 Nursing Concepts II

NLN Book II: Care of the Client During Childbearing and Care of
the Child (12 credits) in lieu of
NUR 327 Parent/Newborn Nursing
NUR 377 Child/Adolescent Nursing

NLN Book III: Care of the Client with as Mental Disorder (6 credits)
in lieu of
NUR 388 Adult/Elderly Nursing: Mental Health

NLN Achievement Test: Nursing Care of Adults in Special Care
Units (6 credits) in lieu of
NUR 378 Adult Elderly Nursing: Biophysical Crises

The Profile and Achievement Tests are offered four times a year on campus as well as twice a year in both West Palm Beach and St. Lucie West. R.N. students may take them in any order they choose. It is advisable to begin testing as early in the program as possible. These tests may be repeated once; if a student fails any one of the NLN exams, after the second sitting he or she will be asked to enroll in the corresponding course or a tutorial for that course.

Equivalent Credit Alternatives

Qualified R.N. students may be eligible to receive some credit in place of taking related NLN tests. These alternatives include: ACT/PEP nursing exams and national certification in an area of clinical nursing practice. Details are available from the Associate Dean for the Undergraduate Program.

Sequence for Entering Required Nursing Courses

The following criteria must be met before an R.N. student is eligible to take the first nursing course:

- completion of all four sciences, with a minimum C grade in each, or proficiency in each with "Credit;"
- completion of a minimum of 6 semester hours at Barry University;
- successful completion of NLN Mobility Profile II; and
- successful completion of the three English sections of the Florida CLAST or completion of ENG 361, Rhetoric and Research.

R.N. Progression

R.N. students in the R.N. to B.S.N. Option must maintain at least 2.0 GPA and must earn at least a C in each nursing course. In order to progress in the nursing courses, the student must repeat any nursing course in which less than a C was earned. The student may not enroll in other nursing courses until earning a grade of C or better in the repeated course. If a student earns a D or an F in NUR 481 or NUR 496, the student must repeat the course and must have faculty permission to do so.

R.N. to B.S.N. / M.S.N. OPTION

R.N. students may take a maximum of 12 credits in graduate nursing courses in lieu of some of the R.N. to B.S.N. courses. To qualify, the student must meet all other criteria for admission to and progression through the R.N. to B.S.N. Option and must have a GPA of at least 3.0. The student must meet with the Associate Dean for the Undergraduate Program to work out a program plan.

R.N. students in the R.N. to B.S.N./M.S.N. Option must maintain at least a 3.0 GPA and must earn at least a B in each nursing course. If a student earns less than a B in a course, the student will no longer be eligible to proceed in the R.N. to B.S.N./M.S.N. Option. The above policy applying to R.N. to B.S.N. students' progression will then apply.

ACCELERATED B.S.N. OPTION

Admission to the Accelerated B.S.N. Option requires:

- (1) a bachelor degree from an accredited college or university;
- (2) a minimum cumulative G.P.A. of 2.50;
- (3) at least a C in the four required sciences;
- (4) a written statement of intent; and
- (5) completion of 40 credits of prerequisite courses.
- (6) An interview may be required.

Prerequisite courses may be earned through CLEP, transfer, correspondence, or by challenging or enrolling in courses at Barry University. All nursing

courses are taken full time at Barry during three 15-week terms beginning in January and ending in December, or beginning in May and ending the following May.

Because time in class or clinical approximates 40 hours per week, it is not usually possible to work during the year of enrollment in nursing courses. Preparation should be made ahead of time for financing that year. Some financial aid and loans are available and some Florida residents are eligible for a tuition reduction grant. The cost for tuition and fees for the 53 credits in nursing equals that for three full-time semesters. Books, uniforms, and other requirements will be additional.

TWO-YEAR TRANSFER OPTION

Admission to the Transfer Option requires:

- (1) completion of anatomy, microbiology and biochemistry (with labs in each) without repetitions or withdrawals;
- (2) completion of a minimum of 41 credits in coursework applicable to nursing program requirements;
- (3) 3.00 cumulative college grade point average, and
- (4) successful completion of all four sections of the Florida CLAST.

Progression to the summer portion of the option requires:

- (1) at least a B in NUR 215, 225, 231, and 238;
- (2) at least a C in each liberal arts course taken with the 200 level nursing courses; and
- (3) a 3.00 cumulative college grade point average.

For accurate advising students planning to enroll in the Two-Year Transfer Option should meet with the Dean of the School of Nursing while taking the science and liberal arts requirements. Early advisement will prevent unnecessary delay in admission because this program does not require completion of the associate degree.

L.P.N. to B.S.N. OPTION

Admission to this option requires:

- (1) at least an 80% average in L.P.N. coursework and a 2.5 average for college courses; and
- (2) current active Florida L.P.N. license or proof of eligibility to sit for the NCLEX-PN.
- (3) An interview with an academic advisor may be required.

This program is similar to the Basic and Two-Year Transfer Options but allows the qualified L.P.N. to test out of nursing coursework. These courses include:

NUR 215	Pharmacology	2
NUR 225	Basic Nursing Skills	3
NUR 231	Nursing Concepts I	4
DIN 271	Nutrition in Clinical Care	3
Total	12

All other coursework remains the same as the Basic Option with the addition of NUR 203, L.P.N. Role Transition. The course sequence, part-time or full-time

status, and method to earn credit for other courses will be decided between the student and his/her advisor.

GRADUATION

The student must meet all university and nursing program requirements. In compliance with the University requirement for a senior comprehensive examination, the senior students in the Basic, Accelerated, Transfer, and L.P.N. Options will be required to pass the secured version of AssessTest, a major, comprehensive examination. Upon completion of all nursing program requirements, the graduate is eligible to write the National Council Licensure Examination (NCLEX-RN). As part of the licensure application process, arrest and court records of final adjudication for any offense other than a minor traffic violation must be submitted to the Board of Nursing for review. The application and records should be filed **at least 90 days before the examination date** in case a student may be required to appear before the Board.

TRANSPORTATION

Students are responsible for providing their own transportation to and from all health agencies and other selected experiences such as home visits to patients, parents, and families. Car pooling is acceptable except during the community health course.

NURSING PROGRAM REQUIREMENTS: ALL OPTIONS

Distribution and Corequisite Courses:

Basic, Two-Year Transfer, and L.P.N. Options (68 cr.)

ENG	111/112	* English Composition and Research
SPE	101	Fundamentals of Speech
BIO	220	Introductory Human Anatomy (with lab)
BIO	240	Introduction to Human Physiology (with lab)
BIO	253	Introductory Microbiology (with lab)
CHE	152	Introduction to Organic and Biological Chemistry (with lab)
MAT	152	Elementary Probability & Statistics
PSY	281	Introduction to Psychology
PSY	382	Developmental Psychology
SOC		Any Sociology
ANT		Any Anthropology
PHI	120	Critical Thinking
PHI	353	Bio-Medical Ethics
THE		Any Theology
HIS/POS/ECO		Any History, Political Science or Economics
HUM and ARTS		Three courses (9 cr.)
DIN	271	Nutrition in Clinical Care
CAT	110,120,130	or Computer Elective

*Transfer students must pass the three English sections of the Florida CLAST or ENG 361, Rhetoric and Research.

Prerequisite Courses: Accelerated Option (43 cr.)

BIO	220	Introductory Human Anatomy (with lab)
BIO	240	Introduction to Human Physiology (with lab)
BIO	253	Introductory Microbiology (with lab)
CHE	152	Introduction to Organic and Biological Chemistry (with lab)
MAT	152	Elementary Probability & Statistics
PSY	281	Introduction to Psychology
PSY	382	Developmental Psychology
PSY/SOC/ANT		Two courses in any of these areas
DIN	271	Nutrition in Clinical Care
PHI/THE		Any Philosophy or Theology course

The following courses may be taken before or during the 12 months of nursing coursework.

PHI	353	Bio-Medical Ethics
NUR	215	Pharmacology

Nursing Major: Basic, Two-Year Transfer, L.P.N., and Accelerated Options (55 cr.)

NUR	215	Pharmacology
NUR	225	Basic Nursing Skills
NUR	231	Nursing Concepts I
NUR	238	Nursing Concepts II
NUR	301	Research in Nursing
NUR	327	Parent/Newborn Nursing
NUR	377	Child/Adolescent Nursing
NUR	378	Adult/Elderly Nursing: Biophysical Crises
NUR	388	Adult/Elderly Nursing: Mental Health Nursing
NUR	481	Community Health Nursing
NUR	496	Nursing Management

**Distribution & Prerequisite Courses:
R.N. to B.S.N. and R.N. to B.S.N./M.S.N. Options (61 cr.)**

Credit

Alternatives Descriptions

T-P	Human Anatomy + lab
T-P	Microbiology + lab
T-P	Biochemistry + lab
T-P	Physiology + lab
T-I	Statistics
T-C-I	English Composition (6 cr.)*
T	Speech
T-C-I	Social/Behavioral Science electives (9 cr.)
T-C-I	Humanities and Arts electives (9 cr.)

- T-I Philosophy elective
- T-I Theology elective
- T Bio-Medical Ethics
- T-C Computer elective
- T-C-I Open elective

*Transfer students must pass the three English sections of the Florida CLAST or ENG 361, Rhetoric and Research.

-
- P = Proficiency Exams
 - C = CLEP exams
 - I = Independent Study by Correspondence
 - T = Transfer Credit
-

Nursing Major: R.N. to B.S.N. Option (27 cr.)

- NUR 301 Research in Nursing
- NUR 303 Professional Processes
- NUR 307 Processes of Interpersonal Communication
- NUR 448 Group/Organizational Change
- NUR 480 Professional Role Seminar
- NUR 481 Community Health Nursing
- NUR 483 Health Assessment
- NUR 496 Nursing Management

Nursing Major: R.N. to B.S.N./M.S.N. Option (29 cr.)

- NUR 306 Foundations of Professional Nursing
- NUR 481 Community Health Nursing
- NUR 483 Health Assessment
- NUR 496 Nursing Management
- NUR 600 Nursing Theory
- NUR 602 Research in Nursing
- NUR 606 Dynamics of Interpersonal Relationships
- NUR 608 Teaching/Learning Process
- or
- NUR 610 Administration/Management Process
- NUR 690 Role Preparation in Nursing

Course Descriptions — Nursing Prefix: NUR

LEVEL II: DEVELOPMENTAL PROCESSES IN HEALTH AND ILLNESS

203 L.P.N. Role Transition (2)

Exploration of change in role from practical to professional nurse. Includes an introduction to the philosophy, concepts, and theories which form the conceptual framework.

215 Pharmacology (2)

A survey of the principles of drug therapy which includes an introduction to the classification and characteristics of drugs. Prerequisite: NUR 231.

225 Basic Nursing Skills (3)

Introduction to nursing, the nursing process, and other integrating strands in the curriculum. Includes scientific principles and practices of basic nursing skills to be used throughout the curriculum. Focus is on the individual and incorporates a laboratory experience. Prerequisite: admission to clinical nursing courses. (\$47 fee)

231 Nursing Concepts I (4)

Utilizes and expands upon the content in Basic Skills (NUR 225) with an introduction to the systematic use of the nursing process and other integrating strands in selected clinical settings. Focus is on nursing and the adult medical-surgical client with emphasis on alterations in health and wellness, and includes an introduction to health assessment techniques, and incorporates a clinical and laboratory experience. Prerequisite: NUR 225. (\$25 fee)

238 Nursing Concepts II (8)

Continuation of the systematic use of the nursing process and other integrating strands in selected clinical settings. The focus is on nursing and the care of the adult medical-surgical client and includes the psychosocial and pathophysiological alterations in the major body systems, and applicable health assessment techniques. Clinical and laboratory experience is included. Prerequisites: NUR 215, NUR 231, BIO 240. (\$45 fee)

LEVEL III: NURSING CARE OF DEVELOPING PERSONS

300 Special Topics (1-3)

Content to be determined each semester by the School as requested by faculty and/or students to fill specified needs or interest.

301 Research in Nursing (2)

Introduction to principles and process of nursing practice research; study of problem identification and definition, study design, data collection techniques, interpretation and critique of research reports, and the development of abilities as an intelligent consumer of nursing research. Prerequisite: MAT 152.

303 Professional Processes (4) (R.N. to B.S.N. only)

Examination of the health care delivery system based on the 7 processes inherent in the curriculum: change process, communication process, management process, nursing process, professionalization process, research process, and teaching learning process. Prerequisite: Degree seeking status. Corequisite: NUR 307.

306 Foundations of Professional Nursing (2) (R.N. to B.S.N./M.S.N. only)

Examination of nursing as a profession, utilizing the Barry University School of Nursing conceptual framework.

307 Processes of Interpersonal Communication (2) (RN to BSN only)

Examination of psychological factors operating within self and others which influence communication effectiveness. Corequisite: NUR 303.

327 Parent/Newborn Nursing (6)

Family centered approach to the role of nursing during the maternity cycle and neonatal period. Focus is on health assessment, stress and adaptation; the application of growth and development concepts; and on psychological and cultural factors which affect behavior during child bearing years. Experiences are provided in ambulatory and acute care settings. Prerequisites: NUR 215, NUR 238, DIN 271. (\$15 fee)

377 Child/Adolescent Nursing (6)

Family centered approach to the role of nursing during infancy, childhood and adolescence. Focus is on health assessment, stress and adaptation during illness and hospitalization; the application of growth and development concepts; and psychosocial and cultural factors which affect behavior during the pediatric years. Experiences are provided in ambulatory, community and acute care settings. Prerequisite: NUR 327, PSY 382. (\$15 fee)

378 Adult/Elderly Nursing: Biophysical Crises (6)

Extension and refocus of previously acquired knowledge of pathophysiological alterations applied to adult and elderly populations. Emphasis on clients experiencing multi-system problems. Clinical experience is in critical care facilities and includes a comprehensive health assessment. Prerequisite: NUR 377. (\$25 fee)

388 Adult/Elderly Nursing: Mental Health (6)

Extension and refocus of previously acquired information of behavioral and psychodynamic concepts applied to clinical settings in the hospital and community. Emphasis on use of self and communications as therapeutic tools in effecting nurse-client relationships. Psychopathology explored in theory and clinical practice, to identify stressors that influence prevention, treatment and rehabilitation of psychiatric-mental health clients and their families with emphasis on the adult and elderly client. Mental health assessment assists in identification process. Prerequisite: NUR 377. (\$10 fee)

LEVEL IV: NURSING CARE OF PERSONS IN SOCIETY

448 Group/Organizational Change (2) (R.N. to B.S.N. only)

Examination of the change process with a focus on group decision-making and conflict management from the organizational perspective. Prerequisites: NUR 303.

459 Independent Study (1-3)

Opportunity for an in-depth investigation in an area of nursing of special interest to the student. Student is prime course designer assisted by a faculty member in the School of Nursing. Prerequisites: Senior status and permission of Dean.

480 Professional Role Seminar (2) (R.N. to B.S.N. only)

Examination of transition to professional role; introduction to role theory; exploration of career paths and strategies for professional development and personal growth. Prerequisites: NUR 303.

481 Community Health Nursing (6)

Focus is on health promotion and illness prevention, synthesis and application of nursing skills and theory while caring for individuals, families and aggregates as an integral part of the community. Students study public health principles, and experience an in-depth relationship with client(s) over extended period of time in variety of community settings to become familiar with the many roles of the community health nurse. Prerequisites: NUR 378 for Basic and Accelerated Options; for R.N. Options, NUR 303, 307, 483 and completion of all NLN exams. (\$15 fee)

483 Health Assessment (3)

An introduction to the concepts and skills of health assessment with focus on well adults and children. Prerequisites: BIO 220, BIO 240, BIO 253, CHE 152. (\$20 fee)

487 Seminar in Nursing (2)

Group discussion of selected topics for integration and application of major knowledge fields in nursing and related areas. Prerequisite: Senior Status.

496 Nursing Management (6)

Processes of management, planning, organizing, directing, and controlling as they relate to the professional practice of nursing. Political, economic, and legal dimensions that have an impact on current practice are examined, and predominant themes that play an integral part in nursing care delivery are addressed. Application of management concepts occurs in a health care delivery setting. Prerequisites: NUR 377, for Basic and Accelerated Options; for RN to BSN Option, NUR 303, 307, 483.

DIN 271 Nutrition in Clinical Care (3)

Essentials of optimum nutrition of health and disease; macronutrients and energy metabolism; vitamins and minerals; nutrition and diet for the client. Prerequisites: BIO 220, CHE 152.

MASTER OF SCIENCE IN NURSING

The major purpose of the Master of Science in Nursing program is to prepare professional nursing leaders for administrative, teaching, and clinical practice positions in a variety of health care and educational settings. Within the milieu of a caring environment, the program offers majors in Nursing Administration, Nursing Education and Primary Care Nurse Practitioner (Adult and Family). The Primary Care Nurse Practitioner major also offers an MSN completion program for ARNP's and an ARNP certificate program (Adult and Family) for MSN prepared nurses. In addition, the program offers an opportunity for Nursing Administration majors to pursue the dual master's degree option with the School of Business (MSN-MBA).

To obtain the dual degree, MSN-MBA, requirements for both degrees must be met. Some requirements for each are common to both, thus making it possible to earn both degrees with a total of 63 graduate credits while maintaining the quality and integrity of both programs.

The Master of Science in Nursing program incorporates theories and concepts of nursing, learning, management, organization, wellness and continuity of care, and their application by nurses in health care and educational settings. The program leading to the Master of Science in Nursing degree provides the foundation for doctoral study.

Program requirements may be completed in two (2) years of full-time graduate study. Completion of a major scholarly cooperative research project or a thesis is required to graduate. A part-time plan of study designed to be flexible and responsive to individual student needs is available within the constraints of the core curriculum. Practicums specific to each major under the guidance of academically qualified and experienced preceptors are required.

ADMISSION REQUIREMENTS

Generally, admission is granted only to those with promise of success in graduate education. Criteria indicating potential success include:

- Bachelor of Science in Nursing degree from a National League for Nursing accredited school.
- An undergraduate grade point average of 3.0 on a 4.0 scale.
- Satisfactory score on the Miller Analogies Test or the Graduate Record Examination taken within the last five years.
- A statement of educational/professional goals.
- Successful completion of a statistics course which included descriptive and inferential methods, within the last five (5) years.
- A minimum of one (1) year experience in a first level nursing management position for the administration major.
- At least one year of nursing practice experience for the education and primary care majors.

The above criteria are weighted on a grid with a score of 18 desired for admission. Weakness in one area may be compensated for by strength in another.

In addition, all applicants must show evidence of (1) current licensure to practice as an RN in Florida and (2) professional liability insurance coverage. Applicants must also provide two letters of recommendation from professional references. Education and Primary Care Nurse Practitioner majors must show evidence of competency in health assessment. A personal interview may be required. Dual degree majors MSN-MBA must also meet the admission requirements for the School of Business.

TRANSFER OF CREDITS

A maximum of six (6) graduate credits may be transferred. These credits will not be accepted in lieu of nursing courses required for the specific majors. A minimum of thirty (30) credits must be completed at Barry University.

PROGRAM OBJECTIVES

Although based on the same seven processes as the undergraduate program, emphasis at the graduate level is placed on the applicability of the processes to the transmission, utilization, and development of knowledge.

Upon successful completion of the program leading to the MSN, all graduates will have acquired the ability to:

- synthesize nursing theories and conceptual frameworks into a foundation for direct and mediated nursing practice;
- analyze and practice direct and mediated nursing roles;
- utilize a repertoire of communication skills to influence nurses, other professionals, and community members in the provision of health care;
- articulate a personal philosophy of nursing that is consistent with nursing theory and professional standards;
- enhance professional growth of self and others through the use of the teaching/learning process;
- function as a change agent and as the client's advocate within nursing, the health care delivery system, and society;
- analyze current research, increase level of learning, and utilize analysis to create a research proposal in nursing practice, administration or teaching;
- utilize the research process in nursing practice, administration or teaching; and
- initiate a collaborative leadership role in nursing and within the health care system.

OBJECTIVES FOR NURSING ADMINISTRATION MAJOR

Upon successful completion of the Nursing Administration major leading to the Master of Science in Nursing degree, the graduates will have acquired the ability to:

- evaluate a variety of organizational concepts and theories of health care delivery systems;
- apply organizational theories in the management of human, financial and natural resources;
- manipulate internal and external factors that impact the management of nursing care;

- develop and manage a nursing care delivery system based on knowledge of ethical, socio-cultural, and legal principles; and
- evaluate the intra-and inter-relationships of the nursing administration system, subsystems, and suprasystems in a variety of health care agencies.

OBJECTIVES FOR NURSING EDUCATION MAJOR

Upon successful completion of the Nursing Education major leading to the Master of Science in Nursing degree, the graduates will have acquired the ability to:

- integrate teaching/learning processes with advanced clinical nursing concepts based on nursing theories;
- develop expertise in a designated clinical area;
- incorporate learning, nursing, and curriculum theories in the design, development, implementation, and evaluation of nursing education programs; and
- design instructional methods and evaluation for clinical and classroom teaching.

OBJECTIVES FOR PRIMARY CARE NURSE PRACTITIONER MAJOR

Upon successful completion of the Primary Care Nurse Practitioner major leading to the Master of Science in Nursing degree, the graduates will have acquired the ability to:

- assess client's health status on the illness/wellness continuum;
- apply advanced clinical nursing concepts based on nursing theories in a variety of primary health care settings;
- manage selected acute and chronic health problems using, as appropriate, the nursing or medical care model;
- function in an independent or collaborative role in primary health care settings; and
- evaluate the effectiveness of health care intervention.

REGISTRATION FOR THESIS (NUR 699) OR COOPERATIVE RESEARCH PROJECT (NUR 700 OR NUR 701)

1. A student may enroll for the maximum of 3 credit hours the first semester in which the thesis or research project is started. If completed and approved at the end of the first semester, the student will receive a "Credit" designation.
OR
A student may enroll for 1 credit per semester for a maximum of 3 credits over 3 consecutive semesters.
2. The student will receive an IP at the end of each semester, connoting "In Progress" until the thesis or research project is completed. A "Credit" designation will replace the IP when the thesis or research project is approved by the student's committee.
3. If the thesis or research project is not completed at the end of one calendar year following initial enrollment, the student will register and pay for one credit for each subsequent semester until completion of the thesis or research project.

4. Three copies of the thesis or cooperative research project must be deposited at the student's expense: two at the University library and one at the School of Nursing.

Progression Requirements:

A student is considered a candidate for the Master of Science in Nursing degree following completion of all admission requirements and twelve graduate credits with a GPA of 3.00 (B). Students must receive at least a grade of B in the courses in their major (nursing administration, education, or primary care nurse practitioner). If a student receives a grade of C or below, the student must repeat the course. Students who fail to meet these requirements will not be permitted to progress to clinicals, practicums, or thesis/cooperative research project advisement.

Graduation Requirements:

To graduate, candidates for the degree of Master of Science in Nursing must:

- satisfactorily complete the program of study;
- satisfactorily complete and submit a major scholarly cooperative research project or thesis;
- have attained a G.P.A. of 3.0 on a 4.0 scale;
- complete degree requirements within 7 years of the date the student is fully accepted as a degree-seeking student for study in the graduate program; and
- file an application for the degree with the University Registrar on the appropriate form signed by the academic advisor in the School of Nursing.

CURRICULUM PLAN

A minimum of 45 credit hours in the Nursing Administration, Education and Primary Care Nurse Practitioner majors are required to graduate, and are allocated as follows:

Required of all degree-seeking students

Core Courses (17 Credit Hours)

NUR 600	Nursing Theory	3
NUR 602	Research in Nursing	3
NUR 604	Change Process in Nursing	2
NUR 606	Dynamics of Interpersonal Relationships	2
NUR 608	Teaching/Learning Process	
	or	
NUR 610	Administration/Management Process	1
NUR 664	Health Care Delivery Issues	3
NUR 690	Role Preparation in Nursing	3

Major Project (3 Credit Hours)

NUR 699	Thesis	3
	or	
NUR 700	Cooperative Research Project	3
	or	
NUR 701	Cooperative Research Project — Cather Model	3

Electives (6 Credit Hours)**NURSING ADMINISTRATION MAJOR (25 Credit Hours)**

NUR 660	Administration/Organization Theories	3
NUR 662	Financial Management for Nursing	3
NUR 682	Leadership/Management Strategies in Nursing	4
NUR 696	Nursing Administration Practicum	6
MBA 601	Human Resource Management	3
	Electives	6

NURSING EDUCATION MAJOR (25 Credit Hours)

NUR 640	Curriculum Development	3
NUR 645	Foundations of Nursing Education	2
NUR 650	Learning Theories	2
NUR 655	Methods of Teaching and Evaluation	3
*NUR 670	Advanced Concepts of Clinical Nursing I	3
*NUR 675	Advanced Concepts of Clinical Nursing II	3
NUR 695	Teaching Practicum	3
	Electives	6

PRIMARY CARE NURSE PRACTITIONER MAJOR**ADULT HEALTH CARE (25 Credit Hours)**

BIO 510	Pathophysiology	3
*NUR 653	Client & Family Education	3
NUR 663	Analysis of Primary Health Care Resources	3
*NUR 670	Advanced Concepts of Clin Nursing I(Adult)	3
*NUR 675	Advanced Concepts of Clin Nursing II(Adult)	3
*NUR 683	Nursing Case Management	3
NUR 693	Community Practicum	4

Elective (3)**FAMILY HEALTH CARE (25 Credit Hours)**

BIO 510	Pathophysiology	3
*NUR 653	Client & Family Education	3
NUR 663	Organization of Primary Health Care Resources	3
*NUR 670	Advanced Concepts of Clin Nursing I (Adult)	3
*NUR 676	Advanced Concepts of Clinical Nursing III (Pediatrics)	3
*NUR 677	Advanced Concepts of Clinical Nursing IV (Geriatrics)	3
*NUR 683	Nursing Case Management	3
NUR 693	Community Practicum	4

*Courses include clinical experiences as well as theory

ADMISSION REQUIREMENTS FOR MSN COMPLETION PROGRAM FOR ARNPs

All requirements, as previously noted, in addition to evidence of dual licensure/certificate for RN/ARNP in Florida.

Core Courses (18 Credit Hours)

NUR 600	Nursing Theory	3
NUR 602	Research in Nursing	3
NUR 604	Change Process in Nursing	2
NUR 606	Dynamics of IPR	2
NUR 608	Teaching/Learning Process	1
NUR 610	Administrative/Management Process	1
NUR 664	Health Care Delivery Issues	3
NUR 690	Role Preparations in Nursing	3

Major (12 Credit Hours)

NUR 663	Organization of Primary Health Care Resources	3
NUR 693	Community Practicum	3
NUR 699	Thesis	3
or		
NUR 700	Cooperative Research Project	3
or		
NUR 701	Cooperative Research Project — Cather Model	3

TOTAL 30 Credit Hours

ADMISSION REQUIREMENTS FOR ARNP CERTIFICATE PROGRAM

- Master of Science in Nursing degree from a National League for Nursing accredited school;
- Two letters of recommendation from professional references;
- Current licensure as a registered nurse in Florida and professional liability coverage;
- One year clinical nursing experience and evidence of health assessment skills; and
- Statement of intent.
- An interview may be required.

COURSE REQUIREMENTS

ADULT NP (25 Credit Hours)		FAMILY NP (25 Credit Hours)	
BIO 510	3	BIO 510	3
*NUR 653	3	*NUR 653	3
NUR 663	3	NUR 663	3
*NUR 670	3	*NUR 670	3
*NUR 675	3	*NUR 676 PEDS)	3
ELECTIVE	3	*NUR 677 (GER)	3
*NUR 683	3	*NUR 683	3
NUR 693	4	NUR 693	4

Nurses with an MSN from Barry University may require less than 25 credits to complete the post-Master's ARNP certificate program.

*Courses include clinical experiences as well as theory.

**NURSING ADMINISTRATION DUAL DEGREE OPTION:
MSN-MBA (63 credit hrs)**

Core Courses (17 Credit Hours)

NUR 600	Nursing Theory	3
NUR 602	Research in Nursing	3
NUR 604	Change Process	2
NUR 606	Dynamics of IPR	2
NUR 608	Teaching/Learning Process	1
NUR 664	Health Care Delivery	3
NUR 690	Role Preparation	3

Research (3 Credit Hours)

NUR 699	Thesis	3
or		
NUR 700	Cooperative Research Project	3
or		
NUR 701	Cooperative Research Project—Cather Model	3

NURSING ADMINISTRATION MAJOR (16 Credit Hours)

NUR 660	Administration/Organization Theory	3
*NUR 662	Financial Management for Nursing	3
*NUR 682	Leadership/Management Strategy	4
*NUR 696	Nursing Administration Practicum	6

BUSINESS ADMINISTRATION MAJOR (27 Credit Hours)

MBA 601	Human Resource Management	3
MBA 610	Computers & Executive Applications	3
MBA 620	Financial Management	3
MBA 640	Marketing Management	3
*MBA 652	Management Science	3
*MBA 660	Managerial Accounting	3
*MBA 680	Managerial Economics	3
MBA 690	Legal Environment	3
*MBA 699	Management Strategy & Policy	3

*Courses have prerequisites.

For MBA admissions requirements and course descriptions see School of Business MBA.

Graduate Course Descriptions — Nursing Prefix: NUR

600 Nursing Theory (3)

Systematic examination of nursing theories and concepts and their implications for nursing practice, administration, and teaching. Application of nursing theory to existing conceptual models of nursing care management systems, nursing education, and nursing practice.

602 Research in Nursing (3)

Methods and processes of systematic investigations, critical analysis of studies and relationships among theory, research, and practice leading to the development of a research proposal.

604 Change Process in Nursing (2)

Examination of various modalities used in effecting and implementing change: revolutionary vs. evolutionary change; conflict resolution; and the nurse as change agent.

606 Dynamics of Interpersonal Relationships (2)

Designed to increase understanding of behavioral processes basic to individuals and groups. Students will explore various approaches for diagnosing complex individual and group problems, and evaluate possible interventions.

608 Teaching/Learning Process (1)

Overview of teaching/learning theories with emphasis on the adult learner; techniques and methods of instruction; and evaluation of learning.

610 Administration/Management Process (1)

Overview of theories of administration, leadership, management and conflict resolution relative to their influence on the organizational framework of nursing in health care settings.

640 Curriculum Development (3)

Focus is on theories and procedures which guide the process of curriculum/program development. Emphasis is on needs/resource assessment, philosophy, objectives, conceptual framework, curricular design and implementation, marketing strategies, and modes of evaluation.

645 Foundations of Nursing Education (2)

Overview of history, philosophy and organization of higher education in America parallel to the development of nursing education. Analysis of contemporary issues and trends in nursing education.

650 Learning Theories (2)

Examination of major concepts and theories related to learning and their application to nursing education.

653 Client and Family Education (3)

Focus is on sound educational principles utilized in teaching clients and families about wellness lifestyles, early detection of illness, appropriate interventions and follow-up.

655 Methods of Teaching and Evaluation (3)

Focus is on evaluation of specific instructional strategies appropriate to clinical and classroom teaching. Practice in the design of measurable objectives, test construction and clinical evaluation criteria. Prerequisite to or concurrent with NUR 695.

659 Independent Study (3)

Individual guided study or investigation of selected problems/issues concerning nursing education, administration, or practice. Student is the prime course designer, assisted by a faculty member in the School of Nursing. Prerequisite: Approval of Instructor.

660 Administration/Organization Theories (3)

Analysis of theory and research in organizational structure and behavior as it relates to nursing administration and the role of the nurse administrator.

662 Financial Management for Nursing (3)

Focus is on budgeting processes; identifying and measuring cost of nursing care in forecasting budget, review of health care reimbursement programs, including prospective payment plans and implications for nursing. Prerequisite: NUR 660.

663 Analysis of Primary Health Care Resources (3)

Discussion of evolution, practice, and education of and legislation for primary care nurse practitioners. Systematic examination of public and private agencies providing health care services in the community.

664 Health Care Delivery Issues (3)

Demographic examination of the sociocultural and political forces affecting the health care system. Includes the role of government, fiscal constraints and factors influencing agency policies and nursing.

670 Advanced Concepts of Clinical Nursing I (3)

Focus of this course is on advanced physical and psychosocial cultural assessment of individuals, families and communities. Students will be challenged to devise, implement, analyze, and evaluate

nursing actions based on current empirical and theoretical nursing knowledge. Students will explore, integrate, apply and evaluate the processes of change, communication, teaching/learning, professionalism, research and administration as they interface with the direct and mediated nursing practice roles. Prerequisite for all: NUR 600. Additional prerequisites for Primary Care Nurse Practitioner majors: BIO 510 and NUR 683.

675 Advanced Concepts of Clinical Nursing II (3)

Focus on application of concepts in clinical situations through independent projects. Prerequisite: NUR 670.

676 Advanced Concepts of Clinical Nursing III (Pediatrics) (3)

Physical and psychosocial assessment and management of infants, children, and adolescents within the context of culture and environment. Focus is on preventive or ambulatory pediatrics, including the basics of well-child management: nutrition, immunization, safety, physical and psychosocial development, and management of the common problems of childhood. Prerequisite: NUR 670 or permission of instructor.

677 Advanced Concepts of Clinical Nursing IV (Geriatrics) (3)

Focus of this course is upon advanced physical and psychosocial assessment of the elderly in the context of culture and environment. Students will devise, implement, and analyze a plan of care based on nursing process, current empirical data, and theoretical nursing knowledge. Application of these concepts will occur in clinical situations through independent projects. Prerequisite: NUR 676 or permission of instructor.

682 Leadership/Management Strategies in Nursing (4)

Examination of the impact of authority, power, and influence on nursing services. Exploration of methods used to monitor health care delivery and strategies which enable the nurse leader to decide, relate, influence, and facilitate achievement of nursing goals. Prerequisite: NUR 660, MBA 601, and NUR 662.

683 Nursing Case Management (3)

Nursing diagnoses studied to develop nursing interventions. Medical diagnoses and protocols considered as interrelated to nursing protocols. Protocols for case management include medication, laboratory diagnostics, radiology, and nutrition in prevention, wellness, episodic and chronic care.

690 Role Preparation in Nursing (3)

Focus is on role theory and the cultural, legal, and ethical processes common to all roles and role titles. Analysis of the direct and mediated practice roles in professional nursing with emphasis on health care policy and commitment to life-long learning.

693 Community Practicum (4)

Opportunity for students to operationalize the primary care nurse practitioner role with qualified preceptors in appropriate agencies. Prerequisite: Completion of all core and primary care nursing major courses or permission of instructor.

695 Teaching Practicum (3)

Focus is on the application of educational theories and strategies in the classroom and clinical setting. The student is provided the opportunity to practice appropriate role behaviors as a nurse educator under the guidance of a qualified preceptor. Prerequisite: Completion of all core and nursing education major courses or permission of instructor.

696 Nursing Administration Practicum (6)

Opportunity for students to operationalize the nurse administrator role with qualified preceptors in appropriate agencies. Emphasis will be on practical experience in observation of, participation in, and analysis of the various roles and functions. Prerequisite: Completion of all core and nursing administration major courses or permission of instructor.

699 Thesis (3)

A scientific research study that student conducts independently.

700 Cooperative Research Project (3)

A scientific research study conducted by a group of students.

701 Cooperative Research Project—Cather Model (3)

A scientific research study conducted by a group of students using a specified model that emphasizes research and group work skills.

SCHOOL OF PODIATRIC MEDICINE

Chester A. Evans, D.P.M., F.A.C.F.S., Dean
John P. Nelson, D.P.M., Associate Dean

Program

A Doctor of Podiatric Medicine specializes in the prevention, diagnosis, and treatment through both medical and surgical means, of diseases and disorders affecting the human foot, ankle, and leg. A podiatrist makes independent judgments, administers treatment, prescribes medications, and when necessary, performs surgery.

Purpose

The purpose of the Doctor of Podiatric Medicine (D.P.M.) program is to academically prepare and train students in the required medical disciplines necessary to produce a highly skilled, competent podiatric physician. This purpose is accomplished in a responsive academic and clinical environment conducive to the pursuit of excellence in podiatric medical education, research and service.

Objectives

To accomplish its purpose, the School of Podiatric Medicine will:

- provide students with a competent foundation in the provision of basic podiatric medical health care;
- enable students to successfully compete for and meet the standards for consideration into a post-graduate podiatric training program;
- prepare students morally and ethically to function efficiently within the present health care system;
- instill the importance of preventive foot care and maintenance to students and the community-at-large;
- extend quality health care to the less fortunate and disadvantaged members of the community;
- promote primary research and the reporting of innovative ideas by students, faculty, and the podiatric community;
- provide continuing medical education programs for the podiatric community;
- develop within our students and the podiatric community, concern for the needs of the impaired health professional;
- provide the means and skills for students and faculty to effectively interact with patients and other health care professionals.

M.S. DEGREE OPTION

Students have the option of obtaining a Master of Science in Biomedical Sciences degree at the conclusion of their basic science study. The graduation requirements include 36 semester hours with a minimum grade point average of 3.0 (B) with no more than 8 semester hours of C grade. Students must pass a qualifying examination. A student will be allowed no more than a seven-year maximum time period to complete the requirements for the M.S. Program.

B.S. DEGREE OPTION

Students who enter with a minimum of 90 semester hours of undergraduate credit have the option of obtaining a Bachelor of Science in Biology degree at the conclusion of their basic science study. They must satisfy distribution course requirements.

Students who enter the program with a high school degree, and who are academically very well qualified, have the option of entering a 7-year BS/MS/DPM program.

NON-DEGREE OPTION

For those interested in taking courses for enrichment, a maximum of 16 graduate credits may be taken as a non-degree-seeking student. Students in this option are not eligible for financial aid and must pay for courses on a per credit basis before he/she will be allowed to register. Registration for this option requires permission from the Dean.

ADMISSION REQUIREMENTS

— Each student's credentials must include:

- Biology — 8 semester hours
- General Chemistry or Inorganic — 8 semester hours
- Organic Chemistry — 8 semester hours
- Physics — 8 semester hours
- English — 6 semester hours

All candidates are recommended to take courses in Genetics, Anatomy, Physiology and Biochemistry to strengthen their pre-medical background.

- A minimum of 90 semester hours of undergraduate study at an accredited undergraduate institution is required for admission. The most satisfactory preparation for admission is the successful completion of a baccalaureate degree from an accredited college of arts and sciences in the United States.
- Students must submit credible and current scores on the Medical College Admission Test prior to matriculation.
- Three letters of recommendation or a Health Professions Advisory Report are required.
- A personal interview is required and arranged only by invitation of the Admissions Committee.
- Foreign students must submit their scores on the Test of English as a Foreign Language (TOEFL).
- Transfer or advanced standing is considered on an individual basis and at the discretion of the Dean.

In addition to the education requirements, all students must display the mental, psychological and moral character that will enable them to successfully complete the educational program, and will prepare them for the professional responsibilities and privileges of a licensed Doctor of Podiatric Medicine. Applicants are encouraged to visit the office of a practicing podiatrist to discuss and observe the practice of modern podiatric medical care.

APPLICATION PROCEDURE

The Barry University School of Podiatric Medicine and the other colleges of podiatric medicine are participants in the American Association of Colleges of Podiatric Medicine Application Service (AACPMAS).

This service allows a student to complete a single set of AACPMAS forms for any of the colleges of podiatric medicine. The service collects and collates data, computes grade point averages, and transmits copies of the application to the college/school selected on the application. Applications are secured by writing to:

American Association of Colleges of Podiatric Medicine
1350 Piccard Drive, Suite 322
Rockville, MD 20850-4307
Phone: (301) 990-7400 or toll free 1-800-922-9266
(outside Maryland)

All inquiries or communications concerning admissions should be addressed to the Office of Admissions, Barry University, 11300 N.E. Second Avenue, Miami Shores, Florida 33161. Phone: (305) 899-3130 or toll free inside Florida 1-800-551-0586, outside Florida 1-800-621-3388.

ADMINISTRATIVE POLICIES AND PROCEDURES

Students are responsible for compliance with the policies of the Barry University School of Podiatric Medicine (BUSPM). Since these policies are under constant scrutiny, the BUSPM reserves the right to change any provisions or requirements in this document at any time within the students' term of enrollment.

Registration

All students must complete the appropriate registration forms at the beginning of each semester. Students must consult with their advisor and obtain his/her signature (i.e. approval) on the form BEFORE it is turned into the Registrar/Business Office.

Students who fail to complete registration requirements within 10 working days of the first day of class, including appropriate financial arrangements with the Business Office, will NOT be permitted to attend classes, laboratories or clinical rotations/programs, take examinations or participate in any other activities of the School. The BUSPM will notify scholarship programs, banks providing government-subsidized loans, etc., when students cease to be appropriately registered.

Drop-Add And Course Withdrawal

A period of schedule adjustment (i.e. drop-add) is provided to students at the beginning of each semester. During this time, students may change their schedules with the written approval of their advisor. Students should realize that the Podiatry curriculum is intense, structured, and allows that only minor modifications may be made.

The published withdrawal deadline occurs approximately halfway into each semester. Students may withdraw from a course until this time without penalty. The student's transcript will show a "W" beside the course from which he/she has withdrawn. Consultation with the student's advisor and review by the Student Evaluation Committee is required for withdrawal. The future ramifications of withdrawal from a course are such that they may severely limit the number of courses a student may take in future semesters; many courses require "prerequisites." Any student pre-registered for a course who fails its prerequisite will automatically be dropped from that course. A student who withdraws from a class AFTER the graduate withdrawal deadline receives an F grade. Advisor's approval and signature are required in any case.

Transcripts

Transcript request forms must be completed and signed by the student before official transcripts may be issued. These forms are available in the Registrar's Office. Copies of student transcripts are never released without written authorization from the student or, in the case of a governmental investigative agency, without a court order or subpoena. Students will be informed by the Registrar's Office should this occur. At the request of the Business Office, official transcripts will not be released to students (or other institutions) who have outstanding balances (i.e. a "hold" will be placed on transcripts/grades).

Incomplete ("I") Grades

A grade of Incomplete ("I") indicates a failure to complete required work within the semester and implies the instructor's consent that the student may make up the work which is deficient. Before an I grade is issued, the I grade form should be completed and forwarded to the Dean. When the work is completed to the satisfaction of the instructor, the "I" grade will be changed to a letter grade. The instructor will forward the appropriate form for the grade change to the Dean for signature and then to the Registrar. Students, under special extenuating circumstances, (e.g. illness, leave of absence, etc.) may be granted an "Incomplete" in a course. A grade not reported as completed within the time required by the school becomes an F.

Reporting and Recording of Grades

Semester grade reports are mailed by the Registrar to the address given by the student at the time of registration. A "hold" will be placed on the grades/transcripts of a student who has an outstanding balance owed to the University, as indicated by the Business Office. No grades/transcripts will be released by the BUSPM until such balances have been paid. Change of address notification is the responsibility of the student. Appropriate change of address forms are

available from the Registrar's Office. The Registrar's Office does not record percentage scores for any course or test; it does, however, permanently record the letter grade earned by the student in every course he/she takes while in the BUSPM. Individual instructors must be contacted to obtain percentage scores earned in any particular course.

ACADEMIC POLICIES AND PROCEDURES

Attendance

Attendance is required (i.e. mandatory) in all courses taken in the BUSPM, including lectures, laboratory sessions, clinical rotations and demonstrations. An instructor may, at his/her discretion include attendance (or the lack of it) as part of the grade a student receives while enrolled in a course. Students are responsible for all material and assignments covered in that particular course and all examinations including unannounced quizzes. Attendance at scheduled examinations is mandatory.

Attendance is mandatory for stated clinic hours when applicable. No student will be permitted to leave the clinic/hospital or arrive late. Attendance at all clinical rotations is mandatory and all absences must be made up (see Clinical Rotations). Requests for absences from a clinical rotation must be presented at least two weeks prior to the requested dates of the absence and it is the responsibility of the student to find someone willing to "cover" for him/her during the absence. Last minute requests will not be routinely honored. Students may be required to repeat an entire rotation if excessive absences occur.

Dishonesty Policy

Cheating or plagiarism will not be tolerated within the School of Podiatric Medicine. A student who is caught either giving or receiving information or assistance during a testing session or examination will automatically receive the "F" grade and 0% on either the quiz or examination. The same consequence will apply on any proven case of plagiarism. Further, that individual(s) will be referred to the Dean for appropriate disciplinary action. Any student who is referred to the Dean for violation of this policy on two occasions will be dismissed from the University.

Professional Conduct Code

(See Student Handbook)

Transfer Policy

Candidates for advanced standing may transfer to the BUSPM from another School of Podiatry, after the first or second year. Students who were previously accepted into BUSPM need not reapply. All candidates must be in good academic standing at the previously attended College of Podiatric Medicine with a GPA of at least 3.00 (80%) with no failing grades except when the entire course has been successfully repeated. An application, current transcripts, (i.e., undergraduate, graduate, and MCAT scores) and a letter from the Academic Dean and/or Dean of Student Affairs should be included. Based on the candidate's qualifications, the Admissions Committee may require additional credentials.

Transfer of students from health Professional schools other than Colleges of Podiatric Medicine will be handled on an individual basis. A current official transcript, along with appropriate letters of recommendation, must be provided. In order to achieve advanced standing, students must have earned "B" or better in the transferred course. Students with "C" grades may transfer credit upon successful completion of a challenge exam. Junior and senior years (Clinical Experience) must be completed at BUSPM.

Financial Aid

Loans, scholarships and other financial aid information is available through the Office of Financial Aid. It is the student's responsibility to seek out that information.

Academic Advising

Every student matriculating at BUSPM is assigned an academic advisor by the Dean. Full-time faculty members assume academic advising responsibilities. Advising assignments may be changed by the Dean at the request of the student or faculty member. In the advising process at BUSPM students have certain responsibilities. They are:

1. To be aware of the educational objectives of the institution and observe them.
2. To comprehend the institution's criteria for evaluating student progress in all academic programs.
3. To fulfill the institution's standards for academic success and continuance in programs for graduation. The institution is under no obligation to grant a degree or keep the student enrolled in the program if he/she fails to maintain satisfactory academic progress.
4. To understand and complete all degree requirements for graduation that were published at the time the student matriculated.
5. To make his/her own academic decisions after consultation with the advisor. The advisor's role is to advise the student; the final decision must be made by the student.

Dress Code

Professional attire and appearance are required in all clinical situations. Such attire consists of tailored slacks, shirt and tie for men and tailored slacks/skirt (knee length) for women. This includes appropriate shoe gear, as well. White lab coats must be worn by both men and women. Adherence to and compliance with the dress code will be monitored by the faculty and will comprise a portion of the instructor's evaluation of the student. Students NOT appropriately attired will be asked to leave the classroom, laboratory or clinical rotation and the absence reported as unexcused. Repeated violations of the dress code will be noted in the student's permanent file. Students must consult their instructor if any questions arise pertaining to appropriateness of attire.

GRADING SCALE AND EXAMINATION POLICY

The official grading policy (exclusive of clinical rotations) of Barry University School of Podiatric Medicine is as follows:

- A..... 90% – 100%
- B..... 80% – 89%
- C..... 70% – 79%
- F..... 69% and below

Clinical rotations for these students will be graded according to the following scale:

- A..... 3.5 and above
- B..... 2.5 to 3.4
- C..... 1.0 to 2.4
- F..... 0.99 and below

Satisfactory completion of ALL courses, rotations, exit examinations, and clinical requirements (see Clinical Rotations) are necessary for the student to graduate.

The type, content, and frequency of examinations will be determined prior to the beginning of each course by the faculty member directing the course. This information will be presented in writing to the students at the beginning of the course. In keeping with the policy of academic freedom, each faculty member reserves the right to determine the percentage of the final grade that is comprised of attendance, dress, attitude, professional behavior, examinations, quizzes, laboratory assignments, etc.

A test may be administered outside the scheduled examination period only when extenuating circumstances warrant it and at the discretion of the faculty member. The student must make every possible effort to notify the instructor prior to an examination for permission to reschedule the test. Failure to follow this policy will result in a F grade being assigned to the examination.

BUSPM does **NOT** provide any remediation mechanisms for failures on either an examination OR an entire course. Failed courses must be repeated in their entirety. Failure or withdrawal from any course that is repeated will lead to automatic suspension from the University.

Academic Good Standing

For a podiatry student to be considered to be in good standing academically, he/she must maintain both a semester average and a cumulative GPA of 2.00 with no unresolved "F" grades, and have no outstanding financial obligations to the BUSPM.

Graduation Requirements

All candidates for the degree of Doctor of Podiatric Medicine shall have:

- 1) Satisfactorily completed ALL basic science courses, clinical rotations/requirements, and externships/clerkship program requirements. Any grade deficiencies must have been removed.
- 2) Maintained acceptable professional standards (see Professional Conduct Code).

- 3) Fulfilled all responsibilities and financial obligations to the BUSPM.
- 4) Taken Part I and Part II of the examination of the National Board of Podiatric Medical Examiners.
- 5) During the fourth year each student must be an active participant in and/or present at a minimum of one Grand Round. ALL third year and (on-campus) fourth year students must attend all Grand Round presentations.
- 6) Been recommended by the faculty to the Board of Trustees for graduation.

Recommendation for the D.P.M. degree is a discretionary right residing with the faculty/administration, but shall not be withheld arbitrarily. There is no contract, stated or implied, between the BUSPM and the students, guaranteeing that a degree will be conferred at any stated time, or at all.

Academic Probation — Suspension

Podiatry students with a semester OR cumulative grade point average below 2.00 (calculated utilizing a 0.0 to 4.0 scale) will be placed on academic probation. Students not in good standing will be periodically reviewed by the faculty student evaluation committee to determine eligibility to remain in the program. The Dean of the BUSPM may require a student on probation to register for a limited course load.

Probation will be lifted the following semester:

1. IF the student achieves a cumulative GPA of 2.00 or more

OR

2. IF the student has no grade below a C in subsequent courses taken.

If the above conditions are not met, the student will remain on probation.

A podiatry student will be **suspended** who does not achieve a minimal GPA of at least 1.0 in any one semester or a minimal GPA of 2.0 for two consecutive semesters.

A student on probation or with a cumulative GPA below 2.00 may not proceed into the clinical rotations of the third year.

Any podiatry student who fails one or more courses in a semester and is not suspended, is eligible to repeat the course(s) the next semester that the course(s) is(are) offered. Failure of any course that is repeated will lead to automatic suspension from the University.

A student who has been suspended for academic reasons generally may not petition the Registrar for readmission until one year has lapsed. The Registrar's Office must have the approval of the Dean of the BUSPM to readmit a student following suspension.

Any podiatry student who withdraws from one or more courses in a semester is eligible to register for the withdrawn course(s) in the next semester it (they) is (are) offered. They may not register for any advanced course which explicitly requires the withdrawn course as a pre-requisite.

All first and second year course work must be successfully completed before entering the third year clinicals.

ACADEMIC GRIEVANCE AND APPEALS PROCEDURE

Students have the right to appeal any grade which they feel was unfairly arrived at with the appropriate faculty members. If informal discussions with the faculty members who issued the grade do not resolve the grievance/appeal, then the student should present his or her grievance in writing to the Dean of BUSPM. The procedure for the final appeal is outlined in the Barry University Catalog and should be followed by the student. Non-academic grievance and appeal procedures are outlined in the Barry University Student Handbook and bylaws of the Florida Podiatric Medical Students Association.

ACADEMIC CURRICULUM

The curriculum at BUSPM leading to the D.P.M. degree normally takes four years to complete. The first two years involve didactic classroom courses (many with laboratories) in the basic sciences (see below). The third and fourth years involve primarily, but not exclusively, clinical rotations through several local hospitals and the Barry Foot Care Centers (see clinical rotations). Students must complete all requirements for the D.P.M. degree with seven (7) years of initial matriculation into the School of Podiatric Medicine. In general, 177 semester hours are required for graduation. Podiatric medical students (due to withdrawals, course failures in their first or second year, or other extenuating circumstances) may be required by the Dean to take a reduced number of courses during their first and second years. This will extend the total program to 5 years.

BARRY UNIVERSITY SCHOOL OF PODIATRIC MEDICINE

FOUR YEAR CURRICULUM

FIRST YEAR

Fall

PDY 525	Intro. to Podiatry	1 s.h.
PDY 550	Histology	5 s.h.
PDY 553a	Ethical Found.	1 s.h.
PDY 553b	Health Care Del.	1 s.h.
PDY 570	Biochemistry	3 s.h.
PDY 590	Gross Anatomy	6 s.h.

Spring

PDY 507	Basic Research Meth.	2 s.h.
PDY 547	Neuroanatomy	3 s.h.
PDY 557	Lower Ext. Anat.	3 s.h.
PDY 572	Biochemistry	3 s.h.
PDY 595	Physiology	6 s.h.
*PDY 571	Biochemistry Lab	1 s.h.

*Elective (May be taken during any first year semester.)

SECOND YEAR

Summer

PDY 605	Physical Diagnosis	2 s.h.
PDY 606	Functional Orthopedic I	2 s.h.
PDY 610	Clinical Neurology	2 s.h.
PDY 625	Lower Extremity Anatomy	3 s.h.
PDY 649	General Radiology	3 s.h.
*PDY 665	Independent Study	1-3 s.h.
*PDY 675	Research	1-12 s.h.

Fall

PDY 600	Pathology	4 s.h.
PDY 620	Pharmacology	3 s.h.
PDY 623	Microbiology I	4 s.h.
PDY 627	Functional Orthopedics II	2 s.h.
PDY 632	Podiatric Med. I	2 s.h.
PDY 634	Dermatology	2 s.h.

Spring

PDY 602	Pathology	2 s.h.
PDY 621	Clinical Pharm.	2 s.h.
PDY 624	Microbiology II	4 s.h.
PDY 629	Functional Orthopedics III	2 s.h.
PDY 634	Podiatric Medicine II	3 s.h.
PDY 640	Surgical Principles	2 s.h.
PDY 650	Internal Medicine	2 s.h.
*PDY 665	Independent Study	1-3 s.h.
*PDY 675	Research	1-12 s.h.

*Elective (May be taken during any second year semester.)

THIRD YEAR

Summer

PDY 700	Physical Medicine	1 s.h.
PDY 703	Anesthesiology	1 s.h.
PDY 705	Emergency & Traumatology I	2 s.h.
PDY 708	O.R. Protocol	1 s.h.
PDY 711	Podiatric Radiology	2 s.h.
PDY 718	Rotating Clinical Externships	7 s.h.
PDY 735	Nutrition	2 s.h.

Fall

PDY 706	Emergency & Trauma.II	2 s.h.
PDY 713	Podiatric Surgery I	4 s.h.
PDY 715	Podiatric Medicine III	2 s.h.
PDY 717	Biomechanics of Foot Function	2 s.h.
PDY 719	Rotating Clinical Externships	7 s.h.

Spring

PDY 707	Emergency & Trauma. III 2 s.h.	
PDY 714	Podiatric Surgery II	4 s.h.
PDY 716	Podiatric Medicine IV	2 s.h.
*PDY 722	Cadaver Surgery	2 s.h.
PDY 738	Podopediatrics	3 s.h.
PDY 720	Rotating Clinical Externships	7 s.h.
*PDY 765	Independent Study	1-3 s.h.
*PDY 775	Research	1-12 s.h.

*Elective (may be taken during any third year semester.)

FOURTH YEAR

Summer

PDY 820	Hospital Rotation I	4 s.h.
PDY 832	Externship I	4 s.h.
PDY 833	Externship II	4 s.h.

Fall

PDY 821	Hospital Rotation II	4 s.h.
PDY 822	Hospital Rotation III	4 s.h.
PDY 834	Externship III	4 s.h.
PDY 835	Externship IV	4 s.h.

Spring

PDY 802	Podiatric Medicine Seminar	1 s.h.
PDY 806	Library Research Paper	1 s.h.
PDY 813	Risk Management	1 s.h.
PDY 815	Orthopedic Seminar	1 s.h.
PDY 823	Surgical Seminar	1 s.h.
PDY 825	Practice Management	1 s.h.
PDY 826	Sports Med.	2 s.h.
PDY 829	Clinical and Geriatric Ethics	2 s.h.
PDY 831	Community and Minority Med.	1 s.h.
PDY 809	Rotating Clinical Externships	7 s.h.
*PDY 865	Independent Study	1-3 s.h.
*PDY 875	Research	1-12 s.h.
*PDY 819	Communication Skills	1 s.h.

*Elective (may be taken during any fourth year block)

CLINICAL ROTATIONS

Participation in the Clinical Rotations is contingent upon successful completion of all the coursework of the first and second years.

Treating patients in clinics and hospital-based settings is a privilege. Attendance is **MANDATORY**. For each unexcused absence, the student's grade for that rotation will drop one letter grade. For example, the student who misses two unexcused days will be able to obtain a maximum grade of "C." Excused absences may be obtained through the clinic or rotation supervisor or the Dean

of Clinics. Four or more unexcused absences will result in failure of that monthly clinical rotation. All excused and unexcused absences must be made up at the conclusion of the semester. Students may **NOT** change, alter or rearrange their clinical rotation schedule without prior approval by the Dean of Clinics.

The Dress Code is absolute; cleaned and pressed white jackets and tailored slacks, shirt and tie for men, white jackets and tailored slacks or skirts (knee length) and collared blouse for women. Appropriate shoe gear is required.

Any student who is removed from a clinical or hospital rotation due to improper dress code, behavior, or other violation of the Student Clinical Manual may be placed on probation. If there is reoccurrence of the violation, action may be taken by the Dean resulting in failure of the rotation and/or possible suspension from the School of Podiatric Medicine.

Professional attitude, motivation, maturity, poise, capacity to accept and respond to criticism and peers are judged. Additionally, manual dexterity, diagnostic acumen, completeness and accuracy of charting and documentation will be graded.

The externs at the completion of their rotation should be familiar with:

- a. Eliciting an appropriate podiatric history.
- b. Performing an appropriate podiatric physical examination.
- c. Identifying, comprehending and applying therapeutic regimes for those disorders/diseases that are intrinsic to the foot.
- d. Comprehending and applying perioperative podiatric care.
- e. Comprehending and applying basic surgical techniques.
- f. Comprehending the complications in foot surgery and applying therapeutic principles in their prevention and management.
- g. Comprehending the problems of aging and applying the appropriate therapeutic regime.
- h. Comprehending the levels of podiatric problems (primary, secondary and tertiary) and offering the appropriate therapeutic regime.
- i. Recognizing the team concept of care and comprehending the podiatrist's role in the total health care of the patient.

At the end of the rotation each extern will be evaluated by the mechanisms as established by the BUSPM. Failure to successfully complete third year clinical rotations and exit examinations will prevent advancement into the Fourth Year. Additionally, failure of any didactic classroom coursework of the third year may preclude passage into the senior year. Failed courses, as well as failed rotations must be repeated in their entirety. Successful completion of the fourth year Senior clinical exit examination is required for graduation.

No make-up exams will be given in cases of Failure.

Course Descriptions — Podiatry Prefix: PDY

507 Basic Research Methodology (2)

Introduction to experimental design, biostatistical methods and theoretical and statistical analysis of data. Epidemiological concepts will include population dynamics, trends in diseases and disorders, rates, screening and public health programs. Same as BMS 507.

525 Introduction to Podiatry (1)

Introduction to the entire field of Podiatry with emphasis on history, didactics, and clinical features as it relates to Basic Operative Podiatry.

547 Neuroanatomy (3)

Presentation of the morphologic and physiologic aspects of the nervous system. Clinical correlations are incorporated to emphasize the important anatomic structures and pathways. Lecture and lab. Prerequisite: PDY 590. Same as BMS 547.

550 Histology (5)

Presentation of the normal microscopic structure of the human body. Emphasis will be placed on the integration of the morphology with the biochemical and physiologic process of the body. Lecture and Laboratory. Same as BMS 550.

553 Bio-Medical Ethics (1-10)

Interdisciplinary investigation of current ethical issues in health care and the medical, biological, and behavioral sciences; organized according to modules which may change each year. Same as BMS 553.

553a Ethical Foundations (1) (Prerequisite to all other modules)

Philosophical ethics; professional codes of ethics; professional responsibilities. Same as BMS 553a.

553b Health Care Delivery (1)

An analysis of the economic, structural and ideological interests that lead to numerous value conflicts within the health care system in the United States: prospective payment system and quality control, for-profit v. not-for-profit hospitals, societal and personal responsibilities in the health care sector. Same as BMS 553b.

557, 625 Conceptual/Applied Lower Extremity Anatomy (3) (3)

Provides a thorough knowledge of the relations and functions of the anatomical structures of the lower limb, using standard anatomical terminology. Information of clinical interest included where relevant. Prerequisite: PDY 590 or permission of course director.

565, 665, 765 Independent Study (1-3)

Opportunity for extensive study in areas of special interest to the student. Prerequisite: permission of the Dean.

570, 572 Biochemistry (3) (3)

Introduction to the fundamental aspects of biochemistry. It emphasizes the relationship between structure and function of the major classes of macromolecules in living systems. Metabolic interrelationships and control mechanisms are discussed as well as the biochemical basis of human disease. Same as BMS 570, 572.

571 Biochemistry Laboratory (1)

Isolation and characterization of the major classes of macromolecules. Application of techniques such as centrifugation, gel filtration, electrophoresis and spectroscopy to characterize biological molecules. Two hours per week.

590 Gross Anatomy (6)

Study designed to expose the student to the macroscopic aspects of human morphology. Complete dissection of a cadaver will be correlated with surface anatomy, radiology and other clinical information. Lecture and lab. Same as BMS 590.

595 Physiology (6)

Comprehensive study of systems physiology including musculoskeletal system, neuronal, circulation, respiration, excretion, digestion, and fluid/electrolyte balance. Lecture and lab. Prerequisites: PDY 550 and PDY 570. Prerequisite or Corequisite: PDY 547 and 572. Same as BMS 595.

600, 601 Pathology (4)(2)

Fundamental principles of disease processes such as tissue injury and repair, inflammation, the immune response, and neoplasia, as well as mechanisms of hemodynamic and metabolic derangement; illustrated in laboratory by means of clinical material and case studies. Lecture and lab. Prerequisite: PDY 550 for PDY 600; and PDY 600 for PDY 601. Same as BMS 600, 601.

605 Physical Diagnosis (2)

Introduction to and development of techniques in the common and basic components of physical and laboratory examinations, techniques of interviewing and history taking, and the care of the patient in all fields of medicine. Lecture and lab. Same as BMS 605.

606 Functional Orthopedics I (2)

Introduction to the study of the functional anatomy of the lower extremities. Physical and mechanical principles as applied to the development and functions of the lower extremities studied in depth. Covers joint reactive forces, functional adaptation of bone, and detailed functional anatomy of the hip and thigh. Prerequisite PDY 557.

610 Clinical Neurology (2)

Emphasis on clinical presentation of disorders commonly involving the nervous system with particular emphasis on neuromuscular disorders and peripheral neuropathies. Problems of the nervous system such as muscular dystrophies, tumors, strokes, trauma and seizures are described. Prerequisite 547.

620, 621 Pharmacology - Clinical Pharmacology (3) (2)

Course encompasses basic pharmacological principles/classes of drugs. Includes drug interaction with biological receptors; their absorption, distribution, metabolism and excretion. Drugs are covered on a systems basis. Same as BMS 620. Prerequisites: PDY 570, 572 and 595.

623 Medical Microbiology I (4)

This course covers the physical and chemical structure of bacteria and fungi, major human diseases associated with these microorganisms including identification, pathogenicity, mode of transmission, treatment, and chemotherapeutic drugs. 3 hours lecture, 2 hours laboratory. Prerequisite: PDY 570 and 572.

624 Medical Microbiology II (4)

This course covers the major human viral and parasite diseases, identification, pathogenicity, mode of transmission, and treatment. Additionally topics in immunology including antibody formation, antigen-antibody interactions, and immunologic specificity of normal and diseased cells and tissues are covered. 4 hours of lecture. Prerequisite: PDY 623.

627 Functional Orthopedics II (2)

In depth study of functional anatomy and ontogenesis of the leg and foot. Concepts of lower extremity normalcy and compensation for structural defects. Prerequisite: PDY 606.

629 Functional Orthopedics III (2)

Pathomechanics of hypermobility as well as its clinical and x-ray signs. Correlation of X-Ray findings to structure and function. In depth study of developmental and congenital problems on the foot, their recognition, classification and treatment. Extrinsic influences on foot function. Prerequisites: PDY 606, 627.

632, 634 Podiatric Medicine I, II (2) (3)

Develops a foundation for a more in-depth specialized sub-division of podiatry such as Podiatric Medicine, Podiatric Surgery and Podiatric Orthopedics.

640 Surgical Principles (2)

Introduction to pathophysiology related to surgery. Discussion of basic principles associated with surgery and surgical diagnosis.

644 Dermatology (2)

Introduction to general dermatoses especially those affecting feet and lower extremities.

649 General Radiology (3)

Radiation physics, image production and safety is covered. Evaluation of radiographic, skeletal, osseous and articular changes as they relate to systemic and local pathology.

650 Internal Medicine (1)

Presentation of basic principles of medicine.

675, 775 Research (credit not to exceed 12 s.h.)

Research under guidance of faculty advisor.

700 Physical Medicine (1)

The various modalities of Physical Medicine will be presented with special emphasis on lower extremity palliative and therapeutic care.

703 Anesthesiology (1)

The types, techniques, methods and complications of regional, local, and general anesthesia will be explored. The student will be introduced to related patient problems in the perioperative period as well as pre-operative considerations for surgery. Prerequisite: PDY 620.

705 Emergency & Traumatology I (2)

Basic and Advanced Cardiac Life Support mechanisms as defined by the American Heart Association will be presented. Prerequisite: PDY 615, 618.

706 Emergency & Traumatology II (2)

General concepts of non-cardiac emergency and Traumatology from a systems perspective. Prerequisite PDY 705.

707 Emergency & Traumatology III (2)

Lower extremity traumatology will be discussed. Basic principles of wound healing, prevention and management of infection and specific applications for forefoot trauma are stressed. Prerequisite: PDY 706.

708 O.R. Protocol (1)

An introduction to the basic principles of operating room technique. Surgical instrumentation, methods of sterilization, principles of sterile technique, and charting and documentation will be emphasized.

711 Podiatric Radiology (2)

Class instruction in diagnostic findings in the foot. Pathophysiology will be discussed to support the radiographic changes seen in the foot as it relates to certain disease entities. Prerequisite: PDY 649.

713 Podiatric Surgery I (4)

Fundamental concepts of forefoot and soft tissue surgery of the foot and ankle are presented. Prerequisite: PDY 640.

714 Podiatric Surgery II (4)

Fundamental concepts of rearfoot and reconstructive surgery of the foot and ankle are presented. Prerequisite: PDY 713.

715, 716 Podiatric Medicine III, IV (2) (2)

Disorders, both systemic and localized, are presented according to the body system involved; i.e., musculoskeletal, dermatologic, vascular and neurologic. Pedal clues toward the recognition of systemic disease are emphasized. Prerequisite: PDY 634.

717 Biomechanics of Foot Function (2)

Advanced studies in foot function with emphasis on biomechanical comprehension and orthotic correction of foot/lower extremity deformity. Prerequisite: PDY 629.

718, 719, 720 Rotating Clinical Externships (7)

Students will rotate through the Barry Foot Care Center and affiliated institutions. Signs and symptoms of disease entities affecting the foot and lower extremity, hands-on palliative care and patient management as well as competency-based exposure to the operating room and podiatric surgery are stressed. Students will be evaluated in terms of knowledge, attitude and motivation as well as clinical skills. Prerequisites: Successful completion of all courses of the first and second years.

722 Cadaver Surgery (2)

Surgical techniques including proper placement of skin incisions, simple suturing, tenotomies, tendon slides, nail matrix resections, dissection and reapproximation in layers are skills which must be mastered. Knowledge of instruments, suture materials, needles, and surgical anatomy is paramount. Prerequisite: PDY 713, Elective.

735 Nutrition (2)

Biochemistry of nutrition, the assessment of nutriture, and the biological effects of excess or deficiency of nutrients. It will examine the identification and quantitation of requirements for calories, macronutrients and certain micronutrients. Same as BMS 735.

738 Podopediatrics (3)

General survey of growth and development of children with emphasis on the lower extremities: concentrating upon history and physical examination, diagnosis, treatment, and prognosis of Podiatric disorders. Prerequisites: PDY 606, 627, 629.

802 Podiatric Medical Seminar (1)

By utilizing clinical case presentations, students will review and apply principles of Podiatric Medicine presented during the first three years of training.

806 Library Research Paper (1)

This paper is required for Senior students and serves to develop skills in literature review and presentation.

809 Clinical Externships (7)

In addition to participation in scheduled clinical rotations, students on a rotating basis will be responsible for monthly Case Presentation Correlations during Grand Rounds.

813 Risk Management (1)

This course addresses both the medical and legal aspects of Podiatric Medicine. Appropriate charting, record keeping, documentation of patient progress, and complications are discussed. Patient/physician relationships are reinforced with malpractice principles, ethics, and medical jurisprudence.

815 Orthopedic Seminar (1)

Via clinical presentations, students will review and apply principles of Orthopedics and Biomechanics presented during the first three years of training.

819 Communication Skills (1)

This course emphasizes communication skills necessary for physicians to inter-relate with their patients on an understanding and empathetic level. An additional goal is to improve interaction with community members and other physicians.

820, 821, 822 Hospital Rotations (4)

Students will rotate through St. Francis Hospital in various hospital services including radiology, anesthesia, physical medicine, emergency medicine, pathology and vascular lab.

823 Surgical Seminar (1)

Students will review and apply basic and advanced principles of Podiatric Surgery via clinical case presentations.

825 Practice Management (1)

This course will examine the administrative details of running a private practice. Preparing a banker's loan proposal, floor planning, ordering of office inventory/supplies, hiring of personnel, payroll, billing and collections, insurance, financial planning, advertising, and competition in the healthcare marketplace will be discussed.

826 Sports Medicine (2)

Comprehensive review of common sports injuries with discussion of mechanisms, prognosis, treatment and rehabilitation. Prerequisite: PDY 638.

829 Clinical and Geriatric Ethics (2)

Study of issues involving confidentiality, competence, interprofessional relations, and other ethical issues concerning the elderly and community practice will be discussed.

831 Community and Minority Medicine (1)

Review of the public health issues in the community as well as those specific medical problems affecting particular minority groups.

832, 833, 834, 835 Externship Programs (4)

Students will be assigned to rotations at private or hospital externship programs throughout the United States in order to increase exposure to post-graduate programs and private practice.

865 Advanced Independent Study (1-3)

The purpose of this course is to develop within the student an appreciation for research as well as its importance in medical education. Hypothesis development, scientific method in data collection, methods of double blind study, and data analysis are presented.

875 Advanced Research (1-12)

Students will conduct research based upon a format/hypothesis developed in PDY 865. The ultimate goal of this course is publication-quality literature under the supervision of a faculty member.

ELLEN WHITESIDE MCDONNELL SCHOOL OF SOCIAL WORK

Stephen M. Holloway, Ph.D., Dean

Jacqueline B. Mondros, DSW, Associate Dean

Faculty: Berman-Rossi, Brauzer, Cherry, Connolly, Fike, Furdon, Gibson, Gomez, Gray, Hancock, Houston, Kirk, Marqua, Martin, Mavrides, Moreda, Nakanishi, Nuehring, Odell, Pierce, Raiford, Riley, Thurston, Zayas-Bazan

In response to a demand for professionally trained social workers, Barry University established the first graduate social work program in South Florida in 1966. The MSW degree program is accredited by the Council on Social Work Education, and the curriculum of the School is planned in accordance with the standards set by the Council. A Ph.D. in social work was introduced in 1983 to prepare advanced practitioner/scholars for leadership roles within the profession.

In 1984, the School was named the Ellen Whiteside McDonnell School of Social Work to honor a woman who has made a significant contribution to the reform and development of social welfare programs in the State of Florida. In light of her outstanding service to the community and to the School of Social Work, the Board of Trustees bestowed this honor.

The MSW curriculum provides the opportunity for students to meet the educational qualifications for licensing by the State of Florida as a Clinical Social Worker. Educational requirements can also be met for membership in the National Association of Social Workers' Academy of Certified Social Workers. The curriculum also includes courses that facilitate membership in the American Association of Marriage and Family Therapy.

ADMISSION REQUIREMENTS

- Bachelor's degree from a regionally accredited college or university, with satisfactory grade point average as indicated by official transcripts, showing satisfactory completion of liberal arts courses, including a course in Human Biology.
- Three completed recommendation forms in support of graduate social work study.
- Statement to the Admissions Committee, including the development of interest in social work; any experiences of a personal, work or educational nature which may be of value in preparing for social work; rationale for pursuing social work education if one has had training or experience in

another professional field; plans to finance graduate education; and continuing family or work responsibilities which are expected during years of graduate work.

- An admission interview may be requested by the School. Applicants who have questions about the program or the profession are encouraged to contact the School to arrange an interview.

An applicant who is otherwise qualified but whose academic record is of borderline quality may be asked to submit a test score from either the Miller Analogies Test or the General Aptitude Section of the Graduate Record Examination.

In order to provide the applicant with an objective evaluation of application credentials, all criteria are reviewed by the Admissions Committee of the School. Both achievement and potential are assessed in order to arrive at a decision on educability for graduate social work and suitability for the social work profession. The Committee analyzes academic achievement; work experience, especially in social welfare; evidence of good physical and mental health; maturity; and motivation for social work. The outcome of this assessment will be acceptance, deferment, or rejection, and the decision of the Committee will be forwarded to the applicant in writing by the Office of Admissions. A returning student who has completed his/her first year of study more than five years before reapplying is normally required to repeat the first year of study.

TRANSFER OF CREDITS

The applicant who has satisfactorily completed a first-year program in another accredited graduate school of social work may be admitted to the second year in this School if the applicant has satisfactorily completed the first year within the five-year period preceding application. The School will accept a maximum of 28 credit hours from another graduate school of social work.

THE MISSION OF THE SCHOOL

The purposes of the School derive from the values, ethics and goals of the social work profession and are congruent with the moral, religious and ethical commitments of Barry University. The School educates professionals at the Master and Doctoral levels for the practice of social work within a broad spectrum of human service organizations. Special emphasis is placed on the advancement of social work research, the development of social responsibility and professional accountability, and a dedication to community service. Within these broad aims, the School seeks to carry out its commitments with special attention to the social and multi-cultural characteristics of South Florida. Program development in the School is sensitive to the differential needs of the service systems of Dade, Broward, Palm Beach, and Lee Counties.

CULTURAL DIVERSITY

The School is committed to a policy of increasing cultural diversity among students and faculty. There is a strong commitment to expand social work teaching and learning opportunities to members of minority groups. The population of Miami is represented by many diverse groups and offers a unique

opportunity for the study of national and international social problems. Miami serves as the gateway to South America and students from other countries are encouraged to apply.

MASTER OF SOCIAL WORK (MSW)

There are many valid social work roles. The Barry MSW program is dedicated to educating social workers for clinical practice. The purpose of clinical social work practice is the maintenance and enhancement of the bio-psycho-social functioning of individuals, families, and small groups by maximizing the availability of needed intrapersonal, interpersonal, and societal resources. Clinical social work practice encompasses a wide range of developmental, preventative, and therapeutic services, emphasizing the bio-psycho-social assessment of persons-in-situations. Differential interventions are used based on this assessment. In addition, students are educated in a problem area or "focus area" in either: (1) health care, (2) mental health, or (3) families and children. It is the intent of the program to develop social workers who are competent in enhancing social functioning of client systems, including individuals, families, small groups and special populations who are at risk and in need of the best level of professional service within the contexts of their communities. Graduates not only appreciate, understand and affect the therapeutic process of helping, but also have sufficient knowledge of community structure, organization and process to ensure a more effective network of services for the South Florida community.

The MSW program is sequentially integrated to provide knowledge and skill of increasing depth and concentration. The broad educational purposes of the School are: educating students for the clinical practice of social work with individuals, families, and small groups in an agency and community context; education for social work research, with emphasis on evaluation of practice and programs; and education for social responsibility and community service.

EDUCATIONAL OBJECTIVES

Within the educational continuum, MSW students are expected to acquire knowledge of the values of social work as a profession and act in accord with these principles, having earlier clarified personal values through life experiences and education in liberal arts, sciences, and humanities. They acquire knowledge of the complex interrelationships between individual social functioning and familial, peer, cultural, and social forces; develop an understanding of the importance of each for assessment and problem solution; and demonstrate ability to engage in these activities with effectiveness. Students are expected to acquire a disciplined and systematic method of thinking in identifying, analyzing and ameliorating problems wherever the locus of the problem exists, including understanding the scientific basis for problem definition and multiple causation. Students also will acquire skill in anticipating incipient problems. In both the ameliorative and preventive work, students will be able to carry out planned interventions with competence and scientifically evaluate

effectiveness of such interventions in their practices and in the programs within which they are conducted. Following from scientifically grounded practice and its evaluation, students are expected to become increasingly disciplined in use of self in interactions and interventions with others.

Students acquire knowledge and skill in a wide range of intervention models and methods of social work practice. They are expected to acquire depth of understanding and skill in applying clinical social work practice methods; that is, students will graduate with knowledge of and advanced competence in social work intervention with individuals, families, and groups as they exist within their cultures and community structures.

Education for Clinical Social Work Practice

From the broad intent to educate for direct practice are derived the following objectives:

- (1) Upon successful completion of the MSW program, Barry University School of Social Work graduates will have acquired the basic and historic values of the social work profession that guide clinical practice. These include the convictions that: (a) all individuals have worth and the right to be treated with human dignity and to choose and to contract for services; (b) social workers understand, value, and respect the uniqueness and special needs of culturally diverse populations; and (c) social workers are responsible for their own ethical conduct, quality of practice, and professional development in the whole range of social work practice settings.
- (2) Students will recognize information they hold from earlier life experiences and liberal arts education, and exhibit the ability to integrate and apply that information to social work practice along with new professional learning.
- (3) Graduates of the MSW program will possess scientifically grounded knowledge and skill necessary for effective and autonomous clinical social work practice with (a) enhancement, prevention, and ameliorative purposes; (b) individuals, families, and groups; and (c) breadth and versatility as well as depth of understanding sufficient to meet diverse and challenging client needs.
- (4) Graduates of the MSW program will possess scientifically grounded knowledge and skill necessary for intervention with children, adolescents, and adults, and with oppressed, often impoverished, special populations singled out as having particular salience for South Florida and the profession of social work. Intervention with special populations entails both culturally sensitive and diverse social work practice techniques and effective measures to relieve oppression and its consequences.
- (5) Having chosen one of the focus areas (health care, mental health, families and children), graduates will (a) be in command of knowledge of the fundamental social programs and policies relevant to that focus area, and the ability to analyze those programs for effectiveness and integrity with public policy in that field of social services; (b) have had educational opportunities for direct service and advocacy in relation to persons afflicted with problems specified in the focus area; and (c) possess knowledge of the fundamental findings of empirical research in the focus area.

Education for Social Work Research

Underlying all social work and social welfare endeavors is the challenge to improve and change dysfunctional social systems. This objective requires knowledge of intrapsychic, interpersonal and environmental forces that affect, create, or threaten to undermine the functioning of social systems. It also requires knowledge of the relative value of programs and methods of intervention in improving such systems. The fulfillment of the objective requires educating for the application of social work research methods to the evaluation of programs and of practices. It also requires skeptical evaluation of social work research, social data, the development of knowledge of methodologies, and the acquisition of an attitude of social responsibility that inspires a spirit of inquiry in search of new methods of assessment and evaluation. It also demands historical perspective and courage to undertake a variety of research evaluation endeavors that question old assumptions and contribute to knowledge of new ways of preventing, ameliorating and remediating social dysfunction.

Specifically, the commitment to education for social work research at the MSW level implies that upon completion of the MSW program, graduates will have mastery of the concepts and skills necessary for:

- (1) scientific evaluation of one's practice and of social programs; and
- (2) critical appraisal and application of the findings of social work and other social and behavioral research to social work practice.

Education for Social Responsibility and for Community Service

The themes of education for social responsibility and community service are very closely related as they are interpreted at Barry University School of Social Work. The intent to educate for social responsibility assumes knowledge and understanding of the human condition of persons in our pluralistic society; the ability to identify the nature and impact of major social changes; and the acquisition of skills which may be applied to enhance the lives of oppressed people and to contribute to the end of oppression. Social responsibility assumes the development of scientific knowledge, compassionate understanding, humanistic values and keen skills in the application of clinical social work methods to correct inequities in our society. Although extended to all oppressed people, the School expresses its concern with social inequity with special emphasis on special populations characterized by large numbers in South Florida along with financial, social, and cultural impoverishment that engenders severe social stress.

The School of Social Work further acknowledges its responsibility to instill in students the commitment to provide service to the community in which it is located through practice, consultation, and continuing education.

Specifically, upon completion of the MSW, graduates of Barry will:

- (1) be able to recognize oppression and discrimination and identify actions capable of making social institutions more equitable, humane and responsive to human needs of individuals and/or oppressed population groups; and

- (2) possess scientifically grounded knowledge and skill, as well as motivation, necessary (a) for effective advocacy for the social resources needed to serve diverse and victimized populations; (b) for working effectively and creatively toward the goals of the profession and the community; and (c) for collaborating with faculty, alumni and students in efforts to enhance the leadership of the School on issues of social work practice, programs, or policy.

CURRICULUM

The MSW program offers a single concentration in Clinical Social Work Practice, which involves preparation for knowledge-based, skillful practice with individuals, families, and small groups.

Foundation Year

During the foundation year of graduate study, students are provided a generic base of social work practice which creates the foundation for concentration study during the second year. The foundation year program offers courses of required study which examine the breadth of social work practice.

Required courses during the Foundation year of study are:

SW	501	Social Welfare Policies and Services I
SW	521	Social Work Practice I
SW	524	Social Work Practice II
SW	552	Personality Development and Human Behavior
SW	567	Psychodynamics of Adult Behavior
SW	581	Research I
SW	591	Field Instruction I
SW	592	Field Instruction II

In the second semester of the foundation year, students must also select either one of the foundation elective courses, or SW 651 Psychopathology. Field instruction must be taken concurrently with SW 524 Social Work Practice II.

Concentration Year

During the second, or concentration, year of study students gain advanced levels of knowledge about and skill in differential models of intervention with individuals, families and groups. Required courses during the Concentration Year are:

SW	621	Direct Practice with Individuals and Families III
SW	623	Direct Practice with Groups III
Either		
SW	622	Direct Practice with Individuals and Families IV
or		
SW	624	Direct Practice with Groups IV
SW	682	Advanced Research
SW	691	Field Instruction III
SW	692	Field Instruction IV

During the concentration year of study, students must also select two elective courses, one of which corresponds to their focus area. Students must also take

SW 651 Psychopathology, if they have not done so in the Foundation Year. Either SW 622 or SW 624 must be taken concurrently with field instruction.

Focus Areas. In the Concentration Year, students elect to gain special knowledge and skills in a focus area by selecting a series of specialized courses and engaging in field education within the selected area. The selected focus areas represent compelling needs in South Florida communities and include:

- Clinical Practice with Families and Children
- Clinical Practice in Health Care
- Clinical Practice in Mental Health

Based on the student's selection of Focus Area, students take one of the following:

- SW 639 Policy Issues in Health Care Services
- SW 640 Policy Issues in Family & Children's Services
- SW 641 Policy Issues in Mental Health Services

FIELD INSTRUCTION

Students are required to complete internships in two separate social agencies. The purpose of these experiences is to help students integrate theory with practice in order to develop appropriate skill, knowledge, attitude, and professional identification. Internships are designed to provide experiences which afford opportunity to apply and test concepts and theory presented in both class and field situations. Students are assigned to an experienced field instructor in a human service agency for personal supervision of the field experience.

Field instruction placements are planned based on an assessment of student training needs and career goals. The decision regarding placement in a particular agency is made jointly by a community agency, the student, and the School; agreement must be reached by all parties that a productive educational plan can be developed.

Foundation year students enroll in SW 591 (3 credits) and 592 (4 credits) for their initial field placement. Field instruction for SW 591 includes 2 days per week for 12 weeks for students doing field instruction during the academic year, and 5 days a week for seven weeks for students enrolling in summer placements. Field instruction for SW 592 includes 3 days per week for 15 weeks for students enrolling in field instruction during the academic year, and 5 days a week for seven weeks for students enrolling for summer field instruction. Concentration year students enroll in SW 691 (4 credits) and 692 (4 credits) for their final field placement. Field instruction consists of 3 days per week for 28 weeks for students enrolling during the academic year, and 5 days per week for 17 weeks for students enrolling during the summer.

Separate registration is required for each field instruction course. Credit will be granted upon successful completion of the placement. Any exceptions must be approved by the Director of Field Instruction.

DEGREE REQUIREMENTS

Sixty credits are required for the Master of Social Work degree. Students must maintain a grade point average of 3.00 (B) on a 4.00 scale and credit (CR) grades in field instruction each year to enter and continue in the concentration year. If a student is withdrawn from field instruction prior to the end of a semester while performing at an unsatisfactory level, a no credit (NC) grade will be given.

Students who receive a no credit (NC) grade in field instruction or a failure (F) in any required course in any semester, or two "C" grades in practice courses will be reviewed by the Committee on Students to ascertain their ability to continue in the program. Students who fail to complete 28 credits with a 3.00 (B) average and satisfactory grades in field instruction during their foundation year of study will be reviewed by the Committee on Students to ascertain their ability to enter the concentration year of the program.

Admission to the concentration year is granted only to those students who have successfully completed their foundation year of professional education at Barry University or at another accredited school of social work within the last five years. Students pursuing the Master of Social Work degree are permitted four years to complete degree requirements from the date of initial matriculation.

ACADEMIC REQUIREMENTS

A student's scholastic standing is determined by examinations and term papers in courses and satisfactory performance in the field. Students are expected to meet all requirements assigned by course and field instructors. Regular attendance in class and field instruction is expected of all students. Absence of three or more consecutive weeks of class or more than three consecutive days of field will raise serious questions regarding whether a student may satisfactorily complete studies and continue in the program. Students who are at risk of falling below academic and field work standards will have their progress reviewed by the School's Committee on Students.

FULL-TIME PROGRAM

The School of Social Work offers a full-time program of graduate study at the Miami Shores campus. Students who enter the full-time program take courses and field instruction for four semesters, completing their degree requirements in two academic years. A full-time plan would include classes one or two days per week, and field work two days a week for the first semester and three days per week in each subsequent semester.

In the full-time program, students take a total of 28 credits in the foundation year, and 32 credits in the concentration year. All courses must be taken in proper sequence. A student who takes a leave of absence may be readmitted only in the semester which will permit proper sequencing of the courses. The diagram below shows the sequence of courses in the full-time program:

Foundation Year (28 credits)

Fall	Spring
SW 521	SW 524
SW 552	SW 567
	SW 651 or Elective
← SW 501 →	
← SW 581 →	
Field Instruction I	Field Instruction II

Concentration Year (32 credits)

Fall	Spring
SW 621	SW 622 OR 624
SW 623	Elective
SW 639, 640, OR 641	
SW 651 or Elective	
← SW 682 →	
← Elective →	
Field Instruction III	Field Instruction IV

PART-TIME PROGRAM

The School of Social Work also offers a part-time graduate program. Both full-time and part-time students follow basically the same sequence of courses and must meet the same specific graduation requirements. The part-time program is designed to accommodate persons whose family or work responsibilities interfere with full-time study or the well qualified individual who cannot finance full-time study. Thus, all students admitted to a part-time program must have a commitment to the attainment of a Master of Social Work degree, meet the admission standards of the School, and demonstrate high potential for professional education.

The part-time program is available on three campuses: (1) day and evening at the Miami Shores campus, (2) in the evening in Palm Beach County, and (3) on Saturday in Ft. Myers/Lee County.

Students who enter the part-time programs in Palm Beach County or Ft. Myers/Lee County must plan to attend classes on the Barry University campus in Miami for Concentration Year courses.

Students who choose the part-time program may select either of two options. In **Option A** students enroll in courses and field instruction during the academic year, and degree requirements are met in either six or eight semesters over three or four calendar years. This plan includes courses one or two days per week, and field instruction two days per week for the first semester, and three days per week for each subsequent semester. The following diagram illustrates the schedule for the part-time academic year program, **Option A:**

PART-TIME PROGRAM

OPTION A: ACADEMIC YEAR

Foundation Year

Year I (12 credits)

Fall	Spring
SW 552	SW 567
SW 501	SW 581

Year II (19 credits) *

SW 651	Elective
SW 521	SW 524
Field Instruction I	Field Instruction II

Concentration Year **

Year III (12 credits)

SW 639, 640, OR 641	SW 682
Elective	Elective

Year IV (17 credits)

SW 621	SW 622 OR 624
SW 623	
Field Instruction III	Field Instruction IV

* Students have the option of taking an elective in the summer of Year II to reduce their coursework in the Concentration Year.

** Students who select **Option A** may complete the foundation year in the part-time program and enroll full-time for the Concentration Year. In this model, Year III and Year IV are combined and degree requirements are met in six semesters during three academic years.

Students entering the part-time program may also select **Option B**. In this option, students enroll in courses in the academic year, and courses and field instruction during the summer. Degree requirements are met over 9 sequential semesters in three calendar years. This plan includes courses one or two days per week and field instruction during the summer five days a week for 14 weeks for the foundation year, and five days a week for 17 weeks for the concentration year. The following diagram illustrates the schedule for the part-time academic year and summer program, **Option B**:

PART-TIME PROGRAM

OPTION B: ACADEMIC YEAR & SUMMERS

Foundation Year

Year I (15 credits)

Fall	Spring	Summer
SW 552	SW 567	Elective
SW 501	SW 581	

Year II (22 credits)

SW 651	SW 521	SW 524
Elective	Elective	Field I
		Field II

Concentration Year

Year III (23 credits)

SW 639, 640, OR 641	SW 621	SW 622 OR 624
SW 682	SW 623	Field III
		Field IV

ADVANCED STANDING PROGRAM

Students with a bachelor's degree from an undergraduate social work program that is accredited by the Council on Social Work Education, and who have received their degree within the five year period preceding their application, may apply to a nine month, 32 credit, Advanced Standing program. Admission to this program is reviewed carefully and students may be required to take some foundation year courses. Students will be admitted each fall semester. A part-time plan during the concentration year would extend classes over two calendar years with field work being completed during the second calendar year.

STUDENT PARTICIPATION IN THE SCHOOL'S DEVELOPMENT

The faculty of the Barry University School of Social Work has a commitment to student participation in the development and determination of appropriate policies and procedures in the School. It is recognized that students have a right and responsibility to participate in the shaping of the School's program.

Meaningful participation of students on all standing committees is encouraged and student representation on committees has been a policy since 1969. The School's Policy and Procedure Manual and Field Instruction Manual are on reserve in the Library for student review.

FINANCIAL AID

The School of Social Work has a separate application process for a very limited number of grants, scholarships and tuition reductions for graduate students. A financial aid application is available after an official admission decision is made.

It is important to note that these funds are extremely limited and that students should not depend on grant monies since there are always many more applications than the School can possibly accommodate with awards. Financial aid applications are analyzed and awards are made on the basis of need, minority status, academic ability and potential for professional practice. For more information contact the Director of Admissions and Scholarship at the School of Social Work.

REQUIRED COURSE DESCRIPTIONS — SOCIAL WORK PREFIX: SW

501 Social Welfare Policies and Services I: (3)

Provides a comprehensive knowledge of the social welfare system in the United States while it addresses the changing nature and needs of our society. The crucial role of government is examined, both historically and currently, in the delivery of basic human services. The problems of poverty, inequality and oppression are highlighted as conditions that vitally affect the social functioning of individuals, families and groups. Additionally, there is content on policy formulation and models for policy analysis which provides the student with the tools to assess local, state and national policies affecting agencies, clients and practitioners.

521 Social Work Practice I: (3)

This foundation practice course provides a beginning base of practice knowledge, values, and skills for work with individuals, families, and groups in a variety of community and agency contexts. Using phases of work as its organizing theme, the course helps students learn the beginning phase of practice: to engage clients, assess them, and plan for intervention. The effect of clients' ethnic, racial, and gender differences on practice are emphasized throughout the course.

524 Social Work Practice II: (3)

This second practice course in the foundation year emphasizes the on-going phase of work with individuals, families, and groups. Students develop their skills in purposeful intervention and further their ability to analyze their own practice, with particular attention to cultural and gender differences. The course also includes knowledge and skill related to short term modalities and the ending phase of practice. The course must be taken concurrently with field instruction.

552 Personality Development and Human Behavior: (3)

This course focuses on the physical, social, and emotional development and mastery of growth crises from birth to mid-adolescence. Included in the course are current theories and research about the early years of the life cycle, with particular emphasis on the nature and ways in which culture, ethnicity, theories of community and organizations influence and shape development.

567 Psychodynamics of Adult Behavior: (3)

This course continues the study of the individual and the family from adolescence through old age to death. The multi dimensional perspective on adult development is continued. Included in the course are current theories and research about the middle years and aging. The socio-cultural and ethnic factors which shape adult development continue to be highlighted.

581 Research I: (3)

This course provides beginning understanding and appreciation of the principles and techniques of social work research and statistics, and their application to social work practice.

591 Field Instruction I: (3)

A supervised educational experience in an agency setting for a minimum of 192 clock hours.

591 Field Instruction II: (4)

A supervised educational experience in an agency setting for a minimum of 384 clock hours.

620 Advanced Direct Practice with Groups III: (3)

This Concentration year course emphasizes differential practice with groups as related to problems in the health, mental health, and children and families focus areas. Students develop an understanding of the knowledge, skills, and values in three models of group practice including the remedial, reciprocal, and psychosocial group approaches and their differential application to select problems. Attention is given to understanding differential group practice under conditions of diversity (race, ethnicity, gender, sexual orientation, social class, age, etc.).

621 Direct Practice with Individuals and Families III: (3)

This Concentration year course emphasizes the differential assessment and treatment of individuals, families, and family subsystems with problems representative of the three focus areas (children and families, health, and mental health). Students develop knowledge, values, and skills in a range of practice models (e.g. psychosocial, behavioral, and family centered perspectives) as differentially applied to select individual and family problems (e.g. family/domestic violence, substance abuse, divorce, and loss and grief). The course includes a focus on the influence of ethnicity, race, gender, sexual orientation, and other sociocultural factors as they are encountered in the differential practice process with the select problem areas.

622 Direct Practice with Individuals and Families IV: (3)

This course is designed to enable students to acquire skill in the differential applications of interventions in complex circumstances involving individuals and families in which one member manifests severe psychopathological disturbance.

624 Direct Practice with Groups IV: (3)

Focuses on psychotherapeutic applications of group practice with clients that have severe chronic emotional disorders as well as group practice methodology with advocacy groups.

639 Policy Issues in Health Services: (3)

Focuses on the major social, economic, and ethical factors that impact on policies in health care and social work practice. Content includes examination of the psycho-social correlates of illness and healing, means for changing the health care systems, and the impact of health care policies on communities.

640 Policy Issues in Family and Children's Services: (3)

Examines the direct and indirect impacts of social policies on families and children. Emphasis is placed on policy analysis for identifying and selecting between policy alternatives, political realities, and implementation of policy outcomes and decisions.

641 Policy Issues in Mental Health Services: (3)

Factors that have led to current mental health and substance abuse policies and programs are examined as a basis for developing strategies for policy change as well as planning and implementing future policy decisions. Elements that influence the design, effectiveness, and acceptance of policies and issues for professional practitioners are assessed.

651 Psychopathology: (3)

This is a survey course which teaches the student to identify and understand the etiologies and symptomatology of the major groups of emotional and mental disorders as described by the DSM III-R. It also includes the social, cultural, and ethnic factors which impact upon the diagnosis and treatment of these conditions. The relevance of this knowledge for social work practice is emphasized.

682 Advanced Research: (3)

Provides advanced knowledge and skills in research methods appropriate for analyzing social problems, and evaluating human service programs and social work practice.

691 Field Instruction III: (4)

A supervised educational experience in an agency setting reflecting the student's selected focus area for a minimum of 286 clock hours.

692 Field Instruction IV: (4)

A supervised educational experience in an agency setting reflecting the student's selected focus area for a minimum of 384 clock hours.

ELECTIVE COURSES

525 Community Organization: (3)

This course emphasizes definitions and utilizations of power as it relates to the history, philosophy, and practice of community organization. Students learn to charter an organization; to locate and utilize local bases of power; plan and run meetings-using Robert's Rules of Order; and plan and utilize strategies for bringing about change.

643 Crisis Intervention: (3)

Focusing on the unique meaning of the crisis event for the individual or family group, the course explores differential methods of practice, setting treatment goals and identifying the focus of therapeutic interventions.

618 Differential Social Work Practice: (3)

This course is designed to provide opportunity to become increasingly eclectic in practice activities through knowledge and exploration in depth of selected psychotherapies.

672 Dimensions of Schizophrenia: (3)

This course reviews current knowledge and research regarding the clinical disorder and psychosocial problem of Schizophrenia. Included are historical perspectives, etiological theories, biological bases, culture/family issues, diagnosis/assessment, and treatment. Emphasis is placed upon direct exposure to this population via video interviews and classroom experience with clients and their families.

655 Ethnic Sensitive Social Work Practice: (3)

This course helps students develop a culturally sensitive perspective for work with members of minority groups. It emphasizes the identification and utilization of different theoretical models of practice that can be effective in interventions with minority individuals, families, groups, and communities.

652 The Family: (3)

This course examines the differences between various family systems, e.g., the single parent, nuclear families, divorced and remarried families. The course views the family from a life cycle perspective and explores how family function changes, depending on the capabilities of its members. This course helps form a theoretical base for the treatment of marriage and family problems.

649 Family Therapy: (3)

This course is designed for students to gain a family systems perspective through understanding of selected theoretical approaches, therapeutic techniques and their own personal demographics. Focus is on the assessment of family roles, communication patterns, family dysfunction. Factors leading to family systems change such as goal setting, treatment applicability, the structure of the therapy process, therapist role and techniques of marital/family therapy are taught.

654 Gay/Lesbian Issues for Social Work Practice: (3)

This elective is designed to provide a better understanding of people's sexual orientation, of homophobia, and of differential intervention in working with gay and lesbian individuals, couples, and family units. Normative developmental tasks and crises for gay and lesbian individuals, as an oppressed minority, are addressed within the overall context of normal physical, social, and emotional growth and development.

645 Human Sexuality: (3)

This elective examines theories and etiology of human sexuality, sexual development, and sexual role expectations. Specific emphasis is placed on the exploration of sexual attitudes, values, and behavior. The biological, psychological, cultural, and social implications of sexuality are discussed.

560 Mental Retardation and Child Development: (3)

This course covers the causes and effects of handicapping conditions in children, including developmental disabilities, learning disabilities, and mental retardation, along with a study of their families. In addition, legal and political forces, as well as the agencies which serve this population, are identified.

628 Social Work Administration: (3)

This course examines theories and methods of social work administration from a client-centered perspective. It is organized around traditional management functions (planning, resource acquisition, budgeting, organizing, staffing, leading and evaluating), and highlights performance in the areas of client outcomes, productivity and efficiency, resource acquisition and management, staff well-being, and strategic planning as ongoing process.

509 Social Work Intervention with Stress, Illness, and Health Problems: (3)

This elective course emphasizes advanced social work practice knowledge, skills, and values as applied to individuals, families, and groups coping with chronic, terminal, disabling, and catastrophic illness in health care settings. Attention is given to the differential impact of and responses to illness specific to special populations, such as minorities, gays and lesbians, women, new arrivals, the disabled and elderly.

556 Social Work Practice with Aging Individuals & Families: (3)

This elective focuses on direct social work practice with older persons and their families and with intervention in their environment in their behalf. Older persons are understood in the context of the social, political, and economic realities of their lives.

642 Social Work Practice with Children & Families: (3)

This course builds on students' knowledge of theory of child development. It emphasizes the skills for assessing and treating children and their parents using psychodynamic, cognitive and systems theory.

527 Social Work with Substance Abusers: (3)

This elective presents a bio-psycho-social model for assessment and treatment of persons with substance abuse problems. Specific emphasis is on differential diagnosis and treatment of minorities and special populations.

637 Supervision: (3)

In this course, students examine the major roles of supervision as they impact on worker performances and organizational policies and services. The content is divided between the teaching and training aspects of supervision, and the context of the social agency and its interests in management and administration. Units of learning include persuading, influencing, negotiating and supporting as core strategies of the supervisor; and selecting, training, evaluating, promoting and terminating staff as key supervisory processes.

DOCTOR OF PHILOSOPHY SOCIAL WORK

The program of graduate studies leading to the Ph.D. degree prepares professional social workers for leadership as practitioner/scholars in advanced social treatment or the administration of direct service program and teaching and research of direct practice. Graduates of the program are expected to contribute to the advancement of knowledge and practice in social work.

The doctoral program is individualized to meet the interest of each student. With faculty consultation, the student designs a course of study consisting of required and core courses, electives, a doctoral practicum and dissertation.

ADMISSION REQUIREMENTS

Candidates should have the Master of Social Work degree from an accredited school of social work, at least two years of successful professional experience following the award of the Master's degree, and demonstrated capacity to engage in advanced study.

Applicants are interviewed by a committee of the doctoral faculty. Criteria employed in determining admission include evidence of achievement in previous academic programs, increasing competency in professional performance, knowledge of critical issues associated with applicant's area of professional interest and potential for contributing to the knowledge of the profession.

Candidates generally begin their studies in the fall semester. Non-degree seeking students may enroll for a maximum of two courses with the consent of the Director of the program.

CURRICULUM

The model curriculum spans three academic years. One of the three years must be in full-time residence. Full-time residence is nine credits per semester.

During the first year, students enroll in two research courses, two practice-theory courses, and a course on theory development.

In the second year, six courses are completed: two in research, two in the area of specialization, a social work education course, and a course on organization and administration. Upon completion of the area specialization, there is a candidacy examination.

In the third year the student engages in implementing the dissertation research beginning with a dissertation seminar, and completes three courses in health and mental health policy, an elective, and a practicum individually designed by the student and faculty advisor.

While the above curriculum plan is recommended, students may, with the approval of their advisors, modify the curriculum to better achieve their educational objectives.

DEGREE REQUIREMENTS

All candidates are required to earn 45 credit hours beyond the master's degree in social work as follows:

4 required courses in research and a dissertation seminar	15 credits
3 courses in social work practice theory	9 credits
1 course in each of the following:	
- social work education	3 credits
- social science	3 credits
- social policy	3 credits
- practicum	3 credits
- elective	3 credits

In addition, the student must:

- Successfully complete an area specialization paper.
- Successfully pass a candidacy examination. This examination consists of an oral examination of the student's integration of methodological and substantive knowledge in the student's area of specialization.
- Successfully complete and defend a dissertation. The defense of the dissertation must take place within five years after the acceptance and approval of the dissertation proposal. Three copies of the dissertation must be deposited, at the student's expense, with the University; two copies to the University library; one copy to the doctoral program office.

Course Descriptions — Social Work Prefix: SW

702 Comparative Theories of Organization and Administration: (3)

Different theoretical perspectives on organization and administration of human service delivery systems are examined in this course. Existing frameworks are explored for their underlying value assumptions and for their relationship to the state-of-the-art in research development and application to social work management and practice.

703 Theory Development in Social Sciences: (3)

Focuses on knowledge-building in the social sciences, and the epistemology of knowledge. Scientific logic and concept formation are studied as they relate to a variety of social science disciplines and substantive areas knowledge contributing to theory development for social work practice. The various criteria for analysis and explanation will be applied particularly to social psychological theories as illustrative of a critical approach to the methods and basis of social science knowledge.

704 Comparative Theories of Social Work Practice with Individuals and Families (3)

This course emphasizes historical developments and current models in social work practice theory with individuals and families. It further focuses on the contributions of social work practice research and social science theories/findings. Students apply their learning to a select vulnerable population and a field of practice.

705 Comparative Theories of Social Work Practice with Groups: (3)

There is a brief analysis of historic and basic foundation knowledge of small group dynamics and models of social group work practice. Subsequently, there is exploration of advanced contemporary knowledge in those areas. Coverage is given to both task group and clinical group theories and applications.

710 Advanced Research I: (3)

This course provides a review of quantitative and qualitative methods of social work research. The emphasis is on survey methods. Topics include measurement theory, hypothesis testing, data analysis and research design. Students are taught the essentials of theory building and testing.

711 Advanced Research II: (3)

Basic concepts of knowledge building are initially reviewed, followed by in-depth study of group and single subject experimental designs, measurement, data collection, and statistical analysis. Exemplars of social work research conducted in these modalities illustrate research methodology focused on advancing knowledge for social work practice and administration.

712 Advanced Research III: (3)

Statistical techniques studied in Research I and II are expanded upon. The focus is on preparing students to code and develop data files appropriate for statistical analysis using a computer-based statistical package (SPSSX). Data collected from an actual research study are utilized to take students through the beginning stages of the statistical analysis process. To facilitate the learning experiences, students have unlimited access to the VAX 6310 computer at Barry.

713 Advanced Research IV: (3)

Research IV addresses topics related to advanced statistics. Such topics as Factor Analysis, Reliability Analysis, Multiple Regression, Multivariate Analysis of Variance, and Discriminate Analysis are examined in depth. These and other select procedures are studied using real data and the computer facilities. Completion of these courses is expected to prepare the student for handling the methodological and statistical tasks involved in completing her/his dissertation.

715 Dissertation Seminar: (3)

This seminar assists students in assessing the researchable questions in their area of specialization and in formulating hypotheses and a design. It further focuses on the technicalities of proposal preparation and organization.

721 Social Policies in Health and Mental Health: (3)

Examination of current social policies affecting the administration and delivery of social work services in the health and mental health field. Special consideration will be given to potentially effective strategies which may be utilized by practitioners and administrators to strengthen or change existing policies in these areas.

740 & 741 Area Specialization Seminars: (3)

These seminars are principally organized around a student's independent study in a specialized area. Students may meet in seminar sessions, in small study groups or individually with faculty as may be required in the development of their independent study. These seminars should culminate in an area specialization paper.

750 Social Work Education - Issues and Methods: (3)

A theoretical and practice-oriented approach to educational issues, curriculum construction and teaching methodology in social work education. The development of social work education and the goals of a professional curriculum provide a context for studying and assessing differential instructional methodology. Laboratory experiences in class involving student teaching affords students opportunities in the application of principles of curriculum design and instruction.

780 Practicum: (3)

This field study course builds the student's practical knowledge in his/her concentration and specialization. A formal learning plan is developed between the academic advisor, student, and field consultant. The practicum may be scheduled for one day per week, in any semester in the second or third year.

Electives: (3)

DIVISION OF SPORTS AND LEISURE SCIENCES

G. Jean Cerra, Ph.D., Dean

THE DEPARTMENT OF SPORT AND RECREATIONAL SCIENCES

Faculty: Bretting, Cramer, Ficenec, Ingram, Martin, Miller, Navas, Pringle, Samuel, Simmons, Trigoboff, Yelin

The Department of Sport & Recreational Sciences offers a variety of academic and recreational activities for the Barry University student. Undergraduate academic majors in **Physical Education, Recreational Diving Management, Sport Management, Sports Medicine - Athletic Training and Sports Medicine - Exercise Science** are housed within the Department. The Department also offers an extensive program of **Instructional Activities in Sport and Recreation** for students desiring to pursue lifetime fitness activities. Barry University's commitment to the Department of Sport & Recreational Sciences is evidenced by the recent departmental move to the 4.5 million dollar Health and Sports Center. This facility houses a fully equipped 1800 sq. ft. Athletic Training Room, a research oriented 2,100 sq. ft. Human Performance Laboratory, an arena, a 2,200 sq. ft. Strength and Conditioning Room and classrooms for all Sport & Recreational Sciences major courses. The facility, the programs, and the faculty are steadily attracting young scholars who are enthusiastically seeking the academic and recreational opportunities offered by the department.

PHYSICAL EDUCATION (B.S.)

The Bachelor of Science in Physical Education (subject to Florida Department of Education approval) is a 45 credit hour program leading to K-8 state certification or a 49 credit hour program leading to 6-12 state teaching certification. Completion of the required program in Physical Education affords the graduate a broad liberal arts background, preparation in education basic to all teaching, and a base of knowledge and skill that will allow both personal and professional development. The graduate will be able to design and teach a program of sequential learning experiences in fitness, dance, and sport activities, and will have demonstrated knowledge in the supporting areas of kinesiology, exercise physiology, and motor learning that will ensure the provision of quality learning experiences. As a prospective teacher, the student will be involved in both the University community and the larger community in order to gain a broader commitment to society and its needs. One of the very best ways to demonstrate concern for others and to accept responsibility for effecting quality change in the functioning of the mind and the body as one is to become a teacher of Physical Education.

Requirements for admission to the program are an SAT score of 840 (combined) or 19 on the ACT or a composite of 21 on the Enhanced ACT and an entry battery of physical fitness tests. Students whose SAT (presently 840) / ACT (presently 19, 21) and cumulative GPA (2.5) do not meet the minimums for acceptance into the program will be accepted on a "conditional" basis for one semester, and on a "continued conditional" basis for one additional semester. If minimum standards are not met within these two semesters, the student must withdraw from the program. Requirements to remain in the program are a GPA of 2.5 overall, a GPA of 2.7 in major coursework with no grade below a C. A grade of "C" or better must be achieved in MAT 152, BIO 230, and BIO 240 and in all Education courses. Exit requirements are a passing score on the battery of physical fitness tests, swimming proficiency, professional proficiency in three team/field sports and in three individual/dual sports, a passing score on the CLAST, and a passing score on the FTCE Subject Area Specialty Test.

Course Descriptions — Physical Education Prefix: PHE

201 Dance and Aerobic Activities (2)

An introductory course in rhythmic activities, folk and square dancing, and aerobic exercise activities for the elementary and middle schools.

202 Elementary Games (Including Track and Field) (2)

Indoor and Outdoor games and track and field activities for the elementary and middle schools.

203 Gymnastics and Tumbling (2)

Practice of basic gymnastics and tumbling routines; scientific principles involved in teaching gymnastics and tumbling analyses of skills. Prerequisite: Beginning Gymnastics.

210 Introduction to Health, Physical Education, Recreation, and Sport (2)

Introductory information about professions in health, physical education, recreation, dance, and sport; organizations and opportunities afforded to those wishing to enter these professions; historical foundations of physical education, sport and dance; future trends, issues, and challenges in HPER and Sport.

275 Professional Proficiency – Aquatic Activities (1)

Activities include: Canoeing, Lifeguard Training, Rowing, Sailing, SCUBA Diving, Swimming, Water Safety Instructor.

280 Professional Proficiency – Dance Activities (1)

Activities include: Ballroom Dance, Jazz Dance, Modern Dance, Social, Folk and Square Dance.

- 285 Professional Proficiency – Individual & Dual Sports (1)**
Activities include: Archery, Bowling, Fencing, Golf, Gymnastics and Tumbling, Handball, Judo, Strength Training, Wrestling.
- 290 Professional Proficiency – Racquet Sports (1)**
Activities include: Badminton, Racquetball, Squash, Tennis.
- 295 Professional Proficiency – Team & Field Sports (1)**
Activities include: Basketball, Field Hockey, Football, Lacrosse, Rugby, Soccer, Softball, Speedball, Track and Field, Volleyball.
- 324 Methods, Materials, and Communication (3)**
Basic understandings applied to sports; common elements and transfers of learning among sports; establishment of purpose, situational variables, principles and movements to meet the needs of the learner; methods and materials used to develop active and effective learning; communication through demonstration, practice, and evaluation of performance.
- 325 Officiating Team and Individual Sports (2)**
Knowledges and techniques of officiating; practical experience.
- 326 Principles of Motor Learning (3)**
How and why learning of gross and fine motor skills takes place and how the learning process can be enhanced for more productive outcomes; developmental, environmental, and social factors and their influence on behavioral, instructional, and training procedures.
- 328 Practice in Coaching (1)**
Practice of physiological and psychological principles related to training athletes; use of sound instructional strategies, athletic management, and organizational techniques applied to coaching. (Each credit is equal to a 45 hour experience.)
- 344 Teaching HPERD in the Elementary School (3)**
Methods, content materials, and organizational procedures for conducting elementary school health and physical education programs; practice in teaching activities. Field experience. (Also EDU 344.)
- 340 Adapted Physical Education (3)**
Study of physical and mental disabilities, corrective and therapeutic exercises; facilities, equipment, and physical education/recreational programs adapted for the disabled person.
- 350 Tests and Measurement in HPER and Sport (3)**
Elementary application of tests, measurements, research design, and statistical methods as they relate to HPER and Sport. Prerequisite: MAT 152.
- 402/502 Biological and Medical Aspects of Motor and Physical Disabilities (3)**
Presents the sensory and motor aspects of developmental disabilities. Course content identifies and clarifies the differential developmental characteristics that exist among children with learning disorders, behavioral disabilities, neurological, orthopedic, genetic, drug and/or metabolic dysfunctions.
- 404/504 Physical Education and Sport for Children with Mental Deficiencies (2)**
Provides an understanding of the positive impact of physical activity on the psychological and social, as well as, the physical well being of persons with mental disabilities. Includes an introduction to commonly accepted methods of assessing and identifying persons with mental deficiencies with emphasis on developing physical skills. A continuum of activities from basic motor development through recreational and competitive sports will be explored.
- 406/506 Physical Education and Sport for Children with Sensory Disabilities (2)**
Provides an understanding of the positive role of physical activity in the social, emotional, and physical well being of persons with sensory deficiencies. Includes the selection of activities at all developmental levels as well as contraindication of activities based upon various medical conditions.
- 408/508 Physical Education and Sport for Children with Motor Disabilities (2)**
Provides an understanding of the value of physical activity for persons with motor disabilities, from social, emotional, and physiological aspects. Includes assessment techniques to aid in the selection of activities with emphasis on the contraindications for specific conditions. The range of activities will begin with basic motor development and continue through specific sports skills.

411/511 Coaching Techniques for Disabled Athletes (2)

Provides an introduction to the various sports organizations specific to athletes with disabilities and an emphasis on coaching techniques aimed at those athletes who compete in competitions provided by each of these groups.

413/513 Physical Activity for the Profoundly Handicapped (2)

Provides a foundation in physical activity programs for students identified as profoundly handicapped. Includes an introduction to the various sub-groups making up this population as well as techniques for incorporating providers of physical activity into the program. Emphasis will be placed on using developmental activities in small group settings.

419/519 Aquatics for Individuals with Disabilities (2)

Develops the skills necessary to provide appropriate water activities for students with disabilities. In addition to addressing water activities, emphasis will be placed on restrictive medical conditions and providing a safe water environment for all persons with disabilities.

465 Organization and Administration of HPER and Sport (3)

Study of desirable standards, policies, and practices in the organization, supervision, and administration of physical education, recreation, dance, and sport programs; need for community cooperation in attaining the objectives of HPER and Sport programs.

Coaching Minor

This 24-semester-hour minor is designed to provide the subject area major with a cognitive, theoretical, and practical experience that will enable the student to receive the coaching endorsement on the state teaching certificate.

RECREATIONAL DIVING MANAGEMENT (B.S.)

The Bachelor of Science in Recreational Diving Management consists of 40 credit hours of interdisciplinary coursework primarily from the recreational diving management curriculum. The program has been developed with a two track format, and students with the appropriate qualifications may follow either of the tracks. A 21 credit hour minor in business is required of both tracks. The diving courses lead to internationally recognized certifications in the various study areas. The minimum grade of C is required in all major courses.

Track 1 is designed to prepare the student for careers in the instructional and retailing segments of the industry. Courses listed assume that the student has at least an Open Water level SCUBA certification from a nationally recognized diver training agency before beginning the major. The SCUBA Instructor course (RDM 404) meets the integrative experience requirement.

Track 2 is designed to meet the continuing professional growth needs of the diving professional who is already certified as a SCUBA Instructor by any of the various nationally recognized diver training agencies. The student entering Track 2 must be fully certified as an instructor with current "teaching" status prior to acceptance into the program. Because of the nature of the program, the Track 2 student must remain in current, active, "teaching" status, and carry professional liability insurance which includes the university as an additional insured. The Instructional Staffing course (RDM 405) meets the integrative requirement.

All students in the Recreational Diving Management Program will be required to obtain a yearly physical exam for diving. Students entering the program for the first time should obtain a standardized medical form from Barry University and acquire the physical exam prior to their arrival on campus.

Total 120

**Course Descriptions — Recreational Diving Management Course
Prefix: RDM**

222 Diving First Aid (3)

A first aid course which initially discusses general first aid measures, then links proper procedures and techniques to first aid in an aquatic/diving environment. Topics include primary, secondary and illness assessment, avoidance of and care for marine life hazards, Cardiopulmonary Resuscitation (CPR), first aid for pressure related accidents and theories and descriptions of long term diving-related disorders. Successful students are eligible for Medic First Aid Certification. Special course fee and certification fee. Open only to RDM students, or with permission of instructor.

230 Recreational Diving Theory I (2) and Lab (1)

Recreational Diving Theory I is both an academically and a practically oriented course. As the base course required of all RDM majors (Track I and Track II) it provides an extensive overview of various topic areas related to the major. Subjects of discussion include an introduction to various specialty diving issues, navigational techniques, altitude diving theory, physics of the diving environment, and an introduction to physiological concerns. Open water experiences include familiarization with local diving techniques, wreck diving and surveying, navigational techniques at the professional level, deep diving and night diving. Successful students are eligible for Advanced levels of diver certification. Required laboratory. Prerequisite: RDM major or minor, or permission of the instructor; Open-Water certification from a recognized diver training agency; recommended: MAT 108 or equivalent. Special course fee and certification fee.

236 Underwater Archaeological Methods (3)

Underwater Archaeological Methods is a field course that explores how the diver can assist in the excavation of a submerged archaeological site. Topics include an introduction to the submerged cultural resources of Florida, archaeological mapping and surveying, coping with low visibility sites, preservation techniques and research methodology as it pertains to the archaeological assistant. Course includes field experiences in both shallow and deeper water sites. Prerequisite: ISR 155 or Open-Water certification from a nationally recognized diver training agency. Special course fee and certification fee.

240 Recreational Diving Theory II (2) and Lab (1)

A continuation and augmentation of information acquired in RDM 230. Theoretical information includes Haldanian decompression theory, management of diving groups, supervision of divers in training and non-training situations, and control of groups from the perspective of an instructional assistant and divemaster. Successful students are eligible for internationally recognized certification as Rescue Diver and Divemaster. Laboratory required. Prerequisite: RDM 230 with a grade of "C" or better and certification as an Advanced Open-Water Diver, RDM 222 with a grade of "C" or better and current first aid/CPR certification, or permission of the instructor.

241 Teaching Rescue and Divemaster (2) and Lab (1)

A combination lecture/lab course which assists the Track II RDM student in developing a successful educational approach to teaching student divers in the field of Rescue Diving and Divemastering. The lecture course is taken concurrently with the lab portion of RDM 240 (required) so that students may observe and participate in the training of actual rescue and divemaster candidates. Prerequisites: Open-Water Instructor Certification from a nationally recognized agency, meet Track II insurance requirements, RDM 230 and RDM 222 with a grade of "C" or better, current certification in first aid and CPR. Special course fee.

301 Artificial Reef Orientation (3)

A course in which the student explores the use and construction of artificial reefs. Topics include an overview of the use of artificial reefs in the local area, baseline study techniques for placing reefs in the local environment, and an underwater research project on an established artificial reef. Prerequisites: ISR 213 or Advanced Open-Water certification from a nationally recognized diver training agency or permission of the instructor. Special course fee and certification fee.

304 Recreational Diving Specialties (2) and Lab (1)

Diving Specialties is a course designed to educate individuals in four highly marketable and interesting areas of specialty diving. Principles and practices of deep diving (within specified limits), wreck diving or enclosed area diving, and night diving are thoroughly examined. One additional specialty area is designated by the instructor of the course. Lab required. Open water experiences take place in both local waters and in the Bahamas. Prerequisite: RDM 230 with a grade of "C" or better (or permission of the instructor), and an Advanced Open-Water certification from a nationally recognized diver training agency. Special course fee and certification fee.

305 Teaching Recreational Diving Specialties (2) and Lab (1)

A course which educates the Track II RDM student in planning, organizing and directing and implementation phases of conducting courses in four diving specialty areas. Subjects include teaching techniques, pricing of the specialty course, marketing and promotion, and safety techniques. The course is taken concurrently with the lab portion of RDM 305 (required) so that students may be directly involved with the actual education of student-level divers in the various specialties. The course leads to certification as a specialty instructor in the subject areas. Prerequisite: RDM 230 with a grade of "C" or better, Instructor certification from a nationally recognized diver training agency, must meet Track II insurance requirements. Special course fee and certification fee.

306 Research Diving (3)

Research Diving is a course that explores the various ways that divers can contribute to gains in scientific knowledge. The course looks at techniques of research underwater including physical and biological surveying, archaeological research in a submerged environment, geologic sampling, and the geology and paleontology of the Florida environment. Course includes exploration of the Florida Peninsula and its aquatic geology. Prerequisite: ISR 213 or Advanced Level diving certification or permission/arrangements through the instructor. Special course fee and certification fee.

308 Underwater Photography (2) and Lab (1)

The Underwater Photography course is designed to give the student a solid background in one of the most rapidly advancing and highly marketable specialty certifications in the diving industry. The course explores camera operation and function, mixing of artificial and natural light, filter usage underwater, composition, macrophotography, and normal lens underwater photography. Lab required. Prerequisites: ISR 155 or Open-Water certification from a nationally recognized diver training agency, ART 203, or permission of the instructor. Students are expected to provide a complex underwater camera compatible with University-owned artificial light sources. Special course fee and certification fee.

309 Teaching Underwater Photography (2) and Lab (1)

A course which educates the Track II RDM major in the proper techniques of teaching underwater photography. Lecture information covers principles of underwater photography and techniques for teaching this highly marketable course. Students take the lab portion of RDM 309 in conjunction with RDM 308 (required) in order to participate in the training of actual underwater photography students. Prerequisite: Instructor certification from a nationally recognized diver training agency, ART 203 or permission of the instructor.

314 SCUBA Equipment Repair and Maintenance (3)

SCUBA Equipment Repair provides the RDM major with the opportunity to attain certification in the repair of SCUBA life-support equipment. Students will receive instruction in the theory and design of regulators, tanks and valves, inflation mechanisms, depth indicators and diving computers (including Haldanian principles). Manufacturer's representatives participate in "clinics" that detail maintenance of specific types of equipment, and the successful student receives the certificate of completion at the end of the individual manufacturer's seminar. Students also learn to trouble-shoot in the field and to adapt equipment to meet the special needs of the individual diving environment. Prerequisite: RDM 240 or RDM 241 with a grade of "C" or better. Special course fee and certification fee.

325 Seamanship (2)

An introduction to seamanship as it pertains to the divemaster and instructor. Topics include basic rules of the road, Coast Guard Licensing requirements and marlinespike seamanship. Course is designed to acquaint the student with the needs and requirements of a boat operator in the diving business. Prerequisite: RDM 240/241.

365 Hyperbaric and Environmental Physiology (3)

Hyperbaric and Environmental Physiology is a course designed to familiarize the student with the physiology of the human body under various hypo and hyperbaric conditions. The course provides an opportunity to study, in detail, the changes in various body systems under several environmental conditions and the consequences of those changes. The course provides detailed treatment protocols and procedures for pressure related accidents and information regarding the reaction of certain chemical substances within the body while under pressure. Prerequisite: RDM 230 with a grade of "C" or better, BIO 230.

400 Dive Store Retailing (3)

Dive Store Retailing is a course designed to provide the information and tools necessary to research and establish a successful diving retail business. Topics include the diving consumer, the diving market and its evolution, the typical store profile, legal forms of business, financing an operation, merchandising, diving instruction and dive travel in the store, and advertising. Prerequisite: BUS 181, MAT 108, MGT 305.

404 SCUBA Instructor (2) and Lab (1)

The SCUBA Instructor course is designed to develop the Track I student's ability to teach SCUBA diving at the open water level. It also serves as an introduction to instruction at the Advanced, Rescue and Divemaster levels. Students are evaluated on their diving knowledge and ability to present information to the target student group. Example presentations by staff serve as guidelines from which students will gain the required level of expertise. Students who successfully complete this course will be eligible to participate in an internationally recognized testing process from which they may be certified as SCUBA Instructors. Lab required. Prerequisites: RDM 240 with a grade of "C" or better, at least 18 credit hours completed within the major, RDM 325 with a grade of "C" or better. Special course fee and certificate fee.

405 Instructional Staffing (2) and Lab (1)

A course designed to allow the Track II student the opportunity to participate in, evaluate, and observe the training of new diving instructors. Students attend special lecture sessions prior to participation in the classroom, confined water and open water portions of RDM 404. Students must attend both the lecture portion and the complete RDM 404 course. Subjects include an orientation of instructional philosophies and systems, how to conduct an instructor course and how to market those courses within established business channels. Prerequisites: RDM 241, 325 and 400 with a grade of "C" or better, Instructor certification from a nationally recognized diver training agency, must meet Track II insurance requirements.

459 Independent Study (1-3)

Opportunity for extensive research and application of coursework in areas of special interest to the student. Dept. Chair and Dean approval required.

492 Workshop (1-3)

A course that allows the student to apply and integrate their instructional experiences within various academic settings.

SPORT MANAGEMENT (B.S.)

The Bachelor of Science in Sport Management prepares students for an entry level position within the professional, collegiate, corporate, commercial, or recreational sport industry, and for graduate study. The Sport Management program requires 39 credit hours in the major and requires a 21 credit minor in Business with a co-requisite course in Computer Science. The minimum grade of C is required in all major courses. Some upper biennium courses are offered on a two-year cycle. SMA 499 (Internship) meets the integrative experience requirement.

Distribution Requirements and Co-requisites			36
MAT	152	Elementary Probability & Statistics	3
BIO	220 or BIO 230	Introduction to Human Anatomy and Lab	4
CAP	180	Introduction to Computers	3
Total			46

Minor in Business

ACC	201	Financial Accounting I	3
ECO	201	Principles of Economics I (also satisfies Distribution)	3
MGT	305	Management Concepts & Applications	3
MKT	306	Marketing Concepts & Applications	3
FIN	319	Financial Management	3
Choice of two business electives approved by the Dean (BUS 339,371, MGT 409, MKT 382)			6
Total			21

Major in Sport Management

PHE	210	Introduction to HPER and Sport	2
SMA	250	Sport and Recreational Management	3
SMA	327	Psychology of Sport	3
SMA	330	Sociology of Sport	3
SMD	360	Exercise Physiology	3
SMD	360	Exercise Physiology Laboratory	1
SMA	380	Facility and Event Management	3
SMA	385	Legal Aspects of Sport	3
COM	390	Principles of Public Relations	3
SMA	440	Sport Marketing, Promotion & Fund Raising	3
SMA	444	Financial Aspects of Sport	3
PHE	465	Organization & Administration of HPER and Sport	3
SMA	487	Seminar in Sport	3
SMA	499	Internship	3-6
Total			39

Recommended Electives

COM	200	Introduction to Mass Media	3
ENG	417	Advertising Copywriting	3
ENG	418	Publication Production and Layout	3
Other electives			5
TOTAL			120

Course Descriptions — Sport Management Prefix: SMA

250 Sport and Recreational Management (3)

Organization and administration of groups and individuals in sports and recreation; application of theories of management and administration to sports and recreation.

327 Psychology of Sport (3)

Investigation of typical areas in theoretical and applied sport psychology which are relevant to athletic performance and general physical activity involvement. Prerequisite: PSY 281

330 Sociology of Sport (3)

Examines through a sociological perspective the implications and consequences of the way sport impacts and interacts within society. Prerequisite: SOC 201

359/459 Independent Study (3)

Opportunity for extensive research and application of coursework in areas of special interest to the student. Dept. Chair and Dean approval required.

380 Facility and Event Management (3)

Knowledge of the various types of indoor and outdoor facilities, fiscal management, technological advances in equipment, planning of facilities, and event management.

385 Legal Aspects of Sport (3)

Legislation affecting amateur, professional, and recreational sport and the legal ramifications of various aspects of sport administration.

440 Sport Marketing, Promotions, and Fundraising (3)

Investigation of the principles, applications, and techniques of marketing, promotions, corporate sponsorship, and fundraising within the various sporting industries. Prerequisite: MKT 306.

444 Financial Aspects of Sport (3)

Utilization of financial principles as they apply to business decision-making in various sport-related settings. Prerequisite: MAT 152, ACC 201, ECO 201, FIN 319.

487 Seminar in Sport (3)

Integration of SMA courses, professional preparation, and application of major knowledges to successful management of sport and recreational enterprises.

499 Internship (3-6)

Senior level supervised experience in amateur or professional sports management. Requires a minimum of 120 hours, and approval of the Dept. Chair and Dean.

SPORTS MEDICINE (B.S.)

The Bachelor of Science in Sports Medicine is comprised of two distinct academic tracks. These tracks encompass a comprehensive view of the field of Sports Medicine and each has its unique program characteristics and future career opportunities. The two tracks are Athletic Training and Exercise Science. Additionally, there is a Sports Medicine/Exercise Science Minor that is appropriate for Pre-professional and/or Science Majors interested in pursuing a career in Sports Medicine.

Sports Medicine — Athletic Training

The Bachelor of Science in Sports Medicine-Athletic Training consists of 120 semester hours and requires 60 semester hours (60 s.h.) of study from the Department of Sport and Recreational Sciences. This course of study prepares the student for certification as an athletic trainer (A.T.,C.) by the National Athletic Trainers' Association (N.A.T.A.). The minimum grade of "C" is required in all major and co-requisite courses. SMD 499 (Football and Clinic Internship) meets the integrative experience requirement.

Distribution Requirements and Co-requisites			36
BIO	230	Human Anatomy	3
BIO	230	Human Anatomy Laboratory	1
BIO	240	Introduction to Human Physiology	4
BIO	240	Introduction to Human Physiology Laboratory	1
CHE	152	Introduction to Organic and Biological Chemistry	3
CHE	152	Introduction to Organic and Biological Chemistry Lab	1
MAT	152	Elementary Probability and Statistics	3
PHY	151	Introductory Physics	3
PHY	151	Introductory Physics Laboratory	1
Total			56

Major in Sports Medicine — Athletic Training

PHE	210	Introduction to HPER and Sport	2
ISR	212	First Aid and CPR	2
SMD	220	Athletic Training I	3
SMD	220	Athletic Training I Laboratory	1
SMD	225	Athletic Training II	3
SMD	225	Athletic Training II Laboratory	1
SMD	305	Athletic Training Administration	3
SMD	310	Personal Health and Disease Prevention	3
SMD	316	Therapeutic Modalities	3
SMD	316	Therapeutic Modalities Laboratory	1
SMD	318	Therapeutic Exercise	3
SMD	318	Therapeutic Exercise Laboratory	1
SMD	320	Kinesiology	3
SMA	327	Psychology of Sport	3
SMD	330	Nutrition for Physical Performance	3
PHE	340	Adapted Physical Education	3
PHE	350	Tests and Measurement in HPER and Sport	3
SMD	360	Exercise Physiology	3
SMD	360	Exercise Physiology Laboratory	1
SMA	385	Legal Aspects of Sport	3
SMD	469	Directed Readings in Sports Medicine or	
SMD	479	Directed Research in Sports Medicine	3
SMA	487	Seminar in Sport	3
SMD	499	Internship - Football	3
SMD	499	Internship - Clinic	3
TOTAL			60

Electives (4 hrs. minimum)

Recommended:

CAP	180	Introduction to Computers	3
SMD	420	Biomechanics	4
SMD	440	Cardiac Rehabilitation	4
SMD	460	Advanced Exercise Physiology	4
SMD	490	Advanced Techniques in Athletic Training	3
TOTAL			18

All course requirements for certification by the N.A.T.A. are included in this track. To satisfy N.A.T.A. requirements, the student must complete 1500 hours of supervised practicum prior to sitting for the N.A.T.A. certification examination.

CLINICAL PROGRAM SELECTION CRITERIA

1. SOPHOMORE STANDING (A minimum of 30 semester credit hours completed)
2. A PROGRAM APPLICATION FORM COMPLETED AND FILED WITH THE PROGRAM DIRECTOR
3. OFFICIAL TRANSCRIPTS ON FILE WITH THE PROGRAM DIRECTOR
4. A CUMULATIVE AND MAJOR G.P.A. OF 2.5 OR HIGHER TO ENTER, AND TO REMAIN ACTIVE IN THE CLINICAL PROGRAM
5. TWO PROGRAM RECOMMENDATIONS ON FILE WITH THE PROGRAM DIRECTOR
6. STATEMENT OF PERSONAL AND PROFESSIONAL GOALS FILED WITH THE PROGRAM DIRECTOR
7. SUCCESSFUL COMPLETION OF INTERVIEW WITH THE SELECTION COMMITTEE

The candidates for the clinical portion of the athletic training professional program must meet the seven criteria listed above. The number of appointments to the program will vary from year to year. Program application materials must be received by the last day of spring semester classes to be considered for the fall semester. Candidates will be notified of their clinical program status in June.

Sports Medicine — Exercise Science

The Bachelor of Science in Sports Medicine - Exercise Science consists of a minimum of 120 semester hours and requires a 38 credit hour course of study from the Department of Sport and Recreational Sciences. A major in Sports Medicine - Exercise Science prepares the student for certification by the American College of Sports Medicine (ACSM) in a variety of professional areas. A major in Sports Medicine - Exercise Science must take the ACSM Health Fitness Instructor certification examination prior to graduation. The minimum grade of "C" is required in all major and co-requisite courses. SMD 499 Internship meets the integrative experience requirement.

Distribution Requirements and Co-requisites			36
BIO	116	Zoology	3
BIO	116	Zoology Laboratory	1
BIO	230	Human Anatomy	3
BIO	230	Human Anatomy Laboratory	1
BIO	334	Human Physiology	3
BIO	334	Human Physiology Laboratory	1
PHY	151	Introductory Physics	3
PHY	151	Introductory Physics Laboratory	1
MAT	152	Elementary Probability and Statistics	3

CHE	152	Intro. to Organic and Biological Chemistry	3
CHE	152	Intro. Org. Bio. Chem. Laboratory	1
Total			59

Major in Sports Medicine — Exercise Science

PHE	210	Introduction to HPER and Sport	2
SMD	320	Kinesiology	3
SMA	327	Psychology of Sport	3
SMD	330	Nutrition for Physical Performance	3
PHE	350	Tests and Measurement in HPER and Sport	3
SMD	360	Exercise Physiology	3

SMD	460	Advanced Exercise Physiology Laboratory	1
SMD	469	Directed Readings in Sports Medicine or	
SMD	479	Directed Research in Sports Medicine	3
SMD	486	Colloquium in Sports Medicine	2
SMD	499	Internship	3-6
TOTAL			38

Electives (23 hrs. minimum)

Recommended:

CAT	180	Introduction to Computers	3
SMD	305	Athletic Training Administration	3
SMD	310	Personal Health and Disease Prevention	3
SMD	340	Adapted Physical Education	3
		Other Electives	11
TOTAL			23

Sports Medicine — Exercise Science Minor

Those students minoring in Sports Medicine — Exercise Science must meet the following requirements:

SMD	320	Kinesiology	3
PHE	350	Tests and Measurement in Physical Education	3
SMD	360	Exercise Physiology	3
SMD	360	Exercise Physiology Laboratory	1
SMD	420	Biomechanics	3
SMD	420	Biomechanics Laboratory	1
SMD	440	Cardiac Rehabilitation	3
SMD	440	Cardiac Rehabilitation Laboratory	1
SMD	460	Advanced Exercise Physiology	3
SMD	460	Advanced Exercise Physiology Laboratory	1
SMD	486	Colloquium in Sports Medicine	2
TOTAL			24

Course Descriptions — Sports Medicine Prefix: SMD

220, 220L Athletic Training I (3) and Lab (1)

Application of accepted first aid techniques to personal injury in sports; basic techniques of injury prevention and taping for exercise activities and remedial activity. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Laboratory fee required.

225, 225L Athletic Training II (3) and Lab (1)

Advanced techniques of evaluation and emergency management. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Prerequisite: SMD 220, 220L.

305 Athletic Training Administration (3)

Administrative organization and procedures for the development and implementation of athletic training, physical therapy, and associated laboratory and clinical facilities. Prerequisites: SMD 220, 220L, 225, 225L.

310 Personal Health and Disease Prevention (3)

Epidemiology of disease determinants, including identification and intervention in disease processes. Major emphasis on nutrition, wellness, exercise, and health.

316, 316L Therapeutic Modalities (3) and Lab (1)

A study of sports therapy physical agents used in athletic training techniques such as cryotherapy, hydrotherapy, electrotherapy, and mechanical therapy. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Prerequisites: SMD 220, 220L, 225, 225L.

318, 318L Therapeutic Exercise (3) and Lab (1)

A study of clinical sports therapy techniques used in the rehabilitation and reconditioning of athletic injuries. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Prerequisites: SMD 220, 220L, 225, 225L.

320 Kinesiology (3)

The study of human movement with reference to sport, dance, physical education, and adapted movement activities. Prerequisite: BIO 230.

330 Nutrition for Physical Performance (3)

The study of nutrition, diet analysis, biochemical processes in energy metabolism, nutrition and health problems, and nutrition as it relates to physical performance. Prerequisite: CHE 152.

360, 360L Exercise Physiology (3) and Lab (1)

Survey of the functions of various organ systems in the human body and the physiological responses and adaptations of these systems to exercise or work stress. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Laboratory fee required. Prerequisites: BIO 220 or BIO 230.

420, 420L Biomechanics (3) and Lab (1)

Advanced physical science and laboratory techniques in studying human movement. Major emphases of the course are the kinetics and kinematics of movement. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Laboratory fee required. Prerequisites: PHY 151, SMD 320.

440, 440L Cardiac Rehabilitation (3) and Lab (1)

Pathophysiology of cardiopulmonary disease and the physiological and technical basis of graded exercise tolerance testing, exercise prescription, and exercise leadership for individuals with cardiopulmonary disease. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Laboratory fee required. Prerequisite: SMD 360.

460, 460L Advanced Exercise Physiology (3) and Lab (1)

Exercise biochemistry, ergometrics, bioenergetics, muscle physiology, anthropometry, and selected current topics in the literature. 3 hours lecture and 2 hours laboratory weekly. Laboratory to be taken concurrently with lecture. Laboratory fee required. Prerequisites: CHE 152, SMD 360.

469 Directed Readings in Sports Medicine (3)

Directed library research and readings in sports medicine to prepare for A.C.S.M. or N.A.T.A. certification examinations. Approval of Dept. Chair and Dean required.

479 Directed Research in Sports Medicine (3)

Advanced practical experience in sports medicine field research under the direct supervision of faculty. Approval of Dept. Chair and Dean required.

486 Colloquium in Sports Medicine (2)

A professional seminar in sports medicine designed to review the most current research in the field and present research findings from directed research projects. This course may be repeated for credit. Approval of Dept. Chair and Dean required.

490 Advanced Techniques in Athletic Training (3)

A course for students of athletic training in need of an advanced course to meet requirements for certification by the National Athletic Trainers' Association (NATA). Approved for continuing education units (CEU's) by the NATA. An elective for sports medicine-athletic training majors. Laboratory fee required. Prerequisite: SMD 220 or equivalent.

499 Internship: Sports Medicine (Ath.Train./Ex.Sc.) (3-6)

Participate and report on a comprehensive integrative experience in sports medicine through a research laboratory, clinical situation, or other approved experience at a local sports medicine facility. Approval of Dept. Chair and Dean required.

NON-DEGREE PROGRAM

INSTRUCTIONAL ACTIVITIES IN SPORT AND RECREATION

The program of courses focuses on general fitness, lifetime sport and recreational opportunities. Offering diversity in choice, the program provides instructional and recreational experiences available to the entire University community. Courses are designed to promote physical and mental well-being through the development of a lifestyle that includes physical activity. The variety of activities and skill levels affords each student a choice to suit individual needs and desires. The student has the opportunity to develop competency in selected activities in order to maintain fitness for living, to provide a foundation for worthy use of leisure time, and to prepare for life long recreational involvement.

Course Offerings — Prefix: ISR

All 100 level courses are two semester hours of credit. Activities may have a special course fee.

ISR	101	Aerobic Exercise
ISR	110	Archery
ISR	112	Badminton
ISR	114	Board Sailing
ISR	115	Bowling
ISR	120	Canoeing
ISR	125	Fencing
ISR	130	Golf
ISR	135	Judo and Self-Defense
ISR	140	Physical Fitness Principles
ISR	145	Physical Fitness Walking, Jogging, and Running
ISR	147	Racquetball
ISR	150	Sailing
ISR	155	Skin and SCUBA Diving
ISR	160	Swimming

ISR	162	Table Tennis
ISR	165	Tennis
ISR	170	Strength Training
ISR	175	Volleyball
ISR	211	Lifeguard Training
ISR	212	First Aid and CPR
ISR	213	Advanced SCUBA Activities
ISR	214	Water Safety Instructor
ISR	300	Special Topics

**Course Descriptions — Instructional Activities in Sport and Recreation
Prefix: ISR**

211 Lifeguard Training (2)

Personal safety, self-rescue, and rescue of others in, on and around the water; Provides minimum skills necessary for qualification as a non-surf lifeguard. American Red Cross Lifeguard Training Certificate. Prerequisite: ISR 212

212 First Aid and CPR (2)

American Red Cross Standard First Aid, Adult CPR, Infant and Child CPR, and Basic Life Support - Professional Rescuer Certifications.

213 Advanced SCUBA Activities (2)

Designed to educate entry-level divers and non-RDM majors in advanced diving theories and techniques. Lecture topics include diving physiology, U/W navigation and diving techniques for special environments. Activities include night dives, deep dives (within specified limits) specialty dives, search and recovery dives, and skill enhancing pool sessions. Students successfully completing the course will receive an Advanced Open-Water certification from a nationally recognized diver training agency. Prerequisite: ISR 155 and Open-Water SCUBA Certification or Basic SCUBA Certification and permission of the instructor.

214 Water Safety Instructor (3)

Methods of teaching swimming and water safety; American Red Cross Water Safety Instructor Certification. Prerequisite: ISR 211, 212, or certifications in Lifeguard Training, First Aid and Adult CPR.

300 Special Topics (1-3)

Content to be determined each semester by the Department as requested by faculty and/or students to meet specified needs or interests.

M.F.A. University of Kansas
- CVEJANOVICH, George J., Jr. Associate Professor of
Political Science and
International Studies;
Director, Honors Program
B.A. Louisiana State University
M.A. Louisiana State University
Ph.D. University of Texas

DAGHESTASNI, Eddie	Associate Professor of
J.D. Damascus University	Economics and Finance
M.S. Colorado State University	
Ph.D. Colorado State University	
DANESE, Stephen	Associate Professor of
B.S. Florida State University	Accounting
M.B.A. Indiana State University	
Ph.D. University of Georgia	
DAVIS, Linda	Instructor in Communication
B.F.A. West Virginia University	
M.A. West Virginia University	
DAVIS, Rosemary S.	Assistant Professor of
B.S. Siena Heights College	Biology
M.S.C.S. University of Mississippi	
DEL COLLE, Ralph	Assistant Professor of
B.A. New York University	Theology
M.Div. Union Theological Seminary	
M.Phil. Union Theological Seminary	
Ph.D. Union Theological Seminary	
DiPASQUALE, Joan	Associate Professor of
B.S.N. West Liberty State College	Nursing
M.S.N. West Virginia University	
Ph.D. University of South Carolina	
DUCHATELET, Martine	Associate Professor of
B.A. University of Brussels, Belgium	Economics/Finance
M.A. University of Brussels, Belgium	
Ph.D. Stanford University	
ELLIS, Gilbert	Assistant Professor of
B.A. University of New Hampshire	Physiology
M.S. Northeastern University	
EPLEY, Deanna	Assistant Professor of
B.S.N. Bradley University	Nursing
M.S.Ed. Florida Int'l University	
M.S.N. University of Miami	
FAIRCHILD, Susan	Assistant Professor of
B.S.Ed. Florida Int'l University	Nursing
B.S.N. Florida Int'l University	
M.S.Ed. Florida Int'l University	
FIKE, David F.	Professor of Social Work
A.B. Manchester College	
M.S.W. University of Michigan	
Ph.D. Ohio State University	
FISHER, George H.	Associate Professor of
B.S. Rollins College	Chemistry
M.S. University of Florida	
Ph.D. University of Miami	

FORD, Derna Maio	Associate Professor of
A.B. Mt. St. Joseph On-The-Ohio	Music; Chair, Fine Arts
M.M.Ed. University of Colorado	Department
FURDON, James J.	Associate Professor of
B.S. Boston College	Social Work
M.S.W. Boston College	
GALLAGHER, Charles A.	Professor of Management
B.S.E.E. Illinois Institute of Technology	
M.E.E. University of Florida	
M.S.M. Florida State University	
D.B.A. Florida State University	
GANTER, Emilie Henderson	Instructor in English
B.A. Cornell University	
M.A. Syracuse University	
GANTER, Philip	Assistant Professor of
A.A. Atlantic Community College	Biology
B.S. Glassboro State College	
Ph.D. University of North Carolina	
GELLENS, Virginia	Professor of English
B.A. Seton Hill College	
B.S.N. Case Western Reserve University	
M.B.A. Barry University	
M.S. Barry University	
M.S.W. Barry University	
D.A. The Catholic University of America	
GIBSON, Allyn D.	Associate Professor of
B.A. Wake Forest University	Social Work
M.S.W. Florida State University	
GLENN, Meredith S.	Assistant Professor of
B.S.(E.E.) University of Idaho	Telecommunications
M.S.(E.E.) University of Idaho	
D.B.A. Nova University	
GOCHENOUER, John E.	Associate Professor of
B.S. University of Maryland	Management Information
M.B.A. University of Maryland	Systems
Ph.D. Florida Institute of Technology	
GOEHL, John F., Jr.	Professor of Physics
B.S. University of Notre Dame	
Ph.D. University of Notre Dame	
GOMEZ, Manuel	Associate Professor of
B.S. New York University	Social Work
M.S.W. Rutgers University	
Ph.D. New York University	
GOTTLIEB, JoAnn K.	Assistant Professor of
B.S. Adelphi University	Nursing
M.S.N. Adelphi University	

GRAY, Susan Professor of Social Work
 B.A. Caldwell College
 M.S.W. Rutgers University
 M.B.A. Barry University
 Ed.D. Nova University
 Ph.D. Barry University

GRIZZLE, Gary Assistant Professor of
 B.A. Florida Int'l University Sociology
 M.S. Florida State University
 Ph.D. Northwestern University

HALE, Sister Lorraine, PBVM Assistant Professor of
 B.S. University of New South Wales Education
 B.Ed. University of New England
 M.A. The Catholic University of America
 Ph.D. Fordham University

HANCOCK, Helen Associate Professor of
 B.S. Hampton Institute Social Work
 M.S.W. University of Pittsburgh

HARALAMBIDES, James Assistant Professor of
 Diploma University of Patras, Greece Computer Science
 M.S. University of Texas, Dallas
 Ph.D. University of Texas, Dallas

HART, Sr. Susan, O.P. Associate Professor of
 M.A.T. College of St. Thomas Health Care Ministry
 M.A. Loyola University
 M.T.S. St. Francis School of Pastoral Ministry

HARTLEY, Lorraine Assistant Professor/
 B.S. California University of Coordinator of Business
 Pennsylvania Programs, Adult
 M.S. California University of Education
 Pennsylvania
 D.B.A. Nova University

HAURI, Claudia Associate Professor of
 B.S.N. Barry University Nursing
 M.S.N. University of Colorado
 Ed.D. University of Florida

HAYES, Evelyn P. Assistant Professor of
 B.S.N. Boston College Nursing
 M.S.N. Boston College
 M.S.W. Brandeis University

HAYS, Elizabeth T. Associate Professor of
 B.A. Keuka College Physiology
 Ph.D. University of Maryland

HERVITZ, Hugo	Associate Professor of
B.A. Hebrew University	Economics
M.Sc. University of London	
M.A. University of Pittsburgh	
Ph.D. Indiana University	
HOOVER, Kathleen R.	Assistant Professor of
B.S. Russell Sage College	Nursing
M.A. Teachers College, Columbia University	
HOPKINS, Sheila J.	Assistant Professor of
B.S. Central Connecticut State University	Nursing
M.S.N. University of Connecticut	
HOUSTON, Mary Kay	Associate Professor of
B.S.W. Colorado State University	Social Work
M.S.W. University of Denver	
Ph.D. University of Southern California	
HURLEY, Sister Marie Carol, O.P.	Professor Emerita of
B.A. Siena Heights College	Humanities; Director of
M.A. The Catholic University of America	Cable Productions
INGRAM, Thomas H.	Instructor, Recreational
B.S. University of Florida	Diving Management
M.B.A. Barry University	
JAGADISH, Mysore	Associate Professor of
M.Sc. University of Mysore	Mathematical Sciences
M.S. University of Miami	
Ph.D. University of Miami	
JEHLE, Sister Dorothy, O.P.	Professor Emerita of
B.A. College of St. Francis	English; Director of
M.A. John Carroll University	Archives
Ph.D. Loyola University	
JONES, Robert T.	Associate Professor of
B.S. Syracuse University	Communication
M.S. Syracuse University	
Ph.D. Syracuse University	
JUNGBAUER, Mary Ann	Professor of Chemistry;
B.A. Immaculate Heart College	Chair, Physical Sciences
M.S. University of Notre Dame	Department
Ph.D. University of Notre Dame	
KALPHAT, Michael K.	Assistant Professor of
B.S. Barry University	Accounting
M.B.A. Barry University	
KAPLAN, Lisa	Assistant Professor of
B.S.N. Duke University	Nursing
B.S. Duke University	
M.S.N. Barry University	

- KASHUK, Keith B. Adjunct Professor of
 B.S. New York College of Podiatric Medicine
 D.P.M. Beth Israel Medical Center
- KIRK, Alan Brian Associate Professor of
 B.S. Sanford University Social Work
 M.S.W. University of Alabama
 Ph.D. Florida State University
- KOCACHE, Malda Assistant Professor of
 B.S. American University of Microbiology
 Beirut
 Ph.D. Georgetown University
